PLEGGED BUT TO TRUTH, TO LIBERTY AND LAW—SO FAVOR SWAYS US AND SO FEAR SHALL AWE

VOLUME 77.

DANVILLE, MONTOUR COUNTY, PA., FRIDAY, AUGUST 17, 1906.

NO 47

## MILLIONS LOST TO PENN'A FARMERS

The poultry product puts about \$15,000,000 annually into the pockets of Pennsylvania farmers; but when it is known that the State of Pennsylvania consumes five times as much poultry and eggs as it produces, it becomes necessary for us to devote some time and thought to poultry conditions and prospects in our Commonwealth.

The above is the opening announcement in a bulletin just issued by the State department of agriculture with a view to stimulating interest in the poultry business in Pennsylvania. This document, prepared by T. E. Orr, of Beaver, shows that many millions of dollars might be added to the revenues of the farmers of this State through the production of eggs and poultry.

Six States, west of Pennsylvania surpass it in the production of the hen, Ohio and Iowa leading with \$29,000,000 worth each. Yet Pennsylvania has more individual land owners than either of these States—almost every plot being capable of yarding and feeding a few hens.

"There is a single wholesale grocer in Pittsburgh," says the department bulletin, "who handles an average daily of 300 cases of eggs of 30 dozen each. He pays out for these eggs about half a million dollars a year. How many Pennsylvania farmers participate in this handsome sum of money? Not one. Every egg that this man handles comes from Indiana, where careful buyers gather them from the farmers. He says: 'The farmers of Western Pennsylvania do not produce enough eggs especially in winter, for me to bother with. Of course, I would rather buy home eggs, but I must buy from people who have eggs to sell.'"

"The above-named egg buyer pays good prices. He handles fresh eggs only. He has no use for storage eggs. He would pay higher prices if he could get a constant supply of nearby fresh eggs. From September 1 to March 1, a period of six months, the wholesale Pittsburgh prices will average 30 cents per dozen for strictly first-class eggs."

"It has been demonstrated again and again that the man who can produce eggs at all in this district in these six months does so at a food cost of not over 10 cents per dozen. In what other line of animal industry can one find a larger margin to pay for the labor and interest on the cost of investment?"

"Eastern Pennsylvania demands even a better quality of poultry and eggs at still higher prices. The better class residents of Philadelphia and New York are each year becoming more fastidious as to the quality of the products they consume, and less careful as to the prices they pay, provided the quality is above reproach. Not only in the two cities named, but in a dozen smaller cities are people who contract for their eggs six months in advance, just to be sure they get eggs that are strictly first-class."

"In every town of 5,000 population or larger are people who would be glad to pay close to the above-named prices, provided they could be sure of getting a regular supply between September and March."

"Pennsylvania is furnishing a constantly increasing demand for more table poultry of first quality. One has only to loiter around some of our commission houses to learn that most of the dressed poultry consigned will not rank above third-class; that first class poultry sells more rapidly and for twice as much as poultry that grades only third-class."

The bulletin states that the greatest obstacle that now stands in the way of profits from poultry on Pennsylvania farms seem to the writer to be properly classified under the following headings: Mixed flocks, poor houses, injudicious feeding and careless marketing."

## AT THE HOUSE OF REFUGE

Sheriff George Maier, who conducted Daniel Girt, to the house of refuge last week, on his return, Saturday, gave an interesting description of the institution, which will prove a revelation to many of our readers, who had preconceived of a much more repellent place.

The house of refuge where Daniel Girt was taken is situated at Glen Mills, twenty miles west from Philadelphia, toward West Chester. On the way there the sheriff and his charge were obliged to spend half an hour in Philadelphia. The short sojourn in the metropolis afforded the boy a new experience. He was half terrified with the tumult of business and traffic and while dodging the street cars, the automobiles and the hundreds of vehicles he seized hold of the sheriff with a tight grip. He was much impressed with the status of "Billy" Penn on the tower of city hall and the sheriff was kept busy answering questions.

"The 'house of refuge' is in reality a farm of 556 acres, occupying one of the most beautiful sites in the country. After leaving the cars the visitor climbs a hill and there two hundred feet above the railroad the broad acres with the beautiful and imposing buildings spread out before the eye. There is nothing to suggest a dingy prison house enclosed with frowning walls; on the contrary the blue sky, the broad fields and the growing crops of the busy scene presented where over six hundred boys are working out their destiny, carries with it the suggestion of freedom and contentment rather than the harsh idea of restraint and punishment.

