

WATERZERS ENJOY MANY PLEASURES FROM THE TRIP

Indianans Visit Fair Site, Presidio and Other Points, Take in Orpheum and Attend Banquet

DEPART TOMORROW FOR GARDEN CITY Comments Made on Trip Show Improvement in Cars and Materials

Refreshed after their night of rest, the Hoosier tourists, who were welcomed into San Francisco Monday after they had completed their long journey of 3,500 miles by automobile across the continent from Indianapolis, spent yesterday in enjoying themselves in a series of entertainments at the hands of the local reception committee.

In the morning the members of the party were refreshed up by a plunge in the salt water tank at the Olympic club. This was followed by a luncheon at the St. Francis as guests of the Panama-Pacific Exposition company and a tour of the 1913 fair site and Golden Gate park.

Following their Orpheum show the Indianans were taken to a downtown cafe, where supper was served and a very interesting program termed "San Francisco's Future" was given. The entertainment of the evening was handled by the San Francisco Motor Car Dealers' association. J. A. Marsh, president of the organization, and E. S. Martin superintended the arrangements.

Today the visitors will spend the day as they desire. They will not be hampered by committees and delegations. Tomorrow the party will motor from this city to San Jose and Del Monte.

WATZER WINS TEACHER ISLAND JOB IS UNFILLED

Mrs. Edward Senter, who started for Philippines as teacher and fell in love with and married ship's second engineer.

made by Empire car No. 19 in the run. "The car is such a little dandy," said Mr. McFarlane. "It was not one bit difficult during the entire trip. The engine is in excellent condition and I was really surprised when I made a careful examination on its arrival in Oakland, to find it in perfect condition. It certainly showed its worth during the long journey."

"Eddie" Edburn, publicity expert and advertising manager for the Apperson Automobile company, was one of the prominent members who journeyed over the mountains and deserts in one of the two Apperson entries. Edburn also acted as assistant chairman of the tour and assisted W. McKay White in his difficult job of office work.

One of the best achievements of the tour was the showing made by the two American underling cars. These machines displayed their merit when they climbed over the difficult mountain roads and the sandy deserts with ease. Both cars are on display at the American Motors California company, 476 Golden Gate avenue.

When July 14 the made in Indiana automobiles, which traveled from Indiana to this city, reached the summit of the continental divide, they had overcome a long series of obstacles and furnished proof of the great efficiency of the motor car of today.

Through eastern Colorado the journey was a continuous hill climb and the rear wheels of the car were steadily pressed on, demonstrating the superiority of the automobile over the horse for trans-mountain travel.

IMPROVEMENTS ON WATER FRONT TO BE RESUMED SOON

Urgent Need of Wharfage Facilities Prompts Action on Part of Those in Charge of Work

OAKLAND, July 29.—Plans are being made to resume the work of the water front improvements as quickly as possible, as there is urgent need for better wharfage facilities.

Oakland will have between \$400,000 and \$500,000 to complete the work already under way, for in addition to the \$243,000 worth of bonds just voted there is \$20,000 due from the San Francisco-Oakland Terminal Railways for its share of the Fourteenth street extension across the fill to the seawall, and there is also the sum of \$53,000 at present tied up in litigation over water front rights.

The quays will be practically completed. A channel is yet to be dredged in front of it and a wharf and approach constructed at the western end for the garbage boats. The Signal Steamship company, which has the contract for conveying the garbage far out to sea, has filed a complaint in regard to the present dangerous condition of the old Broadway wharf, where the refuse is now loaded into the barges.

Along the western water front considerable dredging is required, as well as the construction of warehouses at the three apron wharves. A portion of the belt line railroad, controlled by the municipality, is also to be built paralleling the quays wall.

The Livingston street wharf is now fully completed and is being used by the manufacturers and merchants of East Oakland.

HEALTH DIRECTOR TO BE SELECTED

Ten Physicians in as Many Cities to Quiz Applicants for Position in Oakland

OAKLAND, July 29.—Ten physicians and surgeons in the federal government service were named as special examiners tonight by the civil service commission, to have charge of examinations to be held in different cities of the United States to select a health director for this city, while six prominent physicians of the bay cities were appointed to supervise the local examination, which is to commence tomorrow.

