READY FOR THE WINTER TRADE. We are now receiving, at the Parmor Orrice, directly from the East, a large stock of

PAPER, CARDS, NEW TYPE, and PRINTING MATERIALS, and PRINTING MATERIALS, Selected expressly to suit the requirements of the WINTER BUSINE'S, and are consequently in readiness to fill promptly all orders from OLD or NEW CUSTOMERS for all descriptions of JOB PRINTING,

On unusually favorable terms.

We have also replenished our stock of BLANES, of which we will have at all times on tand a full assortment.

River and Steamboat News. BOATS LEAVING THIS DAY. The City of Huntsviile for Cairo, Aleonia

for M. mphis. ARRIVED. Since our last issue, the following boats have strived: Fairy Queen, Princess and Harmonia

from Cincinnati, and Ambassador from Cairo. EXPECTED. Scotland from New Orleans, Tennessee, Belle, Blanch Lewis, Umpire, Rochester, and Dan

iel Boon from the Ohio river. The Daniel Boon, a fine and popular craft is, we learn, to be put in the line between this city and Memphis. The days of departure for these boats will hereafter be Mondays and and Wednesdays at 4 o'clock, P. M.

NEWSPAPER CHANGE .- Mr. Geo. W. Rigby Esq., has purchased the McMinnville Enterprice, and made an entire change in that paper. Hereafter he will publish an independent journal under the title of the McMinnville Mercury". It is to be a family paper, devoted to the interests of the town and country about it, es chewing politics altogether. Such a paper should be well sustained. Mr. Medearis, who has labored long and faithfully in the American cause, has been obliged to quit the business of printing on account of continued ill health. We hope he may soon recover and whatever enterprise he may next engage in, he has our best wishes for success, pecuniarily and otherwise.

We are pleased to learn that the Corporation has commenced putting down the water pine in South Nashville, under the direction of Mr. Seabury, the Superintendent of the Water Works.

Counterfeit \$20 notes on the Bank of the Valley, payable at Staunton, Virginia, are in circulation in various parts of the country. They may be distinguished, says the Stanton Specator, by the imperfection of the likeness of Fillmore, and the words "Bank of the Valley" which are shaded. In the genuine notes those words are plain. The names of the officers are well executed.

FOR CINCINNATI.-The splendid steamer Harmonia, Sheppard, Master, leaves this evening at 4 o'clock for Cincinnati. She is a fine craft and is well officered.

FOR CAIRO. - The general favorite, the City of Huntsville, leaves at 12 M., to day for Cairo. Capt. Wash. Weaver is still in command of her, and Vinton presides at the desk.

For Memputs-The justly popular and excellent Aleonia is the regular packet for Memphis to-day.

The Ambassador was several hours behind time on her last trip up in consequence of disabling one of her wheels near Clarksville, She will be all O. K. in a short time and take her place in the line.

THEATRE.-Miss Albertine had a rousing benefit on Saturday night last, notwithstand ing the inclemency of the weather. For the bill to-night see the announcement in the proper place.

PROF. HALE'S LECTURE, - The lecture of Prof. Hale at Odd Fellows' Hall, on Friday night last, was numerously attended by an intelligent and discriminating audience. The Hall, in fact, was prowded, and nearly one-half of those present were ladies. The lecture of of Prof. H. was concise and to the point, and as brief as possible, to enable him to give, with his subjects, what he denominates the "California experiment." There were five or six subjects under the Professor's influence, several of whom are too well known, to admit of a doubt of their sincerity, or a suspicion that any collusion or deception was practised. We are aware that there are persons whose skepticism will remain unshaken in regard to the truth or genuineness of these experiments, even when given before their eyes. We are estisfied, however, not only from the character of several of the subjects, but from the expression of the face, the betrayal of the passions, emotions and sympathies as exhibited at the will of the Professor, that the genuineness of these experiments in some, if not all of the subjects, under his control on Friday night last, is beyond question. The trip to California was interesting and exciting. The contract between the parties previous to starting, the parting with friends, the departure, the railroad ride and casualty-the sea voyage, shipwreck, rescue, and many exciting in cidents connected with these accidents-the arrival, sojourn and success in the land of gold-the return, and all the minutia of the whole affair was most faithfully given, to the entire estisfaction and great amusement of the audience. These experiments are indeed surprising, and show a wonderful phenomena which has scarcely begun to be understood. Of its usefulness to mankind, we may have somewhat more to say hereafter.

It will be seen by referring to the proper Dry Goods, Boots, Shoes and Hats. place that a second course of lectures is adver- Which will be sold low for Cash. We have also a large lot of tised to commence to night at the Hall.

THE CONCERT FOR THE ORPHANS. - The Concert at Odd Fellows' Hall on Saturday night last for the benefit of the Orphan Asylums of this city, was altogether a very agreable and recherche affair. The performances of the ladies and gentlemen who took part in the exercises, were very deserving and were received in a flattering manner by the audience. Some of the amateurs exhibited a high order of musical talent as well as much artistic excellence, while all acquitted themselves creditably add well. The Hall was crowded to its utmost capacity with an audience which for intelligence and brilliancy, is seldom equalled, and while those who composed it heartily enjoyed the entertainment, the satisfaction was doubt- Plumbers's Tools & Materials, Marbletsed Iron less doubly enhanced by reflecting upon the object for which it had been gotten up. How many little desolate hearts are made glad; how many little shivering limbs will be comfortably clad; and how many tiny hands raised with gratitude to him "who tempers the wind to the shorn lambs," that their lot, hard though it be, has been cast in a community which has responded in so noble a manner to their appeal for sid! Such deeds are, indeed, as apples of gold and pictures of silver. They speak in a silent but unmistakable language of

of the sublime virtue of benevolence.

