NATIVE AMERICAN ASSOCIATION.

Preamble and Constitution of the Native American Association of the United States.

Whereas it is an admitted fact that all Governments are not only capable, but bound by all the principles of national preservation, to govern their affairs by the agency of their own citizens; and we believe the republican form of our Government to be an object of fear and dislike to the advocates of monarchy in Europe, and for the reason, if for none other, in order to preserve our institutions pure and unpoluted, we are imperatively called upon to administer our peculiar system free of all foreign influence and interference. By admitting the strange and indiscriminate to the exercise of those high attributes which constitute the rights of the native American citizen, we weaken the attachment of the native, and gain the support of the foreigner.

Being, then, the right and duty to confederate on these high truths, we profess no other object than the promotion of our native country in all the walks of private honor, credit, and national independence; and therefore maintain the right, in its most extended form, of the native American, and he only, to exercise the various duties incident to the ramifications of the laws, executive, legislative, or ministerial, from the highest to the lowest post of the Government; and to obtain this great end, we shall advocate the entire repeal of the naturalization law by Congress. A law that the Constitution forbids, and even if it did not, we have no wish to establish ex post facto laws, the action we seek with regard to the laws of naturalization, is intended to act in a prospective character. We shall advocate equal liberty to all who were born equally free; to be so born, equitatively, when connected with moral qualities, in our minds, the adocracy of human nature. Acting under these general principles, we further hold that, to be a permanent people, we must be a united one, bound together by sympathies, the result of a common political origin; and to be national, we must cherish the native American sentiment to the entire and radical exclusion of foreign opinions and doctrines introduced by foreign papers and European political adventures. From Kings our gallant forefathers won their liberties—the slaves of Kings shall not wince their back again.

Religiously entertaining these sentiments, we as solemnly believe that the day has arrived, when the Americans should unite as brothers to sustain the strength and purity of their political institutions. We have reached that critical period foreseen and prophesied by some of the clear sighted apostles of freedom, when danger threatens from every ship that floats on the ocean to our shores; when every wind that blows wafts the ragged banners to our cities, bearing in their own persons and characters the elements of degradation and disorder. To prevent these evils, we are now called upon to unite our energies. To fight over this great moral revolution, the recovery of our first revolt of glory, will be the duty of the sons of our country; and we must go into the combat determined to abide by our country; to preserve her honor free from contagion, and her character, as a separate people, high and above the engraftment of monarchical despotisms.

ARTICLES OF THE CONSTITUTION.

First. We bind ourselves to co-operate, by all lawful means, with our fellow native citizens in the United States to procure a repeal of the naturalization law.

Second. We will use all proper and reasonable exertions to exclude foreigners from enjoying the emoluments or honors of office, whether under the General or State Governments.

Third. That we will not hold him guilty of his country's wrong who, having the power, shall fail to exercise it, in behalf of the native American.

Fourth. That we will not, in any form or manner, connect ourselves with the general or local politics of the country, nor aid, nor be the means of aiding, the cause of any politician or party whatsoever, but will exclusively advocate, stand to, and be a separate and independent party of native Americans, for the cause of the country, and upon the principles as set forth in the above preamble and these articles.

Fifth. That we will be in any manner whatsoever, connected ourselves with any religious sect or denomination, leaving every creed to its own strength, and every man untrammelled in his own faith; adhering, for ourselves, to the sole cause of the natives, the establishment of a national character, and the perpetuity of our institutions, through the means of our own country men.

Sixth. That this Association shall be connected with and form a part of such other societies throughout the United States as may now or hereafter be established on the principles of our political creed.

Seventh. That this Association shall be styled the "Native American Association of the United States."

Eighth. That the officers shall consist of a President, Vice President, Council of Three, Corresponding Secretary, Recording Secretary, a Committee on Addresses to consist of three members, a Treasurer, and such others as may be required, and may be hereafter adopted, and whose duties shall be therein defined.

Ninth. That all the foregoing officers shall be elected by this meeting, to serve for one year, except the Committee on Addresses, which shall be appointed by the President.

Tenth. That the President, or, in his absence, the Vice President, or, in the absence of both, the Corresponding or Recording Secretary, is authorized to execute the business of this Association whenever it may be deemed necessary.

THE NEW YORK LIFE Insurance and Trust Company.

This Company has a capital subscribed of one million of dollars, but in consequence of being the depository of the Court of Chancery, and of the Surrogate Courts of the State of New York, as well as of individuals, the business means have increased to upwards of five millions of dollars, as appears by a report of the Master in Chancery, dated 29th of May, 1836.

Persons in public employment, who receive fixed salaries, an Institution like this affords a certain mode of securing a sufficient sum for their families at a future date; and if the object of a parent, besides that of merely making a living, is to accumulate something for the support and education of those who may be left behind, it can be realized in this way, without exhausting those energies of mind and person which are usually necessary through the ordinary struggles of life.

