that a day be fixed for trial, but the motion was denied. The following head, which appeared over an item in an evening paper, makes an interesting study: "A Desperate Suicide—A Young Man in Alexandria Blows Out His Brains—Fatal Result."

The satchel stolen from Mr. Shattuck last Thursday was found concealed behind a pile of curiosities by a young gentleman, and through him returned to the owner, and not found and disposed of by any other party, as stated.

About half-past seven o'clock yesterday morning Andrew Anderson, a horse bricklayer, at work on the new Catholic church in Uniontown, fell from a scaffold and broke his right arm.

The Washington Light Infantry excursion to Blackstone's Island yesterday was largely attended. On their return last night, as they passed Alexandria the Alexandria Light Infantry honored them with a display of fireworks and a salute, to which a suitable response was made.

Mr. John H. Thompson and Miss Frances Dawson, an eloping couple from Fairfax County, Va., were married yesterday morning in Bickler's photograph gallery, No. 401 Seventh Street, after investing seventy-five cents in having pictures taken. Rev. Oliver Cox was officiating and performed the ceremony, after which the couple started back home.

Policeman Smith, of Alexandria, came to this city last evening, having in custody a little boy named Eddie Martin, who ran away from his mother in the morning, and a considerable sum of money with him belonging to his mother. The boy was turned over to his father, and it will probably be a long time before he repeats his offense.

A Draw Game at Utica. The third week of the National trip abroad finds them in Utica, N. Y., and they played yesterday in that place with the club bearing that name. The contest was decidedly close and exciting, and at the expiration of ten innings, each side having made three runs, it was concluded to declare the game a draw and play it off to-day.

Had the umpire held to a decision made in the tenth inning the game would have gone to the Nationals by a score of 4 to 3; but upon his reversing it, the two captains mutually agreed to declare it a draw. The following is the score by innings:

Row & Row Straw Hats. Stinemetz's. The Colored Man in Europe. Mr. Royal H. Brown, who has spent three years in Europe, gave an interesting lecture to an appreciative audience at Israel Church last night on the subject "The Colored Man in Europe." Those who came out were well pleased and asked Mr. Brown to repeat his lecture soon. Mr. Brown advised the colored people not to feel that their situation in this country is a general thing worse than that of their people in the same sphere in other countries. He also spoke of the advantages this country enjoyed over all others for building up its citizens. He made mention of the Africans in the French army under Napoleon III, and in what high terms the Emperor spoke of them for their bravery. In conclusion he declared that, from what he had seen of strikes and excursions, the former were ruinous to any country and the latter were usually destructive to the working-man.

Circuit Court Juries to be Deprived of Light and Food—The Police Transfers—The Funeral of Francis B. Mohun—Meeting of the Workingmen's Assembly—Extension of District Railways.

Workingmen's Assembly. The Workingmen's Assembly met last evening, Mr. J. P. Hamilton in the chair and E. L. Barker secretary. Messrs. Grady and Homer, from the Clothing Clerks' Association, and Messrs. Harkness, Biren, and Snyder, from the shoe clerks, presented themselves before the Assembly and requested to be admitted as members of the body. Referred to the committee on organization.

Mr. Spier offered the following resolution, which, after a short discussion, was adopted: Resolved, That the corresponding secretary be, and is hereby, instructed to obtain the address of all existing trades assemblies throughout the United States and Canada for the purpose of bringing about a closer connection between them.

The Assembly then went into secret session. The funeral of the late F. B. Mohun, Sr., took place from 513 Sixth Street northwest yesterday afternoon, and was attended by nearly all the prominent business men of this city. The remains were placed in a handsome casket, covered black, the top of which was covered with floral tributes from sympathizing friends. Rev. Fathers Boyle, Walters, and Morgan conducted the funeral services at the house, after which the cortege proceeded to Congressional Cemetery, where the remains were interred. The following gentlemen acted as pall-bearers: J. B. Blake, W. B. Davidge, L. E. Clark, Charles Edmonston, H. Polkinton, Edward Clark, W. H. Clagett, and W. H. Ward.

