MEETINGS.

SONS OF TEMPERANCE. WATEREER DIVISION, NO. 9

Attend the Regular Meeting of your Division at Temperance Hall on MONDAY evening next, at 7 1/2 o'clock By order of the W. P. A. B. LEE, R. S.

FOR THE JOURNAL. Please insert the following nomination for Intendant and Wardens of the Town of Camden at the ensuing election, and oblige MANY VOTERS.

For Intendant, J. D. DUNLAP. For Wardens, J. R. GOODALE, A. D. KENNEDY, W. DEAS, ABRAM MARKS.

TEMPERANCE ADDRESSES.—We are requested to state that public addresses will be delivered at Temperance Hall, by Rev. J. W. Kelly and Col. W. M. Shannon, on Tuesday evening the 31st inst. The public are respectfully invited to attend.

MASONIC.—The members of the fraternity throughout the State will be gratified to learn that the order is "looking up" in Kershaw. At every meeting, Kershaw Lodge, No. 29, receives new accession to its already large membership; and a new Lodge has recently been opened, under the most favorable auspices, at Flat Rock, with the following named brethren as officers:

- L. B. Stephenson, W. M. J. T. Cauthen, S. W. W. C. Deaton, J. W. J. J. Drakeford, Treasurer. T. W. Munnerlyn, Secretary. H. T. Watts, S. D. J. R. Thorn, S. D. Ezek. Gaskin, Tyler.

REV. ELLISON CAPERS.—This gentleman preached in Grace Church on Sunday last. We are sorry to learn that he will not take charge of this parish, having decided that it is his duty to remain at Greenville. The members of his church there, warmly, earnestly, and successfully opposed his leaving them.

THE WEATHER.—During the latter part of last week we were visited with quite wintry weather, several heavy frosts, and a good deal of ice. Great fears are entertained that the fruit trees, which the deceptive mildness of the weather had pushed forward too rapidly for the season, have been severely injured, if not killed. Inquiries among friends from the country, lead us to believe that the peach crop, at least in the sand-hills, will be almost a total failure. A change in the weather took place on Sunday, when rain from the east commenced to fall and continued almost without intermission, until Tuesday morning.

MORRELL'S MILL.—The pond having been refilled with water, Mr. Morrell is prepared to accommodate his patrons again.

ANOTHER FIRE.—The alarm-bell on Thursday afternoon last, about 4 o'clock, called the attention of our citizens to the fact that an old brick house in the lower part of Broad Street had taken fire in the roof. The wind was high at the time, but fortunately blew in a direction which prevented the spread of the conflagration. The roof soon fell in, but owing to the efforts of the firemen, and other citizens, and the substantial manner in which the house had been built, the fire made but little headway, and might have been completely extinguished, but for a fight between two young men, one white, the other colored, in which the latter was cut quite badly about the head and neck.—This caused a disturbance, and diverted all attention from the fire for a while.—When order was restored the flames had made victorious headway, and between 7 and 8 o'clock the conflagration was at its height. The building thus destroyed had been standing for upwards of forty years, and at the time of the fire was kept by Edward Carter as an eating house. The accident is supposed to have occurred by a spark lodging in the dry and decayed roof. J. D. Dunlap, Esq., was the owner of the property, and loses about \$500 or \$600, without any insurance.

charges against her husband, Guy Ferguson. She exhibited a contract, in which Guy undertook to pay her a certain amount as a farm laborer, and charged that he had fraudulently made way with all of his crop without satisfying her demands. The Trial Justice, who always does justice promptly and satisfactorily between colored litigants, told her that Guy could be imprisoned for his fraud. The thought of her adored, though unworthy, loved one, being put into a felon's cell, was more than the tender heart of Milly could bear; so, with tears in her eyes, she told the Trial Justice that although she wanted her rights, and although her husband would not support her, she could not consent that such stern measures should be adopted towards him. A day or two afterwards the guilty Guy and his affectionate wife again appeared before the bar of the Trial Justice. It appeared that they had never been formally married, but had lived together for several years, and that the only reason why Milly had taken an obligation of so binding a character upon her liege lord, was the fear that her wants would not be satisfied. The Trial Justice explained to Guy what were his duties towards this woman, who was, to all intents and purposes, his wife, although they had never been formally married, and remarked, "Guy, with all thy faults she loves thee still." He advised that they should be immediately married, and go home, and live together in the affectionate discharge of the mutual duties growing out of the tender relationship of husband and wife. Accordingly, in the Court Room of the Trial Justice, in the presence of two junior members of the bar, who happened to be present, the marriage ceremony was performed, the breach of contract case was thereby settled, and the litigants went away satisfied.

