W. L. SHARP has opened out his CHEAP CASH STORE in the old Osment stand. His stock is new in every particular. Give him a call.

It makes no difference whether Tilden or Hayes are elected. Hardtgen sells clothing at the same old price anyhow. Give him a call before his cheap clothing are all gone.

The very latest election news is to call at Sarguine, Johnston & Co. and be elected to one of their new suits of Clothing just received from New York.

The Franklin with Boss Tweed on board from Spain is expected in New York in a few days.

Such an excitement over a Presidential election was never known since 1844 as the one just past.

Will Uncle Bill Nelson tell us if "old Bill Cullum is stopping round" and if "Jake is lagging back"?

Fitzgugh, who was "a bigger man than old Grant," has gone into the real estate business in Washington.

The work on the streets of Cleveland has been ordered discontinued except the finishing of the rock wall on South street.

Wade Hampton has probably been elected Governor of South Carolina. Hampton is a good man and is very popular in his State.

Hon. J. M. Thornburg went South at the request of the President to see a fair count of the votes in Florida, South Carolina and Louisiana.

Gen. Sherman dined with the President last Monday. We publish the fact, as our readers are deeply interested in the matter.

The latest advice says that Bill Nelson of the London Times is very sick from an over-dose of Cullum's whiskey "in every bottle."

For the past week business has been on a perfect stand still on account of the election excitement. No one knowing what to depend upon.

The President has appointed ex-Congressman Bourbour Lewis, of the Memphis district, Register of the land office at Salt Lake City, Utah.

It is said that McFarland of the first district hasn't enjoyed this election much. He has given way for an "abler man." Bring in another horse.

All ye clowns that want corporation offices just step up to the Boss' office with the grocers and we'll tell the dear people who you are.

In answer to our readers' money last week, a great many of our friends have sent us their subscription. Now there are a great many more behind yet. Will they be so clever as to send their money at once?

Two years ago the London Times supported Thornburg and he was elected by only 600. This time it opposed him and he is elected by nearly six thousand votes. The Times is doing good work if it will just keep on.

Since the Centennial opened over 2,000 umbrellas, 1,000 parasols and 500 babies have been returned to their owners by the Committee on Lost Things.

A colored man by the name of Andy Roland voted for Tilden on Tuesday and the following Monday was arrested for stealing a mule from Mrs. Fletcher. He says he will never cast another such vote again if it makes him steal mules.

There are at least twenty-five men in Cleveland that are looking to get a mail messenger's place on the railroad, and three dozen that expect to be postmasters. Some of them need office badly—powerful hungry—been living on half rations for sixteen long years.

A reader of the Knoxville Tribune in this place abuses that paper for causing him to lose a hat on Cullum. He has now come to the conclusion that the Tribune brigade are tremendous liars.

The Very Latest Election News. Advice entirely reliable have at last been received from the doubtful States, and no room is now left for doubt that the name of neither Hayes nor Tilden, but Dr. Hart's Antibilious Discovery, a sure cure for all disorders of the blood, liver, kidneys and stomach. All good citizens will bow submissively to the will of the people.

There has been some talk of certain parties prosecuting Mr. J. C. Wood for voting here last week. While we differ with Mr. Wood politically as much as any one could, we take it on ourselves to say that he had as much right to vote here as the oldest citizen. His family are living only temporarily in James county, and he has and does count Bradley county his home—so do all that know the circumstances. All we have to say is, that if any one should attempt to prosecute Mr. Wood in order to put him to expense, they will be answering a call that truth and justice never made.

The colored brother didn't stick half so loud as usual to the Democracy last week. We saw the leading lights of that party actually in a "crowd of niggers" electioneering, telling the man and brother that if Tilden was elected they would get \$1.50 per day for their labor, and that they could buy beef on a credit. Bally, boys, bally.

In this issue will be found the announcement of Merix Wolf as a candidate for Marshal of the city of Cleveland. Mr. Wolf needs no words of praise from us. He has long lived in this community and has the character of being a straight forward, sober, honest mechanic, and if elected will fulfill the office to the letter of the law, without prejudice or partiality.

Our board of aldermen have spent no less than four hundred dollars in the last month for gravel. Rather extravagant, gentlemen—a little "reforma" is necessary about now. Try it once.

Sewing Machine Agent in Jail. A young man by the name of A. W. Selvidge, who has been a sewing machine agent at this place for some time, was put in jail Saturday for embezzlement. It seems that he had been selling eighty dollar machines for twenty-five or thirty dollars and giving receipts for the whole amount. As we understand, he has swindled the company out of \$400. He came here from Dalton, Ga., and we understand his folks are a very respectable family of people. He will have a trial at the next term of our circuit court, which is the first Monday in January next.

Murder at Tunnel Hill, Ga. From the Chattanooga Times we take the following:

Last Saturday evening there occurred an altercation at Tunnel Hill between Dr. McEwing and Mr. Robt. Springfield. Dr. McEwing was afterwards, on his way home, and was near his gate at 11 o'clock at night, when he was approached from the rear by Mr. Springfield, and shot through the head and killed. McEwing's throat was also cut. It is said, by some of the citizens of the place, to be a clear case of murder.

Chattanooga was treated to a rare spectacle recently, by the burning of the woods and grass on Lookout Mountain. At one time the top was all ablaze, and afterward the fire crept below the precipice. The mountain was literally a pillar of cloud by day and fire by night.—St. Louis Globe Democrat.

The tea plant was introduced into India forty years ago, and already about 2,000 acres are covered with it on the slopes of the Nilgherry Hills. The yield of the current year has been over 18,000,000 pounds, valued at \$10,000,000.

