The Post-office Department has conuded contracts for the Star Mail Service for four years in Ohio, Indiana, Kentucky, Tennessee, North Carolina, South Carolina. Georgia, Florida, Alabama and Mississippi. The total amount of awards is about \$885,000.

It is reported from Chicago that the Trade and Labor League of that city recently received a communication from the St.
Louis branch, urging their co-operation in
a trade-union strike, to be inaugurated April 1, and to comprise all organizations

in the West. and an indicate around bear CRIMES AND CASUALTIES. An explosion in the artillery barracks at and providir crimes of Santiago, Chill, killed twenty-four persons

and injured many others.

The bark Elbana, from Newport, Wales, for St. Johns, N. B., was wrecked at Nigger Head, five miles from her port of destination, on the morning of the 8th. Capt. Barry and seven men were trowned.

James Allen, the waiter at the St. Nicho-las Hotel, Las Vegas, N. Mex., who shot and killed James Moorehead, a commercial trav-eler from St. Louis, was taken from the custody of the Sheriff and banged by a mob. Twenty-four persons were burned to death and twenty-nine others injured by the burning of the weaving works in Moscow, ssia, on the 8th.

The boiler in Lehman, Rosenthal & Co.'s flax mill, at Frankfort, Ind., exploded on the morning of the 11th, just before the usual hour for beginning work, and while all the employees, ten in number, were gathered around. Every one of the ten men was instantly killed. The building was completely demolished, and the debris took fire and was quickly consumed. The names of the killed are: H. Rogers, Eli Hemlick, Scott Williams, Joseph Wise, Joseph Miller, Thomas Crox-ton, Pat Leasy, John Honissell, Joseph Ei-chenberry, and Michael Shields.

Favorable reports are received of the growing wheat crop throughout the West. Wet weather has done some harm in Illinois, while in Kansas and Iowa there are com-

plaints of dry weather, but an average crop

is expected. The most serious complaints of

winter-killing come from Wisconsin. The Duchess of Marlborough, writing to the Lord Mayor of London, March 7, says: "The distress in Ireland continues to be general, and in some parts is increasing."

The anti-Chinese excitement in San Fran-cisco has been further heightened by the concentration there of several regiments of United States troops, under command of Gen. McDowell, by orders from Washington. As a further measure of precaution, the arms longing to the militia have been removed from several of the city arsenals and placed in secure places, the reason assigned by officials being that the arsenals and their contents were exposed to capture by the disorderly classes in case of a riot. Placards are posted about the city, signed by the "Council of Thirteen," warning employers of Chinese to discharge them. The workingmen are greatly agitated by the military movements, and their leaders charge the

authorities with trying to force an outbreak. The main building of the Kansas State Insane Asylum, at Osawatomie, was partially destroyed by fire on the evening of the 8th. The inmates were all safely removed. The fire is believed to have originated from spontaneous combustion. The loss is estimated at \$35,000, with no insurance.

The body of Dr. Samuel Hahn, a Hungarian, aged thirty-nine, for several years a practicing physician in New York, was cremated at the Le Moyne Crematory, Washington, Pa., on the 9th, in accordance with his last wishes. The funeral services were conducted by Prof. Felix Adler, a friend of

The dissolution of Parliament has been

announced, to take place at Easter. The "Citizens' Protective Union" is the name of an organization formed in San Francisco for the declared object of preserving the peace and protecting life and property. The membership is understood to be large, but the names of those officially counected with it are not made public. Mayor Kalloch has published a proclamation, declaring that there is not the slightest reason to apprehend any disturbance from the working classes, that the people are deocived by incendiary misrepresentations as to the situation, and that the most outraand Chronicle commend the formation of the Citizens' Committee, while the Call, Alto and Post oppose it as unnecessary and un-

at Sidney, Neb., on the 10th. Entrance was effected through the floor of the express office while the agent was at dinner, and four hundred and eighty pounds of bullion, which had just come in on the Black Hills treasurecoach, was carried off. Fortunately the weight of the treasure was too great for the robbers to carry any distance, so they se-creted the most of it in a coal pile where it was soon afterward found. It is estimated that they cleared about \$13,000 by the operaion-should they not be captured.

