DORSEY DELIGHTED.

HIS VIEWS ON THE NEW MIKISTRY.

The Cabinet cheerfully considered by the Ex-Senator—He speaks of the Members Individually and Collectively, and Thinks the President Chose Wisely. Few men occupied a more prominent position in the late battle which resulted in the election of James A. Garfield to the Presidency than ex-Senator Stephen W. Dorsey, of Arkansas. Mr. Dorsey, a secretary of the National Republican Committee, rendered services to the cause which were rendered by few of the leaders of the party, and the party generally know it.

As the representative of the National Committee in charge of the campaign in Indiana he directed toward the triumph of the Republican party the overwhelming victory of November than any other man. In saying this we simply echo the opinion of the Republicans of the country and particularly the admirers of the late President.

What do you think of the new Cabinet? "Collectively I think it of good Cabinet," replied the ex-Senator. "Let's take 'em individually," said the scribe. "What do you think of the new Cabinet?" "There is hardly a child in the country but could answer that question. Mr. Blaine is one of two men who are nearer the hearts of the people than any other, and I therefore need say nothing to disparage him, except that I think the appointment a great and judicious one."

The term is broad and comprehensive, and means anything from a first assistant in a Department to a storekeeper in a still-house. With a view of keeping the public advised of the desires of people, and ambitious and willing to serve them, the Republican's extensive corps of representatives has dug diligently during the past twenty-four hours, and the result of their labors is presented below:

AN ARMY OF CALLERS.

STREAMING INTO THE WHITE HOUSE.

One of the increasing industries of the United States is that in photography of persons distinguished in every grade of society. Here at the Capital not much attention is paid to local celebrities, as the population of the District is not much addicted to home-worship. The crowds of strangers who annually flock to Washington, however, make amends for any shortcoming of the residents, and dealers in photographs do a thriving business. A representative of the Republican party, in a recent investigation into the matter, has been able to ascertain that the number of photographs taken in the city during the past year has increased to a very large extent.
