

ASK GRAND PARLOR TO BACK STATE FOR 1915 DISPLAY

Resolutions Urge Natives to See California Is Represented in Own Building at Exposition

FIGHT BEGUN ON FOREIGN CHARTERS

Chicago and New York Petitions Probably Will Be Rejected

(Special Dispatch to The Call)

OROVILLE, May 12.—The grand parlor of the Native Sons of the Golden West settled down to business today.

One of the most important subjects that will come to the attention of the grand parlor will be the participation of the state in the Panama-Pacific international exposition in 1915. A strong resolution asking that the counties make an adequate display and that a proper building be constructed to house the California exhibit was introduced today.

A petition was received from Santa Clara parlor asking that aid be given that parlor to obtain historic adobe houses there.

A petition was also received from parlors in Auburn, Sacramento, Placerville, Rocklin, Grass Valley and San Francisco asking that state roads be given names of historic interest.

The nomination of officers was made a special order of business for tomorrow morning. The election will be held Thursday.

The report of Grand Treasurer John M. Douglas showed that in the last year \$72,484.78 in benefits were paid to members and the total disbursements for the year were \$364,805.40. The total assets of the order were placed at \$723,480.76.

The finance committee in its report recommended the continuance of the two fellowships in the University of California and an appropriation of \$2,000 for this purpose.

The request of the Coloma Home association for an appropriation of \$1,000 was not recommended, but instead a recommendation that the amount be fixed at \$250.

MEMBERSHIP STATIONARY

The year 1912-13 began with 26,958 members, and ended with exactly the same number. During the year 1,774 members were added to the organization, and the same number either were suspended or withdrew.

While this condition was considered to be only a coincidence, it is probable that it will result in a entire change in the membership methods, and that in the place of state organizers a lump sum will be placed in the hands of officials to be used where most needed for organization work.

Los Angeles today injected itself into the fight for the 1914 grand parlor seat. Modesto is the only rival to the southern metropolis.

The settlement of the place of meetings was made a special order of business for tomorrow morning. Oakland presented its invitation to have the Admission day celebration there. This will also be settled tomorrow morning.

FIGHT ON OUTSIDE CHARTERS

Decided opposition developed to the proposal to charter lodges outside of the state. This opposition is based upon the ground that the constitutional provision forbidding such action has been responsible largely for making the order distinctive of California. A two-thirds vote will be necessary, and it is believed that petitions from Chicago and New York will be rejected.

The delegates were the guests of the Chamber of Commerce at an elaborate reception tonight in the exposition building.

Grand President Clarence E. Jarvis appointed J. W. Cogan of Eldorado parlor No. 52 and Grand Outside Secretary A. J. Turner of Stockton parlor No. 7. G. West of Sunset parlor No. 26 and N. Hallman of South San Francisco parlor No. 157 were named a committee on credentials.

VACANCIES ARE FILLED

The following appointments were made to fill vacancies on committees: Petrus, J. B. DeJoy, Fresno No. 25; rector, R. A. Bird, Alturas No. 134; state of the order, W. A. Dower, Calaveras No. 137; legislation, J. D. McLaughlin, Quincy No. 137; and J. J. Leide, Tamona No. 169; printing and supplies, J. J. Luzzini, San Francisco No. 175; and supervision, Joseph Belloni, San Jose No. 22; W. Gardner, Balboa No. 234; and W. D. Hyner, Stanford No. 70; transcription, J. Ernest Hayes, Tualatin No. 64; and J. T. Newel, Los Angeles No. 45; mileage, C. M. Kelly, Excelsior No. 21.

The reports of grand officers and resolutions were referred to a special committee on form of amended articles of incorporation, with instructions to report back as soon as practicable. The grand president appointed the following as such committee: L. H. Webe, H. C. Sanford, C. E. Mott, and W. M. Conley and F. A. Stephenson.

HIGH WIDOW OBJECTS TO SUPPORTING SPOUSE

For Second Time Millionaire's Daughter Seeks to Divorce Husband

(Special Dispatch to The Call)

DENVER, Colo., May 12.—H. H. Hewitt of the firm of Hewitt & Bischo, Denver architects, a son of former President Hewitt of the Divinity school of Chicago, is defendant in a suit for divorce by Mrs. Elizabeth G. Hewitt, a daughter of G. W. Galloway, millionaire oil operator of Rye, N. Y., who charges her husband with mental cruelty. She asks \$10,000 alimony.

Married in Rochester, N. Y., in 1908, later removing to Denver, Mrs. Hewitt started Denver society in July, 1910, by bringing suit for divorce. She received a decree a month later upon the same charge she makes in her present action. However, she relented and remarried him.

In Mrs. Hewitt's present action she makes practically the same allegations that she did in her first, namely, that her husband is too extravagant and that he depends upon her to defray most of the expense, notwithstanding he has a large income from his profession.

Resubmits Harris, on the police department eligible list, was convicted on a 10 day vagrancy charge yesterday by Police Judge Sullivan and will be sentenced today. Harris, four months ago, was appointed a temporary policeman, but two days later the authorities learned that Harris was out on probation from the police courts.

CALIFORNIAN SELECTED FOR STATE OFFICE

Prof. Saul Epstein.

