MEDICAL NOTICES. MEDICAL NOTICES.

Drs. Banning & Miles DIS, BARRING & Miles

RESPECTFULLY announce that Mr. J. A.
SHERMAN, No. 70 St. Charles street,
New Orleans, has an assortment of Banning's
BODY BRACES. Persons wishing the instrument will find Dr. Sherman well qualified, from
his great experience in the business, to apply and
fit them. A female is in attendance to wait on
ladies. Persons sending for a Brace must send
the measure round the hips. m23

Cancers and Ulcerous Affections OF EVERY GRADE

TREATED BY DR. GILBERT.

TREATED BY DR. GILBERT.

DR. GILBERT. formerly of Gilbert's Indiremary, Memphis, Tena, has selected New Orleans as his future and permanent residence, and offers his professional services to such as desire his aid. He treats the following chronic diseases with great success, without the use of the knife: Cancers, Carbuncles, Fistula in Ano, Weas, Tumors, Dropsy, Scrofula, White Swellings, Ulcers, or Sores of long standing, (thousands of limbs are amputated that could be cared.) Mercurial Rheumatism, and Venerial Diseases of every grade, he cures in all its horrid forms, when the nose is gone and the throat a mass of ulcers, and gives no mercary in any case. Scald Head, Malignant Tetters, Leprosy, Diseases of the Blood or Skin; Warts and Moles he removes from the face, which often become cancerous. He Straightens Crooked Limbs, cures Lockjaw, and Mortification. He has, as yet, never failed to relieve Piles, Diarrhea, chron ic and acute Ulcention of the Bowels, Sore eyelids, Coughs, and all Diseases of the Breast. Consumption proper, he cannot cure. Dr. G. would not be understood that he never fails to cure any of the above diseases, without regard to the situation of the patient, for all diseases may reach a point beyond which no remedy can reach. He is prepared to give the Vapor Bath proper, which has all the medical properties of the Hot Springs. Dr. G. owns the largest Infirmary in the South-West, (at Memphis, Tenn...) which has been crowded with persons from all parts, with every form of Chronic Diseases that flesh is heir to, for the last seven years, and he pledges himself that he cured nineteen out of every twenty who gave him a fair chance, after they had been abandoned by others as incurable. He has not removed to New Orleans for the want of business; he wishes to live further South. He respectfully invites the public to his office to examine his testimonials in favor of his success. He is prepared to give a thousand references of the most respectable certificates, by the quantity, and prove the correct

physicians of Memphis:

Dr. S. Gelebrat.—We have been intimately acquainted with Dr. S. Gilbert's practice for four years; we have often visited his extensive Infirmary, near Memphis; have closely observed his successful treatment of the most difficult cases, and we feel it to be a duty we owe to the community at large, to express our entire confidence in his skill and judgment in the successful management of such diseases as he professes to cure. He has, in our judgment, been far more successful in the treatment of that class of diseases he professes to cure, than, any other physician in the world.

DR. GILBERT'S CURES AGAIN.

DR. GILBERT'S CURES AGAIN.

TO THE PUBLIC.

Something over four years ago a tumor appeared above my shoulder blade, which continued to grow rapidly until it was as large as my two fists. Soon after another appeared on the opposite side. About the middle of last May I called on Dr. S. Gilbert to examine the tumor, which he pronounced to be a fungus of the most malignant kind. As a proof, he referred to the purple streaks which appeared plainly upon the surface of the tumor, and was very donbtful whether a cure could be accomplished, and advised me to consult some other surgeon. This I refused to do. At length I was put under treatment. My disease proved to be very stubborn, having an inclination to bleed profusely. Suffice it to say that his remedies soon overcame the growth, which was remov d before a crowd of spectators, without the knife, and I am happy to state that through Divine Providence I am indebted to Dr. Gilbert's skill for my present sound and good health, which I have been enjoying for several months, and do most cordially recommend him to all who may be afflicted, believing that he can cure them if in the reach of remedial agents. I have been living in this city many years, and can be seen at my office, Gravier street.

ARTEMON HILL.

New Orleans, December, 1850.

SHERMAN'S

ABDOMINAL

SUPPORTER

Site only at his Office, 70 St. Charrier street, opposite Union

Leled success. The effect produced in the use of this instrument is wonderful: it cures the Falling of the Lungs, Stomach or Sides; it helps the Whites, prevents Miscarriages, strengthens weak Lungs, weak Voice, &c.; barrenness gives place to fruitfulness, the constitution is improved, and restoration to health is the final result. m23

APOTHECARIES' HALL, FRANKLIN

APOTHECARIES HALL, FRANKLIN
THE constantly increasing patronage the
above establishment has received during the
last two years, has at length enabled the subscriber to purchase his supplies in the first market, on terms as favorable as any wholesale establishment enjoys. His arrangements for the
coming year are such that planters and physicians depending on him for their entire yearly
supplies will be enabled to purchase pure and
genuine Drugs as low as they are sold anywhere.

In returning his thanks for past favors from
the public he hopes to merit a continuance of the
same.