The federal physicians selected by the commission and the cities in which examinations will be held tomorrow and Thursday are as follows: Dr. T. B. Beatty, Salt Lake City; Surgeon C. E. Banks, Portland, Me.; Surgeon C. H. Lavinder, Savannah, Ga.; Surgeon J. O. Cobb, Chicago, Ill.; Dr. W. Austin, Detroit, Mich.; John P. Anderson, Washington, D. C.; Surgeon C. W. Stiles, Wilmington, N. C.; Surgeon in charge, States Island, N. Y.; Surgeon B. J. Lloyd, Seattle, Wash.; G. M. Guiteras, Galveston, Tex.

Fifteen men will take the examination in these different cities, according to the applications filed with Frank Colbourn, assistant secretary. It was arranged to hold the different examinations in order to make it possible for as many applicants as possible to seek the position.

The physicians who will have charge of the examination to be held in this city tomorrow and Thursday, in which 15 men will also participate, as announced this evening are as follows: Dr. G. W. Shaw, Dr. W. A. Sawyer and Prof. Charles G. Hyde, Berkeley; Doctor Snow, secretary of the state board of health, Sacramento, and Dr. H. G. Thomas and Dr. E. N. Ewer, city health officer, Oakland.

These men will co-operate with the civil service board in holding the examination. The position of health director pays a salary of from \$2,000 to \$4,000 a year and is one of the most important offices in the city.

THIRSTY MAN DRIVES MACHINE INTO SALOON

When Backing Out Loses Control—Police Arrest Frank Cousins, the Offender

OAKLAND, July 29.—Frank Cousins, in quest of a drink, drove his automobile through the swinging doors of P. Haggrah's saloon, Twelfth street and Broadway, at 4 o'clock this afternoon and demanded refreshments.

The startled bar tenders dropped bottles and glasses in surprise, while the patrons made a scurry for shelter. Not pleased at the reception, Cousins started to back out of the establishment.

Half way across the sidewalk Cousins lost control of the machine, which started on a wild career, narrowly missing two women.

John L. Lekas, aeroplane ferry promoter, jumped into the machine and shut the power off just in time to prevent it hitting a passing wagon. Cousins was arrested.

Solemon Biba, 312 Maple street, reported to the police yesterday that a valuable sapphire pin had been stolen from his home.

NICARAGUAN TREATY STIRS SENATORS' IRE

Borah and Clarke, in Foreign Relations Committee, Bitterly Oppose Secretary Bryan's Plan

WASHINGTON, July 29.—The Nicaraguan treaty proposing an American protectorate was the center of a stormy session of the senate foreign relations committee today. Senators Borah and Clarke took a pronounced stand against it and indicated they would carry their opposition to the senate. The terms, modeled after the so called Platt amendment, proposed by Secretary Bryan, would not prohibit Nicaragua joining the Central American union. Action was postponed until Saturday.

KANSAS CITY, Mo., July 29.—Dynamite was used here today in an attempt to blow up the main flow line that carries the water supply of Kansas City, Kan., from the Quindaro pumping station, five miles west. Had the attempt been successful it would have cut off the water supply of Kansas City, Kan.

Final Cleanup of Our Entire Stock of Summer Suits \$15 to \$30 Values for \$10.00. HESS (Of Harris & Hess, Notary Public) Room 709, HEARST BUILDING Phone Kearny 237 Residence Phone West 9155

PRESIDENT WHEELER TO BE IN EUROPE 6 MONTHS

Head of University Decides to Take Long Rest From Arduous Duties

BERKELEY, July 29.—President Benjamin Ide Wheeler of the University of California will not return from abroad this fall to resume his duties, but will take advantage of the six months' leave of absence granted him by the regents prior to his departure last May.

He will remain in Europe until late in the year, not returning to Berkeley until January, according to acting President David P. Barrows. "President Wheeler went abroad for a summer vacation," Doctor Barrows said. "He was very weary and much in need of rest, so he had not taken a vacation for several years. Before he left the regents, not on his request, granted him a leave of absence for six months."

"President Wheeler at that time did not anticipate staying abroad longer than the summer months, but when his physician at Naumburg, Germany, advised him to undergo treatment for nervous fatigue he decided not to return until January."

"Letters received from him indicate that he thought best to take the full leave."

WOMAN SEVERELY BURNED BY EXPLOSION OF LAMP

Mrs. B. R. French Also Loses Home, Firemen Being Unable to Save It

OAKLAND, July 29.—Mrs. B. R. French, 309 East Eighth street, was severely burned about the hands, face and breast this morning when a kerosene oil lamp she was carrying exploded, setting fire to her night dress and causing the destruction of her home, a four room cottage, already provided for in the bond issue.