To be exact there are just 636 boys at the institution apparently between the ages of 8 or 10 to 16. That the boys are under firm discipline there is no doubt, but every effort is made to make life pleasant for them and to win them over to the better life by the strength of beautiful examples, by tender treatment and kind counsel. This whatever spark of goodness remains in the little fellows is developed, while the propensities toward evil are held in check, so that by and by it becomes a habit with the most of them to be respectful, truthful and law-abiding. No difficulty whatever is experienced in keeping the boys at the institution and a large number of permanent reforms are effected.

The work on the farm is done by the boys, who are also taught useful trades. Many of the buildings were erected by the inmates. There is a school at the institution and a portion of each day must be spent in study under competent teachers. Neither is religious training neglected. Prominent among the buildings is a large church where each boy every Sunday must attend worship. At 7:30 there is mass for those of the Catholic faith; at 10 o'clock there is service for the Protestants, while the afternoon is set apart for those of the Jewish faith.

The boys are required to go to bed each night at 8 o'clock and to arise at 6 a. m. Believing that a clean, well nourished, well developed body is inseparable from a well balanced mind and proper moral conduct the physical welfare of the inmates is very closely looked after. They are given the best cooked and most nourishing food. As the first thing upon arising in the morning each boy is required to take a shower bath, while the most striking building is a gymnasium, approximately 300 feet in length, which cost \$50,000. It contains a swimming pool and in winter is heated with steam.

Sheriff Maier was impressed with the contentment shown by the boys and the fidelity and the willingness with which they seemed to perform their tasks. He could readily understand why none of them wished to run away. Even Daniel Girt seemed to catch the idea that in some way he was to be benefited and offered no objections whatever when the sheriff left, but remained behind in the best of spirits.

The following Republican county committee was appointed at the recent Republican county convention held in the court house, this city: Anthony township—Myers Bitler, Ottawa; Sylvester Pursel, White Hall. Cooper township—John F. Krum, R. F. D. No. 4; Alonzo Manser, Grovonia. Derry township—H. A. Snyder, P. E. Mouser, Strawberry Ridge.

Danville, first ward—F. G. Schoch, W. V. Oglewey; second ward—Harry Woodside, William Hes; third ward—O. F. Young, Seth Lerner; fourth ward—Alex. Foster, John Morrill. Liberty township—W. G. Ford, Charles Stahl, Moersburg. Limestone township—C. W. Derr, J. Miles Derr, Milton R. F. D. No. 1. Mahoning township—Edward White, R. F. D. No. 4; W. W. Diehl, Bloom road. Valley township—P. E. Maus, R. F. D. No. 2; William Getshing, R. F. D. No. 4.

West Hemlock township—Matthew Maus, R. F. D. No. 3; H. E. Sander, R. F. D. No. 4. Washingtonville—John Heberling, George W. Cronis.

## SCHOOL BOARD PAYS OFF \$1,000 BOND

At a meeting Monday evening the school board took decisive action to break up the bad practice of congregating about the school buildings at night, which is indulged in by unruly boys.

The matter was brought up at the previous meeting and it was ordered that the attention of the police be called to the matter. Last night Mr. Fischer reported that there was no abatement in the nuisance, which is becoming worse as time wears on. In the Fourth ward and on Welsh hill, especially, frequently until half past 11 o'clock at night the school grounds are the scenes of such disorder as to make a residence in that vicinity undesirable. The nuisance became so flagrant that he did not consider it advisable to wait for the regular meeting but had authorized Constable W. E. Young to visit the spot at night and arrest the first offender found there. Mr. Fischer's action in authorizing arrests met the approval of the board and on motion it was ordered that he be sustained. The board feels confident that arrests will follow and that the bad practice will be broken up.

The committee reported the repairs authorized in each of the wards as progressing nicely. The members from the different wards called attention to some additional repairs which in each instance were authorized.

Mr. Trumbower called attention to the advisability of purchasing lead pencil sharpeners for the schools and said he thought one should be purchased for each ward. The matter was discussed at some length, when on motion of Mr. Fischer the committee on supplies was requested to examine the different kinds of lead pencil sharpeners and report as to their relative merits at the next meeting.

