

SAN DIEGO HAS HOPES OF PEACE ERA--FOR WHILE

Both Vigilantes and Grand Jurors Resent Webb's Dismissal of Present Jury

Los Angeles Socialists Look Into I. W. W. Matters; May Repudiate Workers

[Special Dispatch to The Call]

SAN DIEGO, May 30.—Certain vigilantes are beginning to express resentment that Attorney General Webb should have asked for the dismissal of the present grand jury and the impanelment of a new one.

"Why did you ask for a new grand jury?" Webb was asked just before he took the train.

"Because the situation which is to be investigated has arisen since the present grand jury was impaneled," he said.

"The jurors now serving have not qualified as members of a body to inquire into the I. W. W. affair."

City and county officials foresee for San Diego an era of peace that will last, they believe, at least until the new grand jury shall have completed its investigation and until Emma Goldman, Doctor Reitman or some other zealous person for free speech should come to San Diego.

Attorney F. H. Moore, representing the I. W. W. cause, has advised against any further invasion of San Diego by street speakers while the attorney general's investigation is in progress.

There is no question that if either of the two anarchists should set foot in San Diego county something serious would happen. There is a well formulated plan to meet and deal with the woman and her manager in the event of their coming.

MEXICO INVESTIGATING The presence in San Diego tonight of both the United States and the Mexican government agents complicated the situation.

It was said at the police department that the Mexican government agents had been sent here intermittently for several weeks, and that the United States agents were equally diligent in their visitations.

Chief of Police J. K. Wilson declared that the official representatives of both nations were active in their investigation of the Industrial Workers of the World disturbances, but said that he could not state what the purposes of either government might mean as to possible action on the situation.

The Mexican government was supposed to have knowledge of the alleged disposition on the part of the Industrial Workers of the World to precipitate trouble below the international border, and it was said that the American government was interested in obtaining data on the alleged presence in case cities other than San Diego should be forced to face an Industrial Workers of the World disturbance.

MEXICAN AGENT ARRESTED Incidental with the conditions today, it was stated by the police that a representative of the Mexican government, who was said to have come here with the belief that there was a plan to begin trouble below the Mexican border, was taken into custody because of the supposition on the part of the police that he was interested in the I. W. W. situation.

The police are cognizant of the presence here of United States government agents, and declared they would render them every assistance in their power. They also were said to have been apprised of the alleged presence of men connected with the asserted attempt to dynamite the Los Angeles county hall of records in 1910.

The officers stated that they would take into custody any suspicious characters.

Fred H. Moore and Marcus W. Robbins, attorneys for many Industrial Workers under arrest here, declined to make any statement regarding the alleged shifting of the scene of activities of the I. W. W. from San Diego to Los Angeles.

Socialists Repudiate LOS ANGELES, May 30.—Socialism in southern California is sadly disheveled over the I. W. W. movement and a plan is now in formation among prominent socialists in Los Angeles to repudiate the I. W. W., lock, stock and barrel.

John Harriman, recognized leader of socialists in Los Angeles and the socialist candidate for mayor at the last election, as chairman of an investigating committee today began looking into the movements of the I. W. W. in Los Angeles. One of the first steps taken by Harriman and his investigating committee was to obtain a first-hand report from the police as to what the I. W. W. speakers were doing in order to cause their arrest.

Harriman, Dr. Laura Locke and L. M. Storey, all members of the socialist executive committee in Los Angeles, visited the police station.

HARRIMAN PROBES ARRESTS "We want to know what these men have been doing that causes you to arrest them. We want to know the police side of this trouble in order that we can be fair in our investigation," Harriman said.