In addition to salaries, supplies and maintenance, the measure will provide for the equipment of the new schools under construction, already provided for in the bond issue.

An indication of the growth of the city is given in the fact that the sum expended for books in schools 10 years ago was only \$23,000.

Other members of the family, aroused by her screams, carried her to safety from the room, which soon became a mass of flames. Before more than a few personal effects could be saved the fire was beyond control. The fire department could do nothing beyond confine the fire to the one dwelling. The house was owned by J. F. Nunes.

SCHOOL EXPENSES FOR YEAR TO EXCEED MILLION

Measure of Finance Provides for Maintenance of Buildings Not Included in Bond Issue

OAKLAND, July 28.—The budget of the board of education for this year will exceed \$1,000,000, according to the estimate of John Forrest, commissioner of revenue and finance and ex-officio school director.

Before more than a few personal effects could be saved the fire was beyond control. The fire department could do nothing beyond confine the fire to the one dwelling.

The house was owned by J. F. Nunes.

THREE TINY TOTS LEFT HUNGRY BY PARENTS

Mother Writes Postal Saying They Lacked Money to Take Them Away

OAKLAND, July 29.—Three children, the eldest aged 7, were left behind by their parents, Mr. and Mrs. O. F. Vail, at the Hermosa Vista apartments, 1530 Grove street, and were found today by Mrs. G. L. Hoffman, landlady, who is caring for them.

The Vails left yesterday on a steamer for Seattle, where Vail will seek employment. In a postcard received by Mrs. Hoffman today the mother of the children said that she and her husband had but \$7.50 when they left Oakland and were unable to take the children with them.

OAKLAND BREVITIES

William Woodhead, president of the Associated Ad Club of America, was the guest of honor at the luncheon of the members of the Oakland Ad club yesterday noon in the Forum at the Hotel Hamilton.

Chief of Police Peterson has received a telegram from C. H. Troyer, chief of police of Duluth, Minn., that the father of George Decester, who killed himself by drinking a bottle of carbolic acid at the head of Lake Merritt Friday, was on his way to this city to claim the remains.

Parishioners of St. Patrick's parish, West Oakland, are preparing to welcome the new pastor, Rev. Maurice J. Barry, pastor of St. John's church in Heidelberg, successor to the late Rev. J. B. McCall. The members of the parish will meet Friday evening to arrange a program.

UNION OIL EMPLOYEE IS KILLED IN EXPLOSION

Oil Tank Car Which He Was Cleaning Ignited by Defective Wiring, 'Tis Said

RICHMOND, July 29.—F. C. Carr, an employe of the Union Oil works at Oleum, near here, was burned to death at 5 o'clock this afternoon when an oil tank car which he had entered to clean exploded.

Dr. C. L. Blake of Richmond was summoned but the man was dead before he arrived.

Carr had been sent into the car, which had contained gasoline. An electric fan had also been placed inside to drive out the gas so that Carr might not be asphyxiated, and it is thought that the explosion was caused by defective wiring in the electric fan apparatus.

ATCHCOCK MILITARY ACADEMY

SAN RAFAEL THE ONLY SCHOOL IN THE WEST HAVING COMPLETE BOOKS FOR EACH BOY

Accredited; large campus gymnasium, indoor range, thirty-sixth academic year begins August 18, 1913. Cadets may enter any time of the year. Summer camp on Elmer, June to August. For illustrations catalogue apply to PRINCIPALS, REX W. SHERER and S. J. HALLEY

St. Matthews School EPISCOPAL A military school for boys of 10 to 18. Located in the foothills, one mile from Burlingame. High, dry, healthful. Separate school (Tyler Hall) for younger boys. Fully accredited to the universities. Fall term begins Thursday, August 21, 1913. San Francisco office, 116 Chronicle building. Telephone, Douglas 2149. Send for catalogue. REV. WM. A. BREWER, Rector. Burlingame, California

Castileja Home and Day School for Girls. Accredited to colleges East, West, Grammer and Primary Departments. Four new buildings. Extensive grounds. SNELL SEMINARY 2721 Channing Way, Berkeley. Boarding and Day School, founded 1874. From Primary to College Entrance. Aug. 12, 1913. ADELAIDE SMITH, Principal.

