Having thus fellow citizens, laid before on a statement of your condition—your solits—and the remedy which, under present circumstances, you should accept, we leave you for a brief space of Time. It is proper to state to you, that while we are unanimous in approving the resolutions which accompany this report, the delegates this to Convention are not entirely manimous in approving all the arguments contained herein, particularly such as re late to the compromise Bill, pending in the United States Senate, although none are in favor of that bill unless it be amended in conformity with our resolutions or in such manner as will satisfactorily to secure to the South, the rights therein as-

Until Congress adjourns, we cannot know what it will do, or will fail to do.— We must therefore meet again after its adjournment, to consider the final condition: in which it will leave you. We recommend to you, and exhort you to send Delegates from every county and district in the Southern States to meet us when we again assemble. It is no ordinary occasion which has assembled us together .-The Constitution and the Union it created, so long dear to your hearts, are to be pre-served, and your liberties and your institutions maintained.

Extracellany,

The Queen's Last Baby. The London correspondent of the

Boston Pilot gives the following account of the birth of little Vic's ba-

Last Wednesday morning the whole town was startled by the loud peels of all the church bells, by the mone of cannon, and by the rapid movements of government passengers. The telegraph office too was monopolized by the government, the wires were incessantly in operation, and official despatches were sent tothe four corners of the earth. A stranger would naturally ask what all this noise and confusion was about; and whether England was likely to be invaded by France; whether the

Chartists had again organized themsolves; or whether there was not another red-hot rebellion in Ireland! If one's feelings were all excited, how cheap and flat one must feel when informed that the whole of this grand hubbub was caused by the birth of a royal pauper! Yes, Queen Victoria made a present on Wednesday last, to the nation called Great Britain, of another of those interesting little strangers, and there are now seven of these distinguished and very expensive national playthings. In a few years the people, the tradespeople, as well as the working menof the nation, will find that some veny heavy additional tax bill will be presented to them, and they will murmur, as I have heard several Englishmen murmur, about this affair, within forty-eight hours. John DARGAN, a candidate for Tax Collector, for Claremont Dr. Receiver's County of the card Straip. Bull professes to rejoice at this event. He says, in the most hypocritical language, "that it is once more our joyful task to give utterance to those feelings of dutiful and affectionate attachment to the crown and the person of Queen Victoria, which every accession to her Majesty's domestic happiness calls forth in loyal hearts." (This is falsehood the first, now comes the second.) "Another royal child is born to strengthen a throne whose foundations have ever Been deeply laid in the willing homage of a free people." (These royal children will weaken the throne and the government, for the people will refuse to pay enormous taxes for their future splendid establishments. However, here is falsehood the third.) "The customary signs of public rejoicing, by which the country has already welcomed the Infant Prince, have a reality and a truth in them far beyond their mere conventional import." (Throughout the whole of Wednesday, when I informed dozens of Englishmen that a Prince was born, the only acknowledgement I obtained for the information was to the effect - it is another bad job'-"more taxes for us'-- ah, she'd better be satisfied now,' and similar expressions; as for any 'rejoicing' on the occasion there certainly was nct. (But liere is falsehood the fourth and last.) "The heart of England speaks of popular gladness, and from myriads of homes has arisen the earnest prayer that, whilst other royal families are wandering as homeless exiles, and whilst other thrones are yet rocking to and fro, Queen Victoria and her House may ever enjoy the blessings which Heaven has hitherto poured on a monarch whose sceptre is the symbol of just laws and liberties:" Nearly all the metropolitan journals are sending forth such sickening and false adulations, whilst Bulletins are issued daily from Buck-

Fashion Among the French. There is no civilized nation with more vanity of natural coquetry than the French, and the ladies would no more think of wearing a dress, a cape or a head dress which was not becom-

taking a December bath in the Seine because semebedy else was simple enough to do it. At a large ball or soirce, like that of the President's lately, you will see every possible variety of color and make in dress. A

fashionable lady here, studies her complexion, her form, her style of beauty, even the shape of her head and the cut of her features, and she rangements to impart an extensive, thoris too anxicus about her good looks to disfigure herself by wearing an unbecoming article of dress merely because the fashion books say that "nothing else is worn.' For instance, a brunette would no sooner wear blue or yellow, than a blonde would wear a scarlet or bottle green.