On motion of Mr. Pursel it was ordered that "Peterson's Modern Chemistry" be adopted for use in the schools. On motion of Mr. Pursel it was ordered that the borough superintendent instruct the teachers of the sixth grade who teach history to be present at a joint session with the board at the next regular meeting on the 27th, inst. for the purpose of considering the change of text books on history.

Treasurer Schram presented a statement of finances to date, which showed a balance on hand of \$4281.76. The school board has paid off bonds to the amount of one thousand dollars. This fact is pointed to with pride as a justification of the slight advance in the tax rate.

On motion of Mr. Orth it was ordered that the same rate of tuition be charged non-resident pupils; also that the same method of collection be employed as formerly.

The following members were present: Burns, Orth, Swartz, Pursel, Fischer, Heiss, Trumbower, Lutz and Harpel. The following bills were ordered paid: Erwin Hunter ..... \$2.00 Standard Gas Co ..... 485 T. E. Eggert ..... 1.30 Morning News ..... 1.50 Freight and drayage ..... 2.80 Interest on bonds ..... 150.00

**Mauser Family Reunion.** The Mauser family reunion was held at Ripville yesterday and attracted the usual large assemblage. It is estimated that nearly five hundred persons were present.

The reunion was held at the Ridgeville church. The festivities took place in the grove outside, while a short service, which always accompanies the reunion, was held in the church, where the addresses were also delivered. The service was conducted by Rev. C. D. Lerch, while two addresses, appropriate to the event, were delivered by Rev. Joseph E. Guy, of Shiloh Reformed church and Rev. Fritsch, pastor of St. John's Lutheran church.

## DIES SUDDENLY OF HEART DISEASE

Albert Girt, a well known farmer residing about three miles this side of Jerseytown, died very suddenly of heart disease yesterday afternoon. The lifeless body of Mr. Girt was found on the porch by his son, Fred, about 3:30 o'clock.

Mr. Girt's death came as a great shock to his many friends and to his family. About 10 minutes before his body was found on the porch he had been at the barn where his son was working.

The deceased was 60 years of age on the 24th of July. He was the son of Wesley Girt and a native of this county having been born at Kaseville. Mr. Girt was a veteran of the civil war and a member of the Madison Baptist church.

He is survived by his mother, his wife and five sons, Raymond, of Bloomsburg; Frederick, Archibald, Otto and Robert, all of whom reside at home. Mrs. Daniel Williams and Charles Girt, of Madison township, Columbia county, are sister and brother of the deceased.

The funeral will take place Saturday, meeting at the home at 1 o'clock in the afternoon. Rev. E. H. Munro will conduct the services. Interment at White Hall.

**Special Meeting of Council.** A special meeting of council as required by law was held last night to hear any objections that might be offered to the paving proposition relating to North Mill street. No one appeared, however, and so far as objections are concerned there is nothing to stand in the way of the improvement.

Another matter developed, however, which it was feared, might lead to some complications. Secretary Patton read a letter from State Highway Commissioner Hunter, which explained that a misunderstanding existed between the borough of Danville and the State highway department—that the State would not pay for the paving of three-fourths of 30 feet in width, as seemed to be the impression of council, but only three-fourths of 16 feet. This was wholly different from what had been all along represented to the borough by representatives of the State highway department, and that it caused surprise in putting it very mildly. Council had figured on paying for the paving of about one-half of the street, the width left after the fifteen feet paved by the State was deducted, but now with the State paying for only twelve feet the borough would have to meet the cost of paving twenty feet.

The matter was discussed at length, when in view of the bad condition of North Mill street, it seemed to be the sense of all that the work should go on as planned, notwithstanding the increase of cost. The communication from the State highway commissioner was therefore accepted and ordered spread on the minutes.

On motion of Mr. Boyer it was ordered that the standing committee of council in conjunction with the borough solicitor should prepare and final consideration at its next meeting the proposed ordinance relating to the paving and macadamizing of North Mill street.

**A Small Boy's Affliction.** Thomas, the five-year-old son of Edward Shultz, of near Boyd's station, who had the misfortune to break his arm three weeks ago yesterday, is doubly afflicted, as he met with another accident yesterday night in which he sustained a fractured leg.

## SAMUEL NOMINATED FOR CONGRESS

The Republican conferees of the sixteenth judicial district held their conference in this city Tuesday and unanimously nominated Dr. E. W. Samuel, of Mt. Carmel, as candidate for congressman.