DR. BEAL'S PANORAMA OF THE ABOTIC REgions. - This celebrated work of art has arrived, and we are requested to state that it will be open for exhibition to-night, at Old Fellows' Hall. It has been highly complimented by the press elsewhere. We make the following extract, in regard to it, from the Rich-

mond, (Va.) Inquirer. It says: "Odd Fellows' Hall is every night crowded to overflowing with highly delighted speciators, to witness the exhibition of Beale's beautiful Panorams of the Polar Seas. The glorious form of beauty into which the hand of nature piles the huge masses of frozen water; the grandeur of the Aurora; the double suns and tnoons; the gloom of a four month's night; the sports of the frezen mariners; are all brought before the admiring spectator by the great artist, in a manner which is truly wonderful, and which calls forth the greatest approbation. The worth of the exhibition, to our mind, consists in the descriptions, operations, discoveries, and results of the Danish expedition. The warm climate amid the eternal snows, the green foliage the "electric" trees, the rivers, springs and fountains, are all matters of geography, of highest interest, and new to many

HALF IN ADVANCE .- A poet once, being short of means, proposed to an old colored land-lady, that he would write her epitaph if she would furnish him with a good dinner.

The old woman, not liking to issue the vice tuals on trust, not knowing anything of the ability of the individual to fulfill the promise, agreed to do so only on condition that he would first discharge one half the obligation. Consenting to the terms, the hungry poet immediately wrote as follows:

"Poor old aunt Sarah died of late, And just arrived at beaven's gate." Well pleased with this, "aunt Sarah" at once prepared him a sumptuous meal. After par. taking of her bounty, he added:

"When Peter met her with a club, And knocked her down to Belzebub," The hasty departure of poetaster only saved him from the lashing (with the tongue) that he so richly deserved.

THE NASHVILLE AND NORTH-WESTERN RAILROAD COMPANY .- The Union and American of yesterday says: - "At an election on Saturday evening last, Col. JOHN A. GARDNER, having declined a re-election as President of the Company, Col. V. K. STEvanson, who had been elected to fill a vacancy in the Board of Directors, was tendered the position. and we understand, was elected President thereof. CROOKER'S MILLINERY ESTABLISHMENT .- Yesterday was the Fall opening day of the above establishment, and prompted by a desire to see something very nice as well as to be in fashion (as nearly every body, we thought, was there,) we went along with the tide and looked at the large and fine display of millinery and fancy goods there to be seen. Mr. Crooker has brought on a very large and varied stock, embracing all the articles belonging to the trade, of every style and quality. The stock of bonnets, flowers, ribbons, trimmings, head resses, &c., is far beyond what we expected o see. The finer qualities of these various styles goods are indeed superb, surpassing anyhing we have ever seen. The bonnets, paricularly, we look upon as the prettiest things n that line ever introduced to the notice of the

GALLATIN, TENN., DEC. 20-3 o'clock P. M .he four ring-leaders in the contemplated insurrection have just been taxen from jail by a large and respectable body of our first citizens, and will in a few minutes be hung. They were committed on Monday last by Thomas Boyers, who had been engaged closely for two weeks investigating the conracy and bound over to court for trial. The itizens believing that a terrible example was necessary, determined, at a large meeting at the Court House, to execute them. The Julior refused to deliver the key of the jail, when the doors were broken down and the four negroes, Alick, a slave of James Cartwright; Sam Tuck, a slave of M. S. ingleton; Jack, a slave of Mr. Lawrence; and Dick, one of the Fairview negrous were awang up and hung. There is general acquiescence in the action of the meeting, as they were undoubtedly

JOSEPH ROBINSON. THE REGIS OF ART .- In this wonderful age, Art lays her master touches on almost everything. The ceilings over us and the carpets we tread on, are hallowed by Art. Art winds the railway through the mountains and the mud; makes her machines of wood and iron, to act as if with knowledge and annihilates space with lightning tamed down to the tuteledge of a boy. Nothing is too lofty for her touch and nothing too humble. A new proof of this old conviction has just falle a under our notice, in the shape of a CATHAR-TIC PILL, from the Laboratory of that world renowned Chemist, Dr. C. J. AVER.

If we understand the subject, he has carried that article to the far hest perfection of which it is capable. Instead of employing Drugs in its composition, as we have always thought the necessary and only way, he has with consum-, mate skill extracted the cirtues of the medicine to be employed and combined them alone in their purity together. The composition is then mixed and rolled by machinery and steam power into a sperold pili which is wrapped in an envelope of gelatine, for protec ion from the effects of weather or time, and then thickly coated with sugar, to serve as its passport over the palate. Notwithstanding all the labored perfection they are offered to the Public at less than one centeach. However humble the department, we think this may be cafe'y characterized as the consummation of Art in in line .- Morning News, Balt,

Pianos and Music. - We learn that Horace Waters, of 338 Broadway, N.
