

Nazim Pasha Uses Army Headquarters

REGAINING NEAR SAMBOUR ARE APPALLING

Price of Victory Has Been Great to Conquerors of the Turks

is a very important capture, as that town is Nazim Pasha's staff headquarters.

While the Vienna Reichspost correspondent with the Bulgarian army reported what he describes as "murderous fighting" along the Tchatalja lines, Turkish official reports deny there has been any serious fighting there for several days.

With regard to other points, an improvement in the weather has permitted the resumption of the Montenegrin attacks against the Turkish positions around Scutari with some success. A battle is imminent at Monastir, where the garrison has endeavored to make terms for its surrender.

The Greeks continue their advance toward Janina. They now have taken Metzovo, a few miles to the northeast. BULGARIAN LOSSES HEAVY.

A report through Bucharest places the Bulgarian losses in the war at a far greater figure than has yet been estimated. According to this report, the killed and wounded number between 60,000 and 80,000 out of a total of 320,000 men and it is pointed out that the Bulgarian army has lost the lines of communication only 180,000 effective men are left for fighting.

One reason which is considered likely to induce Bulgaria to consent to an armistice and to a peace settlement, is fear of cholera. Official reports issued at the capital state that comparatively few cases are occurring daily, but other reports from the epidemic is serious, with a high mortality.

There is no new development in the diplomatic situation, but an official denial has been issued in St. Petersburg to reports that the Russian government has pronounced itself definitely in favor of Serbia's claim for an Adriatic port, or has sent instructions to the Russian ambassador at Vienna to that effect.

ARMISTICE ONLY PARTIAL. Turkey will have the support of the European powers in her request for a cessation of hostilities. The representatives of the various nations in Sofia have now received full instructions regarding the proposal of mediation and they held a meeting at noon today to discuss the method to be adopted for making the armistice complete.

The armistice asked for by Turkey will affect only the fighting at Tchatalja fortifications, while the step the European powers have taken has the object of putting an end to the war in all parts of the Balkan peninsula.

Until the powers succeed in inducing the allies in the direction of peace the fighting at Adrianople, Monastir, Scutari and in other portions of Turkey's east European dominion will continue no matter how Bulgaria regards the appeal made by Kiamil Pasha.

While, therefore, Turkey's recognition of the realities has smoothed the path of diplomacy and may result in Constantinople, it is not clear whether perhaps some other parts of her European possessions being left to her and prevent a scramble for them by the powers, there still are some serious questions to be solved.

THE ALBANIANS ARE TAKING STEPS TO make their country independent, and besides publishing a proclamation has issued a protest against any attempt to interfere with the freedom and integrity of the country. The organization also makes the charge that the Servians have secretly murdered all the Albanian prisoners of war.

As to the Adriatic which, according to a report from Alessandria today, the Servians have not yet reached, there is no official change either in the Austro-Italian or the Servian attitude.

A dispatch from Alessandria, concerning the previous reports that the Montenegrin army advancing on that town has suffered a reverse. The Montenegrins were unable to take the town owing to the Miridic ribesment which occurred with the Turks. The Montenegrins were driven back as far as the Boyana river.

Either for military reasons or on account of the cholera which is spreading rapidly at Hademue, the government, the Constantinople correspondent of the Daily Telegraph declares, is prepared to make large concessions in order to prevent the Balkan armies from entering Constantinople.

CHOLERA SPREADS ALARMINGLY. An uncensored dispatch, dated November 12, from Constantinople to the Reuters Telegram company, says the cholera is extending alarmingly among the troops. The cases are reckoned by the hundreds, while among the refugees there are even more victims.

In Constantinople, adds the dispatch, the disease is difficult to control. One train alone brought 150 patients from San Stefano. They were conveyed to the Lazarett at Beyros on the Bosphorus. The bodies of 20 soldiers who had died of cholera were taken from the same train.

Many trains have returned from the front with soldiers who are not wounded, but are in a state of physical collapse owing to exhaustion due to exposure and lack of food. The conditions at some of the stations near Tchatalja are unenviable. Cholera victims crawl to the station for water or in the hope of getting to Constantinople. They can be seen lying about in every stage of the infection.

FEAR OF CONTAMINATION. The greater danger which threatens Constantinople is that the water supply from Lake Derkos may become contaminated. Only a few cases have been reported up to the present among the people in the capital and it would seem that the disease is not the deadliest form of Asiatic cholera, as, notwithstanding the unfavorable conditions to which the army is exposed, it is asserted that 60 per cent of the cases have recovered.

The authorities are doing their best to rid the capital as quickly as possible of the influx of refugees. They are being dispatched at the rate of several thousand daily to the ports of Ghentlik and Moudania, or by rail to Koniak. The active interest of the authorities

Serbs Prove Stumbling Block of Peace

By PAUL LAMBETH [Special Cable to The Call]

LONDON, Nov. 14.—Peace is not yet in the Balkans. A brief uncensored dispatch from Constantinople, verified in its main tenor by a message which passed the censors in Belgrade, indicates that Serbia may refuse to treat with Turkey.

