CONCORD.—Extract from a Letter to a United States Senator, dated January 1, 1835.—"DEAR SIR:—There appears to be considerable excitement here at present. A new era seems to have commenced in medical science."

"A young gentleman who had been out of health for several years, and who I understand was at the Infirmary the same time you was, and in consequence of your advice took one course of medicine, declared, as I am informed, that he received more relief in 15 minutes, under the operation of the Botanic Medicines, than he had before for four years, when under the charge of the most eminent physicians of the State a few days after he took another course and was cured."

"Dr. Thompson's success in fevers has indeed been great. He has taken patients from almost all the regular physicians here, and restored them to health in a few hours, although some of them were thought to be dangerously sick by their friends and medical attendants, and no prospect of recovering under six or eight weeks, if they did at all."

PETERSBURG, VA.—Extract from Certificate.—"We, the undersigned, do hereby certify, with much pleasure, that we have visited the Thomsonian Infirmary, recently established in Petersburg, on the Thomsonian plan, and believe that no one is better calculated to do it justice, and help the afflicted, than Dr. Thomson. We have taken his medicines, and have seen them repeatedly given with manifest advantage, in a number of cases where the patients were quite ill. His peculiar manner of mixing them goes to make them agreeable and palatable, and his seeming skill in timing and proportioning the doses to the age and strength of the patient and disease, was our admiration. His use of medicaments is truly luxurious, and are given in the most delicate and agreeable manner, under the direction of Mrs. Anson and Doctor Thomson. The whole process, from what we have seen and experienced, may be undergone by the most timid lady or delicate child, without the least apprehension of danger in any point of view; on the contrary, with much advantage, when it is needed. We would recommend all the afflicted to the Thomsonians, and to the Petersburg Infirmary, believing fully that it is a great place for the cure of all curable diseases."

SARAH C. STURDIVANT, MARTHA LILLEY, ELIZABETH NIBLETT, MARTHA P. CLARK, ANN MILLS.

"Petersburg, September 12, 1837.—Dear Sir:—Health is the greatest in mortal blessing bestowed upon man, and is essential to his comfort and happiness. I verily believe that the system of medicine invented by Samuel Thomson, is the safest and most efficacious means, rightly understood and properly carried out, as a curative system, ever adopted. We are bound to exercise that reason which is given to us for our government and protection, to pursue a matter of fact for conjecture. I saw several of your patients, heard of several cases, and witnessed several; I saw your care and attention to the afflicted under your immediate charge, and this had a great effect upon me; but the cure of my dying boy has cast the scales from my eyes, satisfied my judgment, and confirmed it. His case was a most serious hopeless one. I had given him over to die; his jaws became fastened; he was seemingly dead for sixty hours, was now nearly gone; he was fast approaching the embrace of death: To my great astonishment, you, in a short time, relieved and restored him to health. This and a number of other cures have convinced and satisfied me that it is the best and most safe practice I have ever seen carried out."

"My boy was at first taken with a chill, succeeded by a severe fever, and he was completely out of his head for three days before you saw him. He was in spasms and three days before you saw him. The practice, insensible when sent to your Infirmary, was exhausted, but the efficacy of your medicine, and the vapor bath, had so far effected an effect, that he was truly and astonishingly, and unexpectedly to me and all my family, also to the astonishment of every person who saw him, soon restored to life and health. I feel bound to confess the fact, and recommend to all opposers of the system the propriety of knowing correctly what they do oppose before they condemn, and do recommend the practice to all who have lost their health, and the afflicted to your tender care."

FRANCIS PACE.—"We, the undersigned, members and connexions of Mr. Pace's family, do hereby certify that we are acquainted with the boy Mr. Pace speaks of, and saw him during his illness, and that every particular relating to his cure, &c., which Mr. P. mentions, is confirmed by us."

ELIZABETH P. PACE, CARTER C. CONWAY, WHINEY PACE, ELIZABETH SMITH.

In addition to the above extracts, which cannot be expected to convey full information on the subject, but the full documents of which can be seen (together with my mode of practice and the apartments) at my Infirmary; and it being generally conceded by the public that there has been many cures effected, great good done by this system, and that the medicines are allowed to be the most agreeable and most effectual that are administered, but that the practitioners are generally inexperienced,—I would here merely state that, having administered more than ten thousand courses of medicine in Concord and Boston, during which time I had but one patient, it must be acknowledged that my experience is not small, and that I know how to treat the numerous diseases to which the human system is liable.

