

OLD TIMERS AT MILTON

The Old Timers played a game of base ball with the strong Milton team on Saturday. The Milton aggregation found a foe worthy of its steel in the Old Timers, winning out at the eleventh inning on a score of 4 to 3.

Danville scored on first inning, while it was not until the sixth inning that Milton was able to score. The pitching on both sides was fine. McCloud for Danville having the best of it. Milton was able to make 6 hits in eleven innings; Danville made ten hits.

Altogether the game was one of the best played in this section for a long time. Teams that go up against the Old Timers know that they must have tried and true players; hence it is observed this season that all the teams that play the Old Timers are made up principally of college boys. These realize that they must play good ball to win and they do their best work. As a result of all this the games this season are close and interesting.

The Old Timers possess the secret of making every play count. That sacrifice hitting is an important factor in run getting was demonstrated at Milton Saturday. In all instances when a player reached first base the following batter endeavored to advance him by sacrificing.

Logan who was such a favorite in Danville having again with Milton, Manager McCoy was obliged to get a new short stop for Saturday's game. Charles Howell of Northumberland, who made an impression when he played here with the Bucknell Reserves, was given a trial at short stop and came fully up to expectations as the score stands, accepting nine chances without an error. While he failed to hit safely on Saturday there is every reason to believe that under the instruction of Captain Yerrick he will develop into a good batter before the season is over.

The umpiring was poor in the Milton game, although none of the decisions seemed to reflect any intention to wilfully deprive either team of its just due. A big crowd of rosters, sixty or more, followed the Old Timers to Milton and these made their presence felt during the game. The contest was witnessed by a large assemblage.

The score:

OLD TIMERS		R. H. O. A. E.			
Gosh, If.	0	0	0	0	0
Yerrick, 2b.	0	2	3	0	0
Ross, 1b.	0	1	0	1	0

Orwig, p.	1	0	1	1	
Summary:		4	6	32	3

Summary: First base on balls—off Orwig, 2; off McCloud, 2. Struck out—by McCloud, 9; by Orwig, 10. Hit by pitcher—Gosh.

ATTEMPTED TO KILL HERSELF

Miss Lou Bower, aged thirty years, attempted to commit suicide between eleven and twelve o'clock, Saturday night, at the home of her father, George Bower, corner Race and Front streets, Danville. The weapon used was a 22-caliber revolver. The bullet entered back of the right eye and lodged at a point back of the nose. The victim was removed to the Mary M. Packer Hospital and is in a precarious condition.

The motive for the deed is unknown but it is believed that a lover's quarrel led to the shooting. The young lady was divorced from O. H. Bair of Newberry, about a year ago. Since that time she has kept company with a young man from Sunbury. They were down town on Saturday evening and returned home at about half-past ten. Her parents had already retired. Between eleven and twelve o'clock the young man aroused Mr. and Mrs. Bower and told them that their daughter had shot herself. Both being hard of hearing, they had not heard the report of the pistol.

Upon coming down stairs, Mr. and Mrs. Bower found the woman lying in an unconscious condition on the kitchen floor, with the smoking pistol tightly clutched in her right hand.

Dr. W. T. Graham was summoned and upon arrival found that the bullet had barely missed the temple and passed back of the right eye. The flesh was burned around the wound showing that the weapon was close to the head when the shot was fired. The ambulance was called and the woman was removed to the Mary M. Packer hospital and placed in the care of Dr. B. H. Ream, the surgeon on duty at present. The bullet was not located and the condition of the patient is considered serious. If she does recover it is quite likely that the eye will have to be removed.

The woman has made no statement and the young man who was with her at the time the shooting took place denies that he had a quarrel of any kind and states that he knows of no reason for the attempted suicide.

The revolver belonged to the woman, and the small caliber is all that she wanted for some time ago she threatened to kill herself and exhibited a 22-caliber revolver which was taken from her. A number of years ago she tried to end her life by the drinking of laudanum.

Gave an At Home.

Mrs. O. M. Langer at her cozy cottage, Hamers' Park, on Friday afternoon between 1 and 3 o'clock, gave an at home to the lady campers at that attractive resort.

The Shamokin School Board will erect two new 15-room brick buildings.

RELIEVE FLOOD CONDITIONS

To the people who are endeavoring to enforce the laws relating to the filling of the river bed by culm and other obstructions the action recently taken by the Jr. O. U. A. M. of Harrisburg, will prove encouraging. The people in that section of the state are almost as badly inconvenienced by the periodic floods in the Susquehanna as are the people in this section. For that reason the Jr. O. U. A. M. has taken up the matter and will see its vast membership for the purpose of securing laws to remedy the difficulty.

