the tension is increased, and the fluid has a dangerous tendency to discharge itself laterally by chance outlets.

All housekeepers have at some time realized the difficulty of lighting a fire in a still, damp, morning, when the chimney will not draw, and vigorous blowing proves ineffectual. Science explains the trouble as "caused by the difficulty encountered in overcoming the"

turbed getting our breakfast 1exty. We had it all ready to cook when we heard men running and shouting on the line, an a squickly as we could we got out and crossed the State road, the Garden City road. If we had not left our bridles the police would not have known who had been there. I had but one arm, and seized my blanket. If I had had two I should have tried to carry difficulty encountered in overcoming the shamed description.

Hobbs Kerry, the prisoner at Boonville, identifies the two robbers killed at North-neld as Bill Chadwell and Clel. Miller, which I know is correct. I go en a special train to Faribault at 1 o'clock to identify the others. No news from the two that escaped. I think they will strike for Missouri. I will send more from Faribault. There is great excitement here. Tell Boland to look out for the James boys. Give this to the page.

Chief of Police.

Beat the eggs, wash and dry the currants, blanch the almonds, cut the eye could reach, as well as all accessi ble places on the Long Island side. The water was almost covered with crafts of all sorts and sizes, from the small skiff to large steamboats, all keeping back of the guard-boats that marked the limit of safe nearness. The rain, it was feared, would injure the powder of the batteries. Mr. Julius Streidenger, the electrician, sat with his assistants under a canvas awning in the rear of the wide open-mouth bombproof, testing the conducting power of the wires with a galyanemeter. This was a delicate operation, and, to the uninitiated, it seemed dangerous.

Ing graining varnishing polishing kasomining papering, lettering, staining glaling, etc., No. 48, Book of Alphabets, 50. Scropla and Ornamenta, Watchmaker and Jeweler, 50. Scapmaker, 25. JESSE The mouth of the shaft was filled with water, and it looked like a great pool, showing that the caverns beneath carefulness, boxes of dynamite that had presently was rowed to a distant island. The inhabited houses within the danger ines were, at an early hour, deserted by their inmates, and everywhere anxiey and suspense were visible. The poe had much trouble in restraini hundreds of wild young men, who had rowboats at the up-town piers, and who

seemed anxious to endanger themselves. ould be made in the cabinet. We de- apparatus at a distance, this is what your correspondent saw from the deck cross the top of the door and forming of the guard-boat: Suddenly there came part of the easing. Our idea was to a great upheaval of foam, rising here bllow out a space which would extend and there in columns. Every eye was into the cornice of the cabi- intent. The field of foam was held up large enough to hide wonderfully long-only a few seconds ome false faces and beards, and have in actual time, but very long to the fas curely with a spring. So we hollowed out a small space. We then replaced the piece, fixing it firm enough to hold quarters in the engine-house at the in case of investigation. I had my ac- too, buoyed seemingly by some invisicomplice paint me a couple of faces, ble power, but it sinks. Then a marvelous wall of yellow vapor rises upon then got a small piece of wire, which the foaming expanse. It changes to twisted up to put in my pocket, and greenish tint, and sails grandly before old them I would shut the wire door, the wind down toward New York. as Mr. Cutter, the control, said he Then every man turns to his neighbor thought I was strong enough to ma- and eyes him in amazement. Is this terialize through the screen. I entered really the vast explosion of which so THE "NEW AUTOMATIC! the cabinet, and the singing and music much has been said and written? Woncommenced. I straightened out the derment yields to joy, and the savants wire, attached one of the faces to it, swelled with their voices the cheers of The water at once became black with

> thick, dark worsted cloth, which I used straining their muscles to be first at a as a beard for myself. On this night long dark line extending straight out two faces appeared at once, one at each from Hallet.'s Point, that was thought aperture, which almost threw the to be the backbone of the upheaved reef, and sailboats and little steamers My accomplice was concealed in a joined in the race. The dark line was will cox & Girbs S. M. Co., Lindell Hotel Building closet opening off the cabinet. At the made of bits of humber that had

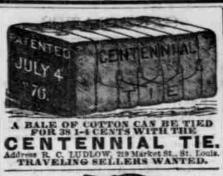

Allied Enemies to Health.

In many of the fairest and most fertile districts of North and Tropical America, air and water are allied enemies to health, both be ing impregnated with the poisonous mias-mata which produce chills and fever, billous remittents and febrile disorders of a still maladies is to be found, in Hostetter's Stom ach Bitters, a vegetable preparation which i properties, to the deleterious mineral and alkaloid remedies of the pharmacopæia. It is moreover, the reigning specific for dyspepsia, debility, constitution, urinary troubles, rheumatism and nervousness, o divide with my accomplice, who had promotes appetite and sleep, and is a capital promotes appetite and sleep, and is a capital autidate to depression of spirits.

> WILHOFT'S TONIC is not a panacea-is not a cure for everything, but is a catholicon for malarious diseases, and day by day adds fresh laurels to its crown of glorious success. Engorged Livers and Spleens, along the shady banks of our lakes and rivers, are restored to their healthy and normal se-cretions. Health and vigor follow its use,

HOW TO DECEIVE, If your hair or whiskers are gray they can be in In addition to the above it was stated and about 1 pint of milk to every 1 to use. I got the names of Lieut. Kline of Dye, and deceive the closest observer. This article es qualities never known before. 18 Marray