If the Serbs persist in this attitude there is small hope of even a temporary cessation of hostilities beyond the brief armed armistice now said to be in force in Tchatalja. The Balkan allies have pledged each other to stand or fall together. There is every reason for the assumption that they will not break their bargain. There is absolutely no grounds for assuming that Bulgaria, with most to gain from the confederation convention, will lead the way in breaking its cardinal provision: "One for all and all for one."

The Serb government replied to the appeal of the now terrified Turks with a direct charge of bad faith. The charge is specific. It seems to be well founded. Even pro-Turk London admits that the circumstances enumerated are more than suspicious.

The avowed objective of the allies has been the joint occupation of Turkey in Europe by the members of the Balkan confederation. There has been no hesitancy, no equivocation, in the announcement of this intended ultimate consummation. Its potential consequences have furnished Turkey with the one argument which cleaves to her side, the triple alliance, in that darkest hour of the war, when the Bulgars drove her brigades pell mell into the Balkans and made the ignominious end of the campaign in Thrace inevitable.

NEWPORT HAS TO TAKE BACK SEAT

Hillsborough's First Marriage, Maid and Chauffeur, Is Performed in Style

[Special Dispatch to The Call] HILLSBOROUGH, Nov. 14.—What Newport would never think of and Bar Harbor would be afraid to try, happened in the exclusive colony of Hillsborough tonight, when the democracy of California wealth was weighed in the balance and not found wanting.

The test came about in this way: For a long time Hillsborough has owned the unique distinction of never having had a marriage service spoken within its borders. The society folk usually went up town or over to San Mateo, and it seemed as if the unwelcome reputation would remain. Society used to worry about who would be the first, or if there would be any at all.

Suddenly it was learned from chance bits that floated up from "below" that despite the neglect of the usually attentive society editors, a real wedding was being planned. The butlers and the chefs and the maids were all excited about it, and unconsciously they carried the colony by storm.

The bride to be was Miss Nora Hardeman, governess in the home of Norris K. Davis, the San Francisco steel manufacturer, and when the family heard that she was to marry Herbert Eldridge, a chauffeur employed by Charles E. Green, vice president of the Crocker National bank, they decided to throw through the window a proper event for Hillsborough's first.

After telling the bride that she and her guests might have the entire house to be served in, Mr. and Mrs. Davis telephoned their neighbors, with the result that the guests, who included all the butlers, footmen, chauffeurs, maids and valets in the colony, rode to the wedding tonight in limousines, and after the ceremony enjoyed a dainty supper and dance at the expense of Mr. and Mrs. Davis.

DOMESTIC SCIENCE IS BOOSTED BY EDUCATOR. Most Important Branch of Work, Says Hyatt. RICHMOND, Nov. 14.—Edward Hyatt, state superintendent of instruction, in an address this morning before the Contra Costa Teachers' institute, said the manual training and domestic science departments of the public schools of today are becoming most important branches of educational work.

Hyatt asserted that supervision of the health and medical examination of the physical condition of pupils at frequent intervals was another feature of educational work that is becoming extremely important.

Other speakers were Dr. Richard Boone of the University of California, Dr. R. Jones of the San Jose state normal school and Prof. C. E. Rugh of the University of California. The institute will close tomorrow afternoon with the election of officers.

SECOND APPEAL FOR WAR FUNDS. A second appeal to the people of San Francisco on behalf of the war sufferers of southeastern Europe has been sent out by the San Francisco chapter, American National Red Cross, at the instigation of President William Howard Taft, head of the national society.

Though a committee may be declared at any time in the war between the Balkan states and Turkey, thousands of sick and wounded must be cared for and the troops must remain under arms in the field for a greater part of the severe winter season. To relieve the suffering and sickness the Red Cross societies of Europe have joined in sending shipments of doctors and nurses to the field, and America is asked to contribute to the humane cause.

In the appeal it is stated that during the war with Spain the European Red Cross societies sent liberal contributions to aid in the care of the sick and wounded in Cuba. Aid now has been asked by the international society, committee at Geneva and by each of the Red Cross societies in Bulgaria, Serbia, Greece and Montenegro.

Contributions may be sent to Allen Knight, 502 California street, Frank E. Anderson, Bank of California; or William H. Crocker, Crocker National Bank.

PHYSICIAN MAY BE CALLED ON CARPET

State Health Board Will Seek Reason Why Birth Records Were Juggled

[Continued From Page 1] and the only one which appears in the record, was born at 950 Grant avenue, San Francisco, September 1, at 8:10 o'clock p. m.; that Paul Coville, 22 years of age, of Santa Rosa was the father and Lillian Anderson, 19 years of age, of Geyserville was the mother.