A lady with a scrawny neck and arms will not, because her mode-book says she must, display her misfortune to all the world by wearing a very low dress and very short sleeves; neither will a tall woman dress her hair in a pyramid on top of her head, nor a short one bring her's all round at the sides.

DR. KEELERS'

Celebrated Family Medicines. DR. KEELER is a regular graduate from one of the best medical schools of the coun try, and practising physician of the city of Philadelphia. We take great pleasure in presenting these remedies to the afflicted. They are all of undoubted medicinal powers and hold out to thei avalid a promise of relief, such as none others possess. They each have been thoroughly tried in a long successful private practice, and have established for themselves a reputation but few possess, and given better satisfaction to the afflicted than any of better satisfaction to the afflicted than any of the bansted remedies of the day. In offering them to the public, the proprieter is influenced by no sinister metives of gain, but feels con-scious that thay are emmently deserving of public confidence. No medicines ever before the public have acquired such deserved repu-tation upon their ments alone, or appeal with such irresistible force to the invalid.

The blood. Dr. Keeler's Sarsu-parilla for the removal and permanent cure of all diseases arising from an impure state of the BLOOD and habit of the hedy viz: Chronic Bronchuis, Catarth, Pla-risy, Coughs Scofula in all its forms, Tetter, Scald head, Ulcers of the face, budy and ex-tremities, Chronic Rheumatism, chronic dis-secas of the stomach, liver and skin; White swellings, Enlargement of the joints, old ul-cers, constitutional debility, syphilitic disorders meteurial and hereditary, residents mercurial and hereditary pro dispositions, etc.

COLCLOUGH, Esq, announce him we suppose the organs of our body originally as a candidate for Sheriff at the next perfect unless changed by the intervention of something that bears an unhealthy relation to them. In all cases of diseases, there must be the interopetion of so ce new ingredient, which, by playing its part as a cause, served to modify the properties before connected with the body. It is absurd to talk of spontaneous disease taking place in organs healthy, without the interposition of some merbific agent As well might we expect a piece of chalk to transer itself spontoneously into Plaster of Paris, without the aid of Sulphuric Acid. In ull diseases there is a prior cause that must be removed through the intervention of the BLOOD: to accomplish which the all eted have no remedy equal to Dr. KEELER'S SARSAPARILLA.

Important Remedy, MITCHEL'S EYE SALVE. A certain, safe and effectual Cure for Sore, Weak and inflamed Eyes, designed ex-pressly for Diseases of the Eye.

THE imparalleled success which has attended the use of this preparation, and the acknowledged necessity for some article—which can be relied upon as a remedy in severe cases of Optialmic affections which are so prevalent in this country, induced the Proprietor to make aparangements through his Agents, to place this Salve within the reach of every individual who may need the benefits which result from its use. The great advantages possessed by this ar-Salve within the reach of every individual who may need the benefits which result from its use.

The great advantages possessed by this article over every other, its Certainty, Safety, Convenience and Economy. All physicians admit that great danger is to be apprehend from drugging the eye when in an inflamed and unhealthy state. In the use of this Salve this objection is entirely removed, as no Barm can possibly result from its use; it being in all cases applied to the external portions of the eye, thereby avoiding all the inconvenience, pain and danger, which necessarily attend the introduction of any pungent article into the eye. Its activity in subduing inflammation is so great that but few cases require the use of more than one bottle to effect a perfect cure.

result of inherent comes or cruess, produced by inregularity, illness createdent. Nothing can be more
surprising than its invigorating effects on the humanframe. Fersons all weakness and lassitude, from
taking it, at once become robust and full of energy
under its influence. It immediately counteracts
the nerveleasness of the female frame, which is the
great cause of Barrenness. It willnest be expected
of us, in cases of so delicate a nature, the exhibit certificates of cures performed, but we can assure the
affilicted, that hundreds of cases have been reported
to us. Thousands of cases where families have been
without children, after using a few bottles of this
invaluable Medicine, have been blessed with fine
licality offspring. Female Medicines.