One of the first business principles to act upon, is to make all purchases direct from the manufacturers, thus saving large sums of money, for this reason we advise our readers to purchase their Windows, Doors, Blinds, &c., from Messrs. I. H. HALL & Co., Charleston, S. C., who have at the factories, combined benefits derived from materials in first hands, skilled workmen, latest improved machinery, and thorough systematic management. All windows glazed with good clear glass. They are also Agents for Asbestos Roofing Felt. Try it and you will be pleased with its durability. Send for price list, circulars, &c.

An extraordinary circumstance in the history of the country occurs on the death of Mr. Fillmore. Never before since the administration of Jefferson has it happened that only one person was alive, except the incumbent, who had filled the Presidential office. Andrew Johnson is now the only ex-President living, and even he was not elected to that office, but came to it as Vice-President on the assassination of Mr. Lincoln. While the young Adams was President, the elder Adams, Jefferson, Madison and Monroe were living. When Buchanan was elected, Van Buren, Tyler, Pierce and Fillmore were alive. When Lincoln was inaugurated Van Buren, Tyler, Pierce, Fillmore and Buchanan were living. Within the past thirty-seven years seven Presidents have been elected besides Grant. It is an extraordinary fact that not one of the seven is now alive.

A colony of 1,000 persons is being formed in New York to locate on 4,000 acres of land near Aiken, donated by Mr. John H. Keyser to poor but deserving persons of New York. About \$50,000 will be raised to settle them comfortably, and to insure the success of the undertaking.

The County Treasurer of Lancaster, under instructions from the Attorney-General of the State, paid to the widow of Isaac Coles, last week, whose husband it is alleged was murdered by the Ku Klux in 1871, the half mill tax levied under Act of the Legislature for the support of widows and orphans, over \$600.

MAKE MONEY fast and honorably, \$12.50 per day, or \$75 per week, by at once applying for a territorial right, (which are given free to agents), to sell the best, strongest, most useful, and rapid selling Sewing Machine, and Patent Button Hole Worker, ever used or recommended by families, or buy one for your own use; it is only \$25. Sent free everywhere by express. Address all orders to BUCKLAND SEWING MACHINE, Cor. Greenwich & Cortlandt Sts. N. Y. October 30.

The favorite shirt collar now approaching will be of the standing order, with falling ears.

SOUTH CAROLINA LAND AGENCY.

THE undersigned offers his services as GENERAL LAND AGENT; having established communication with persons of all classes who may be induced to buy land in South Carolina. It is of great importance that the peculiar attractions offered by our section, to those wishing to settle upon their own lands, be brought into notice. This can only be done by making it a specialty.

The class of immigrants most needed among us, (all others, of course, are welcome,) is the one who brings with him enough to buy—even in a small way—a certain quantity of our land; (the only capital which we have left.) This is easily done, by such a one, as one-fourth the estimated value paid down, will give him the title, and possession; with three or four, and even five years, to pay the balance. This class of settlers, native or immigrant, must be dealt with personally—must be convinced that this country, with all its advantages does exist, and is within his reach. One satisfied on this point, the rest is easy. They know nothing of our country, her soil, her climate, to the outside world, and it has to be told to them.

The object of the AGENCY is to do this; to approach the man—wherever he may be—who has the means, and induce him by statements, MADE IN SUCH A WAY THAT HE IS OBLIGED TO PUT FAITH IN THEM to invest in our land. This will give the land a commercial value, and bring the benefits of settlers. Persons wishing to dispose of lands should first have them surveyed, and laid off in farms of from fifty to one hundred and fifty acres.—Nothing can be done, under the plan proposed, with bodies of land in block. The thing to be sold must be offered in lots to suit the purchaser. All business in this connection will receive strict attention from the undersigned. EDWARD M. BOYKIN, Camden, S. C.
