

COLORADO SOCIETY COMES INTO BEING

Natives of Rocky Mountain State Pledge Aid to the 1915 Exposition

The Colorado society of California came into being last night at an enthusiastic meeting of natives of the Rocky mountain state living in San Francisco and vicinity, who met over 250 strong in the Grand hotel to perfect an organization along lines suggested by President Charles C. Moore of the Panama-Pacific international exposition.

The men and women who signed the roll of membership of the new organization pledged themselves to do all in their power to stimulate its development, and, through it, to assist the exposition. J. E. Harper was elected president of the society, with C. F. Todd as secretary and Mrs. C. F. Todd as assistant secretary. Governor John Shafroth of Colorado was elected an honorary member.

As an initial step toward preparing for a state exhibit for Colorado at the exposition, the society authorized the appointment of a committee of five members to prepare resolutions inviting the chief executive of Colorado and the members of the Colorado exposition commission to visit San Francisco at the earliest possible date for the purpose of selecting a site for the state building. The resolutions also will request the state to make a large appropriation for building and exhibit purposes.

John Brisben Walker, director of exploitation of the exposition, who for several years was a resident of Denver, made many valuable suggestions as to the formation of the society and the work to be accomplished. He pointed out that in the exposition year Colorado will be the halfway house on the route to the exposition, and undoubtedly will receive the benefit of the greatest tourist travel in its history, with thousands stopping over to inspect the scenic beauties of the state.

A committee of 15 will be appointed by the president within a few days to prepare a form of procedure and the method of perfecting the organization of the society. Another meeting is to be held next Monday night at the Grand hotel. The various Colorado organizations of the state and natives of Colorado will be invited to affiliate. Among those present were:

F. J. Sullivan's Wife Dies With Family at Bedside

Mrs. Frank J. Sullivan, wife of former mayoralty candidate and sister of James D. Phelan, who died yesterday.

Wife of Former Mayoralty Candidate Succumbs to Illness of Many Months

Mrs. Frank J. Sullivan, wife of the attorney and former candidate for mayor on an independent union labor ticket and sister of former Mayor James D. Phelan, died yesterday afternoon at her residence, 201 Laurel street, after an illness of many months. She expired at 4 o'clock in the presence of her husband and children, after the utmost resources of medical skill had been called to her aid by her physician, Dr. Florence Ward.

Mrs. Sullivan was the eldest daughter of the late James Phelan. She was born in San Francisco March 24, 1860, and was married in 1882 to Frank J. Sullivan, son of a pioneer of 1846. Her surviving children are Mrs. Frederick Lawrence Murphy; Sister Agnes, formerly Miss Ada Sullivan; Miss Gladys Sullivan, a son, Noel Sullivan, and a grandchild, the son of Mrs. Murphy. Other relatives are her sister, Miss Mary Louise Phelan, and James D. Phelan, her brother. Scores of institutions and numberless individuals were recipients of Mrs. Sullivan's bounty in one way or another. For many years she was a parishioner of St. Bridget's church, Van Ness avenue and Broadway, and she was the founder and president of the Catholic humane bureau. When her daughter Ada elected to take the veil as a member of the rigorous Carmelite order in Boston, Mrs. Sullivan, in order that she might have her near her, purchased the residence of Mrs. Robert Louis Stevenson at Lombard and Hyde streets, had it converted into a form suitable for religious purposes and presented it to that sisterhood, making it possible for it to establish a chapter in this city.

PATTEN'S 'CORNER' 'CHARITABLE ACT'

WASHINGTON, April 8.—When James A. Patten operated in May wheat in 1909 he did not conduct a corner of wheat, several prominent grain operators told the house committee on agriculture today.

Instead of cornering wheat and holding for enormous profits, Patten performed a "beneficent act" according to John C. F. Merrill, president of the council of grain exchanges.

Patten was exonerated of having collected undue profits. His deal was in May wheat, Merrill said, but he closed it out in April and by doing so, sold at a time and a price that prevented exportation of wheat and consequent importation of grain to supply American consumption. The millers got the big profit, Merrill said, and raised the price of wheat 25 cents over the price Patten got.

"There is much misunderstanding about the so-called Patten corner," said Merrill. "He never had wheat cornered so that he could squeeze the market."

"You can go back to the operations of Joseph, 3,500 years ago," continued Merrill, "the same thing was done then and has been done ever since."

Merrill appeared to oppose the score or more of anti-option bills pending before congress. They are aimed to prevent gambling in grain and cotton futures.

