

EDUCATION, &c.

FRANKLIN INSTITUTE. Conducted by MR. and MRS. SAWYER. THE Male and Female Departments of this Institution will be re-opened on Monday, the 7th of January.

YOUNG LADIES' ACADEMY. MRS. P. DELAROUSSAYE begs leave to inform her friends and the public that the Young Ladies' Academy under her superintendence will be re-opened on Monday, the 14th of January.

RATES OF BOARD, TUITION, &c. Board, Diners, only, per month, \$10. Instruction in English and French, per month, 6. Instruction in English or French, per month, 6. Lessons in Music, per month, 6. Washing, per month, 3. School furniture, &c., furnished by the parents.

FRANKLIN, Jan. 10, 1850.—fm

THIBODAUX FEMALE INSTITUTE.

MR. S. TENNEY, Principal. THE SIXTH SESSION of this Institution will commence on the first Monday in October, 1849, under the following instructors:

MR. S. TENNEY, Teacher of Mathematics, and Natural and Moral Philosophy. MISS L. C. LIGON, Principal Assistant and Superintendent of the Study Department.

MISS C. DIXON, Assistant in the English Department. MISS L. L. LIGON, Teacher in Embroidery and Fancy-work.

MISS J. ROUVERT, French Teacher. MISS C. REDFIELD, Teacher on Piano and Organ.

MR. JOHN TRUET, Professor of Vocal and Instrumental Music, and Lecturer on the Elementary Principles and Science of Music.

The course of study pursued in this Institution is liberal and extensive, embracing all those branches of female education, both solid and ornamental, usually taught in female seminaries.

The text books are of the most approved kind, such as most thoroughly inculcate a practical and finished education.

The system of teaching is the result of fifteen years' experience. Great care is taken to avoid any thing like rote; also, to adapt the studies to the capacity of the pupil.

With analysis and demonstration, and in no case are pupils allowed to leave a text before evincing a thorough knowledge of its subject; to accomplish which, besides public examinations, the last day in each week is spent in reviewing the studies of the preceding days of the week.

Particular attention is given to moral and physical education. The measures of the pupils claim special attention, and the female seminaries are daily instructed in deportment by one of the ladies.

The government is kind and humane; no coercive measures are used, but every means to elicit the ambition of the pupil. A report of the standing and scholarship of each pupil will be sent monthly to parents or guardians.

TERMS FOR BOARDERS: Board and Tuition in any of the English branches, per session of five months, \$75.00. Washing, per month, 1.00. Furnishing Bed and Bedding, per month, 1.00. French, per month, 2.00. Music on Piano, per month, 7.00. Use of Piano for practicing, 1.00. Drawing and Painting, Embroidery, and Miscellaneous Fancy-work, per month, 3.00. Calculations and sacred Music are taught without charge to all who wish to take lessons.

Fifty young ladies can be accommodated with board in the Institution.

The scholastic year will be divided into two sessions, of five months each—commencing on the first Monday in October, and ending the last of July. Tuition payable in advance. No pupil will be taken for a less time than six months; nor will any deductions be made for loss of time, except in case of protracted illness. Pupils can enter at any time during the session—each pupil's session ending five months from the day of entrance.

TO THE PUBLIC. This Institution is pleasantly situated on the right bank of Bayou Lafourche, half a mile below the thriving village of Thibodaux, sufficient to enjoy all its privileges and yet removed from the noise and bustle of the town. Little need be said with regard to health; for any one who is acquainted with this section of country need be anxious to see to the use of the healthiest portion of Louisiana. Religious privileges are provided for the students—Catholic, Episcopalian, Methodist, and Presbyterian—are within half a mile of the Institution, either of which, the pupils are permitted to attend, according to the wishes of their parents.