PRIVATE APARTMENTS, with female attendants, are provided and set apart for ladies, where all complaints peculiar to females are successfully treated. Also, other apartments for people of color. In all cases, every attention will be rendered that can ease the afflicted or ensure a cure to the diseased.

N. B. The demand for Thomsonian Practitioners is continually increasing, and gentlemen of respectable character, coming well recommended, can be admitted to the Infirmary, during which time I had but one patient, it must be acknowledged that my experience is not small, and that I know how to treat the numerous diseases to which the human system is liable.

Mitchell, corner of 6th street and Pennsylvania Avenue, between Brown's and Gadsby's Hotels, where he intends keeping on hand a full and fresh supply of Drugs, Medicines, Chemicals, Paints, Oils, Dry Stuffs, &c. Also a very general assortment of Fancy Articles, Cheating Tobacco, Snuffs, and Segars, of the best quality.

WM. F. BENDER, from Philadelphia, Pharmacist. July 13—

IMPORTANT INFORMATION to persons afflicted with the following complaints, viz: Scrofula, Leprosy, Salt Rheum, St. Anthony's Fire, Fever Sores, even when the bones are affected, White Swellings; Violent Eruptions, after measles, Scoury, Foul Eruptions, Eruptions, Pimples and Carbuncled faces, Sore Eyes, Sore Legs, Scald Head, Ulcers, Venereal Taints, when Mercury has failed, and all disorders arising from an impure state of the blood and humors.—assured that Dr. RELF'S Botanical Drops continue unvalued for the prevention, relief, and cure of these complaints. In proof of which read the following remarkable cure of a case of 12 years' standing:

Extract of a letter. "Sir: My leg, which before did not look like a human limb, is now entirely healed up (after resisting every other application for 12 years!) Previous to taking your Relf's Botanical Drops, I had given up all hope of relief."

Another Case. An agent writes, "There is a person taking the Botanical Drops, evidently with the greatest advantage." He declares, to use his own words, "It is doing wonders for him," and is, as it were, "snatching him from the grave."

Numerous instances have occurred where persons were pining away a miserable existence, nothing they could procure affording them permanent relief, until they had made use of the above invaluable Medicine.

They are also the best Spring and Autumnal Physic. Price \$1, or 6 bottles for \$5. S. J. TODD, Washington, D. C.

IMPROVED SURGEON'S TRUSSES, for the radical cure of Hernia, or Rupture, by WEBER CHASE, M. D., Philadelphia.

The committee of the Philadelphia Medical Society, for the investigation of the radical cure of Hernia, observe: "Fully impressed with the extreme caution required in forming conclusions concerning changes of structure taking place in parts of the body concealed, not only by the integuments, but by tendinous matter and fascia, and where the nature of the disease renders the opportunity of post mortem examination exceedingly rare, your committee has been desirous to avoid that blamable haste in the decision of important questions which has so frequently given to plausible but ingenious methods of treatment a temporary reputation, to the abuse of public confidence and the injury of the profession, by granting to empiricism the weight and influence of great names."

"The instruments of Dr. Chase have effected the permanent and accurate retention of the intestines in every case of hernia observed by the committee, without material inconvenience to the patient, and often under trials more severe than are usually ventured upon by those who wear other trusses.—trials which would be imprudent with any other apparatus known to the committee."

REYNOLD COATES, M. D., WM. ASHMEAD, M. D., ISAAC PARRISH, M. D., Committee. "All must now admit of the radical cure of Hernia, and that Dr. Chase's Trusses are decidedly the best yet invented to effect that object."—Southern Medical and Surgical Journal.

For the utility and excellence of these instruments, reference may be had to the principal physicians of this city, who are prepared to apply them. At sale at TODD'S Drug Store. May 18

GENUINE BUFFALO OIL THE HAIR! THE HAIR! THE HAIR! The greatest ornament to the human body is a splendid head of hair. It has recently been discovered that the genuine Buffalo Oil is a sovereign remedy for baldness, prevents the hair from coming off, promotes the growth, continues the luxuriance, and improves the beauty. It is far superior to any other animal or vegetable oil, and in case of fever, where the hair becomes dry and begins to fall off, when its application more effectual in restoring its beauty and rendering it a healthy state. It is put up in a low price, (37 1/2 cents) that all classes can have access to it. None genuine unless put up in flat bottles, with Hair Oil impressed in the glass. Also, to prevent imposition, it will be signed by the Proprietor, Wm. Brown, 451 Washington, corner of 11th Street, Boston.

