Destructive Fire in New Haven, Conn., and Elsewhere, With Loss of Life.

Special Dispatch. NEW HAVEN, CONN., May 9.—One of the most serious accidents that has ever occurred at a fire in New Haven happened to-night. About 9 o'clock a fire was discovered in the left of the livery stable of Rufus Smith, at No. 384 Chapel street. The fire was soon under control, with a loss of about \$5,000. There was some danger apprehended from the wall of the stable, and Engineer Hubbard and Assistant Engineer Diabrow ordered the men of hose No. 7 to stand back, as there was danger. Just as the order was given the wall fell, burying eight men under the debris. Two men were fatally injured and the others more or less seriously. The names of the injured are Augustus Hyland, probably fatally; J. H. Finagan, probably fatally; Capt. Fred Catlin, seriously; J. D. Goodwin, slightly; Edward J. Ware, slightly; David J. Smith, seriously; George B. Wallis, slightly; and Lester Jackson, slightly. The wounded men were taken to their homes. The fire was undoubtedly of incendiary origin.

NEWTON, N. J., May 9.—Shortly after midnight this morning a fire broke out in the photograph gallery of A. G. Beer, in the building on East State street, known as the Masonic house. The flames spread rapidly, and in a short time all the stores and offices in the building were destroyed. The loss from the fire and water is estimated at over \$20,000, divided among the following parties: A. G. Beer, photograph gallery; R. L. Dobbins, architect; Hamann & Tisdall, dry goods; James H. Edwards, jeweler; Daniel J. Scherler, engraver; Paul Becker, tailor; Morrill & Chamberlain, dry goods; Samuel Nease, lawyer; and Mrs. Elizabeth Munn, who lived in the adjoining building. The losses are nearly all covered by insurance. During the progress of the fire a laborer broke while being raised by half a dozen men, and Charles Mayer and Roland Taylor, firemen, were seriously injured.

OTHER FIRES. The most of the business part of the town of Ferry, Kaufman county, Texas, was destroyed by fire last Monday. The loss is about \$80,000; insurance, \$7,000. The distillery of John Biggs, at Shelbyville, Ind., has been partially destroyed by fire. The loss is from \$40,000 to \$50,000; insurance from \$15,000 to \$20,000. Casino & Co., at Vermontville, ten miles north of Charlotte, Mich., was burned, and two or three men, including the proprietor, were burned to death.

The store of T. Benick & Co., dealers in cotton, wares, &c., at 307 Atlantic avenue, Boston, was damaged by fire yesterday morning to the extent of \$10,000, insured. The building on First avenue, South Minneapolis, occupied by Dr. Myzner as a manufactory of patent remedies, has been burned. The loss on the building and stock is \$30,000; insurance \$14,000. The parties occupying the fourth story as a residence narrowly escaped with their lives.

BALTIMORE AND OHIO RAILWAY.

Regular Monthly Meeting of the Board of Directors—Resignations and Appointments.

BALTIMORE, May 9.—The regular monthly meeting of the board of directors of the Baltimore and Ohio Railway company took place yesterday, the president, John W. Garrett, presiding. The resignation of Mr. N. E. Chapman as master of machinery, made in consequence of ill health, was accepted, and Mr. Andrew J. Cromwell was unanimously appointed as the acting master of machinery. Mr. Cromwell has been in charge of the machinery department for a long period, and for many years satisfactorily filled the position of master mechanic at Mount Clear and also for the past three years the position of assistant master of machinery for main line and branches east of the Ohio river. Mr. John C. Davis, who, after being seventeen years master of machinery, retired from the service fourteen months in order to secure needed rest from protracted labor, having fully recovered his health, returns to the service. On the nomination of President Garrett Mr. Davis was unanimously confirmed as an additional assistant to the president. Mr. James L. Randolph, who has many years been the chief engineer of the company, was nominated by the president as consulting engineer in connection with all the lines of the company, and the nomination was confirmed. The president nominated Mr. Henry F. Douglas as the chief engineer of the line constructed between Baltimore and Philadelphia, and Mr. Douglas has long engaged in his profession, and as engineer has held important and responsible positions. The board unanimously confirmed the nomination. The president stated that arrangements had been made for the rapid prosecution of the work upon the line between Baltimore and Philadelphia with the design of opening this great route at the earliest practicable period. It is expected that contracts for all the heavy work will be offered in a brief time. The president stated that the sterling loss of the company recently negotiated in London attracted to an unprecedented extent investors of the most solid character in Great Britain, and the prospect is bright for this loan commanding par for bonds paying an interest of 4 per cent. per annum has elicited much favorable comment in Europe, showing the general approval by capitalists of the conservative and successful management of the Baltimore and Ohio company. The board then adjourned.