The meeting was held at the Montour house. The hour set for meeting was 11 o'clock, but the conferees from Sullivan county not being able to get to Danville until the arrival of the 11:23 P. & R. train it was necessary to postpone the conference. It was 11:45 o'clock before the conferees went into session. The nomination was soon made.

J. H. Catterall, of Berwick, was chosen chairman of the conference. Ralph Kiser, Esq., of this city, and Jacob Wagner, of Watontown, were elected secretaries. A roll of conferees was called, when the following responded to their names: Montour county—T. J. Price, Ralph Kiser, Esq., and J. W. Farnsworth. Columbia county—W. O. Holmes and J. C. Millard, of Bloomsburg; J. H. Catterall, of Berwick, and Dr. J. M. Gwinner, of Centralia.

Northumberland county—D. E. Shuster, Shamokin; W. R. Lord, Mt. Carmel; C. L. Kremer, Sunbury; Jacob Wagner, Watontown; Dr. B. L. Kerschner, Dalmatia. Sullivan county—H. W. Osler, Berne; Dr. J. H. Davies, Forksville.

**Will Pass Through Sunbury.** The new trunk line from New York to Chicago, to be built at a cost \$100,000,000, the merger papers for which will be filed at the State department Harrisburg this week, will not touch Philadelphia, but will go through the northern part of Pennsylvania. East of Pittsburgh the road will touch at the following towns in Pennsylvania: Freeport, Leechburg, South Bend, Shelocta, Cherrytree, Irona, Dix, Lovelle, Pine Grove Mills, Shingleton, Tusseyville, Coburn, New Berlin, Northumberland, Sunbury, Ashland, Mahanoy City, Tamaqua, Allentown and Easton.

Preliminary work will be begun this fall on the line to New York and actual grading will begin in the spring. The line west will be started as soon as the Pittsburgh-New York line is completed. The surveys west are not final, and the promoters expect to lower the grade further and to shorten the distance before the road is laid out. The road to New York has been surveyed three times.

The foreign syndicate will build the road and it cover complete to the New York, Pittsburgh and Chicago Air Line, which will be capitalized at first at \$1,000,000. The route west of Pennsylvania is to be kept secret, but it is stated positively that the Lorain, Ash-tabula and Southern railroad, which is now nearing completion, will be one of the main feeders in the west.

James Ramsey, former president of the Wabash, who is now in New York, issued the following signed statement relative to the new project: "We expect to make a start this fall and begin work next spring, hoping to complete the line between Pittsburgh and New York within three years. The route to New York has been surveyed three times. Three corps of engineers have been busy for three years. It is the best possible short low grade line to be had through Pennsylvania between Pittsburgh and New York."

"The extension of the road to Chicago from Pittsburgh will be taken up when the line east to New York is completed."

Sunbury and the country thereabouts is much exercised over the announcement that the new line will pass through that town, as it is considered the line is not merely a preliminary survey, but a final location that has been revised three times. Three corps of engineers have been busy for three years. It is the best possible short low grade line to be had through Pennsylvania between Pittsburgh and New York.

## PERSONAL PARAGRAPHS

Irland Lausche, of Lewisburg, and Fred Whitmore, of Pottsville, spent Sunday with friends in this city.

Mr. and Mrs. Charles Haring, of Washington, D. C., are visiting their son, D. E. Haring, Grand street. George Steinbruner, of Wilkes-Barre, was the guest over Sunday of relatives in this city.

Miss Edna Evans, of Oxford, is the guest of Miss Julia Argrave. George Maier, of Shamokin, spent Sunday with friends in this city. Stewart Good, of Scranton, is a guest at the home of Edward Wetzel, Front street.

Mr. and Mrs. D. R. Williams have returned from a visit at Bedford Springs. Miss Maud Thompson, of Philadelphia, is the guest of her sister, Mrs. Richard Hullein, Mill street.

Mr. and Mrs. J. Robert Giffen, of Philadelphia, are visiting at the home of Edward Wetzel, Front street. Miss Martha Russell returned yesterday from a trip to Atlantic City.

Mr. and Mrs. Reese Edmondson returned yesterday from a visit at Atlantic City. Miss Jennie Harris, of Youngstown, Ohio, is visiting at the home of her aunt, Mrs. T. J. Price, East Market street.

Mrs. Samuel Bailey and son George returned yesterday from a visit with friends in Pittston. Master Edward Jennings and Miss Henrietta Jennings returned yesterday from a visit with their aunt, Miss Henrietta Lyon, Williamsport.