A large and convenient building having been added to the Institution, it is now capable of accommodating fifty young ladies on a permanent basis. The Institution is kept in a happy and cheerful manner, and is admirably adapted to the education of young ladies. The present Teachers are all qualified for their respective departments, and should an increase in the school warrant a further increase of students, the same will be supplied, but such as are well qualified, will be spared by the Principal to make this Institution equal to any in the Southern country.

Thankful for the past patronage, he would again solicit the confidence of the public, pledging himself to devote his whole attention to the intellectual, moral, and physical education of those young ladies who are committed to his charge.

Jan. 12—17 S. TENNEY, Principal.

ENCOURAGE HOME MANUFACTURE.

THE UNDERSIGNED would respectfully inform his friends and the public generally, that he has opened a TIN, SHEET IRON and COPPER WARE MANUFACTORY, on Main street, nearly opposite the Odd Fellows' Hall, where he will continue to keep on hand a constant supply of thoroughly made Ware, and to do so in the most complete and economical manner, with good articles, at wholesale or retail.

He has employed a superior workman, and will be enabled to furnish work at short notice, fair prices, and in the most complete manner, and in the most complete manner, and in the most complete manner.

His constant business in his line required of him to visit the leading Copper, Tin and Sheet Iron Works, and to examine the quality and price of the various articles of this nature, and to be enabled to furnish the public with the most complete and economical manner, with good articles, at wholesale or retail.

C. RABE.

STRAUB'S PATENT PORTABLE CORN AND FLOURING MILL.

MANUFACTURED BY JAMES TODD & Co., Cincinnati, Ohio.

AMONG the many advantages of this mill over all others now in use throughout the country, it never chokes or clogs in the eye. Having no driver or rim, and the stones through which the eye passes being at rest, there is nothing to obstruct the passage of the grain, which falling freely upon the lower stone, is instantly distributed by its centrifugal motion; whereas, in all other mills, the whirling and rapid motion of the driver, rim and stone obstructs the passage of the grain, and piles it against the side of the eye, until it descends in a body and chokes the mill. This serious difficulty is wholly obviated by running the lower stone, nor is the grinding of this mill affected by any irregularity in the speed; it grinds uniformly well, whether driven at slow or high speed, and will never be injured by running empty, as the lower stone is the one in motion, and cannot come in contact with its fellow. It is easily understood, not liable to get out of order, and can be managed by negroes, or persons who have but a very slight knowledge of milling.

For further particulars address the undersigned through the Franklin Post Office, who will give every information respecting it.

W. X. THOMPSON, Agent.

Cotton, Hay, Lard and Tobacco Scales, portable Corn and Flouring Mills, Thrashing Machines and Horse Powers. 17—1y

WILLIAM DINN, Agent. Jan. 31—2m

TO PLANTERS, SHIPPERS, &c.

THE UNDERSIGNED, surviving partner of Eugene Higgins & Brother, will receive on consignment Produce of every description, and if required, make advances or come under acceptance for two-thirds the probable amount of consignments on receipt thereof, or invest the proceeds in any way he may be instructed. Sales made on time will be guaranteed for the usual charge of commission, and every exertion made to insure the highest prices and to promote the interest of shippers. The facilities for transportation via the canal and railway (which will be in full operation) to the interior of this State, North Carolina, and Tennessee, enable the inhabitants to transport their goods with safety and despatch throughout every section of these thriving States, and thereby give to Norfolk a decided and unquestionable advantage over any town or city in Virginia.

Another consideration to the shippers of produce from abroad is, that freights can be engaged to this port at a much lower rate than to Petersburg or Richmond, they being situated at great distance from sea and at the head of a long and intricate river, renders the navigation both tedious and expensive; for this expense and delay the shipper has to pay a higher freight than if he shipped to this port direct, which is only five hours sail from the Atlantic Ocean.

In all cases, on consignment the instructions of the owners will be strictly complied with, and every means put in requisition to give full and entire satisfaction, and thereby secure a continuance of intercourse and confidence.

JOHN A. HIGGINS, Norfolk, Virginia, 1849.