Extension of Railways in the District. The District Commissioners yesterday sent a letter to Hon. N. W. Aldrich, chairman of the subcommittee on railroads of the House District Committee, stating as their opinion that the future extension of railroads in the District should be made in accordance with the plan outlined to meet the requirements of the public, and they recommended that action on the whole subject of railroads be deferred until the next session of Congress, when it will be presented such a plan during the present session.

No Food or Light for Juries. Yesterday in the Circuit Court Justice Wiley said that he would announce a new rule of practice. In the future juries retiring to deliberate over a case would not be furnished with refreshments or lights. He wished to preserve the jury system in its purity, and the bailiffs would take notice of the announcement and in the future act in accordance therewith. He did not know how any more hungry juries if it could be avoided.

The Police Transfers. The transfer of police officers to the different precincts went into effect at one o'clock yesterday. Lieutenants Austin and Kelly, of the Fifth and Seventh Precincts respectively, will not exchange places until the late of July, the time of their transfer having been postponed until that time by Major Morgan.

Departure of James Peyton and Louisa Wallace for the Penitentiary. James Peyton and Louisa Wallace, who escaped hanging last week through Executive clemency, were among the passengers on the train for the North which left the Baltimore and Potomac depot at 10:15 last night. They were bound for the Albany penitentiary, Peyton to serve out a life sentence at hard labor and Louisa to be imprisoned for ten years. These two were the central figures of a group of ten manacled convicts. Among their associates were George Galen, sentenced to four years for assault with intent to kill; James Smith, alias "Indian Jack," sentenced to two years for perjury; Carrie Jones, one year, for larceny; Hugh Strider, petty larceny, second offense, two years; and Henry Clanton, for a similar offense, one year.

The prisoners were in the charge of Warden Crocker and Deputy Rusk. After they were placed in the car and seated, a number of the officers of the different prisoners crowded in and filled up the aisle, and took advantage of the few minutes before the train left to say good-by. There was a party of half a dozen on the car, and they were mostly men and seemed to be looking forward to the long future before him in the penitentiary, brightened only by a small spark of hope found in the possibility of escape. One of the men, a woman, bent over him and said, "Don't forget to pray." He replied, "I won't," and in another moment he had disappeared. Louisa Wallace sat alone in a seat and appeared to be in excellent spirits and chatted pleasantly.

Carey Graves, the colored rag-picker charged with outrageous Mary, a colored girl, in South Washington last Wednesday, was committed for the grand jury by Judge Snelly yesterday.

A partial hearing was given in the case of West S. Jones, the alleged ticket swindler, in the Police Court yesterday, and the case was then postponed until to-day.

The affair occurred at Crighton's hardware store, corner of Royal and King streets. Young Price borrowed a pistol and cartridge from one of the clerks, and, while the latter's back was turned, placed the weapon near his right ear and fired. NORTH CAROLINA.

The Prospects in the Old North State. WARENTON, N. C., June 20, 1879. To the Editor of the National Republican: DEAR SIR: I have now been at home several weeks and mixed a good deal with the people. I find affairs moving on smoothly. The crops are remarkably promising, and the people are contented, notwithstanding the hard times, which are not yet over. The towns in this State situated on the railroads are generally prosperous, and some of them have more than doubled in population since the war. There is a marked improvement in the condition of the colored people. Wherever one turns new and neat-looking log houses are seen to take the place of the shacks that our people long ago lived in when slaves. These fruits of freedom are manifest, and I will add that in this country there are now nearly 300 colored families who live on their own lands, while many others live on lands that they have contracted for.

Politically the colored people are more united than they have been for several years. They will stand by the Republican party, General Grant is their first choice for President, but they will cordially support the nominee. Mr. Sherman would be warmly supported. His management of the finances is admitted by fair-minded Democrats to be admirable.