An editor is a man who is liable to grammatical blunders, typographical errors and lapse of memory, and has twenty-five people watching him tripping—a man of sorrow and acquainted with grief; poorly paid, poorly estimated, yet envied by some of the greatest men he has made. So says an exchange.

A Voice from Sweden.—American Chemists and their production appreciated by the professors at the celebrated Universities in Sweden. Mr. Sachs, Sir—At your request, I have tested Hall's Vegetable Sicilian Hair Renewer, in my practice at the "Scandinavian Hotel," and can say it will restore gray hair to its original color. It is entirely harmless, and is a valuable remedy to use in such cases.

P. H. MALMSTEN, Professor of Chemistry and Medicine, Stockholm, July 6, 1868.

From the highest medical authority in Sweden.—As I have had occasion to see several persons, who, for some time, have used Hall's Vegetable Sicilian Hair Renewer, and know that it has restored the original color of the hair, as well as being efficient in removing the itching and dandruff that accompanies the falling off of the hair, I consider it my duty to acknowledge the same to Mr. Sachs.

Some London missionaries, bent upon the conversion of the Jews, and desirous of getting a suitable audience to work upon, advertised a meeting of Jewish tailors at a tavern in Whitechapel, and thus brought together a number of Hebrew nights of the cloth, who supposed they were going to attend a trade meeting to protest against the long working days, and who became so enraged when they heard the real purpose of their summoning that the police had to be called in to save the preachers from serious violence.

In Ducktown the vote was as follows: Hayes, 146; Tilden, 107; Dibrell, 104; Drake, 144; Bradford, 163; Chambers, 89; Dowell, 124; Hancock, 123.

Born at Thirty Five Miles an Hour. Baltimore American, Oct. 23.

The Western train which arrived at Camden Station over the Baltimore and Ohio Railroad on Saturday afternoon, brought a mother with two babes, ticketed from Indianapolis, Indiana, to Crisfield, Maryland. The woman's name was Richardson, and when she left Indianapolis she was alone. The babies were born on the fly. Mrs. Richardson left Cincinnati on Conductor Frank Harris' train. She occupied a seat in the ladies' car, and had traveled a part of the night before from Indianapolis, and looked sleepy and tired. Mr. Harris saw she was troubled, and, on asking her the cause, was requested to please send some married lady to speak to her. Mr. Harris did so, and through the medium of this third party was informed of the probable increase to the passengers under his charge. The car was cleared, and a half an hour later the passengers were informed that two bounding boys had begun life at the rate of thirty-five miles an hour. Mrs. Richardson is the mother of four other children, and makes her home on the eastern shore of Virginia. She continued the journey to her Southern home without delay.

ANNOUNCEMENT For Marshal. We are authorized and requested to announce Merix Wolf as a candidate for Marshal Election in January.

Chattanooga Department. G. A. GOWIN, Editor.

The Biggest Fool in the United States. We heard a rebel Democrat a few nights ago say that he was in favor of making short work with these Radicals of the South—he would kill the women and children and thereby stop the bread. This crawling worm and senseless brute wears broadcloth and pretends to be somebody. He don't live here, and we are glad of it. We don't want to see him any more in this world, and don't expect to see him in the next. He will be so low down in hell he will not be seen by the telescopic vision of angels.

What will They Do! Upon the supposition that Hayes has carried South Carolina, Louisiana and Florida and is elected, what will the rebel Democracy do when the result is known? Many of them talk as though somebody would get whipped. They are right in so thinking; for if they don't believe themselves somebody will get whipped.

Municipal Election. Our municipal election is over before we go to press, but the result is not known at this writing. Good men have been nominated by both parties, and the prospect is that, for the next twelve months, we will have an economical city government.

The Cincinnati Southern. During the exceedingly fine weather we have had for the past month, the work on the Cincinnati Southern Railroad has been progressing very fast. A number of the contractors are getting their work well through. A large force has lately been put on the Tennessee River bridge and the work will soon be above high water mark, so that when the water rises the work will not be interfered with. Chattanooga has always got something to interest and excite her. Now as soon as the interest and excitement about the election is over we will begin to get excited about the completion of our great railroad.

The Spirit Manifested. The election is over, and at this writing (Tuesday) the result in South Carolina, Louisiana and Florida is uncertain. The Republicans are quietly and patiently, yet anxiously waiting to hear what the result is, believing that all will be right, while the Demo-

crats (many of them) are mad because they are not permitted to manifest the election returns in those State as they please and alone to the interests of their party. When it was ascertained that the States named would decide the election of the President, the Democrats determined by fraud, or in any way they could to control in Tilden, right or wrong. Of course it would not be expected that the Republicans would quietly submit to such an outrage on their rights. There was danger of bloodshed, danger of war. President Grant ordered troops down there just at the right time. They were not sent there to forcibly count in Governor Hayes, but simply to keep the peace while there is an honest count of the votes, and if it should so happen that Hayes has a majority and the rebel Democracy are not willing to submit, to force them to do so. This is the best act of Grant's administration, thereby he has saved the country from another bloody war. There are thousands in the Democratic party hungry for the spoils of office and they would be willing to plunge the country in war rather than fail to obtain them unfairly. This is their spirit. They manifest it and we are sorry to see it. But Grant as President stands as a bulwark of power in favor of peace and good order, and yet it is not for that peace that submits to wrong, but he, as is his duty, demands the right and then will found a peace resting upon the foundation of right. The rebels in the South may intimidate the colored people and keep them from voting as they wish to do, but Grant won't be intimidated worth a cent.
