

KNIGHTS OF COLUMBUS

MAYOR ROLPH CONGATULATES LOCAL COUNCIL

Five Thousand Persons Attend Impressive Services at Site of Building

Long Parade of Kindred Soci- eties From Cathedral Led by Four Bands

Five thousand persons thronged Golden Gate avenue yesterday afternoon between Leavenworth and Jones streets to join in the impressive services that attended the laying of the cornerstone of the new home of the Knights of Columbus. Seldom before has there been such a notable gathering of the distinguished men of the church in this diocese and members of Catholic fraternal and military organizations. Men prominent in the life of San Francisco today and some who shaped the course of the city in the days that followed the gold rush were present besides a large number of women.

Archbishop P. W. Riordan set the great granite stone, over which will be reared one of the finest buildings of the west. The services were attended by Mayor James Rolph and other city officials, priests representing every parish in San Francisco and several from the cities, besides delegations from the cities about the bay.

CEREMONY AT CATHEDRAL

The day's ceremonies began at 1:30 o'clock at St. Mary's cathedral in Van Ness avenue with the benediction of the blessed sacrament. Music was provided by R. J. Harrison, the organist, and a choir consisting of David Manly, tenor; Mrs. Daisy Keane Gilroy, soprano; Miss Julia Sullivan, alto, and Frank Figgis, bass. The hour of the day's program was concluded at the partially constructed building in Golden Gate avenue, when the last hymn sung, Archbishop Riordan arose from his seat and presided by Fathers Cantwell and Sullivan, left the platform.

The League of the Cross cadets, seven companies strong, in a true military touch to the picture. The uniformed rank of the Ancient Order of Hibernians, attired in their natty green uniforms, led the solid formation of the other members of the organization. The United Irish Societies sent a large delegation and the Young Men's Institute was amply represented.

PARADE DOWN AVENUE

After the benediction thousands of men formed in line, and led by a detail of mounted police, marched down Van Ness avenue, while the League of the Cross and Young Men's Institute bands and two other musical organizations played patriotic airs, Irish melodies and sacred music.

Mayor Rolph and Supervisor George E. Gallagher rode in an automobile. The other members were used to convey the dignitaries of the church to the site of the new building.

The parade moved along Van Ness avenue to Market street, along Jones to Golden Gate avenue and around the corner to the middle of the block, where the League of the Cross companies were drawn up in front of St. Boniface's church, facing the platform upon which Archbishop Riordan, Mayor Rolph, the officers of the Knights of Columbus, the clergy and the wives and families of the officers of the organization were seated. The members of the other societies surrounded the platform. Beyond until the street was black with spectators.

ARCHBISHOP USES TROWEL

Richard E. Queen, president of the Knights of Columbus Hall association and Chairman of the day, opened the exercises and the vast assemblage, standing with bared heads and accompanied by the music of the League of the Cross band, sang the hymn, "Come Holy Ghost." The antiphon was read by Rev. William P. Sullivan, chaplain of the order, and the members of San Francisco council, K. of C., responded.

Then the cornerstones were laid in place and, in a low tone, the prayers for the occasion were recited by the archbishop, who stood beside the workmen. With a silver trowel his grace spread the cement that will bind the stone. As P. F. McCarthy, secretary of the hall association, deposited the metal box containing newspapers and the records of the organization, Archbishop Riordan sprinkled the holy water and the stone was set.

WELCOME FOR COUNCIL

Eugene F. Conlin, grand knight of the local council, addressed the archbishop, the mayor and those present, saying:

"We have invited you here today to join with us in the happiness we are experiencing upon this occasion—in the placing of this cornerstone in the temple of charity, unity and brotherly love that we are erecting here to stand as a shrine for all ages to come. We welcome you."

Attorney Neal Powers spoke as follows:

"In retrospect of a decade of life of the Knights of Columbus in California, we gather here today at the laying of this cornerstone. Ten years ago the standard of Columbianism was set upon these shores and given to a little band of 60 men to unfurl. Triumphant and glorious as they are today, the state from Mexico to the south to British Columbia to the north. To that standard flocked the flower of Catholic manhood in California, until now we number a thousandfold and are welded together in a strong chain of brotherhood."

MONUMENT TO PEOPLE

"We stand here today laying the cornerstone of the home of the organization of charity, unity and brotherly love, consecrating it as a monument to the Catholic people of this city, for it is their home as well as ours, for all time as welcome as they are today.