Miss Marjory Voris, of Scranton, spent yesterday in this city as a guest at the home of Mr. and Mrs. A. L. Voris, Ferry street. Mr. and Mrs. D. F. Copperfield, of Philadelphia, will arrive today for a visit with Mrs. Emma Pease and G. F. Smith, Mill street.

A festival will be held on Saturday evening at Long's church for the benefit of the minister. Mr. and Mrs. Fred Howe returned last evening from a trip to Atlantic City. William Jenkins left yesterday morning to enter the Soldiers' home at Hampton, Virginia.

John H. Hunt transacted business in Sunbury yesterday. Robert Mellon and Joseph Fetters left yesterday morning for Sunbury where they have accepted positions. Mrs. W. F. Pattison returned to Holmesburg yesterday morning after an extended visit at the home of Mr. and Mrs. William G. Kramer, West Mahoning street.

## JOINT MEETING OF COMMISSIONERS

The county commissioners of Montour and Northumberland counties will hold a joint meeting at the court house at Sunbury on Friday to take action on the stringing of telephone and other wires over the river bridge at this place.

The Standard electric light company, the Bell and the United Telephone companies all claim they have permission to carry their wires over the bridge, which, it appears, is not disputed. The crew of the United Telephone company, who began work on the wires Tuesday, were held up, but objection is not to crossing the bridge overhead, but merely to the method employed in carrying the wires. On each span, projecting some eight or ten feet above the iron work at its highest point two uprights are adjusted, on which it is planned to attach two or more cross arms sufficient to carry thirty wires.

The bare upright posts, themselves, it is urged, deface the bridge very much, while those who picture in their fancy what the entire system of cross arms and wires carried above the iron work would look like see grave reason for objecting.

Edward S. Gearhart, county solicitor, is among those who think that the appearance of the bridge would be very badly spoiled if the wires were raised overhead as proposed. He accordingly prevailed upon the foreman of the construction crew to suspend work until he could obtain an expression of opinion from the two boards of county commissioners, who are responsible for the bridge. Pursuant to this he arranged for the joint meeting to be held at Sunbury Friday, when the telephone company will be given permission to proceed with the work as planned or be obliged to devise some plan for laying the cross arms flat on the iron work overhead, as the electric light and the Bell companies have done.

**Big Maple Tree Cut Down.** The large maple tree on Church street, which for a generation or more has been a landmark in the borough, was cut down yesterday. The tree stood in front of the property of Mrs. Emanuel Siller between Walnut and Church streets and had begun to encroach upon the sidewalk. It was a giant, being about four feet over the stump and high in proportion. It showed evidences of decaying near the ground and in view of its enormous height it was a question whether it was wholly safe. Altogether it was deemed best to remove the tree and yesterday morning it was cut down.

No one is able to say just how old the big maple tree may be, but men well on in life say that when they were boys the tree stood on the spot and appeared just about the same as it did when cut down. The tree afforded a good deal of shade and it will no doubt be much missed and the spot will appear very odd without it. The stump, which is nearly as big a proposition as the tree, will next have to be extracted, as it stands on the side of the pavement and leaves but little space for pedestrians.

**A WONDERFUL POTATO.** Joseph Snyder, of No. 212 Grand street, yesterday morning hailed a News representative, with the rather odd query: "Did you ever see a potato with an eye?" The answer, of course was in the affirmative, when Mr. Snyder proceeded to propound a harder question: "Did you ever see a potato with a tooth?"

No ready response following and the man not wishing to appear trifling he drew from his pocket a small potato that had grown around and firmly embraced the roots of a large and well developed human molar. That the tooth had belonged to a human being there seemed to be little doubt and altogether the potato and the tooth form ed a great curiosity.

**Dissected Eye Extracted.** Mrs. J. W. Loreman, of Mayberry township, yesterday underwent a very painful operation, which was nothing less than the removal of one of her eyes. For many months Mrs. Loreman suffered intensely from a diseased condition of the eye known as glaucoma. The disease is considered incurable and there was no other means of relief than to extract the eye. The operation was performed yesterday afternoon by Dr. Cameron Shultz of this city and Dr. J. J. Brown of Bloomsburg at the home of Mrs. Edward Hummer, sister of Mrs. Loreman, South Danville. At last account the patient was doing very well.