A person aged 30 years, whose income is \$1,000 per annum, may, by the appropriation of \$118 a year, secure to his children \$5,000, even if he should die the next day.

A husband 30 years old, may provide \$500 for his wife by paying annually the small amount of \$11 80. At 45 years old, a clerk may create a saving fund of \$1,000, for the payment of his debts, by the annual premium of \$37 30. At 60, the same amount may be secured for \$49 10 a year for seven years, for the yearly payment of \$49 10.

In the minor offices of the public service, experience has shown that the salaries are not sufficient to enable the incumbents to lay up any thing, even for the infirmities of age, much less for the maintenance of those who survive. The laborer of thirty years, are, therefore, productive of only the support of the day, and there are many sensitive and anxious hearts who live for the happiness of their families, that are harassed for years by the dreadful apprehensions of future want.

For such, a Life Insurance Company holds out relief, gives reality to hope, and, by the small economy of a few dollars per month, puts the mind at ease, and affords the means of securing it for others.

The preliminaries for effecting Insurances are very simple, being merely a declaration of age, health, and other particulars set out in the forms of the office, together with a statement of the physician and friend of the applicant upon some of the same points, the blanks for which will be furnished by the agent in Washington city.

As the design of the company is profit on the one side and protection to the other, and its means are a system are directed to that end, it only requires a reciprocity of good faith, to produce the mutual result of strength to itself and security to its customers.

Officers in the Navy will also be Insured, either for shore or sea duty; the latter service, however, being with an additional premium, which will depend upon the latitude and climate of the voyage.

Insurance will be made for one year, or any period within seven years, or for life, the premium varying, in either case, according to the term. The risk of the company will commence with the date of the policy; but no Insurance will be considered valid until the policy is delivered to the insured. Full information will be given upon application, post paid, to HENRY M. MORFIT, Washington City.

CONSUMPTION!

DR. RELFE'S ASTHMATIC PILL'S have, from their extraordinary success in giving instant relief, and in curing Coughs, Bronchitis, Difficulty of Breathing, Wheezing, Tightness of the Chest, Pain in the Side, Spitting of Blood, Chillsiness and Shiverings that precede Fevers, and Lung Complaints generally! become one of the most popular Medicines known, and are sought after from every part of the country, on account of the astonishing success which has attended their administration in the above complaints, frequently curing the most obstinate cases, and giving the most unexpected relief, after long and fruitless attempts, and persons had given themselves up in despair of a cure!

They have been known to cure persons supposed to be far gone in consumption, and exhibiting all the appearance of approaching dissolution.

And such have been the salutary effects of these Pills, even in hopeless cases, as so far to mitigate the sufferings of the patient, as evidently to prolong life for days and weeks, and give to it a positive comfort they never expected to enjoy.

The operation of the pills is wonderful in easing respiration, quieting the cough, and procuring comfortable rest.

Common colds are frequently removed in a few hours. (As though says a person speaking of these Pills) my wife has tried various medicines of the first celebrity, for an Asthmatic difficulty, (or affection of the lungs) which at times was exceedingly distressing, confining her to her house for days and weeks together, she finds nothing gives her the relief which Relfe's Asthmatic Pills do—easing her respiration, quieting her cough, and giving her comfortable rest." And this is the testimony of hundreds or thousands. The relief which aged people, as well as others, experience from the use of these Pills, is truly astonishing, and renders them invaluable to many, and are in fact, to some, an essential auxiliary to their comfort, and almost to their existence.

As a Physician informed the Proprietor, that a gentleman in the country observed to him, he had reason to believe the use of these Pills had been the means of saving his life.

Price—whole boxes, 30 Pills, \$1; half do. 12 Pills 50 cents.

Prepared by Thompson Ridder, Boston, and for sale at TODD'S Drug Store.

GARLEGANT'S BALSAM OF HEALTH.

THIS valuable medicine has only been introduced to the public about five years, in various parts of the country, and hundreds of persons have used it, and found its beneficial effects, and seven out of ten cases have been permanently cured of the Dyspepsia, Cholera, Nervous Tremors, Lowness of Spirits, Palpitation of the Heart, and all those train of diseases resulting from a disordered condition of the stomach and liver, or derangement of the digestive functions, such as general debility or weakness (flatulency, loss of appetite, sour eructations, and acidities of the stomach, costiveness, head ache, jaundice, flatulent and bilious cholera, &c.

The proprietor does not recommend it as most patent medicines are, as a cure all, and when used is found wanting; that the cure have not so much deceived, that they can scarcely be prevailed upon to try any more, which is not the case with this Balsam of Health, as hundreds of persons have repeatedly used it, and the testimony of many respectable persons, that have been cured of the above diseases.

The proprietor requests all those persons that are afflicted in the way above described, to give his medicines a fair trial, and he assures them that they will not be disappointed.