"We are honored today by the presence of the chief executive of our fair city, to whom we give our deepest respect. Honored are we by the presence of so many of our San Francisco ladies, than

Most Rev. Archbishop P. W. Riordan, surrounded by priests and laymen, before the cornerstone of the new home of the Knights of Columbus, while Rev. W. P. Sullivan, chaplain of the San Francisco council, is reading the antiphon from the platform.

whom there are none more fair of women.

"The Catholic church has stood through all the ages for the maintenance of government and has commanded respect of its children for constituted authority. With reckless disregard of cost, it has always supported that authority. It has defended that authority against the blighting influences of anarchy and social disorder. Catholic knighthood is no less a factor in the church today than it was in the middle ages—the best of all the good knighthood of the middle ages."

CHEERS GREET MAYOR ROLPH

When Mayor Rolph was introduced the applause swelled into a roar that lasted several seconds. He said:

"Your grace, reverend father, knights and my fellow citizens: I am glad to be with you on this occasion. The afternoon has been set apart by the order of the Knights of Columbus to celebrate in a befitting manner the laying of the cornerstone of the magnificent building soon to be completed on this site. I am most happy to be present. I say and join in the celebration and to extend my congratulations to the order in behalf of the people of San Francisco."

"I see represented here today in the men of this society not only those who stand for the highest things in charity and fraternalism, but many who stand most high in the constructive principles of civic life."

Turning to where the archbishop was seated, the mayor said:

"My sincere and humble respect is given this afternoon to the man most loved in San Francisco, Archbishop Riordan."

KNIGHTS CONGATULATED

"My congratulations to every member of the organization," Rolph continued, "and let me say that, while this building towers as a monument to the Knights of Columbus, it is also to be an ornament to this city of ours."

"I most sincerely hope that the Knights of Columbus will be successful in all of their noble undertakings and I extend to them my hearty good wishes."

Joseph Tobin was the orator of the day.

The box placed in the niche beneath the cornerstones contained yesterday's local newspapers, copies of the Boston and New York papers containing the accounts of the arrival home from Rome of Archbishop Farley and O'Connell, a list of officers of the local council, a list of the knights, copies of the program and invitations of the day, several medals and statuettes, an embossed parchment containing the names of Pope Pius, President Taft, Governor Johnson, Mayor Rolph, Archbishop Riordan, officers of the council and officers of the hall association.

SINGING BY ASSEMBLAGE

During the services the hymn of the order, "Onward, Christian Soldiers," was sung by the concourse of people, as was "Holy God, We Praise Thy Name." The program was closed with the singing of "The Star Spangled Banner" by the entire assemblage.

OFFICERS OF COUNCIL

Following is a list of officers of the local council, Knights of Columbus:

Eugene F. Conlin, grand knight; John J. O'Toole, deputy grand knight; Warren Shannon, chancellor; Leo C. Leonard, recorder; John J. O'Toole, treasurer; William O. Patch, lecturer; S. W. McKelvey, advocate; Ernest Bradshaw, warden; James B. Dugan, Thomas Mullany, Thomas, outside guard; E. R. Merrick, trustee; P. F. Harney, trustee; J. O'Donnell, trustee; Rev. William P. Sullivan, chaplain.

The directors of the Knights of Columbus Hall association are:

R. E. Queen, president; Dr. G. Morrissey, first vice president; P. F. McCarthy, secretary; T. J. O'Brien, treasurer; E. S. Lewis, W. J. O'Connell, James R. Keith.

The following committees had charge of yesterday's exercises:

Arrangements—T. J. O'Brien, chairman; Neal Power, John J. O'Toole, E. F. Colla, James R. Keith.

Invitations—W. J. O'Connell, chairman; Dr. J. O'Brien, E. S. Lewis, E. R. Merrick.

Reception—John J. O'Toole, chairman; E. H. Coleman, William H. Powers, P. F. McCarthy, J. B. Queen, James B. Dugan, Thomas Mullany, Edward Wren, E. S. Lewis, William A. Reardon, E. J. Kelly, A. J. le Breton, Dr. E. M. McCreary, Thomas J. Walsh, Andrew Lynch, Thomas H. Landry, Joseph McDevitt, Thomas Moran, Miss J. Carroll, George F. Welch, J. C. Queen, W. B. Bush, Oliver Olson, William D. O'Keefe.

CONGRESS HAS MUCH TO DO THIS WEEK

Tariff, Arbitration Treaties, Senatorial Elections and Controversies Demand Attention

WASHINGTON, Feb. 11.—Congress will work this week with the tariff, arbitration treaties, senatorial elections and army and agricultural controversies.

