TRAIN WAS GOING 60 MILES AN HOUR

"Unless there are other and better reasons to be given for this policy we fear that England has cut rather a bad figure over the business and will lose something far more valuable than the orders she might have gained by a hearty look in at Uncle Sam's big world's show."

United States Has Recognized This Right, Together With Principle of Indemnity

FACTIOUS PRESS WANTS RETALIATION

One Suggestion Is to Drive American Missionaries Out of Korea

TOKYO, Aug. 15.—It was announced here today that the United States has intimated readiness to favor in principle the payment of an indemnity to Japanese subjects who have been affected by the California alien land ownership legislation. The United States also recognizes the right of Japan to adopt a measure similar to the California bill.

From intimations given in official circles it appears unlikely that Japan will adopt either idea. What Japan desires is permanent friendly relations with the United States and therefore she seeks fundamental solution of the difficulty. If the United States has no solution to offer, it is stated, Japan will probably allow the matter to remain as a grievance.

The public feeling of humiliation in this connection continues to be fanned by inflammatory comments in the newspapers. The Hochi Shimbun, which is often sensational, urges as an object lesson to the United States, the expulsion of American missionaries from Korea, on the ground that they are undesirable aliens.

Secrecy Is Maintained WASHINGTON, Aug. 15.—While the officials consistently adhere to their refusal to make any public statement concerning the negotiations between Japan and the United States regarding the California alien land law, it is understood that in its efforts to deal amicably with the Japanese, the state department had indicated a purpose to facilitate any judicial proceedings that may be brought to test the legislation.

The proposal, it is said, does not go as far as that made by President Roosevelt in the Japanese school cases, where the United States district attorney was charged to attack the legality of the action of the San Francisco school board, but does commit the United States to the extension of all reasonable aid in the prosecution of test cases.

A suggestion that Japanese residents in California who may suffer from the application of the alien land act be indemnified has been made on account of the precedent established in the case of the Chinese who were killed at Rock Springs, Wyo., years ago, and the Italians who were lynched in New Orleans during the Mafia riots. It is pointed out, however, that the United States probably would guarantee Japanese land owners against loss only in the event that the Japanese government compensated for property they were obliged to dispose of under the Webb-Bloodgood act.

In addition three of the old members will be back from leave of absence. These are Miss Adelaide Herrmann of the German department, who has spent a year abroad, studying most of the time in Berlin; Miss Hettie Edge of the department of mathematics, who has been studying in Europe and the east, and Dr. Kate Brouseau, instructor in psychology, who has been in Chicago and New York for a year, perfecting herself in her work.

The new teachers are Miss Ada Richmond and Miss Bertha Kitchell, from the University of Wisconsin, who will instruct classes in chemistry; Mrs. Daisy Arville of the University of Kansas, teacher in French; Mrs. Martha G. Casner of Olivet college, teacher of biblical history; Mrs. Hattie Ege of the department of literature; Miss Margaret Widmer, University of California, teacher in biology, and Dr. Jessie M. Lyons, University of Chicago, instructor in English.

Among the new departures is the issuing of a new bulletin announcing that students may take majors and minors in music and secure an academic degree.

Nonresident students eligible to enter the school may take the music courses.

MOUNT TAMALPAIS
SCENE OF ANOTHER
ALARMING BLAZE

An Area of Twenty Acres on the North Side Burned Over in Three Hours

NO AVAILABLE WATER SUPPLY

At One Time Repetition of Previous Big Fire Was Feared

MILL VALLEY, Aug. 15.—Threatening to become a conflagration as serious as that which recently devastated Mount Tamalpais, a forest fire which broke out this afternoon on the north side of the mountain, at the bottom of Warners canyon, burned over an area of 20 acres, but was finally extinguished after three hours of hard fighting.

The origin of the blaze is not known. HUNDREDS FIGHT FLAMES

More than 200 men, gathered from Mill Valley and around this district, battled with the flames desperately, fearing that the fire would get beyond control, owing to a high wind which prevailed all afternoon.