Railways in the United States.

CHICAGO, May 9.—The Railway Age to-morrow will say: During the first four months of the present year there were 1,450 miles of main track laid, against 2,800 miles during the corresponding period last year. The increase is owing to the cold winter and the backward spring interfering with the work. Notwithstanding this fact the mileage thus far this season is greater than for the same period of any previous year, except 1882. The work was done on several of the lines in thirty-one states and territories. Those which lead in the construction are: California, 170 miles; Utah, 156 miles; New York, 115 miles; Pennsylvania, 93 miles; Montana, 85 miles; Idaho, 82 miles; Arizona, 81 miles; and Missouri, 73 miles. The estimated railway building for the year is 8,000 miles.

More Revenue Stamps Wanted.

DETROIT, May 9.—The tobacco manufacturers of this city held a full meeting to-day, at which a letter to the commissioner of internal revenue was unanimously approved protesting against the hardship to which the business is being subjected because of the utterly inadequate supply of revenue stamps received. Hundreds of thousands of pounds of tobacco are now awaiting shipment here for want of necessary stamps. The dealers denounce the existing situation which is so seriously affecting the trade as incalculable and outrageous.

Jerre Dunn's Jury.

CHICAGO, May 9.—Ten minutes before the hour of adjournment this evening, the last of twelve jurors who are to try Jerre Dunn for the Elliott murder was secured. All the day had been occupied in challenges and counter-challenges, the state's attorney questioning each man concerning his views on capital punishment, and the defense propounding the query which eventually became monotonous, "Do you believe in self defense as a justification for killing?" Dunn wore his usual nonchalant air throughout the day.

What John Devo Says.

NEW YORK, May 9.—In a lecture on the Irish question John Devo to-night said the only hope for Ireland was the adoption of the physical force method in place of the moral force movement, inaugurated by the land league. Through the Fenian brotherhood Ireland would yet be free.

The South American Liberator.

NEW YORK, May 9.—At the foundry of the Henry & Bonnard Bronze Manufacturing company on Mercer street to-day the statue of Gen. Bolivar, by La Cova, was cast, in the presence of a distinguished company consisting of ex-Senator Windom, Hon. James Gil-

TWO DARING BURGLARS.

Assault on Old Woman in a New York Flat—Robbery That Object.

NEW YORK, May 9.—A daring and mysterious robbery occurred in East Fifty-third street this morning. Shortly after 4 o'clock Peter Saxe, a German pianomaker, residing on the top floor of an apartment house at No. 101 East Fifty-third street, was awakened from his sleep by the loud cries of his mother-in-law. She occupies a room adjoining that in which Saxe was asleep, for the front part of the house. Upon leaving his bed he hurriedly dressed himself and ran into his mother-in-law's apartment. There, to his great surprise, he found her sitting in bed, the clothes of which were covered with blood. She was flowing freely from an ugly wound on the top of her head. He became so alarmed at the sight that he was unable to speak for several minutes. When he recovered from the shock his mother-in-law informed him that two burglars had entered the house and carried off all the property they could conveniently lay hands on. She said that she heard a noise in the parlor as though something heavy had fallen on the floor, just at the dawn of day. As she opened her eyes a revolver was thrust into her face. A man, who was at the side of the bed, threatened her with death if she made an outcry. She remained quiet for a few minutes when a low sound was heard, which appeared to be a signal from an assistant, who stood guard while the other ransacked the place for valuables. Another man then approached the door, and the burglar who had stood watch hid her over the head. She became unconscious, and remained so for several minutes. When she recovered she had left the room, and she made an outcry that awoke her son-in-law. He immediately went to the station house in East Fifty-first street and reported the case. Two detectives went to the house and carefully examined everything. The facts as stated above appear to puzzle the police considerably, although they are inclined to give no information whatever. The house where the robbery and assault were committed has been committed to the police, and the two burglars, who live on the floor immediately below Saxe, the burglars opened the bureau drawers in the old lady's room and emptied the contents on the floor, picking out whatever articles they considered valuable. They took several bank books, a number of checks, a small box in which jewelry was kept, and some money.