At Washington, Ark., Sydney McFadden, borers and was owing mainly to political for the murder of his wife; at Florence, Ala., John Mayfield, for the murder of Tobe Irvines The Arkansas Republican State Convention, to choose delegates to the Cincinnati Ga., Day Brigherty, for an indecent assault National Convention, will be held at Little upon a white woman.

Lands ogradding of the second states of the second dian Affairs, reported a bill authorizing the Secretary of the Interior to ladds in severalty to Indians. Ordered printed and recommitted. Mr. King (D., La.), Chaffman of the Interoceanic Canal Committee, offered, by unanimous instruction, that committee's resolutions reaffirming the Monroe doctrine. Mr. Sawyer (D., Mc.), from the Committee's resolutions, reported a resolution (signed by all members of that committee with the exception of Mr. Weaver), declaring W. S. Siemons en titled to his seat as Representative from the Second District of Arkansas. Mr. Weaver submitted a resolution declaring the seat vacant. Both resolutions were ordered printed and laid on the table. The Speaker laid before the House a' message from the Fresident in regard to the Inter-oceanic canal, which was ordered printed and referred to the Committee on Inter-oceanic Canal.

sage on the Inter-oceanic canal was read, and, with accompanying documents, referred. with accompanying documents, referred Senator Thurman presented a memorial of the delegates of Indian tribes in the India Territory, remonstrating against the passag of the bill to establish a United States Comin that Territory. In view of the important legal questions involved in the subject he moved the reference of the memoria to the Committee on Judiciary. In the absence of Senator Vest, who reported the bill, the motion to refer was laid over senator Balley submitted a resolution, referring to the reported combination entered in between the Central Pacific Mailroad and the Pacific Mail Steamship Company, declaring

mittee, reported a bill to prevent Indians on reservations from going into Texas. Mr. Wadded! (D., Mo.), from the same committee, reported a bill for the relief of settlers on absence Shawnee lands in kansas. Mr. Johnston (D., Va.), from the same committee, reported a bill authorizing the Secretary of the Treasury to ascertain and report the amount of money expended and indebtedness assumed by Kansas in repelling invasion and suppressing hostilities; and Mr. Upson (D., Tex.) reported a similar bill. All were placed upon the calendar. At the expiration of the morning hour the Political Assessment bill, being the first bill on the calendar, was taken up, and Mr. Hostetter (D., Ind.) spoke thereon.

MARCH 10.—Senate—The Vice-President presented a message from the President transmitting the agreement between the Secretary of the Interior and the Ute Indians, and recommending its ratification. Befored. The motion made yesterday by Mr. Thurman to refer to the Committee on Judiciary the remonstrance of Indian chiefs against the passage of the bill to establish a U. S. Court in the Indian Territory was taken up. Mr. Vest opposed the motion, saving the Committee on Territories, who had reported the bill, included several good lawyers fully fille to draw the bill, and there was no reason to refer this any more than any other bill to the Committee on Judiciary. Pending discussion the morning hour expired, and consideration was resumed of the bill for the rolled of Pits John Porter, Mr. McDonald having the floor. At the close of his remarks, Mr. Garland offered a resolution that on account of the many intricate legal questions presented by the bill under consideration, it be referred to the Judiciary Committee for examination and report. Mr. Randolph opposed the motion. Without action the Senate adjourned...... House—Mr. Reagan (D. Tex.) presented a resolution in reference to the proposed Isthmus canal, which he offered as a substitute for the resolutions of the regular Committee. Bills were placed on the calendar: appropriating \$80,800 for the relief of the poor of Ireland; to restrict Chinese emigration; to prevent the removal of Indians from the States into the Indian Territory; to prevent the withholding of pensions from pensioners under the acts of 1861 and 1878. Consideration was resumed of the Political Assessment bill, and the House was acdressed by Mr. Young (R., O.). An evening session was held, at which twenty pension bills were disposed of.

