

ROOSEVELT SHOT BY LUNATIC

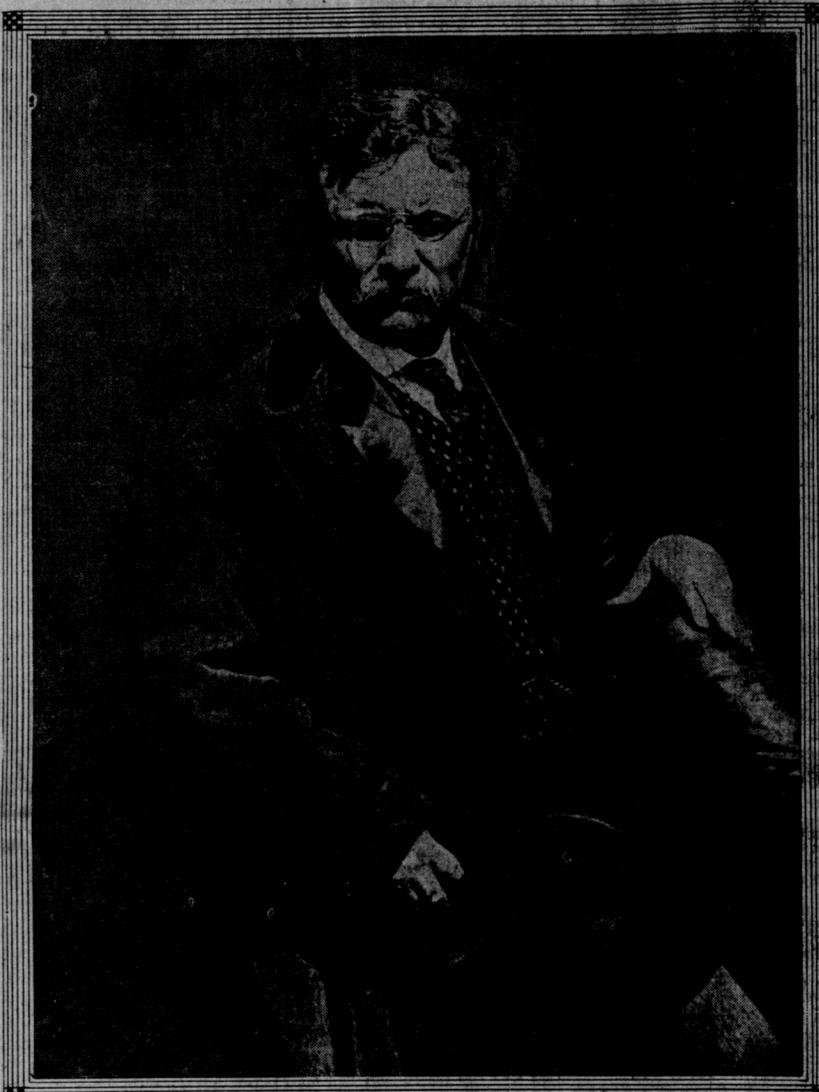

Infuriated Crowd Threatens to Lynch the Assassin

TURKEY TAKES UP GAUNTLET OF SERVIANS

Ottoman Force Crosses Frontier at Ristovatz and Surprises Garrison
 Fighting Continues All Day Along Border, Invaders Being Repulsed

[Special Cable to The Call]
 LONDON, Oct. 15, 5 A. M.—A Turkish force of 3,000 crossed the Servian frontier at 6 o'clock Monday morning and attacked the town of Ristovatz, near Vrnaya, but retired after killing 24 of the Servian guard. In Belgrade it is supposed that the object of the Turks is to occupy the Vrnaya district and drive a wedge between the Servian and Bulgarian armies to prevent their cooperation in a descent upon Uskub.
 A large part of the Servian army is on the way to Koestendil to join the Bulgarian army.
 Upon receiving official news of the invasion King Peter issued a proclamation declaring that the attack proved that the Ottoman government did not intend to grant reforms. The proclamation says Servia accepts this challenge to fight and will defend herself. Large quantities of war munitions are stored at Ristovatz.
 Fighting continued all along the Montenegrin frontier. The forces of the state continue to advance, but their progress is very slow and is made at a tremendous cost of life.
 The sultan's government today formally declined the proffered interference in its proposed introduction of reforms in Macedonia and coincidentally assumed the offensive itself. Serbia's representative at Constantinople, as well as those of Greece and Bulgaria, was notified by his government to prepare to leave on a moment's notice.
 The participation of Greece in the conflict was almost assured by the Athens government's deliverance of an ultimatum demanding the release of Greek ships seized at Constantinople. More success has followed the deter-

THEODORE ROOSEVELT

F. DAVEY PHOTO

COLONEL ASSAULTED BY NEW YORK CRANK AS HE LEAVES HOTEL

Crime Committed in Milwaukee, Bullet Being Fired at Close Range, Entering Breast and Making Serious Wound

