Rose Breaks World Indoor Shot Record

Giant Olympic Club Athlete Puts Sixteen Pound Missile 48:95-8 Feet

By WILLIAM UNMACK

Five thousand spectators last night saw Ralph Rose establish a world's indoor rubber 16 pound shot mark when he sent the missile 48 feet 9 5/8 inches at the meet held by the Olympic club at the Auditorium.

The great shot putter showed that he has retained all his wonderful ability, and his work last night makes his claim for recognition on the American team to go to Stockholm one that the selectors can not overlook. The record was made last night in Rose's second put. He had great style and he got a great drive back of the shot. When the officials announced the distance and that it was a new world's record for the particular kind of shot, the giant received a tremendous ovation. The former record was made by Harry Le Moine of Harvard with a put of 46 feet 10 inches.

The shotput performance, while the greatest of the meet, was nevertheless not the only event that showed world's champions. Forest Smithson came out the way from Los Angeles to compete and annexed both the hurdle events, his times comparing very favorably with the times made by eastern stars in the same events. In the 60 yard high sticks Smithson got away to a great start and came like a racehorse down the floor, breaking the tape more than two yards ahead of Beeson of California. He put up a great race and clearly outclassed the field.

In the 70 yard low hurdles the great timber topped the field. The 2,000 yard run by this time Beeson came nearer to him, and the champion only won by two feet.

The best race of the night was the 900 yard run, which was won by Benson of Santa Clara college. The field was led by Hoberg for the whole race, but in the last lap Benson, who had been leaving back, went out and won the race by a head and a neck.

The 75 yard dash found Beet of Santa Clara the speediest of a speedy field. Hardy, also of Santa Clara, was placed second by the judges, but there were many around the tape who were firmly of the opinion that Campbell of Stanford had won the event, but he was not even placed by the officials.

The 100 yard dash was won by Stout, the long distance man, and he held the lead from start to finish. The 2,000 yard run was a good win for Williams, while Hoenisch carried off the 300 yard event. The relays were all closely contested, and the various field events brought out some good competition.

LADY TWEEDMOUTH POLO TEAM BEATEN

SAN DIEGO, Jan. 12.—By a score of 5 to 4 1/2, Miss Burke's team defeated Lady Tweedmouth's four in the polo game at Coronado this afternoon. There was a good attendance, society turning out in force. The result was a surprise to those who had followed the work of the different players during the recent games. It was figured that Lady Tweedmouth's team had the best of it on past performances, but Miss Burke's players proved themselves formidable aggressors and held their slight lead throughout the game. Miss Burke's team was composed of Carlton Burke, Lord Gower, Reggie Weiss and Major Collin G. Ross.