Republicans and democrats are looking ahead sharply to the coming national campaign. The presence of presidential candidates on both sides of the capitol lends keen interest to the increasing congressional activity.

Both parties in the house are tilting for advantage, with nearly every move aimed at the effect on the polls next November.

The problem in the senate is the exact position which the progressive flank of the republican party—the balance of power in the senate at this and the recent extra session—will assume when the test comes on tariff revision measures.

The exonerations of Senator Stephenson from the charges of corruption in the use of \$197,593 in the primary which resulted in his election will be reported to the senate possibly tomorrow. Senator Heyburn, chairman of the subcommittee which conducted the inquiry, will make the majority report. Five members of the committee will unite in a minority dissenting report.

House democrats will caucus this week on the chemical tariff bill, which would reduce duties on chemicals used in paints and for other common purposes, but raise the tariff on soaps, perfumes and other luxuries. But before the caucus the house is expected to dispose of the army appropriation bill with its train of controversy over army reorganization and consolidation.

After that the agricultural appropriation bill will be taken up.

James J. Hill, chairman of the directorate of the Great Northern railroad, will be the star witness tomorrow before the Stanley steel committee.

The sugar trust inquiry is about to report on its work.

The senate finance committee will resume its hearings on the house steel tariff revision bill Tuesday. The hearings may continue two weeks.

The committee, Democratic and progressive republican leaders have discussed the possibility of getting together on the vote when the bill reaches the senate, but there have been no definite assurances.

BISHOP D. J. O'CONNELL PREACHES AT BERKELEY

BERKELEY, Feb. 11.—The Parable of the Sower was the text of the sermon in Newman hall at the late mass here, more by Right Rev. D. J. O'Connell, recently appointed bishop of Richmond. The seed sowed by the sower he declared to be the holy word.

"The sower is always good," he said, "the seed is always good, when the harvest is had the fault must lie with the soil."

"To be good soil," the bishop continued, "you must have moral strength, you must crush your love for pleasures, your avarice, you must cry down your passions. There can be no compromise."

Rev. Clarence E. Woodman was celebrant of the late mass. The male quartet sang Gounod's Second Mass in G. At the offertory Hugo Oliver sang a tenor solo from Mendelssohn's "Elijah."

In the afternoon at 4:30 o'clock Bishop O'Connell administered the sacrament of confirmation to a large class. During the benediction services the Newman male quartet sang "O Salutaris" (Albright), "Tantum Ergo" (Gregorian) and "Come Unto Me" (Fleming). A bass solo was rendered by Walton C. Webb.

SEE FINE WEATHER

Low Zero While California Has Suffered With Mercury Below

WASHINGTON, Feb. 11.—The most severe and protracted cold spell of many years probably will be broken this week, and the unusual winter which partly has paralyzed transportation on land and sea, taken many lives and caused untold suffering in all parts of the country, will give way to more reasonable temperatures.

Observers of the weather bureau do not promise that there will be no more cold waves this winter, but they predict that the next week or 10 days will be the forerunner of a spell of moderate weather.

Since the last week in December, save for short periods, in all the country east of the Rocky mountains, new records for extreme low temperatures have been set. While it was extremely cold in the east, temperatures were above normal on the Pacific coast.

At times below zero was recorded as far south as Tennessee, Arkansas, northern Texas and Oklahoma, and frosts were recorded in Miami, Fla., where they rarely occur.

The phenomena of material existence are finite, dimensional, destructible, diseased, dying, whereas the ideas of the divine Mind are infinite, undiminished, immortal, harmonious, immortal. They are exact opposites. Hence, material existence must be a phenomenon of a false human sense of mind, and subject to its limitations, namely the Adam dream, the belief of life, intelligence and substance in matter.

HUDSON RIVER ICEBOUND

NEW YORK, Feb. 11.—The cold snap was measurably broken today when the mercury rose to somewhere near the normal winter average.

Train blockades in up state sections, where snow accompanied the cold, were raised only partially, while ice barriers in harbors along the coast made navigation difficult and, in some places, impossible.

Morning temperature readings were at low points, below zero reports coming from Albany, where 10 was registered; Buffalo, 2; Portland, Me., 6; and Providence 2, while Canton, N. Y., was the coldest spot in the country with 22 below. This city's low record was 12 below.

New York harbor today was about as nearly ice bound as it ever gets. The surface of the bay was thick with heavy ice floes and navigation was difficult.

