livers Parting Admonition
on the Use of Time

STANFORD UNIVERSITY, May 22.—
Stanford held its twentieth commence-
ment exercises today. The total num-
ber of degrees granted was 335. Two
hundred and seventy-three of these
were the degree of bachelor of arts, 43
master of arts, 15 doctor of laws and
four doctor of philosophy.

At 11 o'clock this morning the com-
mencement procession began its march
to assembly hall. The faculty ascended
the stage and the candidates for de-
grees were ushered into a section of
the hall directly in front of the stage.

The invocation was pronounced by
Rev. D. Charles Gardner, chaplain of
the university.

The subject of the commencement
address was "The New Patriotism and
Its Appeal to the College Graduate." It
was delivered by Right Rev. Charles
David Williams, bishop of the Angeli-
can church of Michigan.

After the address the degrees were
conferred. The graduates received
their diplomas from President David
Starr Jordan.

Candidates for the higher degrees
were invested in appropriate in-
signia of caps and gowns.

Following this ceremony Doctor Jor-
dan addressed the graduates briefly.

After a benediction the audience
sang the Stanford hymn, "Hail, Stan-
ford, Hail." The services closed with
the recessional from "Tannhauser" by
the orchestra.

\$2,500 Refused for \$150
Horse That Trots 2:15-1:2
[Special Dispatch to The Call]
CHICO, May 22.—Four years
ago, W. L. Perley of Chico bought
a carriage horse of a rancher
near Chico, paying \$150 for the
animal. This week he refused an
offer of \$2,500 for her. The mare,
known as Dot, developed speed
and was tried out on the track.
Recently she won races at Sacra-
mento and Marysville. Sunday
afternoon she trotted five miles at the local
speedway in 2:15-1:2.

Francisco; Charles Frederick Atkins, Redlands;
25 years ago, and almost ever since
was identified with the educational
work of the city. Last June charges
of insubordination and unprofessional
conduct were laid against him by the
board of education. He was suspended for
a year's opposition and litigation he
lost his case. He had been at the head
of the Polytechnic high school for 10
years.

His health broke down toward the
conclusion of his litigation. He is sur-
vived by a widow, two sisters, Eliza-
beth and Anne, and two brothers,
George B. and Arthur Bush.

**WALTER N. BUSH'S
FUNERAL TOMORROW**
Services Under the Auspices of
Masons at Golden Gate
Commandery Hall

The funeral of Prof. Walter N. Bush,
formerly principal of the Polytechnic
high school, who died Sunday morning,
will be held from Golden Gate Com-
mandery hall, Sutter and Steiner
streets, at 2 o'clock tomorrow after-
noon. The services will be under the
auspices of the Occidental lodge of
Masons, of which he was a member.

Bush died at his residence, 1200
Waller street, after several weeks'
illness. He was born in Fall River,
Mass., and came to San Francisco about
25 years ago, and almost ever since
was identified with the educational
work of the city. Last June charges
of insubordination and unprofessional
conduct were laid against him by the
board of education. He was suspended for
a year's opposition and litigation he
lost his case. He had been at the head
of the Polytechnic high school for 10
years.

His health broke down toward the
conclusion of his litigation. He is sur-
vived by a widow, two sisters, Eliza-
beth and Anne, and two brothers,
George B. and Arthur Bush.

**FORMER POLITICIAN
FOUND ASPHYXIATED**
Falling unconscious from heat
trouble after having opened the gas jet
to turn on the lights in his room, M.
J. Ward, at one time a prominent poli-
tician and a partner of "Joe" King in
the ownership of the old Golden West
hotel, was asphyxiated early this morn-
ing. Since then his activities have
extended from the City of Mexico to
Nome.
The most famous venture which the
veteran speculator made was the Wild
Goose mine at Nome, Alaska. He first
went north in 1898 and a few years
later was involved in the suit which
ended with the disgrace and punish-
ment of Judge Arthur Noyes, Jack
Woods and the other "spoilers," in the
San Francisco courts.

**C. D. LANE, FAMOUS
MINER, IS DYING**
Man Who Began Seeking Cali-
fornia's Precious Metal in
1852 Now Blind

Charles D. Lane, one of the west's
most picturesque and venturesome
mining men, is dying at the home of
his daughter, Mrs. Theophilus Allen, in
Palo Alto.

For six years he has been totally
blind and has been suffering from a
paralysis of the left side, which
affected his throat and threatened to
end his life at any time.

Charles Lane was born in Palmyra,
Mo., in 1840. At the age of 12 he
began mining with his father, and
began mining in California the next
winter. Since then his activities have
extended from the City of Mexico to
Nome.

The most famous venture which the
veteran speculator made was the Wild
Goose mine at Nome, Alaska. He first
went north in 1898 and a few years
later was involved in the suit which
ended with the disgrace and punish-
ment of Judge Arthur Noyes, Jack
Woods and the other "spoilers," in the
San Francisco courts.

**The Largest Single Order
ever given for automobile
Tires and Rims has just
been placed with the
United States Tire Company**
by the Studebaker Cor-
poration — Manufacturers
of the popular E-M-F "30"
and Flanders "20" Cars

The order calls for practically 135,000 tires and an equal number of Continental Demountable Rims—Gilbert type (Standard Universal Rim No. 3.)

This single order FOR TIRES ONLY will amount to over FOUR MILLION DOLLARS.

Never before has an automobile concern making cars in immense quantities contracted for a strictly high-grade tire for its entire output of cars.

The transaction is distinctly to the credit of both the Studebaker Corporation and the United States Tire Company—

To the former, because of its unwillingness to supply any but tires of proven quality on its cars, regardless of additional cost involved;

To the United States Tire Company because the selection of its tires in preference to all others was made after three years' experience with one of its four brands—Morgan & Wright.

Three years ago the E-M-F Co. selected Morgan & Wright tires as standard equipment WITHOUT OPTION ON OTHER BRANDS.

These tires were selected, not because they could be had at a less price (which was not the case), but because the E-M-F Co. had demonstrated to their entire satisfaction that these tires were the most desirable tires to put on their cars.

The placing of the immense order referred to above is a flattering testimonial to the manner in which these tires have stood up on the E-M-F cars during these three years.

The Studebaker Corporation has selected United States Tires and Continental Rims because of their expressed belief that this equipment on their entire product gives both the dealer and the man who buys the car the BEST equipment the American tire market affords.

United States Tires are sold under four brand names: Continental, G. & J., Hartford and Morgan & Wright, and are manufactured in five of the largest and best equipped tire plants in the world. Under the present system of manufacturing, there is a UNIFORM SUPERIORITY in all these brands—a fact of immense importance to the motorist. In other words, United States Tires HAVE THE STRENGTH OF FOUR, yet they sell at precisely the same price asked for other kinds. They are undeniably