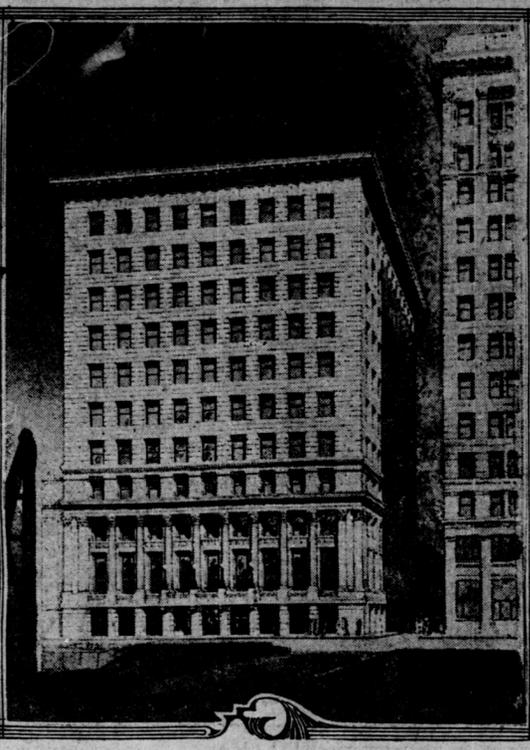

The police officials replied that they had been in the habit of being abused by the agitators. They described the disturbances against law and order delivered at points frequented by the soap box orators. Harriman was informed that the police made arrests only when absolutely necessary and that there was no police campaign being waged against the disturbers.

NEW TESTIMONY EXPECTED When the federal grand jury resumes its investigation into the Industrial Workers of the World tomorrow, it was announced by Government Prosecutor Robinson, several new witnesses will be here ready to testify. Robinson refused to give the names of any of these witnesses or where they would come from.

It was learned, however, that several of them would come from San Diego and bring evidence other than documentary to prove the contention of authorities of the southern city that harsh methods were used by several members of the Industrial Workers in that city in their clashes with the police.

Secretary J. J. McKeivey of the local organization of Industrial Workers who yesterday predicted a movement in Los Angeles to secure an eight hour day for all laboring men, could not be seen today. Other leaders, however, stated there was "no change in the situation."

Million Dollar Home For Insurance Co.

Insurance building soon to be erected.

Another Monument to Business Soon Will Rise in California Street

A million dollar building of 10 stories, to be known as the Insurance exchange, will soon be erected at the southeast corner of California and Leidesdorf streets.

The building is to be of class A concrete, fire protected, steel frame construction, equal, if not superior, in appointments and finish to any building heretofore constructed west of Chicago.

In general style the exterior will be in the Italian renaissance, the first three floors being of highly decorative character, with an imposing order of Corinthian columns. The plans as at present

contemplated provide for four additional floors. Nearly all the floor space in the projected building has already been engaged.

The same group of local capitalists are behind this enterprise that so successfully reorganized the Fireman's Fund insurance company, paying dollar for dollar in the face of conditions so discouraging that complete bankruptcy seemed to face the entire community.

The board of directors of the Insurance exchange is composed of Arthur A. Smith, George A. Newhall, George H. Kraft, John C. Coleman, Bernard Farnsworth, Franklin B. Anderson, J. R. Leighton, W. S. Goodfellow and Henry Rosenfeld.

The project has been financed and when final plans have been adopted construction will begin. Willis Polk & Co. are the architects.

Yosemite Sleeper Via Southern Pacific for the National Park district without change, daily from San Francisco Ferry Station on 9:40 p. m. train.

For details, Summer Excursion Rates, etc., ask Agents Southern Pacific. Ticket offices: Flood Building, Palace Hotel, Market St. Ferry Station, San Francisco, Broadway and Thirtieth street, Oakland.

SAN MATEO, May 30.—Risking her life to save that of her niece, Miss Mildred Clemens, author of several novels, was seriously injured today when she drove her automobile into a telegraph pole in B street.

As Miss Clemens turned into B street from the J. W. Divoll's home, where she is a guest, her niece, Margaret Clemens, 5 years of age, ran in front of the machine. Miss Clemens turned the steering wheel rapidly to avoid striking the child, and the machine was sent crashing into the pole, crumpling the radiator and flinging the driver into the roadway.

Miss Clemens is 22 years of age and lives in Portland.

U. OF S. C. CLUB FORMED IN SACRAMENTO VALLEY [Special Dispatch to The Call]

SACRAMENTO, May 30.—The University of Santa Clara Club of the Sacramento Valley was formed here last night by Rev. James F. Morrissey, president, and Rev. J. J. Laherty, secretary and treasurer of the college.

The officers chosen are: President, John H. Hoesch; first vice president, J. Campbell of Colusa; second vice president, E. L. Leake of Woodland; third vice president, J. Murphy of Chico; fourth vice president, Herman Bergosa of Marysville; secretary, F. P. Ryan of Sacramento; treasurer, Charles Graham of Sacramento.

C. K. McClatchy and Dr. K. D. Powell form an executive committee with the officers of the Parent Engine company. Dr. Joseph Raffetto, L. O. Peck and L. A. McClatchy, was appointed to prepare bylaws.