**FUN BEFORE IT'S OVER.** The campaign for the fall elections has hardly more than fairly opened, and as yet the political atmosphere, locally speaking, is to the casual observer quite clear. There is, however, nearly every indication that before the voters settle the matter in November some good, hard battles will have been fought in the political arena of Montour county.

## WILL PROSECUTE MILK DEALERS

James Scarlet, Esq., of this city, has been selected by Dairy and Food Commissioner Warren to prosecute for the State milk dealers who sold milk doped with formaldehyde to the national guard at Gettysburg during the recent encampment.

Mr. Scarlet yesterday received a letter from Dr. Warren notifying him that he had been selected to prosecute in conjunction with A. H. Woodward Esq., of Clearfield county, certain milk dealers in Adams county in September. Special Agent James Foust, of Altoona, on Tuesday was directed by Dr. Warren to prosecute the Adams county milk dealers guilty of using formaldehyde. In all sixteen samples of milk doctored with this drug were obtained during the encampment. These milk cases will all be tried at the September term of court in Adams county. The two attorneys who will represent the Commonwealth are the leading criminal lawyers of the State. The cases are attracting a great deal of interest, but no where will the progress and the outcome of the trials be watched with greater interest than in this section where Mr. Scarlet is so widely known and his talents are so well appreciated.

Food Commissioner Warren is also after the candy manufacturers and dealers. On Tuesday he ordered over fifty prosecutions in different parts of the State for sale of adulterated candies, especially such as are heavily charged with sulphur-dioxide or sulphites. Fines and costs Tuesday were deposited in the State treasury from a number of candy cases recently prosecuted by special agent R. M. Simmers in several counties in this part of the State.

**Election For Directors.** An election of directors of the Y. M. C. A. to serve for the ensuing term will be held in Association building on Tuesday evening, August 21, between the hours of 7 and 9. The following persons, twenty-five in number representing the different churches, have been named for directors and from this list the fifteen required will be chosen. The persons named are as follows:

Mahoning Presbyterian church—H. B. Shultz, W. W. Galick, Walter Russell, Amos Vastine, J. E. Watson. Grove Presbyterian church—M. G. Youngman, W. L. McClure, A. H. Grono. Methodist Episcopal churches—William A. Sechler, W. G. Brown, B. W. Mueselmann, J. W. Lore, O. R. Shilling, J. B. Cleaver, David M. Roderick, Sidney Cannard, Joseph Bird, Walter Lovett.

Reformed church—D. R. Williams, John Dietz. Baptist Church—Judson Still, David Reese, Watkin Evans. Lutheran church—J. W. Swartz. Joseph Diverl. Thomas Reese has been selected as judge of election and Samuel Miller and Harry Schoch as tellers.

It is hoped that every member will be present and cast his ballot, as the election of directors is an important duty that no one belonging to the association can afford to shirk. The success of the Y. M. C. A. depends wholly upon the judgment of the men selected and their willingness to serve the institution.

**William Forney Takes Poison.** William Forney, Jr., was found in the alley in the rear of Mill street about midway between Hunter's livery stable and East Mahoning street about 9 o'clock last night in an insensible condition, due it is believed, to taking an overdose of laudanum. The man was found by Jack Fisher. He was then already pretty far gone. Fisher declared later that Forney had declared his intention of taking laudanum. Therefore, when he found the man lying in a stupor he searched him and found a two-ounce bottle of laudanum, which remained only about one-third full.

Fisher at once concluded that the man's condition was due to the drug and he tried his best to induce him to walk about with the hope of working off the effects. He was unable to keep the man on his feet, however, and he called upon Night Watchman Young for assistance. Mr. Young went in quest of a physician and in due time returned with Dr. Newlaker. By that time the man was utterly unconscious and every attempt to place him upon his feet failed.

At the doctor's request Forney was removed to the home of his father on West Mahoning street, where a stomach pump was used and specific remedies were administered.

## AN ALL NICKLE STOVE.

An Imperial Beaver stove, every inch of which is nickled is placed on display Saturday in the window of Foster Bros. Store, Mill street. It is a most beautiful specimen of the stove manufacturer's art, the like of which was never seen in Danville and it reflects a great deal of credit on the plant of the Danville stove and manufacturing company both for the skillful workmanship revealed and the enterprise shown in getting out a stove of that sort. The all-nickled stove it is understood will not be used for advertising purposes.
