MEXICO CITY PLAN  
FORCE U. S. INTERVENTION

swings all the foreign trade to con-

United States.

YANKEE CAPITAL UNWELCOME  
HUERTA REVIVES '48  
PACT TO END ROW

WASHINGTON, Sept. 1.—An old  
treaty in disuse 65 years probably  
will be invoked by the Mexican gov-  
ernment in the present controversy  
between President Huerta and the  
United States. It was learned from  
an authoritative source today that  
the Mexican ministry is considering  
the advisability of making representa-  
tions to the state department upon  
this treaty.

The covenant known as the Guada-  
lupe Hidalgo treaty of 1848 provides  
that in event of disagreement be-  
tween the contracting parties, commis-  
sioners should be appointed to arbitrate.  
Mexico probably will make such a de-  
mand.

This is the first occasion for re-  
course to the treaty, and, through the  
obscurity surrounding the instru-  
ment, officials in the state depart-  
ment, if they ever knew, that such a  
treaty existed.

COMMISSION PROVIDED FOR  
The following clause is taken from  
the treaty:

"Article 21.—If unhappily any dis-  
agreement should hereafter arise be-  
tween the contracting parties, commis-  
sioners should be appointed to arbitrate.  
Mexico probably will make such a de-  
mand."

FRANK B. KELLOGG OF ST. PAUL, MINN.,  
president of the association, delivered  
an address on treaty making  
powers in which he referred particu-  
larly to the California anti-land bill,  
which was designed to prevent  
Japanese from owning land in Cali-  
fornia.

Mr. Kellogg contended that the  
question of the admission of aliens  
is a national question and comes un-  
der the authority of the federal gov-  
ernment. If there is no implied im-  
plications to treaty making power, he  
said, it might result in the disruption  
of the union.

He pointed out that the real dan-  
ger lies in the fact that state gov-  
ernments may claim the treaty mak-  
ing power and place the nation in a  
hostile attitude toward the federal  
government.

One of the most important addresses  
of the day, and probably of the ses-  
sion, was that of Lord Haldane, lord  
chancellor of England, on "Higher  
Nationality," this being a study of the  
titles of law.

Chief Justice White of the United  
States supreme court, introduced Lord  
Haldane, who was accompanied to the  
rostrum by Joseph Choate, former  
United States ambassador to England.

At a session in McGill university  
honorary degrees were conferred upon  
Chief Justice White, Alton B. Parker,  
Lord Haldane, Premier Borden and  
Maitre Laboré, the batonier of the  
French Bar association; William H.  
Taft; Hon. Charles Doherty, Canadian  
minister of justice; Joseph E. Choate;  
Frank B. Kellogg, formerly famous in  
the United States as "trust buster";  
and United States Senator Elihu Root.

The anti-white slavery fund of the  
league is to be benefited by the two  
performances.

There will be a section of vaude-  
ville events also on the program,  
which will include character songs  
by Florence Dunnock, dancings by  
Elsie Wormser, Dorothy Dickens and  
Marie Allen, and an address by Rev.  
Charles F. Aked.

BICYCLE TEAM RACE  
The California Associated Cycling  
Clubs announced this morning that a  
six hour team race will be pulled  
off by the association at the Golden  
Gate park stadium September 17.  
Teams have entered from the New  
Century, Acme, Garden City and Sea  
City clubs.

MRS. "BOB" FOWLER,  
BRIDE OF BIRDMAN

umphed Over Clouds,  
Falls for Love God

OAKLAND WIDOW  
IS FLYER'S BRIDE

Weds Mrs. Josephine H.  
Conway in Kansas City  
Ceremony

Robert G. Fowler, the California  
boy who some time since achieved  
fame by his courageous attempt to  
negotiate a transcontinental flight  
that involved flying over the Sierras,  
and who is the winner of countless  
prizes as a conqueror of the air, has  
met one opponent that he could not  
beat.