The Long island sound entrance to the east river was all but impassable. Suffering in the poorer quarters of the city during the frigid night was intense. Two deaths from the cold and many cases of collapses from exposure were reported.

Seven persons were overcome by gas and 17 horses were drowned today as the result of the bursting of gas and water mains in an upper west side street. The cold wave is believed to have been responsible for the trouble.

KANSAS CITY STAR TO SELL FOR ONE CENT

KANSAS CITY, Feb. 11.—Beginning with its issue of today, the Kansas City Star reduces the price of its Sunday paper from 5 to 2 cents. Announcement also was made that the Star's weekday afternoon issue in the street would sell at 1 cent instead of 2, as heretofore.

LEARNER HEALS PLEASANTLY CURE THE SICK

Prof. H. S. Hering of Mother Church Explains Cardinal Features of the Sect

At Close of Meeting 2,000 Declare They Have Been Healed by Spiritual Methods

Prof. Hermann S. Hering of Concord, N. H., a member of the board of lecture-ship of the Mother Church of Christian Scientists, Boston, addressed an audience that filled Dreamland rink yesterday afternoon on the subject "Christian Science, the Science of Salvation."

Walter C. Campbell in introducing the speaker referred to the growth of the science of healing, and the interest of people in its methods and advancement. Professor Hering said in part:

"St. Paul enjoins us that we work out our own salvation, which means that we overcome evil with good. Science shows that evil can have no actual place in the infinity and aliveness of the divine being and his infinite manifestation. Evil must have its seeming place outside the realm of Spirit. Christian Science enables us to see that evil and what is termed matter are indivisibly associated, for we can not conceive of anything against the blighting influences of sin, misery, disease or mortality, that is not in some way caused by, dependent upon, or associated with matter. As the matter thus inseparably connected, and interdependent, it is manifest that we can not become superior to the asserted law of the one, without becoming superior to the law of the other."

MENTAL IMPRESSIONS

"According to psychology and philosophy, material objects are but justified mental impressions, projected concepts of the human mind. Seeing, hearing, taste, touch and smell are all mental impressions, produced by energy which we unconsciously objectify. We never really see, hear, feel, taste or smell matter or objects, and never have; we only experience and project a sense impression and call it matter."

"Christian Science shows that matter is a mental phenomenon, a false concept of substance obtained through the physical senses which can testify only dimensionally. Spiritual things must be spiritually discerned; the infinite can not be cognized through the finite. It is only through the understanding that any truth can be perceived, and the understanding is a faculty entirely apart from the physical senses. We do not see spiritual reality, God, through the material senses, but only through spiritual understanding, a faculty of Soul. Christian Science makes it possible for any one to gain this understanding."

"Why are we not associate real life, substance, and being with God and his spiritual ideas, which alone are manifested originally?"

SPIRITUAL BASIS

"Christian Science enables us to do this, and it is wonderful what a change takes place in us when we turn our thoughts from a belief in matter, to the spiritual understanding that God is life, and that we live, move and have our being in Him, as the Bible declares, that we live in Spirit, in Mind, not in matter."

"Christian Science enables us to change our standard from a material to a spiritual basis, where we obtain a viewpoint from which we can begin to see all things in their right relation to the divine Mind, and things that are true value, separate the wheat from the tares, the actual from the seeming, the good from the evil; in a word begin to overcome what is unlike God."

Lake Superior is reported frozen over from shore to shore, something never heretofore recorded. In the present month the mercury at Saint Ste Marie has touched 32 below at Northfield, Vt., 28 below, while in San Francisco it has never been colder than 46 degrees above.

But the weather map of the northern hemisphere, as it looks today, shows a general change toward moderation, and the weather bureau looks for warmer weather from now on.

There are no present indications of a general storm, but the weather bureau predicts for the week probably will be generally light, except in the north Pacific states, where more than normal rainfall will occur.

DEFINITION OF MIND

"What, then, is Mind? Christian Science declares that as there is but one infinite God, there can be but one infinite Mind, therefore this divine Mind is the only real Mind. Mind is the infinite intelligence and Truth, the divine Spirit and Soul, the divine Life and Love, the divine Principle, the basis and foundation of all being."

"Christian Science further shows that material existence is not the manifestation nor creation of this divine Mind, for it is unlike it."

"The phenomena of material existence are finite, dimensional, destructible, diseased, dying, whereas the ideas of the divine Mind are infinite, undiminished, immortal, harmonious, immortal. They are exact opposites. Hence, material existence must be a phenomenon of a false human sense of mind, and subject to its limitations, namely the Adam dream, the belief of life, intelligence and substance in matter."

