

VERY CORDIAL WAS GREETING TO BOOSTERS

Richmond Commercial Club's First Trade Trip Wednesday Proved to Be Unqualified Success.

(Continued from Page One.)

ard, R. L. Kelly, John H. Johnson, and Henry S. Clarke. Only the steering gear had been injured in the fall.

As for the direct financial benefit of the journey, one Richmond merchant secured a contract worth several hundred dollars at one stop, another got two large orders, and many others added names to their list of patrons. The local men were interested in studying the methods of the small town dealers, and it is generally conceded that the trip was worth several times its cost to the club members.

Visit at Liberty.

The need of one or more penal farms to supplant the county jails in Indiana was one of the main points brought out by Chas. Jordan in his response to the address of welcome by Dr. Garrett Pigman at the Liberty Court House where a small crowd gave the visitors a hearty welcome. Better roads and an interurban between Richmond and Liberty were advocated by Jordan, who added that he hoped for their realization soon. He reiterated the statement that the trip was only a neighborly visit, and that the Richmond men did not come to steal any trade.

President Kelly, representing the educational interests of Wayne County, repeated the friendly sentiment and discussed the standing of the state in scholastic lines. The conclusion of his talk was "Sooner or later we hope to come down to you on the trolley."

C. W. Stivers, publisher of the "Herald," asserted that there should certainly be a spirit of co-operation between Richmond and Liberty, for Liberty had contributed many of its best men to Wayne County. Editor Behmeyer, of the "Express," tendered the visitors an invitation to partake of the contents of a cider barrel.

Two buckets of cider were disposed of at Abington, the first stop on the trip. A reception committee, consisting of the entire populace, was standing at the village square when the autos arrived, and they engaged in interesting conversations with the visitors. A load of literature describing the opportunities for trade with Richmond, was circulated among the Abingtonians, and all seemed enthusiastic over the visit. Charles Beck, postmaster and proprietor of the general store in Falmouth, furnished Grimes' Golden apples for the crowd, and enjoyed a discussion of their mutual troubles with Postmaster E. M. Haas.

Scanned by a Cow.

Bentonville tendered the party a lively reception, where the chairman of the reception committee, and owner of the store, passed around the cigars. The residents of Bentonville were glad to greet the Richmond delegation. The only one who seemed pleased to have the visitors leave was a cow. As the last car left the village square, the animal gave a frantic lunge backward with its pedal extremities, and almost literally kicked the machine out of town.

Owing to the darkness, only short stops were made at Dublin, Cambridge City, Milton, Germantown, and Centerville.

The country along the route was of the greatest interest to the Richmond men. The crops seemed excellent, and the land highly productive, but the rapid destruction of the natural resources was also evident. The large trees are being cut down, and only a few small ones are being raised to take their place. A statute providing for uniform good roads in Indiana was strongly advocated by members of the party after a ride over several bumps. Thirteen proved the hoodoo for the trip as usual. The heads of the expedition tried to obviate this by having no number 13, but car 14, which was substituted for 13, broke a spring at East Germantown, broke the cooling system a short distance further, and sent out a call to be towed in from Centerville. The members of this group arrived in Richmond at half past eight.

GOV. NOEL, MISS., IS FOR EXTRA SESSION

(National News Association)

JACKSON, Miss., Nov. 2.—In pursuance of the proclamation of Governor Noel the Mississippi legislature convened in special session. The chief purpose of the session is to straighten out matters in connection with the State bond issue of 1910. The bonds, amounting to \$800,000, were authorized at the last session of the legislature. Some were not disposed of until December, 1910, but their sale was with the understanding that interest would begin with the date of the authorized issuance, July 1, of the same year. The state supreme court held that the payment of interest for the months preceding the actual sale of the bonds was not legal. To meet the state's moral obligations Governor Noel asks that the legislature appropriate an amount sufficient to cover the accrued interest. In addition to this matter the legislature is asked for an appropriation to defray the expenses of the state troops recently sent to MeComb City in connection with the strike of "Dino" central shopmen.

APPLES POURING IN

For the First Indiana Apple Show.