CAUTION. We are called on to caution the public, the Druggists in particular, against purchasing from any traveler under whatever pretenses they may be offered, any of DR. EVANS' INVALUABLE MEDICINES, as their unprecedented success in the cure of Consumption, Dyspepsia, Liver Complaint, Indigestion, Costiveness, Loss of Appetite, Palpitation of the Heart, Pain in the Head, Breast, Back and Limbs, Dizziness, Restlessness, and all diseases originating in the Stomach, Heart, Lungs, Liver, and the associated organs, &c., has caused a reckless impostor, who it is ascertained, has been travelling through Pennsylvania, Maryland, Virginia, &c., to counterfeit and vend a deleterious imitation of EVANS' CAMOMILE AND APERIENT PILLS; and another impostor has introduced into Pennsylvania, &c., a spurious article, purporting to be PARIS' SOOTHING SYRUP, for children, when cutting their teeth.—Both of which are deleterious counterfeits. Therefore, in order to protect the public against the frauds of such impostors, and to ensure them the benefit which his Genuine Medicines never fail in bestowing, he has caused the label of EVANS' CAMOMILE AND APERIENT PILLS, to be enclosed according to an act of Congress.

A notice of which entry is printed on the labels on every bottle of the Genuine Pills, and he has caused the name of Dr. J. L. Paris to be stricken out of the label of his celebrated Soothing Syrup, for children, and cutting their teeth, so that the label of the genuine syrup reads "DR. WM. EVANS' SOOTHING SYRUP," an infallible remedy for the pain and sickness to which children are subject when cutting their teeth, tested and approved by thousands of mothers and nurses, who have by its early application, not only prevented their children from suffering excruciating pain but in many instances rescued them from death.

DR. GOODE'S CELEBRATED FEMALE PILLS.

These Pills are strongly recommended to the notice of the Ladies as a safe and efficient remedy in removing those complaints peculiar to their sex, from want of exercise, or irregularity of the system, constipations, suppression, and irregularity of the menses, at the same time, strengthening, cleansing, and giving tone to the stomach and bowels, and producing a new and healthy action throughout the system generally. They create appetite, correct indigestion, remove giddiness and nervous headache, and are eminently useful in those complaints which distress females so much at the "crisis of life." They obviate costiveness, and counteract all hysterical and nervous affections, likewise afford soothing and permanent relief to those afflicted in the most distressing cases of chlorosis, or green sickness, they invariably restore the pallid and delicate female to health and vigor.

These pills have gained the sanction and approbation of the most eminent physicians in the United States, and many mothers can likewise testify to their extraordinary efficacy. To married females, whose expectations of the tenderest pledges of conjugal happiness have been defeated, these pills are truly esteemed a blessed boon.

Persons desiring to have the above valuable work can be supplied by calling at my store, near the 7 Buildings, Dec. 8 F. HOWARD, Agent.

INTERESTING AND APPLICABLE TO THE AFFLICTED, WITH DISEASES OF THE STOMACH, OR NERVES, such as Dyspepsia, either Chronic or Casual, under the worst symptoms of Restlessness; Lossness of spirits and general emaciation; Consumption, whether of the Lungs or Liver; Liver Affections; Jaundice, both Bilious and Spasmodic; Costiveness; Worms, of every variety; Rheumatism, whether Acute or Chronic, together with Gout, Scrofula, Pains in the Head, Back, Limbs, and Side; Typhus Fever, Scarlet Fever, Putrid Sore Throat, Fever and Ague, Spasmodic Palpitation of the Heart and Arteries, Nervous Irritability, Nervous Weakness, Hysterics, The Douloureux, Cramps, Female Obstructions, Heartburn, Headache, Cough, the Common or Humid, and the Dry or the Whooping Asthma, Gravel, and Drops.

