Government Provides for Relief of Homeless Thousands in Refugee Camps

of the city will be flooded. Only the wholesale district would be affected. Many appeals for assistance were sent here last night from persons marooned because of the Torras break. The homeless are constantly arriving, and

boats and trains are making trips as rapidly as possible.

RAIN ADDS TO VOLUME Although there will be suffering among the refugees before all are chance of loss of life is remote. "Last night a steady rain was soften-ing the already strained levees and add-

ing to the volume of water. A peculiar situation exists at Mellevee in front of the town is holding, but water from a break five miles down

vict plantation at Ongela, La., broke this afternoon and within a short time the 5,000 acres were inundated. The state recently, completed a \$5,000,000 sugar refinery, and this will be flooded. All hope of closing the Torras cre-ings."

"How can I amass a fortune?" asked vasse was abandoned following a conference between Governor Sanders and state engineers. The crevasse had widened to nearly 700 feet and the

evee was crumbling away rapidly. News that the engineers had given up all hope of closing the Torras cre-vasse was flashed to every town on the west side of the river within a radius of 50 miles. It means the abandon ment of thousands of homes in the territory south of Torras and property damage that will run into the millions INHABITANTS IN MAD RUSH

The Angola break is across the river from the Torras crevasse and less than six miles distant. The flood waters on the Angola side will cover thousands of acres of fine farming land along the east bank as far down as Bayou Sara and St. Francisville, and probably vill return to the Mississippi near Morganza, La.

Women screaming and men shouting selzed their children and valuables in their mad efforts to reach places of safety and the stampeding of animals turned loose by their owners to seek safe places were some of the chaotic conditions that prevailed here last night when the alarm was sounded old Mississippi river had given way.

ARE CAUGHT UNPREPARED

Although it had been known that everal weak spots had developed, litthe attention had been paid to this by citizens of Torras, and they were caught unprepared. Within a few minites after the break had become known the townspeople were in panic.

Before the streets were entirely subn.erged a majority of the inhabitants reached places of safety. Three were taken to a point below here. No loss of life has been reported, but it is feared some fatalities may octhe interior, as the water rushing through the country so rapidly that sufficient warning may not have reached those living in districts remote from wire communication

466666666666 We do more real advertising

than any other shoe store in this citybecause our customers are great "ads" for us, and tell their friends about the standard \$5.00 shoes that we sell at

Ask any customer of ours about our shoes. They will tell you that we are in a class by ourselves and that there isn't a store in town that can compare with us when it comes to giving value. Of course, the high-rent-ground-floor-stores look very pretty with their fancy fixtures, but this costs money.