PHOENIX PICKS NEW FOREMAN—V. J. May 30.—Carroll Jewett has been chosen foreman of the Parent Engine company. Dr. Phoenix Engine company's headquarters is located in South Valley.

TECHAU TAVERN Reappearance of Miss Frances Drake

Miss LeRoy returns to Techau Tavern after a triumphant tour on the Orpheum circuit and will commence her engagement tomorrow afternoon with a complete change of repertoire, and in addition, will sing any of the selections that pleased our patrons in the past which they may be desirous of hearing again. In addition to Miss LeRoy, Miss Brookover, contra alto, robusto of exceptional talent, will render only such songs that may be asked for, and which she will sing to the accompaniment of the orchestra, which is conducted by the talented violin virtuoso, Gino Severi, will, as on a former occasion, dispense with musical program and play only such selections as may be requested by any of the patrons present.

The aim and purpose of the management is to have this concert on the continuous order. Not a dull moment, so those present may spend an enjoyable afternoon at the Techau Tavern. There will be five new daylight motion pictures shown, and, as the custom of the management, a souvenir of Parfums Mary Garden, San Francisco's most popular perfume, will be the favor presented tomorrow afternoon. The married luncheon for today, price 50c, will consist of: Creamed Crab Fiske on Toast, Newburg, Corn Fritters, New Potatoes a l'Anglaise, Yucca Relis, Fried Potatoes, Whipped Cream, Small Black Coffee.

BUFFALO HOME BY THE ISLANDS

Transport Joins in Minute Gun Salutes, Then Steams for Mare Island

The United States navy transport Buffalo, Captain Clarence M. Stone, arrived Wednesday night from Manila, via Honolulu, and remained at anchor off Meigs wharf until shortly after noon yesterday. At noon the Buffalo, which rates as an auxiliary cruiser as well as a transport, joined in the firing of minute guns, part of the national tribute to the memory of the sailor and soldier dead. As the smoke cleared away from the last gun the bugle sounded the order to heave up anchor, and a few minutes later the transport was on its way to Mare Island.

The Buffalo brought home enlisted men of the navy and marine corps who have been on duty on the Asiatic station, most of whose terms of enlistment have expired or will expire shortly. There were 402 marines on board the Buffalo, about 200 of whom were on duty in Peking for the five months before joining the Buffalo. Others were on duty at Olongapo, on the ships of the Asiatic fleet and in North China.

Captain H. H. Kipp, U. S. M. C., was in Peking recently and brought home with him many souvenirs of the stirring events that marked China's conversion from an empire to a republic. He has a large collection of photographs, some of them showing the means adopted to barricade the legation and others snapshots of executions, of which there were hundreds in the public streets. Captain Kipp was sent from Manila with the first expedition and landed in North China November 23 and remained in China until April 24, when he embarked on the Buffalo at Taku for Olongapo. The ship stayed at Olongapo just long enough to pick up the rest of its passengers.

Fine weather was encountered all the way across the Pacific. The run from Manila was made in 28 days, and the Buffalo, etc. and a few days coming from Honolulu, where it stopped for coal. Among the marines on the Buffalo are the members of the team that won the championship of the Manila baseball league. This might be of interest to Danny Long, as these military champs are about to be discharged from Uncle Sam's service and will all be looking for jobs in a few days.

Captain J. G. Bishop, U. S. M. C., was the senior marine corps officer on the Buffalo. Among the officers who came home on the transport as passengers were: Assistant Surgeon H. W. R. Turner, U. S. N.; Chaplain Le Roy Taylor, from the cruiser South Dakota; Captains H. H. Kipp, C. S. Owen and M. E. Shearer, and First Lieutenants R. E. Rowell and M. Hill, all of the marine corps. Other passengers were: Boat-swain N. McIntyre, Pharmacist H. Henry, Boat Builder H. E. Holland, Chief Clerk R. R. Davis, former Navy Pay Clerk B. W. Shumaker and E. H. Bowers, a civilian employe of the navy department.

