SMALL CHANGE.

Hot weather.
Business is dull here.
The new livery stable is almost completed.
Dogfennel is plentiful in and around this place.
Our farmers are beginning to need rain badly.
The shipment of fruit from Milan is on the increase daily.
Our lawyers are getting ready for chancery court next week.
Wheat threshing is being rushed through this fine weather.
Several parties here, we learn, contemplate building this fall.
Wild goose plums are bringing ten cents per quart in this town.
The young men of Milan wants a gymnasium. It is healthy sport for them.
Farmers around Milan are all busy threshing wheat and looking after their crops.
Chickens are bringing good prices in this market. It will pay you to bring them in.
Milan has a lazy club. It meets twice a day, just after breakfast and dinner.
There will be a ratification meeting of the democracy of Jackson on the fourth.
The candidate for magistrate on the Beasley ticket is dressed out in blue linen clothes.
We wish to return thanks to Mr. R. E. Harlan for a box of delicious raspberries.
The fine residence of Mr. E. A. Collins, east of town, approaches completion.
Milan has the prettiest girls in the state. If any one does not believe it let him come and see.

The young men of this city have organized a debating society. They meet every Friday night.
Messrs. L. W. Deshong and J. P. Rhodes paid Dyer county a flying visit this week, returning yesterday.
Joe Claybrook, living near Lavinia, made one hundred and ninety-two bushels of wheat on nine and three-fourth acres. Who can beat it!
We learn that Hon. John M. Paylor, of Henderson, will be a candidate for Congress in the eighth district.
A tramp woman and a man were strolling around town last Wednesday. They spent the night at the calaboose.
The fighting editor is absent at the Press Association. Step up there and see him if this paper does not suit you.
Several car loads of fine wheat have been shipped from Medina since threshing begun, and as many from Atwood.
We have a prohibition candidate out. He asked us to have a drink, of course we couldn't refuse. It was lemonade.
We regret to learn that Mr. Wm. Gay has withdrawn from the race for Trustee. Unfortunate circumstances compels him to withdraw.

There is now an average of 8,000 pounds of fruit shipped from Milan by express, and double that by fast freight daily. Who can beat it?
The Eureka Nuptial Association issued twenty-two policies on the first day after opening up for business. Their prospects are very flattering.
We learn that there is a number of cases of flux in the Shiloh neighborhood in Carroll county, six miles south-east of this place, of which several have died.
Our city fathers have been doing some good work during the past two weeks in putting the streets in order, cutting the dogfennel from around the walks, &c.

If nothing unforeseen happens to our corn crop Gibson county will have the largest crop ever raised. A great deal of cotton has been plowed up and the ground planted in corn.

Camp meeting will begin at Shiloh, seven miles east of here on the fifth, Sunday in this month. We learn it will be run on a self-sustaining basis. Further particulars hereafter.

In the competitive drill at Louisville, Ky., the Crescents, of New Orleans carried off the first prize, Chickasaws second. The Porter Rifles won third place and the Quapaws fourth.

Our talented young lawyer friend, Henry Warren, made his maiden speech in a case before Esq. Jordan last Thursday. It was very creditable, and showed thought and was well delivered. We predict a bright future for him.

Our friend Jim Jones has a fearfully constructed bug with which to frighten the unwary. A certain disciple of the healing art received a shock from it Thursday, from the effects of which we fear he is destined not to recover soon.

The recent fine prices realized for fruit shipped to northern markets has had the effect to put our farmer friends enquiring for fruit trees. It is a common occurrence now to hear our old cotton planters discussing the merits of fruit culture. It is a healthy sign.

We are pleased to see our Humboldt friends rebuilding their town so rapidly after the recent disastrous fire. Several blocks of buildings are under contract and are going up rapidly. We trust the good work will go on until all traces of the fire shall have disappeared.

Yesterday at a few minutes past 12 o'clock, Guitau, the champion sneak and dead beat, was hanged at Washington for the murder of President Garfield. Now, that he is hung and out of the way for the commission of the foulest crime of modern times, we hope his name will cease to be spoken of among men except to execrate it.

We do not hesitate to say that Milan and vicinity is the greatest fruit country in the south. To a stranger the amount of fruit shipped to northern markets from this place is astounding. Every farmer has something to sell and he finds a ready sale for it at Chicago and other markets north of us. Our shipping facilities are unequalled and we predict an immense increase of shipments in the course of two years. Land is cheap, and the attention of fruit men is being turned to us. Let every farmer within ten miles of Milan go to work at once setting out plum, peach, pear and apple trees, strawberries and raspberries, and our country will bloom as the rose.

Rev. E. B. Chappell and Prof. E. R. Williams have associated themselves together to take charge of McTyeire Institute, at McKenzie, which will be found advertised elsewhere in this paper. Prof. Chappell has had charge of the school several years, and has given satisfaction to the patrons. Prof. Williams has had long experience as a teacher, and has been successful wherever he has taught. Our home readers know him as well as we do, he having been reared here, and it is unnecessary for us to say more in his favor. A full and complete faculty has been secured for all the departments. For catalogue and further particulars, address Rev. E. B. Chappell at McKenzie, or Prof. E. R. Williams at Milan.

The fortunate groom is Mr. Henry Evans, of New York, and he has captured one of the most charming, heroic young ladies of our southland to adorn his northern home. May their lives be a perpetual joy.

Covington Call: Our railroad the first through passengers from Paducah to Memphis on last Tuesday. Capt. Cook, conductor of the passenger train on this end of road, met a train from Paducah at Hatchie river bridge, and the passengers were transferred across the river to his train and were then landed in Memphis—thus making the 20th day of June, 1882, as the date of the first through passengers over the Chesapeake, Ohio and Southwestern railroad from Paducah to Memphis—an event in the history of our road long looked for and desired.

Died of Sunstroke

Mr. Charlie Lloyd, formerly connected with the railroad office here, died of sunstroke at Walnut Ridge, Ark., last Wednesday. His wife was visiting friends near here. A telegram was received by her giving the sad intelligence. She left Thursday morning for Arkansas. She has the sincere sympathy of a host of friends in her bereavment.

Cuy Burrow, col., was struck on the head with a hoe by James Murphy, col. at Lavinia. Burrow's wound, it is thought, will prove fatal.

Uniform School Books.

At a meeting of the School Directors of this county, held in Trenton on Tuesday, the 20th inst., the following books were adopted for uniform use in the county for five years: McGuffey's Revised Primer. McGuffey's Revised Speller. McGuffey's Revised First Reader. McGuffey's Revised Second Reader. McGuffey's Revised Third Reader. McGuffey's Revised Fourth Reader. McGuffey's Revised Fifth Reader. McGuffey's Revised Sixth Reader. Ray's New Elementary and Practical Arithmetic.

Harvey's Revised Elementary and English Grammar.
Eclectic Geographies, 1, 2 and 3.
Eclectic Copy books.
Barnes' U. S. History.

A guaranteed proposition was entered into by the publishers and directors that these books should be furnished at a certain exchange and retail price, and that they are to be placed on sale in different parts of the county, when they can be sold at reduced rates. With the exception of the History, these books are published by Van Antwerp, Bragg & Co., of Cincinnati. We are pleased with the action of the directors, and believe they have made the most judicious selection. This series of school books is very popular all over the country, and justly so, we think. Had the choice been left to us, we should have adopted this list almost entire.