The fire fighters were led by Mayor Harvey B. Klyce of this place. William Bush rushed 25 men from the Mount Tamalpais railroad roundhouse.

NO WATER AVAILABLE

There was no water available, and the men engaged in combating the flames were obliged to resort to the old method of cutting away paths and backfiring to stop the progress of the blaze.

At one time it seemed certain that a big grove of redwoods close to Warners ridge was doomed, but the fire was checked on the very edge of the grove.

The residence of Doctor Warner, after whom the ridge is named, barely escaped being consumed.

ANOTHER GRASS FIRE

Almost simultaneously with the forest fire on Warners ridge a grass fire on Marin heights, back of the Tamalpais Union high school, was discovered, but was extinguished after burning over seven acres.

Volunteers from Mill Valley and Alto fought the flames. They had plenty of water, however, and experienced no difficulty.

President Lynch charged that the action taken by the Pittsburg union was a movement to disrupt the local treasury and throw the I. T. U. into the hands of a receiver.

He spoke in strong terms.

President Grimes of Pittsburg union No. 7, the next speaker, charged that Daley, the I. T. U. organizer, and others tried to get evidence against him with a secret telephonic device and denounced President Lynch vigorously.

PITTSBURG CASE
OCCUPIES TIME
OF TYPO UNION

Famous Controversy Hinged Upon Matter of Principle Involving Small Sum

DELEGATE ATTACKS SENATOR OLIVER

President Lynch of I. T. U. Makes Vigorous Reply in Convention

NASHVILLE, Tenn., Aug. 15.—The eight hour law was disregarded by the International Typographical union convention today when the delegates remained in continuous session from 9:30 a. m. to 8:15 p. m.—3 hours and 45 minutes.

At midday luncheon was served to the delegates at their desks.

The one big feature of the long session was the hearing and rejection of the Pittsburg appeal.

The names of United States Senators Oliver and Penrose of Pennsylvania and the alleged use of a secret telephonic device figured in the debate.

As on all previous occasions, the administration when the appeal was rejected, and the executive council was sustained by a vote of 183 to 54.

THE PITTSBURG CASE

The "Pittsburg case," long famous in labor circles, hinged on a matter of principle, and involved a financial consideration of about \$100. It grew out of the sending of an organizer to Pittsburg by the executive council, acting, it is claimed, under a contract made by the Pittsburg local.

The contract, it was alleged, was abrogated, and the executive council refused to pay the expenses of the organizer, charging the sum to the Pittsburg local, which also refused to pay. The executive council then denied the Pittsburg union the privileges and benefits of the organization.

The case was taken to the federal court by the Pittsburg union, but the court refused to consider the case until it was seen whether or not it could be settled by the International Typographical union.

NIBLOCH'S CHARGES

In the discussion Delegate Charles Nibloch asserted that the untimely of five Pittsburg newspapers was due to Senator Oliver, not to the I. T. U. organizers. He declared that Senator Oliver, owner of three Pittsburg newspapers, had aspirations to be elected United States senator, and that Senator Penrose advised him he could not be elected until he had made friends with union labor. He said Mr. Nibloch, "Senator Oliver utilized his papers and subsequently was elected United States senator."

Delegate Nibloch further asserted that the executive council violated section 175 of the laws of the order, and that the privilege of passing upon applicants for membership was taken away from the Pittsburg local by the executive council and President Lynch.

LYNCH REPLIES

Resigning the chair, President Lynch replied to Delegate Nibloch. He denied that Senators Oliver and Penrose were interested in obtaining the Pittsburg newspapers for the reasons asserted, and said that at the time Mr. Oliver was not a candidate for the United States senate.

President Lynch charged that the action taken by the Pittsburg union was a movement to disrupt the local treasury and throw the I. T. U. into the hands of a receiver.

He spoke in strong terms.

President Grimes of Pittsburg union No. 7, the next speaker, charged that Daley, the I. T. U. organizer, and others tried to get evidence against him with a secret telephonic device and denounced President Lynch vigorously.

The convention decided to conclude its deliberations tomorrow at 11 a. m.