INJURED CAMPAIGNER DELIVERS HIS SPEECH WHILE FLOWING BLOOD DIMINISHES VITALITY

BULLETIN

MILWAUKEE, Wis., Oct. 14.—Colonel Roosevelt's special train left for Chicago at 12:50 a. m. As he left the colonel said that he would spend the night on the car and that after remaining a few hours in Chicago he would go on to Indianapolis to fulfill his speaking engagements tomorrow night. He was under the care of Doctor Terrell, his physician, Dr. Joseph Bloodgood of Johns Hopkins, and Dr. R. T. Sayle. The engineer received orders to make the run as fast as possible, and it was hoped to reach Chicago shortly after 2:30 a. m.

Before Colonel Roosevelt would lie down, he insisted on shaving himself, despite the protests of the surgeons who accompanied him. He deliberately shaved, taking pains to have his face smooth before he sought his stateroom. The train started on a slow run. It was planned to get to Chicago somewhere near morning, although the run could be made in less than two hours in an emergency.

Roosevelt will be taken to the Presbyterian hospital in West Congress street, where the four Chicago surgeons who were to have gone to Milwaukee will extract the bullet.

[Special Dispatch to The Call]

MILWAUKEE, Wis., Oct. 14.—Colonel Theodore Roosevelt, progressive candidate for president, was shot today as he was entering his automobile to go to the meeting he was to address at the Auditorium, and only for the fact that the bullet struck the tightly rolled manuscript of the speech he was to deliver, which was in the

COMPROMISE REACHED FOR NEW CAR SERVICE

CITY CAN RUN GEARY STREET CARS TO FERRY

Supervisors and United Railroads Adopt Compromise Agreement

ALL opposition to the Geary street municipal railway cars running down Market street to the ferry was swept away yesterday when the board of supervisors, amid enthusiastic applause, adopted a compromise agreement with the United railroads.
 The agreement was presented in legal form by City Attorney Long and is agreeable to the United railroads in every particular. It embraces all the important propositions which have been the subject of negotiation between the city and company for many months, and brings to a satisfactory end years of controversy and litigation.
 Save for certain necessary court details, upon which both sides have agreed, and the formal signing of contract papers, the compromise practically was entered into yesterday by action of the supervisors.
 That which remains to be done actually to cement the compromise is a matter of formal procedure for which City Attorney Long has outlined the course of action.
 In general the agreement adopted yesterday is the same as that recently proposed by the United railroads in answer to proposals of settlement advanced by the supervisors' public utilities committee. It embodies practically all important concessions in-

Summary of Agreement Between U. R. and City

Geary street cars to run over outer tracks in lower Market street to ferry.
 City will buy half interest in outer tracks and overhead equipment, to be used jointly by Sutter street and municipal cars.
 United Railroads will consent to supreme court affirming Judge Sewell's decision, modified to permit Sutter cars to go to ferry.
 United Railroads waives five-block provision of Market street franchise in so far as it affects Geary street road.
 City is permitted to string trolley wires on company's poles without cost.
 United Railroads grants exchange of transfers at Devadero and Fillmore streets.
 City to use Point Lobos avenue route upon payment of equal proportion of cost of tracks and equipment.

Man Breaks Record By Deserting Wife Forty-Seven Times

[Special Dispatch to The Call]
 CHICAGO, Oct. 14.—Telling her that she did not know how to cook, Charles Steckley, a clerk employed by a local wholesale house, left his wife last August for the forty-seventh time. The couple have been married six years.
 "That sounds like the record," remarked the judge after she had told her story in court where Steckley was arraigned on a charge of wife abandonment.
 Steckley admitted his record. He was committed to the Bridewell when he told the judge he would not contribute to the support of his wife and children.

RICH YOUTH KILLED IN SPEEDING AUTO

Estee Morganti Victim in First Accident of Kind in San Luis Obispo

[Special Dispatch to The Call]
 SAN LUIS OBISPO, Oct. 14.—The first fatality resulting from an automobile accident in or near this city occurred this afternoon at 2 o'clock, when Estee Morganti, eldest son of a rich and prominent family here was killed instantly.
 Estee Morganti, 19 years old, had left town in his car for El Pizmo beach with companions. On the road west of town he let the speed out to 50 miles an hour, and in attempting to make a curve, the big machine skidded. The tire blew out, the rim was torn to pieces and after continuing for nearly 50 feet the car turned over twice.
 Young Morganti was thrown beneath the engine, his head and body being crushed.
 The passengers, N. V. Morrison, a bartender of Maricopa, and a woman were thrown in the roadway. Morrison was badly cut by glass from the wind shield. He was taken to San Luis sanatorium. The woman suffered only a slight injury to one arm.