The members of John Harris Conall, No. 174, of Harrisburg have passed the following resolutions:

Whereas, the filling in along the shores of the Susquehanna river and the placing of obstructions in the river, such as bridge piers, etc., by corporations for profit, and

Whereas, such obstructions have increased the danger of floods to the residents along said river, thereby causing great damage to property which, we believe, can be remedied to a certain extent, by the deepening of the channel, and preventing any more filling in along the shores; therefore be it

Resolved, that we petition national congress, through our congressman and United States senators, for an appropriation from the river and harbor fund for the improvement of the Susquehanna river by deepening the channel, which plan has been declared can be accomplished by engineers who have examined the river for that purpose.

Resolved, that we petition our State Legislature for an appropriation for the same purpose and for the enactment of laws preventing the filling in along the river shore by any corporation, firm or person, and for the placing of any more obstructions in the river, and be it further

Resolved, that we ask the co-operation of all organizations, boards of trade, municipal governments and citizens for the promotion and accomplishment of this object.

A PROSPEROUS YEAR FOR FARMERS

"All things considered this year promises to be a favorable and prosperous one to the farmer," said Deputy Secretary of Agriculture Martin at Harrisburg on Friday. To Mr. Martin is assigned the duty of looking after crop matters throughout the State, keeping track of the conditions, watching for changes, noting the weather effect on the crops, and other important matters that have come to his high conditions under Secretary Orinhold.

"Owing to unfavorable conditions for seeding wheat last fall," continued Secretary Martin, "and the extreme severe winter which followed, the wheat crop will possibly not average more than 50 per cent of a full crop. Harvesting has begun in the Southern counties, but in Central and Western Pennsylvania the fields are quite green. Complaint has reached the department of much injury being done by the Hessian fly in Fayette and adjoining counties.

"Oats are in fine condition, and with favorable weather the oats crop will be very promising, and I predict the yield will be above the average. Grass and pasture is everywhere abundant and the hay crop is, in my judgment, the largest ever grown in the State.

"Corn is not as good as it might be. Owing to the extreme cold weather in April and May corn planting was delayed more than three weeks. Then the hard frozing of last winter destroyed the vitality of much of the seed corn, which compelled replanting of possibly fifty per cent. of the acreage. This condition, coupled with the almost continuous rains for the past two months, have prevented the farmers from cultivating the corn crop, which is in most localities backwards and unpromising.

"The acreage of potatoes is possibly less than last year, but gives promise of good yield, the vines being almost free from the ravages of potato beetle. Nearly all vegetables have made good growth and promise full crops.

"Considering the storm conditions the apple crop promises great abundance in almost every section of the State, but in most sections the peach crop will be light, which is in part attributable to the San Jose scale. Peaches and cherries in most sections are abundant, and the prices are very reasonable. The berry crops are reported up to the average.

"The department has been notified and in Allegheny and part of Westmoreland counties heavy storms and cloud bursts have destroyed the crops on numerous farms, and that certain blight has seriously affected the wheat crop in portions of York, Adams, and other adjoining counties, but this blight was only sectional in its ravages.

"Yes, I think, all things considered, this year promises to be a favorable and prosperous one to the farmer."

The department is informed that the cat-breeders throughout the State have had a prosperous year, and that almost all of their stock has been disposed of at favorable prices.

THIRTY THOUSAND JAPS KILLED

ST. PETERSBURG, July 13.—3:35 p. m.—This city was thrown into a fever of excitement this afternoon by the news that the Japanese had failed in an assault on the fortress of Port Arthur on Sunday night, having been repulsed with a loss said to reach 20,000.

Armor of Old Japan.

An armor of Old Japan displayed in the window of Langer's shoe store, Mill street, attracts a good deal of attention. The armor, which shows the mode of dress used by soldiers in the fourteenth, fifteenth and sixteenth centuries, is said to be historically correct, in all its details.

GAME AND FISH LAWS FOR JULY

The July Monthly Ballot of the Division of Zoology, State Department of Agriculture, says:

"Many good citizens have come to grieve through a lack of knowledge of the fish and game laws of the State. These are here published for the double purpose of showing the privileges of anglers and sportsmen and the rights of land owners. Respectable persons do not intentionally violate the laws, and others should not be permitted to do so.

"During this month there are no fish in this state, excepting young stonefish, which may not be caught with a hook and line, and although the minimum legal size varies with the kind of fish, the possible number to be caught in a day or season is unlimited for all kinds excepting the speckled trout or brook trout, of which not more than fifty are to be taken in any one day. There is no law affecting cutfish or celsa as to either season or size, and the sunfish is the only one of the 'game fishes' or those protected during certain seasons, of which the law of our state is the same as the smallest that may be kept. The law fixes the minimum sizes of the various kinds of fishes as follows: Sunfish, no minimum limit; rock bass, white bass, strawberry or grass bass, crappie, five inches; black bass, seven inches in the state, and nine inches in Lake Erie and boundary waters; green or Oswego bass, blue pike, pickerel, and muscalonge, nine inches (muscalonge in Lake Erie, fifteen inches); Penobscot salmon or grilse, 3 lbs. in weight; trout, all except lake trout, six inches; lake or salmon trout, nine inches.