CLOSING DATES OF BRITISH MAILED

The mails for Great Britain and Ireland will close at the main postoffice, Seventh and Mission streets, at the following times:

Table with columns for date and time for various destinations: Mar. 30, 4:50 p. m.; Mar. 31, 8:30 a. m.; June 14, 8:30 a. m.; June 15, 8:30 a. m.; June 16, 8:30 a. m.; June 17, 8:30 a. m.; June 18, 8:30 a. m.; June 19, 8:30 a. m.; June 20, 8:30 a. m.; June 21, 8:30 a. m.; June 22, 8:30 a. m.; June 23, 8:30 a. m.; June 24, 8:30 a. m.; June 25, 8:30 a. m.; June 26, 8:30 a. m.; June 27, 8:30 a. m.; June 28, 8:30 a. m.; June 29, 8:30 a. m.; June 30, 8:30 a. m.

PLUCKY WOMAN RISKS HER LIFE

Young Authoress Crashes Auto Into Pole to Avoid Killing Little Child

SAN MATEO, May 30.—Risking her life to save that of her niece, Miss Mildred Clemens, author of several novels, was seriously injured today when she drove her automobile into a telegraph pole in B street.

As Miss Clemens turned into B street from the J. W. Divoll's home, where she is a guest, her niece, Margaret Clemens, 5 years of age, ran in front of the machine. WONDERFUL INVENTIONS

MAKE RARE OPPORTUNITY

High Grade Standard Player-Pianos Thrown on Market

Forty-four of Them Are Being Sold This Week at House of Eilers. For All Purposes—Good as New. Prices of \$220, \$265, \$315, \$375, etc. Terms as Low as \$6 Down and \$1.85 per Week

STORE OPEN EVERY EVENING

Two astounding inventions in the field of player-pianos have recently been introduced—one, the Welte Mignon (German); the other, the Chickering Artigraphic. Of the former, Professor Wolle, until recently head of the department of music of the University of California, says: "Possibilities of the new invention in the realm of art are opened up through the wonderful invention of the Welte Mignon. It is not the slightest exaggeration to say that these wonderful instruments, electrically operated, bring the master pianists of the world into the home. They range in price from \$1,200 to \$2,000."

One result of these epoch making inventions has been the exchange of really good, high grade, standard player-pianos for the new types. People who six months ago were not only thoroughly satisfied but enthusiastic over their player-pianos, have been willing to exchange them for the new inventions. These exchanged player-pianos have accumulated in our warehouses until this week we found it necessary to arrange for their quick sale. They are not second hand pianos in the ordinary sense of the term. Seen in any home, they would be looked upon as brand new player-pianos in every particular. Their owners would not have parted with them for years and years had it not been for the appearance of the newly invented types. Many of them are in such splendid condition that even a manufacturer could not tell from new.

EVERY STANDARD MAKE Here, for example, is a Weber Grand Piano. Player—Itself an invention of the last few years and which is regularly sold at \$1,800, being equipped with the most modern and other appliances. You can buy it now at a saving of \$425, our new departure price being \$1,375.

Among the others are such well known makes as the Knabe Angulus, the Co-clian, the Apollo and Kingsbury players. Aristones, Hallett & Davis Virtuoso, Lester player pianos, the Jacob Doll player, Krell & Krell's face all most any player you care to mention. A good Apollo player for \$220; a handsome Lester for \$425; an Aristones for

THE BEST THING JOHN BURROUGHS EVER WROTE

The famous naturalist was asked by a clergyman to speak to his people on the gospel of nature. It set Mr. Burroughs to wondering whether nature had any gospel in the clergyman's sense of the word. Then he wrote the "Gospel of Nature" as he saw it. Here are some of the things he told the people—now for the first time published in the June Century.

"THAT I am a sinner, healthier, more contented man, with truer standards of life, for all my loitering in the fields and woods, I am fully convinced."

"THE fossils in the rocks did not mean much to the earlier geologists. They looked upon them as whims of the creative energy, or vestiges of Noah's flood. They were blinded by the preconceived notions of the six-day theory of creation."

"MY friend Thompson-Seton claims to find the biological value of the Ten Commandments in the lives of the wild animals. I cannot make this reasoning hold water, at least not much of it."

"NATURE is not benevolent; nature is just, gives pound for pound, measure for measure, never tempts her decrees with mercy, or wins at any infringement of her laws."

A host of other good things, informing and entertaining, round out the delightful issue for June.

It will be followed in July, August and September by three Summer Fiction Numbers containing twenty-four short stories, the best written in many a day. Among them three fascinating new ones by Owen Johnson, author of "Stover at Yale."