(Palladium Special)

INDIANAPOLIS, Nov. 2.—In point of the exposition itself, the success of the first Indiana Apple Show is now fully assured. While the show does not open at Indianapolis until Nov. 6, the entry lists are filling very rapidly and the apples are pouring in upon the Indiana Refrigerating Co., which is holding them without cost for exhibitors. The entries are coming from the best known horticulturalists who say that they will be in attendance not only to win prize ribbons but to gain the education the show will offer. In the lists, too, are many growers who operate home orchards on a small scale, who do not pretend to be more than amateurs, yet who are very proud of the apples which come from their trees.

The show apples that are now reaching cold storage in Indianapolis are winter varieties—good old Rambos, Grimes' Golden, Vandeviers, Northern Spies and fifty or sixty other kinds long known to Hoosier growers and consumers. They have been carefully gathered and packed and they represent the very choicest output of one of the greatest apple years in the history of Indiana. Several of the growers have each sent twenty barrels and from single box exhibits up to complete orchard displays and county exhibits, the entire premium list will be well filled with contestants.

"The names on the entry lists," said Dr. Harry E. Barnard, superintendent of the show, "include many men who have never been known as professional horticulturalists, but who find pleasure in developing orchards around their homes. The number who will display apples is growing at a surprising rate, and some of the old professional producers must look to their laurels for the contests for ribbons in all classes is going to be very keen. We already have on hand enough apples to give an immense exposition, while the quantity will be still further increased before the show opens. We are expecting the apple consumers of Indiana to take as much interest in the show as the growers of the fruit. I am satisfied that the show is going to be one of the most popular expositions ever held in the state. It will be the first opportunity the public has ever had to see what Indiana is really doing in growing apples, and we shall surprise those who have thought it was necessary to bring several million dollars worth of fruit into this state year after year, when we can get the apples out of our own orchards and keep this money at home."

PLAY WITH MATCHES

And Two Babies Nearly Burnt Up House.

By playing with matches Mary Holton, the two year old daughter of Mr. and Mrs. Horatio L. Holton, 1213 North B street, was responsible for a blaze that aroused the entire neighborhood shortly after two o'clock this afternoon. Mary, together with her young brother, Charles, aged 4, had been put to bed by their mother for a nap. At two o'clock Mrs. Holton was attracted to the room by the smell of smoke, and arriving there found the bed clothes aflame and the children in danger of being burned. The two infants were quickly carried to the home of the grandparents, Mr. and Mrs. Chas. P. Holton, on North Thirteenth street, and those companies 1 and 3 of the fire department summoned. The fire was soon extinguished with only the loss of the bed clothing.

A single square yard of leaf surface, counting both the upper and the under sides of the leaves, can, under favorable circumstances, decompose at least a gallon of carbonic acid in a day.

CORRUPT PRACTICE LAW TO BE TESTED

For First Time in County at Small Towns Elections Tuesday Next.

Several spirited contests are anticipated in the election of officials of the incorporated towns of the county on next Tuesday. Tickets of the different parties have been known for some time and as the election draws closer practically the sole topic of interest among the voters is centered on the election in Boston, Centerville, Cambridge City, Dublin, Mt. Auburn, East Germantown, Milton, Hagerstown, Whitewater and Spring Grove.

An interesting feature connected with the elections is that they will provide the first test in this county of the new corrupt practices statute, passed by the last legislature. Each candidate is compelled by this statute to file with the circuit court clerk an itemized statement in writing showing the expenses of his campaign, and, in addition, each candidate must swear whether he has contributed any other valuable thing, or made any promises or incurred any liability during his campaign which would likely benefit him in seeking public office.

They Must Be Filed.

Not until such a statement is filed by the successful candidate for any office can he receive his commission or certificate of election. In case any one of the candidates should falsify his itemized statement of election expenses and promises, he is liable to prosecution for perjury, the prosecuting attorney being charged to make a vigorous prosecution. There has been no end of complaint by some of the candidates that the law is burdensome and a nuisance, insofar as it applies to the incorporated towns. Some of the offices pay but \$10 per annum.

At Cambridge City the greatest interest is taken in the race for marshal, the best paid office in the corporation. Daniel Drischel, the present incumbent, and who has been in the office for years, is opposed by Willard Ullrich and Clarence E. Wonnell. Both Charles W. Routh and R. H. Ressler seek the office of town treasurer. F. W. Dirk is nominee of the Republicans for clerk. The candidates for town trustee from the fourth ward are D. C. Hollowell and W. A. Austin, while E. D. Filby seeks to be councilman from the fifth ward.