The Blood has hitherto been considered by Empiricks and others, as the great regulator of the human system, and such is the devotedness of the adherents to that erroneous doctrine, that they content themselves with the simple possession of this fallacious opinion, without enquiring into the primary source from whence Life, Health and Vigor emanate, and vice versa, pain, sickness, disease and death. Not so with Dr. Hunt, whose extensive research and practical experience so eminently qualify him for the profession of which he has been one of the most useful and successful members. His constant reflection will convince any reasoning mind of the correctness of his views—that the stomach, liver, and associated organs are the primary and great regulators of health, and that the blood in very many instances is dependent on these organs, and that unless medicine reaches THE ROOT OF THE DISEASE, the superficial remedies usually prescribed, serve but as foils to cover the ravages of deep-seated maladies. Under these convictions, the doctor has discovered a medicine whose searching powers are irresistible, and in prescribing, it is with knowledge of its being a radical cure in the various diseases already enumerated, even if applied in the most critical cases, but he does not pretend to ascribe to HUNT'S BOTANIC PILLS a supernatural agency, although from positive proofs within the knowledge of hundreds, he is prepared to show, that when every other remedy has failed, he has given HUNT'S BOTANIC PILLS, and they have never been known to fail in effecting two very gratifying results, that of raising from the bed of sickness and disease those who have tested their efficacy, and thus amply rewarding Dr. Hunt for his long and anxious study to attain this perfection in the healing art.

BOWEL COMPLAINTS CURED—Jaynes' Carnative Balm.

Native Balm is a certain, safe, and efficient remedy for dysentery, diarrhea, or looseness, cholera morbus, summer complaint, colic, griping pains, sour stomach, flatulency, &c. &c., and all splenic and nervous diseases, as sick and nervous headache, hysteria, cramp, &c. &c.

From Dr. M. L. Knapp, late physician to the Baltimore Dispensary, and agent for the Maryland Vaccine Institution. BALTIMORE, MARCH 27, 1833. Dr. JAYNE: Dear Sir: You ask me what proofs I meet with of the efficacy of your medicine. I can safely say that I never prescribed any medicine for bowel complaints that has given me so much satisfaction, and my patients so speedy and perfect relief. It is never introduced into a family, it becomes a standing remedy for those ailments, and is called for again and again, which I think a pretty good proof of its efficacy and usefulness. In the summer complaints of children it has frequently appeared to snatch the little victims, as it were, from the grave. "It saved the life of my child, and of such a child," I have repeatedly heard said. In dysenteric affections of adults, I have time and again seen it act like a charm, and give permanent relief in a few hours. I may say in a few minutes. In fine it is a valuable medicine, and no family should be without it. Respectfully, M. L. KNAPP, M. D.

From Dr. Wm. Steelling, Physician to the Cumberland, N. J. Albany, N. Y. July 13, 1833. This may certify that I have used Dr. Jaynes' Carnative Balm very extensively in bowel complaints, and have not the least hesitation in declaring it superior to any preparation that I have met with for the relief of those diseases. WILLIAM STEELLING, M. D.

From Jonathan Goings, D. D. late of New York, President of Granville College, Ohio. NEW YORK, MAY 20, 1837. Dr. D. JAYNE: DEAR SIR: Having made use of your Carnative Balm in my family, and finding it to be admirably adapted to the complaints for which it is intended, I take pleasure in recommending it to the use of my friends and the Public generally, believing those who are afflicted with any of these complaints will find relief in the use of this valuable medicine. JONATHAN GOINGS.

From the Rev. H. K. Greene, Professor in the German-town Collegiate Institute. GRANANTOWN, APRIL 30, 1838. Dr. JAYNE: My Dear Sir: It gives me pleasure to communicate in this manner, my favorable opinion of your Carnative Balm. For two years it has been in almost constant use in my family. It was thus introduced: A child of five years old had been sick some five or six days with the dysentery. Calomel and other medicines had been largely administered, but without the least apparent benefit. The peculiar discharges from the bowels were unchanged in both character and frequency; the strength of the little patient could not hold out much longer. At this juncture, I was reminded by a friend of your Balm. After a portion of castor oil, it was administered several times through the night. In the morning, the physician found the discharges essentially changed; the disease was checked, nay, removed; all other medicines were discontinued, and the child was soon restored to usual health. We have ever since kept this invaluable medicine on hand, and for both adults and children have found it uniformly efficacious. We readily pronounce it the best adapted to family use of all the preparations with which we are acquainted. Hoping that the public will soon become universally acquainted with this medicine, I remain yours, &c. H. K. GREENE.
