P. G. & E. STOCK

Financing of Development Work Requires All the Available Funds .

Record of Sales on the Local Stock and Bond Exchange Shows a Dull Month

As forecasted in these columns last week, the board of directors of the Pacific Gas and Electric company in their meeting yesterday failed to vote the usual 114 per cent quarterly. dividend on the common stock. John A. Britton, vice president and general manager of the company, issued a statement yesterday, in which he says that while there has been an increase

700 B

statement yesterday, in which he says that while there has been an increase in the gross earnings of the company of approximately \$1,500,000, the financing of the Lake Spaulding development recessitates the conserving of all available capital.

The passing of the dividend had been discounted on the open market by the steady decline of the stock, which dropped to a new low record of \$36,62½ Friday, but recovered slightly the following day.

Mr. Brittan's statement, in part, follows:

"While the company's earnings during 1912 justified the payments of dividends on both preferred and common stock, and our record for the six months ending June 30, 1913, indicates an increase in gross earnings of approximately \$1,500,000 and in net earnings \$300,000, the financing of our Lake Spaulding development in the Sierras necessitates our conserving all available capital. For these reasons it is deemed for the best interests of the company that the common stock dividend for the quarter ending June 30 be not paid.

"The Lake Spaulding development, which embraces an installation aggregating 166,000 horsepower in electric energy, has cost to June 30 \$4,500,000, and an additional \$3,500,000 will be required during this year to complete it. This, installation when completed will show a cost of \$11 per horsepower, the lowest price installation of hydroelectric plants ever made on this coast. It will involve the construction of six power houses and two additional long distance transmission lines, besides adding water available for irrigation sufficient to irrigate an additional 30,000 acres.

"All this will tend to largely increase the recommend as well as cheapen the

onor acres.

"Ail this will tend to largely increase the rewenue, as well as cheapen the cost of production, and it is thought that the stock holders can wait for the added returns which are bound to come from the benefit of this great work in the interest of the public.

"The Spaulding dam will be completed this year, 1,500 cubic yards of concrete being placed daily. More than 35 miles of ditches will be completed and three power houses, with an aggregate capacity of 53,000 horsepower, will be ready by November 15."

Banks—Bank of Ca.

STOCK EXCHANGE IN JUNE

June, 1913, will go down on record as one of the dulest months in the history of the San Francisco stock and hond exchange. Business was light and new low records were attained by several of the most active securities.

During the month the sales of listed honds totaled \$616.000, while the transfer, of listed stocks amounted to only \$2.29 shares.

fet. of listed stocks amounted to \$2.39 shares.

8.299 shares.

Associated Oil and Spring Valley Water were the most active stocks, 4.235 shares of the former and 1.635 shares of the latter being sold. Spring Valley Water declined from \$56.37½ to \$49.25 and Associated Oil from \$41 to \$36. The latter, however, had begun to recover before the close of the month.

Amalgamated Oil, for which demand Amalgamated Oil, for which demand

Amalgamated off, for which demand was shown, improved in price from \$79.50 to \$87.50. Northern California Power and California Wine common were well traded in with little changes in price. Sugar stocks remained firm, Hawaiian Commercial leading in sales. Spring Valley general mortgage 45 led in the bond division with \$114,000 in sales. Between high and low there was only a difference of 2 points during the mouth. California Gas & Electric unifying 5s had second call with \$25,500 and United Railroads 4s was shirt, with \$45,000 in sales. United Railroads 4s was shirt, with \$45,000 in sales. Condition of Trensury
VASHINGTON, June 30.—The condition of
United States treasury at the beginning of WASHINGTON, June 30.—The condition of the United States treasury at the beginning of isiness today was:
Working balance, \$62.774.904.
In banks and Phillippine treasury, \$61,643,691.
Total of general fund, \$149,320,025.
Receipts Saturday, \$3,385,202 with disbursements of \$4,035,126.
The surplus this fiscal year is \$24,699,565, as gainst a surplus of \$20,151.860 last year.
The figures for receipts, disbursements and urplus exclude Panma canal and public debt ansactions.