The "exodus" fever has largely appeared in this State, and I think it not very far off. The Ku-Klux spirit, which is the power of those desperadoes to do harm, has long ago died out in North Carolina, and there is no disposition here to get rid of the negro. On the contrary, his labor is much desired, and, as stated above, many of them have become owners of the soil.

The course of the President and his firmness in respect to the appointment of colored people, and it is admitted by the Democrats that their friends in Congress have made a great blunder in dissolving all the appointments in this State in regard to the distribution of patronage. It is all true enough that the colored men are selected for office regardless of locality; but we are not to believe that as good men can be found here as elsewhere. With proper attention to this subject on the part of the Administration, and a judicious use of the method of local capitalization, I believe the State will be redeemed, and that its vote will be cast for the Republican candidates for President and Vice-President in 1880. Respectfully, J. A. H.

Death of a Veteran Police Officer. James S. McColgan, station-keeper at the Second Precinct Police Station, died at 12:40 o'clock this morning. Mr. McColgan was a veteran police officer, having served many years on the force, mainly in the Seventh Precinct. He was known as one of the most energetic and courageous officers on the force. During his service he received injuries which seriously impaired his health, and he was finally forced to retire from the force. For this reason he was dropped from the force, there being no provision for the support of invalid officers, but was subsequently appointed station-keeper in the Second Precinct, which position he held for two years.

Contracts for Supplies Awarded. The award for furnishing the Post-Office Department with six tons for the next fiscal year has been made to Francis H. Smith, of New York, at 14 cents per pound; for hemp twine, to John T. Bailey, of Philadelphia, at 8.43 cents per pound; for wrapping paper, 20x30, to James Skynnington, New York, \$1.15 per pound; for stationery, to the same, at \$2.64 per ream; letter balances and scales, from eight ounces to 600 pounds, to Fairbanks & Co., at prices ranging from \$5.50 to \$27.

Railroad Consolidation Proposed. It is said that a proposition has been made by the Iron Mountain Railroad Company, of St. Louis, for a consolidation with the Texas and Pacific Railway Company, and that negotiations to this end have been referred to a committee consisting of Messrs. Allen, Minturn, and Wheelan, and that a corresponding committee of the Texas and Pacific road has also been appointed, consisting of Messrs. Thaw, Walters, Stebbins, Houston, and Barclay.

MUNICIPAL DEBTS. Starting Bulletin—Sheets of Large Cities. CHICAGO, June 23.—The forthcoming number of the Princeton Review will publish some important and interesting figures, compiled by Robert P. Porter, a journalist of this city, regarding the financial condition of the towns, counties, and cities of the United States. In a former article he gave the financial condition of 130 principal cities down to 1876, and the present investigation has brought down to the date of the census, and includes counties, cities, and towns of the entire country.

The municipal debt of 130 cities was found to be, in the year 1876, \$44,375,633; in 1880, \$221,410,000. The assessed value of the property of the same in 1876 was \$6,175,062,158; in 1880, \$3,451,619,381. Annual taxation of the same in 1876, \$1,117,117,575; in 1880, \$4,060,914,321. The assessed value of the property of the same in 1876, \$6,175,062,158; in 1880, \$3,451,619,381. Increase in debt, 260 per cent; in taxation, 35 per cent; in valuation, 75 per cent; and in population, only 35 per cent. The municipal debt alone of the cities, representing a population of only 8,570,249, exceeded in 1876 by over \$125,000,000 the county, town, and city indebtedness of the entire country in 1870. In six years the indebtedness of these cities had exceeded by over \$169,000,000 the bonded and floating indebtedness of all the towns and cities in the United States, which, in 1870, according to the census, amounted to \$315,243,000. From cities and towns complete returns were obtained. These States are New York, Massachusetts, Illinois, Ohio, Wisconsin, Minnesota, Kansas, Missouri, Connecticut, Georgia, and New Jersey. In these the total aggregate local debt in 1876 was \$5,445,528, and in 1870 it was \$280,179,000. The assessed valuation of property in these States was \$7,474,145,179 in 1870 and \$3,333,669,215 in 1880. Although but eight states, the increase in valuation shows a better condition of affairs than did the first. The chief danger lies in the cities, not in the counties and towns. The increase in the cities was at the rate of 200 per cent, and by adding in the county and town debts the increase is less than 100 per cent.

