Autos of "Dove Power" Filled With Girls Parade Streets During Celebration

By ARTHUR L. PRICE
[Special Dispatch to The Call]
SALINAS, July 31.—Just to prove that it was in a celebrating mood, Salinas spontaneously generated an automobile parade this morning, which had 50 cars in line, most of them decorated, many driven by pretty girls who were decorated in themselves. Then there was a balloon ascension and parachute jump from somewhere up in the sky. In the afternoon the band played, and tonight the illuminated streets are filled with merry makers, who tramp to and fro between the rodeo and the produce exhibit in the Foresters' building. The rodeo represents the liveliest aspect of Salinas' "One Big Week."

state of California, which was a die of the Monterey coast. The stamp or press which includes the seal is a heavy metal figure of a man bending over so that the handle to the press grows out of the top of his head and the screw to which the seal is attached forms a continuation of his chin, a veritable man with the iron jaw. Another interesting item is a general stamp issued by Colonel R. E. Mason, commander of the Presidio at Monterey, dated November 1, 1847, and signed by W. T. Sherman, first lieutenant, third artillery. This Lieutenant Sherman subsequently became the famous civil war general. This document was loaned by C. E. Canfield. Tomorrow promises to be the liveliest day of the week. "One Big Week" will be under way.

STARTS TODAY IN EARNEST
The Salinas celebration will start in earnest tomorrow when a water show, and on Wednesday the meeting of the Pacific Coast Trotting Horse Breeders' association begins its program. Harvey E. Abbott, director general; Harvey G. Burns, assistant director general; Mayor Fred P. Feliz, Chere Gilbert, Frank Gilman, C. H. Anderson, D. A. Maderia, C. Tynan, J. H. Anderson, J. A. Anderson, E. Palmatier, F. E. Anderson, Duncan Sterling, F. N. Thorpe, John Souza, J. J. Hebron, W. G. Rogers, H. H. Main, W. H. Hughes, George T. Reas, J. Duncan, Mc. Kinnon, S. LIST STILL OPEN FOR OCEAN RACE

Belated Entrants Granted Until Wednesday Night to Join in Contest

The handicaps announced by the Corinthian club regatta committee for the Salinas Cruz ocean race have proved satisfactory to the yachtsmen.

With the conditions favorable the yachts should easily make this distance by sunset Saturday. Last year a number of the boats were becalmed for hours, with the result that they did not reach Santa Cruz until Monday morning.

PLAYER PIANOS and METAL ACTION

Some Player Pianos boast of exclusive features, but nearly all Players have the same "execution" features, under one name or the other.

ONLY ONE Player has the "construction" feature of METAL ACTION PARTS. All the action parts are made of brass and phosphor bronze (instead of wood used in other players), which are guaranteed not to rust. Wood does swell, split and rot. In any climate, with varied degrees of heat and dampness, this feature is all important.

That Player Piano is the CECILIAN.