Fountain City Figures.

A citizens ticket has been placed in the field at Fountain City. The nominees on the citizens' ticket were named by petition while the Republicans held a convention to nominate Frank Hunt for councilman, to oppose H. S. Macy, the nominee on the citizens' ticket, and the present incumbent. A. J. Gibbs is the Republican's choice for marshal, he being a candidate against Garrett Wetzel. The citizens' ticket in addition to Mack and Wetzel, includes C. N. Hatfield for town trustee and Francis L. Thomas for clerk and treasurer.

Both the Democrats and Republicans are active at Hagerstown. The nominations of both parties were made at convention assemblies. The Republican ticket includes Frank White, marshal, treasurer, Mark Werking, clerk, E. A. Dixon, marshal to succeed himself, and Davis Nicum and Henry Replogle, councilmen from the fourth and fifth wards, respectively. The Democratic ticket includes Frank Gelsler, treasurer, Harry Stoltz, clerk, Ben Abbott, marshal, Loren Helmsing and John Clark councilmen from the fourth and fifth wards.

The Republican candidates will fight it out amongst themselves at Centerville. The job of marshal seems to be popular, George Moore, Joe Darrell, the incumbent, Charles Richardson and Burley Jordan asking the place. Bert Bertsch and Earl Lundy, the incumbent, are candidates for clerk-treasurer, the two offices in this town being combined. Thomas Stinson is a candidate for councilman.

WHITEWATER LODGE GROWING RAPIDLY

The Whitewater lodge of Odd Fellows will complete their first initiation of this autumn, when the members of the lodge put a class of fourteen candidates through the third degree, tomorrow evening. With the addition of the new members the Whitewater membership roll will include over four hundred and thirty names.

OHIO PROGRESSIVE CAMPAIGN OPENS

(National News Association) CLEVELAND, Nov. 2.—Arrangements have been completed for a big "dollar dinner" to be given in this city tomorrow night to mark the opening of the progressive Republican campaign in Ohio. United States Senator Moses E. Clapp of Minnesota is scheduled to deliver the principal address.

Housework Drudgery

Housework is drudgery for the weak woman. She brushes, dusts and scrubs, or is on her feet all day attending to the many details of the household, her back aching, her temples throbbing, nerves quivering under the strain of pain, possibly dizzy feelings. Sometimes rest in bed is not refreshing, because the poor tired nerves do not permit of refreshing sleep. The real need of weak, nervous women is satisfied by Dr. Pierce's Favorite Prescription.

It Makes Weak Women Strong and Sick Women Well.

This "Prescription" removes the cause of women's weakness, heals inflammation and restores the system to normal. It weakens the nerves, enlarges the appetite and builds the blood.

Dr. Pierce is perfectly willing to let every one know what his "Favorite Prescription" contains, a complete list of ingredients on the bottle wrapper. Do not let any unscrupulous druggist persuade you that his substitute of unknown composition is "just as good" in order that he may make a bigger profit. Just smile and shake your head! Dr. Pierce's Pleasant Pellets cure liver ills.

SNOW NOW EXPECTED

According to Local Weather Bureau Forecast.

No Indian summer for Richmond in 1911 is the belief entertained now by Prof. B. W. Kelly, head of the High school weather bureau. Prof. Kelly today stated that the present cold spell had cooled the entire country so much that no more warm days could be experienced. He says, that we will have a few days of comparative warmth yet, but that in general, the cold is here to stay.

A storm is anticipated within the next forty-eight hours by the high school observatory. The event will be accompanied by rain or snow, and subsequently, a sudden rise of several degrees in temperature will be recorded. The barometer at the school observatory this noon was the highest it has been since the establishment of the weather bureau here, over a year ago. This situation is especially remarkable, as this month is generally accompanied by low barometer readings. The figure today, corrected to sea level, is 30.7 inches, while the nearest approach to this in the past was 30.55 on the twentieth of last March. The height of the mercury in the barometer is responsible for the cold, which is considered rather intense for the first of November.

MADE LOUD PROTEST

On Action Taken by Judge Fox.