"The law relating to the catching of lake or salmon trout, excepting for the thirty-first of this month, that Penobscot salmon or grilse closes on August 15, and that for lake or salmon trout closes on September 1. The legal season for all other kinds of fishes continues to go on.

"As many as three hooks may be used on one line for any and all fishes, but a person should not use more than three hooks without first learning what kinds of fishes are prohibited and what permitted by this method. Also do not fish by any other means than a hook and line, without learning the law in this regard. A seine may be used for certain fish, under certain conditions, but not within a quarter of a mile of any dam across any river.

"Bels (only) may be taken in fish basket with wing walls. For information concerning the fish laws of this state write to the State Fish Commissioner, at Harrisburg, Pa.

"The only open season for bullfrogs in this state is from the first of this month to the first of November; and of terrapin from the first of November to the fifteenth of March.

"There are no game animals (mammals) that may be shot during this month, and the only game birds are plovers, from the 15th of July to the first of January (no maximum legal number), and woodcock, to be shot only during this month (July), and from the 15th of October to the 15th of December, not more than ten in one day. Woodcock killed in one day, 'downy' may not be sold at any time. Plover may be sold during their season."

wardly direction twenty-five feet to the southeastern corner of the other lot of the heirs of James F. Deen deceased, last hereinbefore described, the place of beginning, with the appurtenances.

LOT NO. 3.—Also all that certain message, tenement and town lot of land situate in the First Ward of the Borough of Danville, in the County of Montour and State of Pennsylvania, bounded and described as follows, viz: Beginning at the southeastern corner of another lot of the heirs of James F. Deen deceased last hereinbefore described on the northern side of Water street, thence in a westerly direction along the said last mentioned lot one hundred and fifty-seven feet to an alley, thence along said alley in an easterly direction twenty-five feet, one and one-half inches to the northwestern corner of another lot of the heirs of James F. Deen deceased, thence in a southerly direction along the said last mentioned lot one hundred and fifty-seven feet to the southeastern corner of said Water street aforesaid, thence along the northern side of said Water street aforesaid in a westerly direction twenty-five feet to the southeastern corner of the other lot of the heirs of James F. Deen deceased, last hereinbefore described, the place of beginning, with the appurtenances.

LOT NO. 4.—Also all that certain message, tenement and town lot of land situate in the First Ward of the Borough of Danville, in the County of Montour and State of Pennsylvania, bounded and described as follows, viz: Beginning at the southeastern corner of the lot of the heirs of James F. Deen deceased, last hereinbefore described, thence in a southerly direction along the said last mentioned lot one hundred and fifty-seven feet to an alley, thence along said alley in an easterly direction twenty-five feet, one and one-half inches to the northwestern corner of another lot of the heirs of James F. Deen deceased, last hereinbefore described, the place of beginning, with the appurtenances, and whereupon are erected a 2-STORY FRAME DWELLING HOUSE and other usual outbuildings.

WANT A FOOT BRIDGE ACROSS THE RIVER

WILKESBARRE, Pa., July 13.—Neocopek residents have instituted a movement which is already well under way toward constructing a foot bridge across the river upon the old piers. A meeting of a number of the council and other citizens has been held and the proposition discussed.

It is to raise \$20,000 by public subscription to Neocopek and an equal amount in Berwick and construct a cable foot-way from pier to pier. Upon the pier that is partly carried away a firm structure would be erected. The bridge would be six feet in width and would cost about \$1,500.

The citizens have written to the Pennsylvania Railroad Company and placed the situation before them and asked the loan of cables to be returned when the bridge was completed. Very encouraging answers were received asking the size and length of the cables that would be required.

A committee has also met the County Commissioners and received encouraging answers asking the size and length of the cables. They can be counted upon for a substantial sum.

Another meeting of the citizens of Neocopek will be held in the very near future when committees will be appointed to make an canvass for subscriptions and make arrangements. It is the purpose to prepare specifications and have the construction of the bridge let out to the lowest bidder.

Second Visit in Thirty Years.

Ignatius Beyer and daughter, Mrs. Flaherty, of Canton, Ohio, are visiting at the home of Charles E. Beyer, White Horse Hotel. The present is Mr. Beyer's second visit to Danville in thirty years. He is a brother of Charles E. Beyer and a son of Mrs. Wendel Beyer, whom he will also visit before returning.

Dear Sir—Please ship us by last freight of your Paw Paw. We must have this as soon as possible. The wonderful tonic in our store has been indeed remarkable, and it speaks well for your new remedy. With best wishes, Yours very truly, WM. K. KITLEDGE, 300 and 102 Tremont street, Wm. H. Kitledge, of Rockland, Me., writes Under date of Aug. 24th: 1904.

Dear Sir—You are having a phenomenal sale in our store—greater than any other remedy on the market. It affords me the great pleasure to see this article doing so well. The success is entirely due to your customers. Yours very truly, WM. K. KITLEDGE, 300 and 102 Tremont street, Wm. H. Kitledge, of Rockland, Me., writes Under date of Aug. 24th: 1904.
