EAST BAY FAIR PLANS CONCERN ONLY SAN DIEGO

Goldsmith Says San Francisco Directors Have Failed to State Wants Statement Denies Annexation Move Has Affected Exposition Work in Alameda

OAKLAND, Nov. 14.—Paul Goldsmith, secretary of the Alameda county exposition commission, in a statement issued today explains the status of the exposition plans. He said that the plans that have been submitted are not final and do not represent all that the commission is working upon.

"The exposition plans," he says, "that have been presented to the Alameda county exposition commission are in no sense final, nor do they represent all that the exposition commission is working upon. The plans refer only to the San Diego fair, but that is because we have no definite idea what the directors of the San Francisco fair will allow or expect the counties to do."

"Neither do these plans bind the counties that have been invited to unite with Alameda in a joint discussion of exposition work. They are merely something from which we hope to work."

"Alameda county has under option what is considered the best site on the San Diego grounds. We have, also, a fully equipped exposition plant and force already in operation. All that Alameda county wishes to do is to put at the disposal of the east bay counties, should these counties see fit to unite, the benefit of this site and whatever we have to offer in the way of exposition plans."

"Should such a combination of counties be made, each county will absolutely control its own exhibit, and, as the counties of Santa Clara and Contra Costa would have very large agricultural displays, Alameda county would not compete with them, as Alameda is becoming less and less of an agricultural county each year."

"We are working upon plans for San Francisco, but we know that we will be permitted to do, we will have to content ourselves with the collection of exhibits without making definite plans for their display."

"The recent an exaction amendment fight has had no effect upon the work of the Alameda county exposition commission, and we expect to divide our resources in the proportion of about three to one in favor of San Francisco. The directors of the San Diego fair are able now to offer us definite propositions, and are considering them, as it is our duty to do."

"The Santa Clara county exposition commission, of which J. R. Ryland is chairman, will hold a meeting Friday to discuss this matter, and the Alameda county board of supervisors has authorized our commission to issue a call for a joint conference."

"PARENTS ARE OFTEN AT FAULT," SAYS LECTURER Probation Officer Declares That Wrong Example Is Set

OAKLAND, Nov. 14.—"There may be a great deal wrong with economic conditions," said Assistant Probation Officer S. Bruce Wright at a meeting of the Child's Welfare League in Fruitvale school No. 3. "And undoubtedly there is."

"All parties call themselves progressives nowadays, and all aim to better conditions. But we can not by legislation alone make people do right. Is it not because our fathers and mothers are buying automobiles and other luxuries when they have not paid their ordinary bills for necessities? Is it not because this spirit of putting luxuries first is spreading that the young men take after their parents and the sentiment about the young man a good time, often of the wrong sort, ahead of common honesty and duty?"

"We can stand a great deal more precept and example in honesty and scrupulousness in our homes, and if our homes can't give it, we can stand a great deal more emphasis on it in our schools, to judge by the young men who commit crimes and go to the probation in our superior court."

ROYAL BAKING POWDER ABSOLUTELY PURE

Cooking is a matter which concerns the whole family, and under modern methods and conveniences it is made so attractive the whole family is becoming interested, if not taking part in it.

"These biscuits are delicious; this cake is excellent," says the father. "I made them," says the daughter, and both father and daughter beam with pleasure.

It is a crime, with our modern agencies, helps and facilities, to have soggy biscuit, or wooden cake, or leaden pastry.

Royal Baking Powder has made home baking a success, a pleasure and a profit, and the best cooking today the world over is done with its aid.