Hayes Valley Man Appointed Insurance Commissioner for Colorado

Saul Epstein, professor of mathematics and engineering in the state University of Colorado, a former resident of San Francisco and brother of Attorney Elliott M. Epstein, has been appointed by Governor Ammons to be state commissioner of insurance of Colorado. The commissioner has jurisdiction over all insurance companies doing business in that state.

Mr. Epstein grew up in Hayes valley, where he graduated from Adams cosmopolitan school in Eddy street, and finished his course in the Lowell high school in 1895.

After graduating from the University of California in 1909 he went to Europe and received the degree of doctor of philosophy from the University of Göttingen, Germany. Following his return to this country he served for a time as a member of the faculty of the University of Chicago and later went to Colorado. His parents still reside in San Francisco.

RAILROAD PLANS TO RUSH FRUIT

An important conference between officials of the Southern Pacific railroad and deciduous fruitmen of the state has been arranged to take place in Fresno May 15. At this conference a schedule will be arranged for the handling of fruit.

It is planned to concentrate the business in Fresno, and to fix a schedule which will land green fruit in Chicago the seventh morning after shipment from California and in New York the tenth morning after.

Official announcement was made yesterday of the appointment of Warren C. Earle as chief engineer to the railroad commission. Mr. Earle, former chief engineer, has resigned to accept a place on the advisory valuation board of the interstate commerce commission. This board will undertake the valuation of all the railroads in the United States as authorized by recent enactment of congress.

On the Chicago and Northwestern railway Mr. Earle served as assistant engineer in charge of physical valuation. He made the valuation for the company of its lines in Minnesota in 1906. Later he was engaged in construction work on new lines for the Chicago and Northwestern. Mr. Earle was subsequently employed by the railroad commission of Minnesota as an engineer in charge of valuations. He later was chief engineer in charge of railway appraisal with the railroad commission of Oregon.

The Denver and Rio Grande railroad has resumed operation of its open top observation cars on daylight trains through the Royal gorge and Black canon of the Gunnison for the summer season of 1913.

Fry Fish in Cottolene

You can fry fish in Cottolene, and use the remaining fat for frying potatoes or other food. The odor of the fish will not be imparted to the other fried food.

Cottolene is not alone economical for the reason that it can be used over and over, but also because it is richer than butter or lard, and one-third less is required. It is twice as economical as butter; much more economical than lard.

Cottolene makes rich, digestible, tasty, healthful food. Does not make food greasy, and is free from indigestion.

Cottolene is never sold in bulk—always in air-tight tin pails, which protect it from dust and odor. It is always uniform and dependable.

THE N. K. FAIRBANK COMPANY

'MOVIES' SHOWN IN GIRLS' SCHOOL

Pupils See "Circulation of the Blood," With Complete Explanation

Blood cells by millions and trillions danced through a moving picture film at the girls' high school yesterday afternoon, to the intense delight of a concourse of pupils. It was an exhibition of the first kinoscopic view, dealing with a scientific subject that has been shown by the board of education, by whom the film is loaned. Believing that children of both the lower and upper grades can be more readily taught involved subjects hard of explanation, by pictures, the board has started the innovation of illustrating such subjects in the manner indicated.

The one on display, entitled "The Circulation of the Blood," will be exhibited at practically all the schools of the city. It is a finished product and makes perfectly clear each element. At 1 o'clock the information was circulated that "the movies" were coming. Girls of ages ranging from 12 to 17 years swept into the big room. Doctor d'Ancona, president of the board, was loudly applauded as he mounted the platform to explain the pictures.

"Gee, I like this fine. No more headaches for mine on the afternoons," they show "movies," and "Say, girls, isn't this perfectly ripping. I won't play hookey any more," were among the more audible comments as the machine began to buzz and the blood began to circulate on the big white sheet. Then, when Doctor d'Ancona explained that the pictures were not taken from a human subject, but from the web of a frog's foot, one tiny miss with ringlets exclaimed in a tearful voice: "Oh, poor little froggy, I'm so sorry," and again a ripple of laughter swept the fair audience.

"The pupils will not forget anything they have seen in a moving picture, and for that reason they have a great educational value," said Doctor d'Ancona. "We propose to secure pictures illustrating scientific subjects and show them at the various schools."

"Will the boys be interested?" "Yes, I believe moving pictures will sound the death knell of 'hookey,'" was the sniling reply.

Police Judge Sullivan yesterday ordered the case of Walter D. Lomax, charged with manslaughter, set down for preliminary hearing on Thursday, April 27, while driving an auto, he ran down and killed Mr. Marie E. Velle, at Ninth and Market streets.

RESINOL CLEARS AWAY PIMPLES

And Blackheads. Restores Health to Unsightly Complexions.

Pimples and blackheads disappear, unsightly complexions become clean, clear and velvety, and hair health and beauty usually follow the regular use of Resinol Soap and an occasional application of Resinol Ointment. These soothing, healing preparations do their work easily, quickly and at little cost, when even the most expensive and complicated "beauty treatments" utterly fail.

The nearest drugstore is sure to have Resinol Soap and Resinol Ointment. Why not get some today? You can't begin too soon to get rid of those ugly, embarrassing complexion blemishes. The Resinol medication is so gentle, yet so effective, that it can be used freely on the tenderest skin. Doctors throughout the country have prescribed Resinol for eighteen years. You can test it free by writing to Dept. 20-S, Resinol, Baltimore, Md., for a generous trial.
