RECALL ABRAHAMSON AS WISHEST

Mayor Charges Fraud in Obtaining Signatures to Petition for Election

Majority Against I. W. W. Depends Upon Voters Supporting Decent Government

OAKLAND, July 31.—Daily neighborhood meetings and rallies each night by the anti-recallers mark the closing days of the campaign.

Two largely attended meetings were held tonight, one at Alameda hall, where Mayor Mott, Turner and W. H. Wilkinson, and the other at S. C. S. T. hall, Thirty-second and Adeline street, at which the speakers were Mott, Turner and Assistant City Attorney Charles A. Beardley.

MOTT EXPLAINS ISSUE

Mott explained the uses of the recall. "The recall provision in the charter was intended for use in cases of extreme necessity, when it is necessary to remove officials from office who have been corrupt or negligent of their duty.

"If the campaign was conducted on honesty, as the electorate of the city have the right to expect, there would be no campaign, for the recallers have no real reasons for its invocation. The recall has been brought to the recallers by the recallers, and the recallers have no right to expect that the recall will be used as a platform of anarchy and treason."

OLD QUESTIONS REVAMPED

"We are charged with having done a number of things that have no bearing on the free speech issue. We are called to account for things that have transpired within the last ten years and all of which have been passed upon by the voters.

"In one case—the water front matter—the public has voted on things that were dragged in to bolster up an issue that in itself is false and an unfair one. Every one understands the I. W. W. matter. The attack on the recallers is to say that they are not sustaining the members of the I. W. W. is an avoidance of fact and is untrue."

"We do not expect the recall election is made in any sincere spirit of fighting public wrong, but is merely a factional movement, the motive of which is a desire for revenge and an attempt to get political power. The history of the matter and personnel of the leaders in the recall bear out this belief."

ANONYMOUS LETTER THREATS

"Immediately after the last city election, and before the newly elected officials had taken their places, threats were made that they would be recalled as soon as the charter provision permitted. During the first month of their term, the mayor received anonymous letters in which recall threats were made against him. There was a recall petition circulated against him immediately following his election.

"These threats of a recall grew in volume until the episode of the police action in curbing the street speaking by the members of the Industrial Workers of the World within the fire limits of the city. The latter event was seized upon as an opportunity to start the actual proceedings in the recall matter and was given the label of a 'free speech suppression.' These police matters are the only charges made against the present officials which refer in any way to the present term of office of the men placed under the recall."

"All of the other charges concern matters from one to several years old. They have all been publicly discussed and are a part of the public record. The public is thoroughly familiar with them, and since their occurrence the public has returned these officials to office."

RECALL SCHEME PREMATURE

"Bearing in mind this provision of the law in regard to the recall one can not fail to be impressed with the fact that the present recall campaign was conceived and publicly heralded on the night of election a year ago last May and six weeks before the officials now in office had taken office."

Many meetings will be held this week by the anti-recall forces. Two meetings will be held Thursday, one at the afternoon at Plymouth Center, Hawthorne street and Piedmont avenue, at which the speakers will be Mayor Mott, Turner, and W. H. Satterwhite and a meeting in the evening at Diamond hall, which will be addressed by Mott, Turner and Assemblyman F. M. Smith.

HOW TO PRESERVE YOUTH AND BEAUTY.

One great secret of youth and beauty for the young woman or the mother is the proper understanding of her womanly system and well-being. Every woman, young or old, should know herself and her physical make-up. A good way to arrive at this knowledge is to get a good doctor book, such as for instance, as "The Woman's Common Sense Medical Adviser," by R. V. Pierce, M. D., which can readily be procured by sending thirty-one cents for cloth-bound copy, addressing Dr. Pierce, at Buffalo, N. Y.

The womanly system is a delicate machine which can only be compared to the intricate mechanism of a beautiful watch which will keep in good running order only with good care and the proper oiling at the right time, so that the delicate mechanism may not be worn out. Very many times young women do not know the proper handling of their human mechanism. Mental depression, a confused head, backache, headache, or hot flashes and many symptoms of derangement of the womanly system can be avoided by a proper understanding of what to do, in those trying times that come to all women.

Mrs. G. E. Williams, of Lynchburg, Va., writes: "It is six years since my health gave way. I had female trouble and all the doctors I consulted said I would die. I was not able to do my work and I was nervous all the time. Finally, I read in the papers about Dr. Pierce's Favorite Prescription, and decided to try it. I had not taken but one bottle when I found it had done me good. I took all the rest of the bottle and was cured. I have since had a good deal of trouble, and now I am able to do all my household work, and have gained forty-five pounds since I began to take Dr. Pierce's Favorite Prescription. It is the only medicine on earth."

Dr. Pierce's Favorite Prescription is a medicine for women's ailments, including female trouble, nervousness, and general weakness. It is a well-known and trusted remedy.

CITY GUARANTEE TO BRING WATER

Company Agrees to Lay Mains on Promise of Prompt Payment

OAKLAND, July 31.—A solution for the problem to supply the Rhoda tract, in the annexed district, with water, which was introduced into the city council by petition of many of the residents who are without a water supply, was presented today by Assistant City Attorney Charles A. Beardley and backed by a resolution by F. C. Turner, commissioner of public health and safety.

It is proposed that the People's Water company shall lay mains and install meters, in return for which the city is to guarantee the payment of all water bills. The water company was opposed to laying the mains because of the hilly nature of the tract and the difficulty of carrying water to that height.

With a promise from the city that all water bills will be paid promptly the necessary work is to be done by the water company.