March 11.—Scnate—Mr. Sharon present-

alloch has published a proclamation, dearing that there is not the slightest ason to apprehend any disturbance from the eworking classes, that the people are derived by incendiary misrepresentations as the situation, and that the most outrative summans are being used by designing on the provoke an outbreak. The Bulletin and the stress of the situation of the colored race. Indefinitely postponed. Mr. Gordon asked unanimous consent for the present consent for the present consent of this resolution for a special committee on the Inter-oceanic committee on the Inter-oceanic committee on the present consent of the colored race. 

## CONDENSED TELEGRAMS.

Additional evidence has been taken before Committee on Luter-oceanic Canals and explained their respective systems.

Mrs. Agnes Bergeset, a domestic in the Senate before the family of Dr. J. Byrne, 231 West Randolph Street, Chicago, was accidentally shot and almost instantly killed, on the 11th, by a priviled that at least one of the eight Illinois Supervisors should have been selected from the Democracy.

Additional evidence has been taken before the Senate Exodus Committee. Col. Holloway, Postmaster at Indianapolis, and Hondon and almost instantly killed, on the 11th, by a nine-year-old son of the Doctor, with a respective systems.

"Thank heaven! they're swearing yet!" large flow of milk. After ten days from calving no better extra food can be given than oats and wheat-bran, with one or two quarts of corn-meal. Much will depend upon the feeding of the amount if allowed to name the baby. "If we were in the dry goods trade," they say in their advertisement, "we could afford to make the prize five dollars for girls. We take a right smart interest in

FARM TORIES.

SOFT FOOD FOR POULTRY. There have been all sorts of opinions as to the best food for poultry. Most persons recommend soft food of various kinds—all sorts of meal-made into dough Foot Guards were suffering greatly from cuids of the head and coughs, the good old gentleman has provided thick goloshes, or overshoes, very nicely lined with fur, in which the sentries stalk about in huxurious confort.

— Prince Bismarck's rheumasic complaint has of late become so acute as seriously to impede his movements. He experiences great difficulty in walking for standing for any length of time, and his physicians have long urged him to request permission to address the reich star while sitting in his chair. He has his-herto been rejuctant to do this.

—The Austrian Diet has just done what could not be done, probably, by any other legislative body in Europe, viz., voted \$75,000 to pay the expenses of the visit of the Empress to Ireland, whither she went chiefly to enjoy the extension of the experience of fox-hunting. The Empress is known to be one of the most fearless horsewomen in Europe, the most fearless horsewomen in Europe, the national debt of Austria is \$2,005, 15,000.

—The proposed increase of the Gerare recommended as wholesome food by its use than from all other causes. A large fancy poultry breeder and exhibitor has just paid me a visit, while I sat at my desk writing this. I told him my subject. He said: "That's right; such has been my sad experience in soft feeding, and I am quite satisfied that gallicaceous fowls require hard food."

Solve of the said: "That's right; monia.

Antidote: Vinegar and water, linice, orange juice, or lime juice.

Treatment—Give oils, or the Of course I do not mean that an occasional soft mess will be conducive harm. But I do mean that the true food of our domestic poultry must be of a hard nature to keep the flock in a good, healthy condition. In addition to my own experience. I have paid much attention to other extensive poultry breeders, and have discovered invariably an unhealthy condition where soft food is much fed. A change of food is essential to good condition. Charcoal, burnt bones, sand, salt, onions, cab bage, potatoes, etc., are quite good for general health, and consequently for eggs also.-Win. Horne, V. S., in Coun-