Cupid engaged him in a  
match and Dan Cupid won.  
From Kansas City came word today  
of Fowler's marriage in that city on  
Saturday, August 30, to Mrs. Josephine  
H. Conway, widow of Edward  
Conway of Oakland, who died three  
years ago.

The wedding was quietly celebrated  
and no announcement of the nuptials  
reached the coast until today, when  
the news was received at Fowler's  
home in Ghirso and by many of the  
friends of both the young people in  
this city.

Soon after their acquaintance began  
Mrs. Conway accepted Fowler's invita-  
tion to make a flight with him in  
his aeroplane, and within a few  
weeks had become his flying com-  
panion on many trips in the vicinity  
of Kansas City and Chicago.

When Fowler made his most recent  
trip to San Francisco, a few months  
ago it was timed to coincide with a  
visit that Mrs. Conway was making  
to this city, and here Fowler's wooing  
was continued, and the two made sev-  
eral flights together.

But Mrs. Conway had to return to  
Kansas City, Fowler made the trip,  
too, but he made a considerable por-  
tion of it by air line, taking steamer  
to Panama and then flying along the  
Panama canal across the isthmus.  
Then he hurried once more to Kansas  
City. That was only a few weeks  
ago.

Now comes the announcement of  
the quiet wedding.  
Mrs. and Mr. Fowler expect to leave  
Kansas City September 15 for a  
honeymoon trip by automobile to San  
Francisco.

Mrs. Fowler is the daughter of  
Frederick Hughes, proprietor of a  
large paint manufacturing concern in  
Kansas City. Fowler's parents live in  
Ghirso, and it is there he makes his  
home when free from flying engage-  
ments.

PREDICTS DRY  
WEATHER SPELL

Rev. J. S. Ricard of Santa  
Clara University Makes  
Announcement

SANTA CLARA, Sept. 1.—The fol-  
lowing announcement in regard to the  
weather and planetary phenomena for  
September was given out by Rev. J.  
S. Ricard of the Santa Clara univer-  
sity observatory:

August 30 to September 2, 5 to 8,  
11 to 14, 17 to 22, 24 to 28; October 1  
to 5. These disturbances will consist  
of barometric depressions, accom-  
panied by warm waves and some rain  
when the cool waves set in. On the  
whole, September is going to be a  
warm and rather dry month.

There will be a heliocentric oppo-  
sition of Mercury with Jupiter, Sep-  
tember 2 to 3; a heliocentric conjunc-  
tion of Venus with Saturn, Septem-  
ber 3; a heliocentric opposition of  
Mercury with the earth, September 14,  
and a heliocentric opposition of Mer-  
cury with Jupiter, October 1.

A novel feature in the arrangements  
for the entertainment of the visitors  
is an immense flower bed now under  
preparation in Golden Gate park, rep-  
resenting the emblem of the order,  
bordered by words of welcome to the  
delegates.

The elaborate program, which has  
been prepared by a committee com-  
posed of representatives from all San  
Francisco and other bay city lodges,  
includes a grand "Kommers" on Mon-  
day at the German home, the regular  
session of the national grand lodge on  
Tuesday, September 16, a grand ter-  
tiary party at the Tivoli on Wednesday  
and a reception given by the Alameda  
county committee on Thursday.

Mayor James Rolph Jr. and Mrs.  
Rolph will grace the grand banquet,  
to be given on Saturday, Septem-  
ber 20, 1913, at which prominent  
officials of the exposition will also  
be present.

The final event will take place on  
Sunday, September 21, this being a  
grand ball given as a farewell to the  
visiting delegates at the German  
home, corner Turk and Polk streets.  
Automobile rides through the city  
and to the exposition grounds form  
another feature of the arrangements  
that have been made to render the  
sojourn of the delegates in San Fran-  
cisco as pleasant as possible.