HEADS BUSINESS COLLEGE 425 McALLISTER STREET

Revised downward—automobile tariffs—by the economical Ford. Many members of Congress own Ford cars—purchased, not so much because of its surprisingly low first cost, as because of its wonderfully low cost of maintenance—and its simplicity. Here's the test: 300,000 Fords now in service. Rumaboot, \$525; Touring Car, \$600; Town Car, \$800—f. o. b. Detroit, with all equipment. Get catalogue and all particulars from Ford Motor Company, 100 Van Ness Avenue, San Francisco.

PATHFINDER MAKES SPLENDID RECORD The Pathfinder car driven by Robert Speigle was one of the most interesting machines in the tour. This car left Indianapolis with its hood locked for the purpose of demonstrating that it was not necessary to tamper with the engine during the trip. At each important stop experts were engaged to examine the machine and make affidavits of their findings. The machine is on display at the local Pathfinder agency in Geary street near Van Ness avenue.

WATERZERS ENJOY MANY PLEASURES FROM THE TRIP Indianans Visit Fair Site, Presidio and Other Points, Take in Orpheum and Attend Banquet DEPART TOMORROW FOR GARDEN CITY Comments Made on Trip Show Improvement in Cars and Materials Refreshed after their night of rest, the Hoosier tourists, who were welcomed into San Francisco Monday after they had completed their long journey of 3,500 miles by automobile across the continent from Indianapolis, spent yesterday in enjoying themselves in a series of entertainments at the hands of the local reception committee. In the morning the members of the party were refreshed up by a plunge in the salt water tank at the Olympic club. This was followed by a luncheon at the St. Francis as guests of the Panama-Pacific Exposition company and a tour of the 1913 fair site and Golden Gate park. In the evening they were the guests of the San Francisco Motor Car Dealers' association at a theater party in the Orpheum, followed by a midnight supper at a downtown cafe. Captain Asher C. Baker, director of exhibits of the exposition company, acted as guide. The trip proved of great interest to the pathfinders and they asked many questions concerning the bay, its islands, the Presidio and fortifications and the ocean boulevard. AUTOMOBILE EXHIBIT SITE "We have a site selected for the automobile exhibit building," said Captain Baker. "We want you gentlemen to appropriate the sum of \$50,000 for such a structure. The site is located next to the concession section. But we can not hold the place open after January 1, 1914. Elwood Haynes stated that the Indiana manufacturers were willing boosters, but it was necessary for the matter to be taken up by the Automobile Association of America. He said he had no doubt but that the manufacturers would willingly subscribe. The trip through the Presidio and Golden Gate park and along the ocean boulevard was one of delight. Despite the fact that the mountains and deserts the visitors thoroughly enjoyed themselves. As one stated, "It was a relief from the sun scorched desert through which we traveled for days." Following their Orpheum show the Indianans were taken to a downtown cafe, where supper was served and a very interesting program termed "San Francisco's Future" was given. The entertainment of the evening was handled by the San Francisco Motor Car Dealers' association. J. A. Marsh, president of the organization, and E. S. Martin superintended the arrangements. Today the visitors will spend the day as they desire. They will not be hampered by committees and delegations. Tomorrow the party will motor from this city to San Jose and Del Monte. EFFICIENCY TEST MADE When July 14 the made in Indiana automobiles, which traveled from Indiana to this city, reached the summit of the continental divide, they had overcome a long series of obstacles and furnished proof of the great efficiency of the motor car of today. Although the thermometer registered 112 in the shade during part of the journey over the prairies and arid tracts of western Kansas, and the water fairly boiled in the radiators, the rearwheels of the car were steadily pressed on, demonstrating the superiority of the automobile over the horse for trans-mountain travel. The road from Denver through Round pass, leading to the summit of continental divide, is a steady up grade climb of over four miles, the grade averaging 12 to 25 per cent—a severe test for any vehicle. ELWOOD HAYNES PLEASUED No one was more pleased over the ease with which the cars mastered the hard climb than Elwood Haynes, father of the American automobile. Not only did the car in which he was riding make the trip without a falter, but did it carrying a load of 5,250 pounds. "This is the proudest moment of my life," said Elwood Haynes as he backed back from the crest of the divide at the string of cars steadily mounting up after him. Twenty years ago I was showered with gifts and sarcasm because I ventured to predict that out of the crude horseless carriage which I had succeeded in building would grow strong, road worthy by an hour would some day scale mountains, annihilate distances and become man's greatest mode of conveyance."