The establishment will always be abundantly supplied with Quinine, Congress Water and Pain Killer!

At the change of the commercial year, I call attention to my large supply of Blank Books and Stationery.

THIBODAUX FEMALE INSTITUTE. MR. S. TENNEY ... PRINCIPAL.

THE Seventh Session of this Institution commenced on the first Monday in October, 1850

The course of study pursued in this In

The course of study pursued in this insum-tion is liberal and extensive, embracing all those branches of female education, both solid and or-namental, usually taught in temale seminaries. The text books are of the most approved kind, such as most thoroughly inculente a practical and insisted education.

The system of teaching is the result of six-ten yours experience. Great care is taken to

teen years' experience. Great care is taken to avoid any thing like rote; also to adapt the stu-dies to the enpacity of the pupil. Each recita-tion is attended with analysis and demonstration is attended with analysis and demonstra-tion, and in no case are pupils allowed to leave a text before evincing a knowledge of its sub-ject; to accomplish which, besides public ex-aminations, the last day in each week is spent in reviewing the studies of the preceding days of

sical education. The manners of the pupils claim especial attention; to cultivate which, the pupils are daily instructed in deportment by one of the laties.

of the ladies.

The government is kind and humane; no coercive measures are used, but every means to elber the ambition of the pupil. A report of the standing and scholarship of each pupil will be sent monthly to parents or guardians.

Tuition per Month, for Day Scholars. Finite Part No. 1 Page Scholars, So. and S. 60 Preach, 200 Music on Piano, 70 Music on Piano, 70 Practising, 100 Drawing and Painting, Embroidery and Monochromatic Painting, each 300

Young Ladies who Board in the Institution. For Board and Tuition in any or all the

board in the Institution.

The scholastic year will be divided into two sessions of five months each—commencing on the first Monday in October and ending the last of July. Tuition payable half in advance. No pupil will be taken for a less time than one session—nor will any deductions be made for loss of time, except in case of protracted illness. Pupils can enter at any time during the session; each papil's session ending five months from the day of entrance.

To the Public This Laving in the session is the session in the day of entrance.

To the Public.—This Institution is pleasantly situated on the right bank of Bayou Lafourche, half a mile below the thriving village of Thibodaux, sufficiently near to enjoy all its privileges, and yet removed from the noise and bustle of the town. Little need be said with regard to health; for any one who is acquainted with this section of country must acknowledge it to be one of the healthiest portions of Lonisiana. Religious privileges are good; four churches—Catholic, Episcopalian, Methodist, and Presbyterian—are within half a mile of the Institution; either of which, the pupils are permitted to artend, according to the wishes of their parents.

A large and convenient building having been added to the Institution, it is now capable of aecommodating fifty young ladies as boarders.— To the Public .- This Institution is pleasantly

added to the Institution, it is now capable of acommodating fifty young ladies as boarders.—
The principal study room is large, well ventilated,
and conveniently arranged for one hundred pupils.
The recitation rooms are pleasantly situated.
The present teachers are well qualified for
their respective departments, and should an increase in the school warrant a further increase of
teachers, none will be employed but such as are
well qualified. No pains will be spared by the
Principal to make this Institution equal to any
in the Southern country.
Thankful for the past patronage, he would
again solicit the confidence of the public, pledging himself to devote his whole attention to
tintellectual, moral, and physical education of
those young ladies who are committed to his
charge.
S. TENNEY, Principal.

EDUCATION, &c.

ACADEMY OF SAINT MARY,

FOR YOUNG LADIES. THE classes of this Academy assembled on MONDAY, the 3d of February. Madame Delahoussaye tenders her sincere thanks to parents for the distinguished manner in which they have encouraged her establishment, and hopes that she may ever merit the confidence they have reposed in her. During the recess the house has undergone a complete renovation, and commodious and airy apartments have been added thereto, which parents are earnestly invited to inspect.

to, which parents are earnestly invited to inspect

OPELOUSAS ACADEMY.

[FORMERLY PRANKLIN COLLEGE.] REV. THOS. RAND, JR., A. M., Principal.

THIS Institution is located in one of the most desirable sections of the State for health and beauty of scenery.

Of its merits and claims to a continuance of public confidence, its Principal and Founder, Mr. Rund, refers to the students themselves, and to the parents of those students who have been and are now under his instruction. It will continue to be, as it ever has been, the great pride and purpose of his exertions to advance, by all the most efficient and matured means, the in-

and purpose of his exertions to advance, by all the most efficient and matured means, the instruction of his pupils.

The various classes of the school will, on the last Friday of every month, be subjected to the most rigid and critical public examination on the studies of the preceding month, so that not only the perents but all who are interested in the cause of education may attend and judge for

nemselves.

Ment rolls will also at the same time be furnished to each parent or guardian.

The business of instruction is conducted by Mr. Rand, aided by his lady, and by a competent Professor of the French and Spanish lan-

The year will hereafter be divided into two sessions, of twenty two weeks each, the first commencing on the third Monday in January, and the second in four weeks from the close of the feet. first.

Board and Tuition, per session.