DIVE OWNER LEAVES MONEY TO HOSPITAL

"Tenderloin King" Bequeaths Fortune to Charity
 SEATTLE, Oct. 14.—Sam Pinschower, self-styled "king of the tenderloin," saloonman and owner of one of the most notorious dives ever operated in Seattle, who died here early this morning, bequeathed between \$80,000 and \$100,000 to the Children's Orthopedic hospital of Seattle by the terms of his will, admitted to probate here today. The will was drawn and signed October 4, last, and by it 20 per cent of the estate goes to a brother, Isaac, in Los Angeles, and 80 per cent to the orthopedic hospital. Hiram C. Gill, "re-called" mayor of Seattle, is made executor without bonds.

RYAN OPENS HIS PURSE STRINGS

Wilson, Harmon, Underwood and Others Receive Funds for Campaign Expenses

WASHINGTON, Oct. 14.—Upward of \$400,000 was expended in the efforts of Governor Woodrow Wilson, Governor Judson Harmon and Representative Oscar W. Underwood to secure the democratic presidential nomination this year, according to testimony today before the senate campaign contributions committee.
 William F. McCombs, who managed the Wilson campaign, and his aid, William McAdoo, accounted for \$208,193. Of this sum \$85,800 was contributed, according to McCombs, by "Cleveland H. Dodge and Princeton friends."

GIANTS WIN 6th GAME ONE MORE WILL TIE IT

Score . . . 5 to 2
 "Rube" Marquard made good his boast yesterday. He twirled his team to a slashing victory over the Red Sox, cutting the lead of the Stahiwarts down to one game. Another such nip and they'll be tied, 3 all.
 In the most vicious batting rally seen in years at the Polo grounds the Giants fell on "Buck" O'Brien for five runs in the opening inning. The Gotham rooters became howling lunatics.
 Boston came back in the second and garnered two while the Cubs was patting himself on the back.
 Thereafter neither team scored—but the opening rally was enough.
 The details are on page nine.

COUNT BONI HIRED BY THE CAROLANS

Society Couple Import Real French Room, With Nobleman to Set It Up

As the hired man—or shall it be as the "commissioned artist"—of Mr. and Mrs. Francis Carolan, Count Boni de Castellane, most talked about of the husbands of Anna Gould, most conspicuous of French noblemen in a newspaper way, is coming to Burlingame.
 "Also there is coming simultaneously with the count's arrival, a real French room which the Carolans purchased entire in a French chateau, which will be installed among the other rooms in the American chateau the Carolans are building in Burlingame.
 The room is to be articulated by Count Boni. With his coronet jauntily tilted over his forehead and a T square, embossed with the noble arms, in his hand, Count Boni will adjust to the new Carolan mansion the floor, walls, ceiling, silks, linens, thresholds, treasos, decorations, furnishings of a medieval French room, which one of the early Louis once occupied.
 Real Count Imported
 The purchase of an entire room in a famous French chateau by the Carolans is enough to excite society. But added to that is the importation with the room of the French count.
 Charmed by Old Splendor
 Count Boni de Castellane was the first husband of Anna Gould. He was a busy little spendthrift before his marriage and after that event he achieved a wider reputation with his wife's share of the Gould millions than was ever achieved before by the noble husband of an American heiress.
 He had a talent for spending money only commensurate with his dead father in law's talent for acquiring it. So financial troubles arose in the De Castellane household and there was a divorce.
 The Countess de Castellane married again, this time a prince, and Count Boni has been doing the best he could

FINE NEW BUILDING PLANS ARE ACCEPTED

San Francisco's New Subtreasury Will Cost \$1,000,000 and Be Ready in Time For Exposition in 1915

[Special Dispatch to The Call]
 WASHINGTON, Oct. 14.—Revised plans for the new subtreasury building at San Francisco, submitted by Milton Dyer, architect of Cleveland, were accepted by Chief Architect Wenderoth of the treasury department here today. The revised plans call for an unusually strong building, to meet all possible conditions and the cost when completed will be more than \$1,000,000, including the \$375,000 already paid for the site.
 "Let me say to the people of San Francisco," said the supervising architect, today, "that they are going to get a fine building. It will be far better than they expected. It will be the very best that can be provided by the United States government—a model for all other cities in the nation, and it will be ready for the opening of the Panama-Pacific exposition."
 When Wenderoth became supervising architect not long ago, one of the first things he did was to go over the plans for the San Francisco subtreasury. He was not altogether satisfied and asked Dyer to revise them according to the suggestions made for their improvement.
 The architect came here today from Cleveland and submitted the revised plans and after Wenderoth had studied them he approved of them. The preparation of specifications was at once begun. This work will take several weeks and the treasury department will advertise for bids. As soon as the contract is awarded the work will be begun.
 It was arranged today that \$200,000 should be set aside out of the \$500,000 appropriated for the building to provide for extra big and extra strong vaults in the new subtreasury. While this will leave only \$300,000 for the ac-