When Judge Fox of the Wayne circuit court on Thursday morning granted the attorneys for Maud Hawkins, who is suing the city of Richmond for \$2000 damages for personal injuries, sustained on September 17, in an accident at the viaduct at Northwest Second street and the Pennsylvania Railroad, leave to amend the complaint, on the very eve of the trial, he caused the attorneys for the defense to enter loud protests.

The amended complaint must be filed with the court by Saturday, but it is likely that the case will not be tried for several weeks, and then not in the Wayne circuit court, as it is understood a motion for a change of venue will be filed. Witnesses for both the complainant and the defense were present, some coming all the way from Peru. The case was set for trial at 10 o'clock, the jury having been summoned and most of the jurors had assembled when the action was postponed.

Although the action is directed against the city of Richmond, the municipality has no more interest in the case financially than that it will hold the bondsmen of Tripper and Sons, contractors, for whatever amount of damages is awarded, should there be any. On Wednesday attorneys for the defense served notice on the attorneys for Mrs. Hawkins that the case would be thrown out of court before noon on Thursday, being summarily ended according to their opinion on a technicality of law. By some it was understood that the petition to amend the complaint was made primarily to thwart any such possibility of the case ending on a technicality.

DIRECTORS OF CLUB WILL MEET MONDAY

The directors of the Richmond Commercial Club will hold their regular monthly meeting next Monday evening in the club rooms. The results of the all day trip which sixty members of the club took yesterday will be discussed, and reports on the arrangement of the two similar trips to be taken soon will be heard. The program for the November meeting of the club, on Nov. 13, will also be made out at this time.

OLD MAIDS FAIL TO GRASP OPPORTUNITY

Mass. Women's Club Disqualifies Bachelor Candidates for Governor.

BOSTON, Nov. 2.—The Women's Homestead Association, through Mrs. Charlotte Smith, has announced it had aligned practically every Massachusetts woman's organization, with memberships totaling 100,000 against the electors of the Republican candidate for Governor, Louis A. Frothingham, because he is a bachelor.

The resolution adopted reads in part: "Be it resolved, That no man should be elected Governor of Massachusetts, no matter what his party affiliations are, who is a bachelor. Bachelors shirk their duties to society, are failures, always have been and always will be because they are not good citizens."

The proportion of remarriages shows an almost continuous decrease since the registrar-general in his report on the births, deaths and marriages in England and Wales during 1909.

Most of the Canadian steamers on the Pacific are being changed into oil burners. The Canadian Pacific railroad contemplates treating its locomotives in the same way.

Athletics Will Be Probable Pennant Contenders in 1912

CLEVELAND, O., Nov. 2.—The Athletics are practically sure to win the American league pennant in 1912. There is no team in the circuit that can compare with Connie Mack's aggregation. His infield, the youngest in the big leagues, is good for several years to come, while at least two of his outfielders should be able to deliver for a few more seasons. And he has Strunk on the bench, waiting for one of the older men to show signs of going back. Thomas and Lapp are right in their prime, while Egan, bought from Baltimore, is said to be the equal of either except in experience. Manager Harry Davis, of the Naps says he is one of the best catchers he ever watched.

Connie will not have to worry about his pitching staff, either. Bender showed stronger this year than he has for several seasons, while Coombs and Plank show no signs of deteriorating. Krause was better this fall than earlier in the season and Morgan is on a has-been yet. And in Martin and Donforth Connie has two youngsters who may become as famous as Coombs or Plank in a year or so. They displayed much promise this fall.

Detroit should be the contended again next season, but the Tigers are going back. There is a great lack of harmony between Manager Jennings and some of his players. Mullin, Jones, Moriarty and Delehanty in particular.

Pitcher Donovan is on the ragged edge, while there are other Detroit pitchers who seem to lack the staying powers they once possessed. It is a one-man team.

Getting down to the other six clubs, there is not one that has any new material in sight that entitles it to consideration as a real rival of the Athletics in 1912. In fact next year's campaign should be a walkover for the world's champions.

Mack loses Harry Davis, but he still has such good advisers as Topsy Hart, Jack Coombs, Chief Bender, Edlie Collins, Jack Barry and Stuff McInnes left and the old white elephant machine should be run just as smoothly as it has for the last two years. With Davis as manager of the Naps, President Somers looks for Cleveland to make a better showing, but as Davis has never had any managerial experience the season must be played before his positive managerial ability may be measured.