The attending physician was Dr. William W. Fraser. Before this certificate was corrected it showed that Charles Eugene Edgar Slingsby was born at 1522 McAllister street. The father's age was given as 36 and the mother's 42. Doctor Fraser was also the attending physician. The certificate shows that the place of birth was first given as 950 Grant avenue, but was later changed by affidavit to 1522 McAllister street.

No matter how the tangle turns out, Doctor Fraser finds himself in a ticklish situation. The state board of health is now considering his case and is deliberating as to what action to take against him for the alleged falsification of the records. He probably will be "called on the carpet."

PLUMAS COUNTY PLANS VIGILANCE COMMITTEE. Series of Crime Arouses Citizens to Action. [Special Dispatch to The Call] CHICO, Nov. 14.—Three incendiary fires in Quincy within two weeks, entailing a loss of \$50,000, a series of burglaries and the blowing up of two safes in the Western Pacific depot in Chico, with innumerable minor crimes, has created a reign of terror that the residents of Plumas county are determined must stop.

They plan to meet in a few days and organize a vigilance committee of 100 citizens. Known criminals and suspicious characters will be warned to leave the county and guards will be placed in various centers to aid the police.

Dick Reed and Frank Hays were arrested for the Chico crime and it is said have confessed. They are believed to be leaders of the gang responsible for the Beckwith, Clio and Cromberg robberies.

With their arrest and the formation of a vigilance committee it is believed the epidemic of crime in Plumas will end.

BOOSTING PARTY REPAYS GOOD FELLOWSHIP VISIT. Members of San Jose Chamber Entertained at Gilroy. [Special Dispatch to The Call] SAN JOSE, Nov. 14.—Repaying a "good fellowship" visit of the Gilroy Chamber of Commerce, 32 members of the San Jose Chamber of Commerce spent the day and evening in the southern part of the county today.

In eight autos the local boosters left shortly after 8 o'clock this morning and traveled as far toward Gilroy as Madrona, where seven auto loads of Gilroy boosters met them and escorted them on a day's run through the southern districts. The trip through the Paradise valley to the Uvas, to the magic springs in the Solis, to the Glen-ranch, the through Gilroy to the Gilroy hot springs and back to Gilroy, with stops at points of interest along the way, occupied the entire day.

Meyer, former chief clerk in the general store keeper's office at the Puget sound navy yard, accused of defrauding the government in connection with supply contracts.

The case probably will go to the jury before tomorrow night. Evidence in the defense consisted of a letter written by the paymaster general of the navy, commending the work of the store keeper's office at the Bremerton navy yard during the visit here of the Atlantic battleship fleet, during which the government had alleged, many of the frauds were committed.

KEY TO MYSTERY IN LOS ANGELES

Vote of State Can Not Be Announced Pending Action of Court

[Continued From Page 1] today secured a writ of mandamus to "compel the supervisors to render a fair count." The writ was made returnable next Monday.

The petitioners charged gross irregularities and among others that the tally sheets from 28 precincts had been removed from the returns by breaking the official seals. The democrats alleged that the tally sheets were made unintelligible by election officers and changed in such a manner that 600 votes were affected.

Another charge of irregularity, not incorporated in their petition, but which the democrats intend to make, is that the supervisors called election officers before them and permitted them to complete their returns by parole evidence.

The canvass of the returns from the precincts not involved in the action brought by the democrats will proceed, but no announcement of the result can be made until the court disposes of the democrats' contention.

According to late dispatches from Los Angeles, the democratic watchers claimed a gain of 150 for Wilson on the canvass of the vote yesterday. The progressive watchers denied that any change had been made.

UNCLE SAM AND RUSSIA IN TREATY

Agreement Reached on Pact to Take Place of One Soon Abrogated

[Continued From Page 1] refusing passports to American or other non-Russian Jews. The czar's government has always held that such Jews, even though they are American citizens, are not entitled to travel or reside in Russia because the existing treaty provides that any American seeking to enter Russia shall submit to the laws there prevailing.

The state department never has admitted the soundness of this contention, and when congress by resolution ordered the denunciation of the treaty, the actual, though not the formal ground being this alleged discrimination against American citizens, the department's attitude necessarily became unalterable.

With such a wide difference between the two countries it appeared an almost hopeless undertaking to prevent a complete severance of trade relations between two friendly nations.

It is said that in all probability Russia will meet the issue by refraining from applying her maximum (and practically exclusive) tariff duties to imports from America. In the ordinary course, after the lapse of the existing treaty December 31, these maximum rates automatically would apply to imports from a country with which Russia has no such trade treaty. But it is suggested that through a decree or imperial order in council this may be postponed indefinitely.

Such action on the part of the Russian government would relieve President Taft from the necessity of imposing, in retaliation, the maximum American duties on imports from Russia and thus trade between the two countries might continue pending the issue of future negotiations for a permanent treaty.

As far as the state department is concerned, the officials will not discuss the subject further than to make it plain that no agreement actually has been consummated.