MRS. EDDY'S DEFINITION

"Mrs. Eddy has called this sense 'mortal mind,' in order to distinguish it from its opposite, the immortal, real, divine Mind."

"It is this mortal, material finite mind, which St. Paul calls the carnal mind, in which, and in which alone, occur the phenomena of evil, sin, wretchedness, disaster, disease and death."

"It is this carnal mind that needs to be put off, as St. Paul declares, in which process the human sense is transformed and renewed by the Mind that was in Christ. Our every erroneous concept must be supplanted with Truth in order that we may be healed and saved."

"By knowing what real Mind is, which Christian Science makes possible, we begin to detect and correct what is wrong in our sense of existence."

"As the working out of our own salvation is thus a mental process, it is of vital importance that we distinguish clearly between the divine Mind and its activities, and the human mind and its beliefs, for the Bible teaches that it is only through the Christ Mind that our salvation can be obtained."

HUMAN MIND'S ACTIVITIES

"Mental suggestion, hypnotism, will-power, the endeavor of one human mind to influence or control itself or another, these are all the activities of the human mind, and subject to its limitations and evils; indeed, they are constantly being used for evil purposes. Since they are used for evil purposes and actually control us continually, they must be wholly evil, for they can not be both good and evil. Any seeming good that may at times arise from them must be superficial, illusory and dangerous. They can not express the activity of the Christ Mind, and hence they can not be divinely authorized remedial agents."

"In Christian Science healing, the Christ Mind itself stands on the spiritual foundation that God is Spirit and God is Love, including man, spiritual, all being included in the divine Mind and its perfect manifestation, the divine Life and its immortal activity, the di-

vine Love and its forever reflection.

"He knows that in reality there is no sick man to treat, and proceeds on the basis of spiritual Truth, the actuality of spiritual being, to correct the erroneous concepts of the diseased, sinning mind of the patient through the right knowing of Truth, and harmony is thus established on a spiritual and scientific basis. It is not through the will of the practitioner that does the healing in Christian Science, but Truth operating through a human channel."

CARDINAL FEATURE

"This is a cardinal feature of Christian Science healing, which distinguishes it from all other methods of mental therapeutics, namely that it is the divine Mind and not the human mind that heals. Those who know the human mind know that it is not the human mind that heals, but the divine Mind, and so they confuse it with the human mind. But when we know the divine Mind, then we can see that Christian Science healing is Truth healing wherein divine Truth and Love correct human error, and the human mind will be healed and no place as more than they have in mathematics."

"Such healing illustrates the fact that the spiritual Truth enters the receptive consciousness it brings about a change in consciousness and externalizes that change in a well body. Mrs. Eddy did not simply state her discovery to the world; she first demonstrated it, and then offered it as a demonstrable science for all mankind to profit by, and the great strength of her teachings lies in the fact that any one can prove their truth for himself."

When, toward the close of the lecture, Professor Hering asked those who had been healed through Christian Science to rise, more than 2,000 of those present stood up.

LABOR OFFICIALS FRAME DEMANDS AT LAWRENCE

Day One of Unusual Activity in Strike City

LAWRENCE, Mass., Dec. 11.—Today, the marked day of the beginning of another month in the strike of more than 20,000 mill operatives for an increase in wages, was one of general activity, up the demands which are to be made upon agents of each mill, while leaders of the Industrial Workers of the World spoke at several meetings, urging solidarity among the strikers.

It is estimated that the financial loss due to the strike, a major portion of which falls upon the strikers, has approached the \$1,000,000 mark.

The central labor union officials, up the demands which are to be made upon agents of each mill, while leaders of the Industrial Workers of the World spoke at several meetings, urging solidarity among the strikers.

MYSTERY SURROUNDS SHOOTING OF YOUTH

A. S. Burnett Found With Bullet Wound Back of Ear

[Special Dispatch to The Call]

NAPA, Feb. 11.—A. S. Burnett, a young man employed in a job printing office here, was found in the clubroom of the Napa Hotel, with a bullet wound in his head back of the right ear.

Mystery surrounds the case, but there are indications that he attempted suicide, using a 22 caliber rifle. Burnett still was unconscious this afternoon and he is not expected to live.

When the body was found the rifle was near the coat on which Burnett was lying, and there was a note stating: "I have seen enough of this life."

A peculiar feature of the shooting is that Burnett's head was not powder marked, nor his clothing.

Burnett is 22 years old and is a private in Company H, national guard, of this city. His father resides in Hanford.