SENATOR FAIR SPEAKS.

He Regrets the Publicity Given to His Wife's Action, and Will Say Nothing Against Her. SAN FRANCISCO, May 9.—Senator Fair, in conversation to-day with a representative of the Associated Press, stated that he regretted bitterly and keenly the notoriety given a matter so exclusively concerning himself and wife. He said: "I am willing to bear all the odium which the public, in ignorance of the real facts, may choose to cast upon you. But my regret is for my wife, whose name should not be mentioned in any newspaper. Now as always my desire has been to do that which would contribute to the happiness of my wife and children. If I have in any way failed God knows it has not been prompted by a desire to do wrong. Now, as ever, I want that which will best contribute to the happiness of my wife. If my wife thinks a separation will add to her happiness, then her mind and mine are alike. I have done nothing to merit the obloquy cast on me. The wife who best knows me will tell you what my desire is in this matter. God has blessed me with wealth. I have never used it for any mean or unmanly purpose. My heart and hand have always been open to those in distress, and will continue to be to those who seek my aid. I repeat that in this matter with my wife, which has been made so public, I have nothing to say further than that it pains me to see her name and mine associated with such dastardly and vindictive dispatches as have gone forth to the world. I am the man and she is the woman, and in these relations I will shield her name at every point in my power."

STRIKING WORKMEN.

A Mine Fired in Illinois—Strike of Printers—Work Resumed.

CHICAGO, May 9.—A special dispatch states that the strikers at the Western Co-operative mine in West Belleville, Ill., set fire to a mine there on Sunday night when it was unoccupied by working, and the fire raged all day Monday. There was considerable trouble on Monday, as the men who attempted to work were intimidated by the strikers. The burned mine is one of the largest in the Belleville district, and the loss by the fire will amount to nearly \$100,000.

CHICAGO, May 9.—At Hand & Avery's eight-hundred printers have struck for an increase of pay on the work of setting up the Boston directory. The company was paying thirty-eight cents per 1,000 ems, and the compositors demanded an increase of seven cents per 1,000. There are no men here to set their places.

CHICAGO, May 9.—It is announced that the North Chicago rolling mills, which have been idle for six months, and which furnish work to 2,000 men, will resume operations early next week.

POLITICAL POINTS.

Ben Butler and the Legislature—Georgia Election Returns.

BOSTON, May 9.—The legislative committee investigating the validity of Governor Butler's first veto had the governor's private secretary again before them to-day, but he refused to give any facts relative to the sending in of the veto or in regard to his relations to the governor. He said his refusal was under the directions of the governor. Governor Butler has refused to approve bills amounting to \$1,400, signed by Wrightington, superintendent of the in-door poor, and S. B. Smith, inspector of state charities, as they have not taken the oath of office. He says they are not legal officers of the state.

ATLANTA, Ga., May 9.—The legislature met to-day and opened the election returns. The vote stood: Henry D. McDaniel, 23,080; scattering, 334. It has not been known when the inauguration will take place, but it is probable that to-morrow will be decided upon.

ATLANTA, Ga., May 9.—The inauguration of Gov. McDaniel will take place at 11 o'clock to-morrow morning with appropriate ceremonies.