Thrown by Pet Horse;  
Dies From Injuries

Frederick Lessa, residing at 935  
Oak street, former president of the  
C. B. Rode Draying company, re-  
ceived a fatal fracture of the skull in-  
duced at the park stadium by his  
pet horse, Bessie, which he was at-  
tempting to mount. He received a  
fatal fracture of the skull in addi-  
tion to other injuries.

Several weeks ago Lessa narrowly  
escaped injury while riding the same  
animal. Lessa was married. He was  
59 years old a native of Germany.

AGITATOR TO FIGHT  
PRISON SENTENCE

George E. White Appeals  
to Father in Effort to  
Escape San Quentin

George E. White Jr., under sentence  
to serve 18 months on a charge of  
being an international agitator, will  
be taken to San Quentin tomorrow  
morning by Lieutenant W. S. Potter,  
U. S. A.

White today communicated with his  
father, George E. White, a hardware  
merchant of Los Angeles, asking him  
for aid in fighting the case.

White claims the United States had  
no authority to deport him from  
China. He was brought here Satur-  
day on the transport Thomas. Ac-  
cording to his story he was arrested  
for joining the imperialist army in  
Shanghai, China.

ATTRACTS HALPIN

Tom Halpin, the Canadian national

the city yesterday that Halpin is  
coming to the coast, and an invita-  
tion was sent him to compete in the  
race. An acceptance has been re-  
ceived and he will be one of the many  
real stars who will be seen in action.

U. OF C. PROFESSOR  
FALLS FROM TRAIN

Former Head of Italian De-

Escape From Death

As the result of falling from a  
Pennsylvania train going 50 miles an  
hour Sunday morning, near Perry-  
man, Md., Prof. John S. Childs of  
Lakewood, N. J., formerly head of the  
Italian department of the University  
of California, is in a serious condition  
at the Mercy hospital in Baltimore.

That Professor Childs was not  
killed outright is considered remark-  
able. He was ill and had leaned out  
of the window of the car, lost his bal-  
ance and fell.

Dropping on the additional tracks,  
he rolled over to an embankment and  
down it about 15 feet, landing in  
gully. Doctors at the hospital say  
he will probably recover.

Doctor of Cruiser  
Saves Liner Mate

Chief Officer Hansen of the Kosmos  
liner Sakkarah, which arrived today  
from Antwerp, owes his life to the  
fact that the United States cruiser  
Denyer was in Corinto harbor when  
the Sakkarah arrived there and that  
the Denyer surgeon had the skill and  
the nerve to perform a serious opera-  
tion on short notice.

Hansen became sick the day after  
the liner left Iquique. The Sakkarah  
carries no doctor, and, although Cap-  
tain Kip, the ship commander, did  
what he could to relieve him, the  
case was too complicated for amateur  
surgery. When the steamer arrived  
at Corinto Hansen had not slept for  
eight days and nights. He was weak  
and delirious.

Dr. K. Melhorn of the cruiser  
responded to the call for medical aid,  
working over the sick man for hours,  
and as a last resort performed an  
operation which brought immediate  
relief.

MOTHER AND CHILD  
ARE CUT BY GLASS

Mrs. Mary Woods Rushed  
to Hospital as Result of  
Fall Through Window

Screams of a woman and child  
awakened the select neighborhood of  
Cherry and California streets early  
today and frightened residents sent  
a hurry call to the Richmond police  
station.

Patrolmen Russell and Ludolph re-  
sponded and at 433 Cherry street  
found Mrs. Mary Woods, 30 years  
of age, standing in her hallway  
bleeding from several incised wounds  
on the right arm. Her 5 year old  
daughter's clothes were covered with  
blood.

They were taken to the park emer-  
gency hospital, but the woman did  
not know how she came to be in-  
jured. Detective Thomas Furman on  
investigation later discovered that  
she had "accidentally" fallen against  
one of the front windows and was  
hurt by the broken glass. The child,  
on hearing screams, rushed to its  
mother and thus became covered with  
blood, though not injured.