UNMERGER PLAN LOWERS STOCKS LOWER ON OPEN

Points After St. Paul Announcement

bility of Holders to Suits Causes Drop

NEW YORK, June 30 .- Presentation n court in St. Paul of the Harriman dissolution plan was the one development of a stock market day which on the news from St. Paul, although the market rose strongly Saturday

Harriman Paper Declines 3 Expert Predicts South Dakota Will Yield But . Half a Crop

Interrail Ownership and Lia- Grain Markets Sag Generally and Closing Tone Bearish and Unsettled

CHICAGO, June 30 .- General rains and cooler weather in the Dakotas with prospects that Minnesota would be equally favored, had a bearish otherwise would have been featureless. effect today on wheat. The market The plan contained no surprises, its closed nervous at a decline of %c to essential features having been known 14c net. Corn showed a loss of %c to for some time, but the Harriman stocks 1c from Saturday night and cats a slumped and the whole list sold off fall of %c to %c. In provisions the on the news from St. Paul, although outcome was an upturn of 2%c to 7%c. About the only important rally in the wheat market resulted from a well known expert declaring his opinion that South Dakota would not yield more than half a crop at best. The effect on prices, though, was decidedly brief. Export sales here and at the seaboard made the final tone of the market unsettled, but as a stimulating influence proved a failure. Stocks here and in the visible supply did not decrease as had been loked for. .

Corn turned heavy on account of scattered rains and better crop reports. There was also a big increase of the amount shown to be in store here and at other leading points.

Oats were subject to a number of flighty changes due to elevators buying cash oats at the sample tables and re-

selling in the pit. Covering by July shorts lifted provisions. Some of the advance was lost owing to talk of liberal deliveries

Hutton's Chicago Advices

to effect on the money market. Banks and other financial institutions, as well as bond and brokerage firms, are circularizing the country in an endeavor to stimulate a demand for high grade securities, chiefly bonds, but the regard securities, chiefly bonds, but the regard to stimulate a demand for high grade securities, chiefly bonds, but the regard to stimulate a demand for high grade securities, chiefly bonds, but the regard to stimulate a demand for high grade securities, chiefly bonds, but the regard to stimulate a demand for high grade securities, chiefly bonds, but the regard to stimulate a demand for high grade securities, chiefly bonds, but the regard that the redard that investors were still keeping from the other months. General rains and cooler weather in the Dakotas, cool and showery in the Canadian northwestend into Minnesota were the early depressing features. Acceptances, of offers of new wheat from the country proved to be the largest on the crop and also helped to depress values. New wheat was coming into the southwestern markets in increasing volume and cash prices at St. Louis broke 3s cents under receipt of 20 cars. Most of the pressure on July today was in a hedging way—against purchases of new wheat to arrive this month. The selling down to 141. The decline in the london market, a heavy tone with the opening, due to the fine statement for May, which showed a gain of \$1.125,000 gross and \$741,000 net. The weakness of Canadian Pacific was a disappointing factor in view of the early cables, which reported Servia ment for May, which showed a gain of \$1.125,000 gross and \$741,000 net. The weakness of Canadian Pacific was a disappointing factor in view of the early cables, which reported Servia may a disappointing factor in view of the early cables, which reported Servia may are parts of the belt and actual rains and cooler weather in the was a disappointing factor in view of the early cables, which reported Servia may be a served by the control of the early cables, which reported the parts of

MISCELLANEOUS MARKETS

Cotton Market

(From E. F. Hutton & Co.'s private wire)

NEW YORK. June 30.—Weather conditions were practically ideal again today and crop advices were favorable as a whole, but values held stubbornly. The strength of July was a steadying feature and rumors that further shipments of between 15,000 and 20,000 bales will be made from here caused uneasiness among shorts in that option. Principal southern spot markets show little doing in the actual, with prices practically unchanged. The anti-future legislation proposed at Washington came in for general discussion and was no doubt a factor in the limited volume of business.

Stot closed quiet, 10 points lower. Middling uplands, 12.40c; de gulf, 12.65c. Sales, 211 bales.

COTTON FUTURES