try Gentleman. McKenzie, Tenn SPRING CARE OF DAIRY COWS. Dairymen are looking for quick returns, and many of them are not willing to wait for the results of good feeding the other day that this unsatisfactory state of things had not been without efstate of things had not been without effect on the teachers of elementary schools, except in Berlin. This was to be attributed in a considerable measure to the increased facilities for driphing month before calving. As the cow is not giving milk, they think it sufficient to feed enough to keep her from losing flesh rapidly. If they quite understood the rationale of milk production they would have the greatest confidence in the cow as a saving's bank for surplus food. A growless of the cow as a saving of the cow as a sa the cow as a saving's bank for surplus food. A good cow can always be trusted to repay with liberal interest all the extra food she can digest during the time she goes dry. Such a cow is usually thin after a season of milking, and unless she is fed so liberally as to recover her fleshy condition, she will not give her full quantity of milk. Every daryman is familiar with the fact that a good cow coming in in fall data. cow, coming in in full flesh, will milk down thin unless liberally fed during the milking season. They ought to see from this that the extra flesh is laid up in winter to be withdrawn during the summer. Every pound of extra flesh

was \$10,348,918, of which amount the teachers received in salaries \$7,600,392.

There are 11,824 school-houses in the State, and the aggregate amount expended in support of the schools since 1850 is nearly \$200,000,000.

—Elder Forscutt, of the Montana doesn't walk up.

—The Chicago School Board having decided that teachers must leave the school when they are married, the New Haven Register thinks "it makes it very unpleasant for young men who are looking to the school since 1850 is nearly \$200,000,000.

—Elder Forscutt, of the Montana doesn't walk up.

—The Chicago School Board having decided that teachers must leave the school when they are married, the New Unpleasant for young men who are looking upon the effect of condition upon milch to do—they would require no argument to induce them to feed their dry cows most liberally. The dairyman who has not fed his cows as well as his interest required during the early part of the winter, should do what he can to recover his lost ground, by feeding judiciously during the few weeks left. It being so near calving time, he should be ord will provide."

Cautious about giving food of too heating a nature. Corn-meal alone should not be given, if that can be avoided: break bad news gently, was sent to the widow of a man who had just been killed by a railroad accident: "Dear Madam—Your husband is unavoidably detained for the present. To-morrow an undertaker will call upon you with the full newtonia." one bushel of corn to two of oats-makes one of the best foods for dry —At the jam at the close of one of the recent great social parties in Chicago the chief of one of the great morning dailies was observed searching anxiously among the head tiles for a covering to his seanty locks. A lawyer stood looking some time at the fruitless search, and finally said: "See here, what are you looking for?" "A first-class bat." relooking for?" "A first-class hat," responded the editor, "which I had when I came here." "Pshaw!" was the retort, "we have been running on second-good clover hay during winter, usually recover their vigor, because clover is rich in muscle-forming matter and phos-phate of lime. Oats, peas, wheat-bran, and oil-meal are all rich in phosphate

of lime, and are excellent to give the cow renewed vitality during her non-lacteal period. Care must be taken to this period, as the time of calving approaches and especially if it has not been given through the winter; yet one A CLERGYMAN recently left Liverpool in a large ocean steamer, and beginning to feel uncomfortable after leaving the mouth of the river, sought the Captain to learn if there was any danger. The Captain to learn if there was any danger. The Captain to the forecastle and told him to listen what was going on. The clergyman was shocked to hear the sailors swearing shocked to hear the sailors swearing food at this period; and if this food of the manifolds. Oats and the continued after captains to the forecastle and courses was going on. The clergyman was shocked to hear the sailors swearing food at this period; and if this food of the manifolds. Oats and the captain to the forecastle and courses was going on. The clergyman was shocked to hear the sailors swearing the continued after captains. shocked to hear the sailors swearing vigorously, and expressed his horror to the Captain. The Captain merely remarked: "Do you think those men would swear in such a manner if there was any real danger?" whereupon the parson seemed satisfied and retired. A day or two after, during a severe storm, the Captain as the clergyman proved with difficulty to the forecastle, and on his return heard him exclaim: "Thank heaven! they're swearing yet!"

A CHICAGO firm of clothiers offer a given the captain to be excellent food at this period; and if this food is continued after calving, it will be continued after calving, it will be proved yield of milk. During the first week after calving the diet should be space—not so necessary if the row is thin but if fleshy, she should be kept on hay, except a quart of oil-meal, which is laxative and cooling. After all danger from milk fever is past, the feeding should be most liberal, so as to start the cow on a large flow of milk. After ten days from calving up better extra food can be rounded.