Great Blessing to Mothers and Children-Great Blessing to Mothers and ChildrenIt is the safest and most effectual medicine for purifying the system, and relieving the sufferings attendant upon childbirth ever discovered. It strengthens both the mother and the child, prevents pain and disease, increases and enriches the food; those who have used it, think it is indispensable. It is highly useful both before and after condinenser; as it prevents diseases attendant upon child-birth—in Costiveness, files, Cramps, Swelling of the Feet. Despendency, Hearthurn, Vomiting, Pain in the Buck and Lions, False Pairs, Hemorrhage, and in regulating the secretions and equaliting the circulation, it has no equal. The great heaving of the medicine is, it is a peays and, and the most deliminate it most successfully, very feet cases registary other medicine, in some a little Caster Of, or Magnesia is uneful. It speaks for itself.

DR. S. P. Towns: ND—Dear Sir: I am constrained to give you a statement of the benefit I Series from using your Sarsaparilla, believing, by so doing, I shall render a benefit to those who are suffered to those who are suffered to those who are suffered to the same to be suffered to the same to t doing, I shall render a benefit to those who are suffering as I have been. I was reduced for many
months by the Dyspepsia, so much that it was with
much difficulty for me to walk or keep about. I
had also a tetter, which covered the most part of
my head—which was extremely troublesome and
sore; it got to be almost a scab. I used quite a
number of remedies for both the complaints but
received little or no benefit, until I took your Sarseparilla, which, through the kindness of Providence, has restored me to more than my naunl
health, as I am now enjoying better than I have for
a number of years. I am now 60 years of age. I
believe it to be an invaluable medicine, and recommend it to my numerous acquaintances, which is
very large, as I have been a minister a great many
years I hope this hasty skelch may be as much
benefit to you as your medicine has to me.

Methodist Clergyman.

The following was sent to our Agent in Raliway, by the Rev. J. O. TUNISON, of the Methodist
Episcopal Church—one of the most learned and respected in the connection—and is another evidence
of the wonderful effects of Dr. S. P. Townsend's
Sarsaparilla on the system.

Friend Frances—Having for some time past, as
you are aware, experienced great general/debility
of my system, attended with constant and alarming,
irritation of my threat and lungs, I was, at your instance, and in consequence of having read Captain
McLean's decided testimony in its behalf, induced
to try Dr. S. P. Townsend's far-famed Sarsaparilla,
I tried it, I confess, more in the hope than in the
confidence of its proving efficacious; but I am bound
in candor now to acknowledge, that I had not tried
it long before I began to experience its salutary
effects; and I may now say, with Captain McLean,
"that I would not be without it on any consideration," It has done me more, good than any previous remedy I have tried, and if this statement is
deemed by you of any importance, you have my deemed by you of any importance, you have my full consent to make it public. Rahway, August 3d, 1847. J. O. TUNISON.

SCROFULA CURED. This certificate conclusively proves that this Sursaparilla has perfect control over the most ob-stinate diseases of the blood. Three persons curedl in one house is upprecedented.

Three Childrem.

Dr. S. P. Tewestern—Deer Sir: I have the pleasure to inform you that three of my children have been cured of the Scrohla by the use of your excellent medicine. They were afflicted very severely with bad Sores; have taken only four bottles; it took them away, for which I feel my self under great obligation.

Very respectfully,

ISAAC W. CRAIN, 106 Woosier-at.