The Public will find it for sale—wholesale and retail—at TODD'S Drug Store.

FROM AN OHIO PAPER.

DEAFNESS.—MR. PRISTER: There is a man residing in Bethlehem, Pennsylvania, who pursues a new plan of restoring hearing and eyesight.

By taking his advice people will find themselves so easily getting well; so easily getting cured; that they'll almost be at a loss to tell how.

They'll almost be at a loss to know how their afflictions were overcome, and they restored to health and happiness again.

Why, friend reader, the regaining of health and of such blessings as those who had the misfortune to lose them, can never be paid with gold and silver and worldly things.

Indeed, the recovery of such blessings is invaluable; and when people get their hearing and eyesight again, let them offer up prayer to God, and not to man. For, it is to Him that praise is due, and not to the physician.

The farmer giveth seed to the earth, but a kind Providence giveth harvest.

So, on similar principles, the physician giveth remedy to the sick, but that same kind Providence giveth health. Let us be thankful.

A letter below will make known to applicants the nature of help, and that for a fee of five dollars 'tis sent by mail free of postage. And if any additional help—any additional remedial help—should be wanted, 'twill be sent on without any further charge.

The fee is merely considered a recompense for the doctor's time and mental labor.

More doeth not want.

And that which people get in return will be of more value to them than one hundred dollars of such dollar fees; and as a corroboration of the above, we annex a letter from G. W. Ellis Dr. Green:

Dear Friend. Some three years since I made application to you to restore my hearing and eyesight, and at the same time for a friend of mine, Mr. Norton, (caro.) who was afflicted with a great degree of deafness. I mention these circumstances to bring the matter fresh to your mind. We received your remedy, followed the prescriptions, and were soon restored to the use of our ears and eyes; our general health, also, improved in the meantime. By the excellent advice you gave us on the subject of health and long life.

A young man applied to me a few days since for information—he is afflicted with weak eyes—medical men here, in our parts of the world, tell him that the optic nerve is weak. I immediately referred him to you as the only man within the circle of my acquaintance who could give relief in such cases; and he not conveniently able to write, I concluded to write myself, and at the same time enclose the customary five dollar fee and request that which is necessary will quickly be sent on.

Be kind enough to send me one of your pamphlets on the subject of health, temperance, and long life.

Yours, in friendship, G. W. ELLIS, P. M. Granville, Ohio, Sept. 10, 1838.

To Dr. GREEN, Bethlehem, Pa.

The Editor is informed that all printers who will publish the above will receive the remedy gratuitously.

IMPROVED SURGEON'S TRUSSES, for the radical cure of Hernia, or Rupture, by HEBER CHASE, M. D., Philadelphia.

The committee of the Philadelphia Medical Society for the investigation of the radical cure of Hernia, observe:

"Fully impressed with the extreme caution required in forming conclusions concerning changes of structure taking place in parts of the body concealed, not only by the integuments, but by tendinous matter and fascia, and where the nature of the disease renders the opportunity of post mortem examination exceedingly rare, your committee has been desirous to avoid that blameable haste in the decision of important questions which has too frequently given to plausible but ingenious methods of treatment a temporary reputation, to the abuse of public confidence and the injury of the profession, by granting to empiricism the weight and influence of great names.

"The instruments of Dr. Chase have effected the permanent and accurate retention of the intestines in every case of hernia observed by the committee, without material inconvenience to the patient, and often under circumstances more severe than are usually ventured upon by those who wear other trusses—trials which would be imprudent with any other apparatus known to the committee.

"The committee are induced, by the foregoing conclusions, to recommend, in strong terms, the instruments of Dr. Chase to the confidence of the profession, as the best known means of mechanical retention in hernia, and as furnishing the highest chances of radical cure.

"They have no hesitation in saying that, were they individually affected with this terrible disease, they would resort to this method of treatment, with the triple view of securing their comfort, safety, and ultimate chance of recovery.

REYNELL COATES, M. D., WM. ASHMEAD, M. D., ISAAC PARRISH, M. D., Committee."

"All must now admit of the radical cure of Hernia, and that Dr. Chase's Trusses are decidedly the best yet invented to effect that object."—Southern Medical and Surgical Journal.

For the utility and excellence of these instruments, reference may be had to the principal physicians of this city, who are prepared to apply them.

PROPOSALS.

For publishing in the city of Washington a weekly newspaper, to be devoted to the interests of RELIGION and LITERATURE, to be called

THE METROPOLITAN CHURCHMAN

REV. PHILIP SLAUGHTER, Editor.

When a Minister of the Lord Jesus Christ ceases to preach the Gospel, a direct responsibility is incurred by the Church on the world's behalf, that he should do the causes which impel him to take this step. In the present case the Editor was arrested in his ministerial functions by the hand of disease, and his voice hushed by the precept of the physician. He is driven, therefore, by an imperious necessity to do something for the support of his family. Shall he
