

THE MARKETS.

Speculators Anticipate a Rally in Stocks Soon.

The Usual Grist of Talk About Railway Rate Wars.

REVIEW.

New York, Nov. 22.—The tone of the market up to noon was steady on any light transactions. The feature in the early dealings was reading on the resignation of Mr. Gowen.

The Gould stocks, especially Wabash and Texas and Missouri Pacific, were quite strong, and the improvement in each reached nearly 1 per cent. Union Pacific was weak, and declined 1/2. At 12 o'clock the prices were about at last night's closing, except Erie and Western, which was 7/8 higher, and Texas and Union Pacific, which were 1/4 to 1/2 lower.

Sterling is quiet, but generally firm.

Government bonds dull and steady.

It is reported this afternoon that President Lovjoy, of the Denver, is bent upon breaking the Colorado pool, and this affected Chicago, Burlington and Quincy as well as the Union Pacific. Further decline in Union Pacific to 5 1/2, but the general list was strong and advanced 1/2 to 3/4. St. Paul common to 9 1/2.

Business continued more active during the closing hour, the market showing a reaction of 1/2 from best prices.

COMST.

A high executive officer of the St. Paul road said this afternoon that his company don't propose to cut rates, but it will insist upon membership in passenger as well as in freight pool.

Union Pacific sold down on rumors of a loss in October net earnings of \$400,000, but nothing positive given.

Keene is buying Oregon Transcontinental for 53. Cotton is very stagnant, waiting on receipts; this week will be 10,000 to 15,000 bales behind last week. No news from the Rangoon meeting in Liverpool today.

The market is dull, but strong. There is a growing feeling that the outcome of the war in the Iowa pool will be settled soon. No disposition to sell the market at the moment.

It is reported the Indianapolis, Bloomington, and Western, and the C. C. and I. will work together and exchange traffic.

It is reported on the best authority that the September gross earnings of Erie were \$2,600,000, and the net \$1,000,000.

A Chicago telegram reports the failure of H. G. Billings, lumber dealer. Liabilities, over \$100,000.

The Baltimore and Ohio railway is building a link from Chicago Junction, Ohio, to Akron, which will give an eastern connection and a direct route to the West.

Today's Chicago Tribune strongly hints of a proposition showing that the Rock Island and St. Paul are likely to come together as against all other Iowa lines.

A million francs arrived to-day from Europe.

Steel rails are offered in 1,000 ton lots at \$32, and can probably be bought for \$31. These rails cost over \$40 to manufacture.

Stearns and Shelton have been buying Erie and Western, and pointers say it is thirty for this week.

Mr. Vanderbilt is in Wall street this morning.

Government bonds quiet in the board, but considerable doing outside.

There is no news from western railway matters yet, but a director of the Rock Island says it is believed at the office here matters will be finally harmonized. Daws is disinclined to give his opinion on the matter.

Cotton is unchanged, and a New Orleans authority places the maximum of crop at 5,750,000 bales. Receipts at New Orleans were five, because there are two more roads and the more packed bays are to be marketed.

Reading was a feature of the market on the opening. Price 1 cent higher on resignation of Gowen, with but little stock offered. Morris Brown was a prominent buyer.

St. Paul Willard sold and Stevens bought.

In Lake Shore the buyers were Van Hoffman and Probet.

In Lackawanna Henderson bought, and the sellers were Lines, Knigley, and A. A. Drake.

Erie was sold by Ottum and Marx bought. Loaning rates of stocks unchanged, with small borrowing demand. Money, 2 1/2. Chicago dispatches say the weakness in grain yesterday was owing to the Southern Bank failure.

Vanderbilt brokers talk bullish on Canada Southern, Erie, and Western, and say that both are good to put away.

Market stronger. No disposition to sell this morning.

Brokers agree that notwithstanding the excessive manipulation of the market at present is slightly oversold and on good borrowing demand: Some of the sharpest shorts, therefore, covered just before yesterday's closing, not liking the appearance of this decline, and they hold that the general active list is probably more oversold than the condition of outside business justifies. The only important feature of yesterday's business was St. Paul. Osborn's people manipulated the stock considerably, supported for the Standard Oil people, but S. V. White also sold to extent of 7,000 shares, and Vanderbilt people bought freely of Lake Shore. W. L. Scott says the Northwestern railway directors meet here next Saturday, when usual dividends upon these stocks and Omaha preferred will be declared. Scott is a great bear, mainly because of unfavorable general business in all directions. He declares the depression in interior trade is greater in his memory. He believes Union Pacific will sell at 50 this year, and swears the Wabash stocks are utterly worthless.

Gannett says President Lovjoy, of the Denver, says the traffic of the road has increased fully 25 per cent, and that the road will be in first class shape as soon as new bridges replace those carried away by the recent freshets. He says also that Union Pacific business is all cut to pieces, and the company has been obliged to reduce transportation in some cases from \$2 to 25 cents per hundred weight.

Ledyard, of Michigan Central, is buying a large amount of steel rails, and thinks they are a good speculation to hold for a year. Morgan bought some stock yesterday, and he, with the Mills party, don't believe the Iowa pool will be taken.

The Delaware and Hudson Canal company declares 11 dividend Dec. 10.

GRAIN AND PROVISIONS.

Following are opening, highest, lowest, and closing prices on Chicago board of trade, as corrected by special wire reports to Cooke & Co., brokers:

Table with columns: Name of stock, Opening, Highest, Lowest, Closing. Lists various stocks like Delaware and Hudson, Western Union, etc.