WIFE BEATER GETS  
TROUNCING FROM  
HUSKY WOMAN

Muscular Mrs. Metzle, the  
Landlady, Puts Roomer  
Down for Count

Mrs. Metzle is the landlady of the  
house where Lee and his wife live.  
She is a woman of large stature and  
was attracted by the cries of Mrs. Lee.  
She rushed down and found Lee in  
the act of striking his wife.

"What do you mean, you big brute?"  
cried Mrs. Metzle, delivering a smag-  
gering uppercut to Lee's jaw. Lee stag-  
gered back against the wall and then  
came back at his feminine antagonist,  
but was again sent to the wall and  
then floored, this time nearly taking  
the count.

Mrs. Metzle called in neighbors, Mr.  
and Mrs. W. O. Brock, 903 Grove  
street, and these two with Mrs. Metzle  
took Mrs. Lee to the receiving hospi-  
tal to be treated for contusions.

Steward Cona said that her in-  
juries will not prove fatal, but it is  
believed that the timely interference  
of Mrs. Metzle saved the woman  
from serious injury at her husband's  
hands. Mrs. Metzle modestly dis-  
claimed any credit, but said that she  
would not see an innocent and cri-  
ppled woman abused by any man.

Mrs. Lee is 35 years old and has  
suffered from rheumatism until she  
has almost lost the use of her limbs.  
Lee is said to be on his way to Los  
Angeles. He skipped out when Mrs.  
Metzle called the neighbors.

He took an automobile, which his  
wife says is the sole relic of a for-  
tune of \$10,000 collected in Seattle  
as a builder. The money was dissi-  
pated in drink.

FOURTEEN TAKEN  
IN GAMBLING RAID

Fourteen men were arrested for  
gambling last night in a second raid  
on 472 and 480 Seventh by Ser-  
geant Ahern of the Oakland police  
department, in charge of a posse con-  
sisting of Corporal Smith and Patrol-  
men Lyons, Pratt and Pullman.

Albert L. Barron, arrested at the  
first place, was charged with being  
the game keeper. He was today on  
\$100 bail. Oscar Dosted, arrested at  
480 Seventh street, was similarly  
charged and released on bail.

The 15 players were released on \$50  
bail each.  
Percentage poker was the game the  
men are charged with playing.

Letter Carriers to  
Be Knights' Guests

The Knights of Columbus will be  
hosts tomorrow night at their club-  
rooms, 150 Golden Gate avenue, of  
the delegates to the Letter Carriers'  
association.

Lecturer W. O. Patch will be in  
charge of the entertainment that has  
been arranged, and an invitation has  
been extended to Secretary Franklin  
K. Lane to be present.

For Thursday night the Knights  
have reserved the entire Columbia  
theater to witness the "Mission

Next Saturday, 200 of them, with  
their families, will depart on a spe-  
cial Pullman train for Lake Tahoe,  
where Tahoe Tavern has been reserved  
for three days.

WITNESSES AFRAID

A girl footpad, aided by two young  
men, operating in the Mission Dis-

of 2811 Twenty-second street, al-

Brown was stopped at Mission and  
Fairmount streets early yesterday  
morning by the trio. While the two  
men held him, the girl, who appeared  
to be about 20 years old, went  
through his pockets, taking his  
watch, chain and \$3.

Across the street at 2375 Mission  
street, May Leddy and her younger  
sister looked on, afraid to make an  
outcry. After the trio had disap-  
peared Miss Leddy telephoned the po-  
lice.

Record Coast Run  
Made by Barkentine

The barkentine Mary Winkelman,  
Captain Christoffersen, arrived early  
today, making a record round trip be-  
tween San Francisco and Everett,  
Wash.

The windjammer left this port Aug-

six days, and then loaded 400,000 feet  
of lumber. The trip down the coast  
was accomplished in seven days, mak-

Captain Christoffersen reports hav-