Retracts from the rest of the States are incomplete, but are as complete and correct as it is possible to obtain until after the census of 1880 is taken. The total local debt of the country at the close of the year 1876 was \$1,081,100,114, exclusive of State debts.

Profitable Stock Investments. Before Messrs. Lawrence & Co., the New York bankers, inaugurated the combination system of operating in stocks, it was often very difficult for inexperienced operators, or even old timers, to deal profitably by their single-handed ventures. Now the field is open to every one for successful operations, and capital in any amount from \$10 to \$20,000, can be used with equal proportionate profit, instead of distracting efforts among many customers, the orders of investors are concentrated into one vast pool and cooperate for the benefit of all, dividing profits pro rata every month. A prominent citizen of San Francisco, and a native of New York, an investment of \$500 last month, other customers are doing better still. \$25 pays \$120 during the month, \$200 returns \$120, or a per cent on the stock, and so on as the market moves. New circular contains 250 unerring rules for success, and full instructions for any one to operate profitably. All the advantages of unlimited capital and careful manipulation are secured by the combination method. Stocks, bonds and bank notes, Government bonds, stocks and bonds wanted. Government bonds bought and sold. Deposits received. Apply to Lawrence & Co., Bankers, 27 Exchange Place, New York City.

How many sleepless nights and weary days are due to the fact that the tooth is not properly attended to. If the tooth is decayed, toothache, produced by decay and inflammation, could only be cured by the use of a good restorative. It is fully restorative, and a good restorative would be to keep their teeth in good condition. To all such we will give a word of advice. Clean your teeth daily with a good restorative, such as TROSTON'S IVORY PEARL TOOTH RESTORATIVE, and preserve your teeth through life. It is a true, natural remedy, being entirely herbaceous, and does not contain any of those poisonous, and often fatal, ingredients which are contained in all the other tooth-pastes. Sold by all druggists, &c., at 25 and 50 cents per bottle.

How many thousands suffer from biliousness, dyspepsia, etc., and live on a miserable existence—until they are enabled to find relief in medical assistance, yet feeling sufficiently well to go on with the pleasure of life. They suffer daily, and only for want of some simple remedy to purge and cleanse the system. QUIT'S GREAT TEA is specially adapted for this purpose. Gentle in its effects, yet it cures all of the chronic matter and leaves the vital organs clear and unobstructed. It restores the blood, and renovates the entire frame. It is truly a natural remedy, being entirely herbaceous, and does not contain any of those poisonous, and often fatal, ingredients which are contained in all the other drugs. Sold by all druggists, &c., at 25 and 50 cents per package, and a quart of medicine.

WELL'S MACHINE SPREAD STRENGTHENING PILLS are superior to all others. Composed of choice medicinal gums, combined with the true Burenydy Pich, spread on the soft lambskin, they afford mechanical support to the affected parts, and acting by absorption, relieves almost instantly. For pains in the back, chest, either by indigestion, rheumatism, or strain, they are unrivaled. Sold by all druggists, &c., at 25 cents each.

BUTLER'S BALANIC MIXTURE, the old infallible remedy. Sold by druggists; price, \$1 per bottle.

WILSON'S COMPOUND OF PURE COD-LIVER OIL AND LIME.—The advantage of this compound over the plain oil is that the nauseous taste of the oil is entirely removed, and the whole rendered entirely palatable. The medicinal value of the oil has long acted as a great objection to its use; but in this form the trouble is entirely obviated. A host of certificates might be given to prove its efficacy. For sale by A. H. Wilton, Chemist, Boston, and by all druggists.