MARCUS GETZ' FUNERAL TO BE HELD TOMORROW

The funeral will be held at 9:30 o'clock at King Solomon's temple, 1739 Fillmore street, and interment will be in the Hills of Eternity cemetery.

Nutshell Music Wins

Many a man knows this week what he didn't know last week and that is that the great stave, like all Great, is divided into three parts. That isn't all—he also possesses some very definite information concerning each of the three parts. He knows about the music ladder and the clefs, and he can now name any note on the keyboard at a glance.

That first lesson in the series, "Music in a Nutshell," that appeared in Part II of The Sunday Call, carried marvelously simplified information about the piano to thousands who were more than eager to receive it.

Men, women and children who never had years to devote to mastering the piano are having their learning now with these wonderful lessons of an ingenious system. The second appears in The Sunday Call next Sunday.

ENDS CATARRH

Sprays, Douches, Snuffs and Ointments Won't Kill the Persistent Catarrh Germs

Hyomei, the Antiseptic Air, Will

When you can go to any drug store in any civilized community on earth and buy for only \$1.00 a remedy that will quickly rid you of hawking, spitting and snuffing, why do you allow the devilish germs of catarrh to undermine your health and destroy your efficiency?

Quit sprays and douches. Liquid can not penetrate into the nooks, folds and crevices of the irregular mucous membrane. Neither can it get into the bronchial tubes that lead to the lungs and where germs thrive and multiply.

If you believe that liquids reach the air tubes, try to swallow a little water the "wrong way." Such a test will effectually demonstrate to you the idle theory that sprays and douches can cure catarrh.

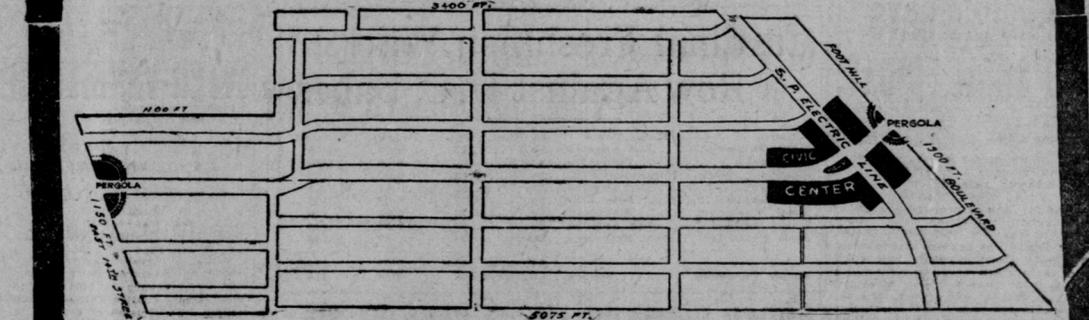

HYOMEI is a pleasant antiseptic air which, when breathed, penetrates into the folds and crevices of the sore, germ infested membrane and also goes deep into the air cells of the lungs, killing all germs. A HYOMEI outfit costs \$1.00. Extra bottles of HYOMEI, if needed, 50 cents.

Havenscourt

"Go In To Win!" \$500 GOLD IN PRIZES

Is offered for the best answers to the question: What ideas or suggestions have you for making Havenscourt the prettiest place for a bungalow home in the whole of California?

If you tell us in simple language what YOU would like if YOU were going to live there, you will stand the best chance of winning one of these prizes. Everybody has ideas about what kind of surroundings they would like for a home. We want these ideas to help us make Havenscourt beautiful.

Here's the Story!

We are now creating what will be, when complete, the best arranged and prettiest, as well as the largest, single community of bungalow homes in this part of the world, even excelling, we hope, the wonderful places in Los Angeles.

This property, lying close to the heart of Oakland—for years in the hands of an estate while the city built up solid around it—will give room to a big community with its own stores and places of amusement—it will be "a city within a city."

It is nearly a mile in length, a quarter of a mile wide, high and level, with a car line along the south boundary, a boulevard along the north boundary, Southern Pacific Electric through the north central portion and built up on all sides.

Our plans provide for a Civic Center on the most modern lines arranged around a paved court, and with a central park.

The architecture of this Civic Center will be most harmonious and attractive.

A pillared temple effect will yield added beauty to the central court.

A splendid broad paved boulevard, nearly a mile in length, will run through the center of Havenscourt, connecting two main traffic arteries.

This boulevard will be especially ornamented.

33 Prizes, Totaling \$500

For the letter with the best ideas we will pay \$150 Gold. For the next best we will pay \$100 Gold. For the third best we will pay \$50 Gold. For the next ten letters we will pay \$10 each. For the next twenty letters \$5 each