LEWIS MORRILL DIES AT FAIRFIELD HOME

Pioneer Californian Rounded Cape Horn in 1849

FAIRFIELD, Feb. 11.—Lewis Morrill, a pioneer California resident, is dead at his home here. He was nearly 82 years old. He was born in New Hampshire, and came to California in 1849, via Cape Horn, in 1849, first residing near Eureka. Later he went to Alameda county, remaining there until 1875, when he came to Solano county, where he had resided up to the time of his death. Morrill was a member of Birds Landing lodge of Odd Fellows, and his funeral Tuesday will be conducted by Solano lodge No. 78, I. O. O. F. The surviving members of his family are a widow, two sons, Fred L. and Claire A. Morrill, and one daughter, Miss Louise Morrill.

PHILIP DUNN DIES AT HIS PETALUMA HOME

[Special Dispatch to The Call]

PETALUMA, Feb. 11.—Philip Dunn, for 45 years a resident of Petaluma and one of the first commission merchants of the city, died today after a brief illness. Dunn came to Petaluma from Ireland when 20 years old and lived in this city ever since. He built up a large fortune. He is survived by his widow, Mrs. Della Dunn, and one son, William Dunn.

KNOX'S TRIP SOUTH INTERESTS POWERS

Visit to Central America Is Declared to Be of World Wide Significance

WASHINGTON, Feb. 11.—World wide significance attaches to the visit soon to be made by Secretary Knox, at the direction of President Taft, to the countries bordering on the Caribbean sea.

European diplomats, recalling a recent speech of Knox before the New York State Bar association, look upon the proposed trip with interest. That speech, it is said, interpreted by the latest notice given by the United States that the principle of America for Americans must be observed.

Central American diplomats were unanimous in their statements tonight that the secretary's visit not only would allay doubt as to the attitude of the United States toward these countries, but would prevent any possible encroachments upon nations in the other hemisphere.

The present state of unrest in many Latin-American countries, the efforts of the state department to maintain neutrality between the republics of the south and its endeavors to unravel their financial tangles have proceeded, it is said, not without the potential influence of world powers.

Particular attention was drawn by a number of diplomats to those portions of Knox's speech in which he advocated the immediate ratification by the senate of the loan conventions with Nicaragua and Honduras.

It was pointed out that Knox urged their passage because of "the ever increasing political reason of avoiding the danger of European entanglements in the affairs of the countries surrounding the Caribbean."

It is understood that, aside from the moral effect Secretary Knox's visit may have in removing suspicions of American territorial aggrandizement, the heads of various Central American countries will receive a personal explanation of the hopes of the United States with reference to the Panama canal.

Knox, it was announced today, will leave here tomorrow night for Palm Beach, Fla., where he will remain a week while the cruiser Washington is preparing to receive him. About Wednesday, February 21, he plans to leave and probably will sail direct to Colon, Panama.

After visiting the canal he will embark for the Pacific coast of Panama on the cruiser Maryland, proceeding up the coast of Central America, because many of the capitals of these countries are more accessible from the Pacific side.

MAN Y FAIL WHERE MUNYON SUCCEEDS

Frank Explanation Why Munyon Methods Seldom Fail

The office of Professor Munyon is full of voluntary testimonials from grateful patients. The question was asked: "How about failures to cure?" Now, new news travels faster than good news. If the Munyon Method was not uniformly successful it would be out a short time for it to become generally known.

The reason that you seldom, if ever, hear of failures is that the question is simply because the Munyon physicians refuse to accept any case which they are not sure they can cure or benefit. As they are men of wide experience and profound knowledge in their specialty, it is, indeed, that their judgment is wrong.

That is the simple secret of the unusual success of the Munyon Method, as testified by Professor Munyon.

The following is one of the many testimonials:

"I had rheumatism for nine months. At that time I was engineer at the Alms House at Santa Clara county. I had to be carried away from my work on account of rheumatism.

"Since that time I have taken treatment from many different physicians, but all they could do was to relieve me of my pain.

"When I started to take Munyon's treatment my improvement continued almost from the very first. I will be pleased to have others suffering as I did know that you have a cure for rheumatism."

(Signed) WM. HADDOCK, Santa Clara, Cal.

Munyon's physicians may be consulted absolutely free of charge by calling at their offices on the fifth floor of the Flamingo building, corner Market, Kearny and Geary streets, any week day between the hours of 3 A. M. and 6 P. M. Saturday evening the office is open until 8 o'clock.
