

PROTESTS COME IN OVER THE PRIMARY

People All Over State Indignant Over Taft Men's Actions in Seventh.

(Palladium Special)
INDIANAPOLIS, March 19.—The State Roosevelt headquarters is being bombarded by letters and telegrams condemning the methods adopted by the Taft organization to gain control of the Seventh District convention. Edwin M. Lee, in charge of the Roosevelt campaign in Indiana says that he has never known any political fraud to cause so much interest throughout the entire state.

In line with the advance announcement that Roosevelt Republicans would be protected Mr. Lee announces that the proper preliminary steps have been taken to carry a contest from both the Seventh and First districts to the national convention in Chicago. Contests were filed in eight wards in Indianapolis, and were carried to the district convention Saturday where the machine ignored them. These contests will not be carried to the national convention.

Even Taft Men Kicked.
The methods followed by the Taft machine in the Seventh district were notorious, so far beyond all bounds that even Taft men themselves protested. The tally kept by Roosevelt managers at the polls prove that Roosevelt votes predominate in eight of the fifteen city wards, and if there had been an honest count made, the district convention would have been in the hands of Roosevelt men.

In the third ward, where the voting was in a negro city employee's house, Dr. G. H. Pendleton has made an affidavit that he saw 359 Roosevelt ballots pass through the window where the voting was conducted. The election board made a return of 107 Roosevelt votes. In the Ninth ward the election officials burned the ballots immediately after the voting, and made a return in favor of the Taft slate. In the Fourth ward, the total vote reported by the board was 300 more than the actual number of ballots cast. In the Eighth ward policemen controlled by the city machine ejected Roosevelt men who demanded the right to watch the count of the vote. The window curtains were drawn and the doors locked and later it was announced that the Taft votes exceeded those for Roosevelt three to one. In the First ward the ballot box was inside a room, and so located that it was out of sight of those who voted, being compelled to pass their ballots through a window.

The greatest outrages were in the Fifth and Sixth and Twelfth wards, where the voting places had been purposely arranged within a few squares of each other. Negro repeaters were openly hauled from one of these places to the other on large automobile trucks and were voted without the pretense of the election officials at taking their addresses to determine their right to vote. More negro voters were pulled at two of these wards than actually live in the ward.

Thousands of Republicans have been alienated from the party through the dishonest practices of the men to whom the Taft interests were entrusted and the officials of the state Republican committee are bending their energies to keep the performances in the First and Seventh districts from being repeated, fearing the ultimate effect.

MENKE IS VICTIM OF RARE DISEASE

Frank Menke, the popular barber, who has been ill for several weeks and is now convalescing from an operation performed on him at Reid Memorial hospital for hydatid cysts, an extremely rare caladry, is reported today as being much better. His ultimate recovery is hoped for by the attending physician. Menke was taken to the hospital suffering from a dropsical ailment, but an operation showed in addition, the presence of globular bodies resembling grapes. No attempt was made to remove them as this would probably have resulted fatally.

Last night at 10 P. M. a benefit dance for Menke was given by his friends and a large sum was realized.

CHICKENS CAUSING FAIRVIEW TROUBLE

City officials were called up by a resident of Fairview this afternoon, and asked if something could not be done with the chickens of that suburb which, the complainant stated, annoyed the residents continually. In addition to destroying gardens and flower gardens, the chickens have taken to chasing the unprotected street cars. Muzzles may be forced upon the embryonic fowls as a last resort.

JOHN BARLEYCORN KNOCKED HIM OUT

Harry Ford, arrested yesterday while in an unconscious condition in an alley on North Fifth street, was fined \$1 and costs in police court this morning. He explained that he had taken several drinks after neglecting to eat breakfast, and that it "had knocked him out." As he had been in the city jail for about three hours without moving a muscle after he had been arrested, he was deemed guilty of intoxication.

RINGLING CIRCUS ADVANCE CAR HERE

Ah ha! Now we'll have spring. The advance car of the Ringling brothers' circus was in the city yesterday and announced in flaming red posters that the first circus of the year would be here May 7th. Everybody save up.

MERGER OF CLUB APPEARS CERTAIN

Commercial and Y. M. B. Organizations Committees Both Indorse It.

Committees representing the Young Men's Business Club and the Commercial Club met yesterday afternoon in the Commercial Club rooms in the Masonic Temple and discussed ways and means for the proposed merger of these two organizations. It was the first meeting of the two committees and the keen interest taken in the effort to consolidate the two clubs practically assured the affiliation in the near future. The committees were composed of George Seidel, Sharon E. Jones, Charles W. Jordan and S. E. Swayne from the Commercial Club; Demas S. Coe, William M. Bailey, Raymond B. Mather and Will W. Reller, from the Young Men's Business Club. It was the consensus of opinion that in event the merger is consummated the new organization shall be known as the Commercial Club. There are several propositions pending before the Commercial Club and it is feared that a change in the name might lead to confusion. The respective committees from the two organizations will meet separately some time this week and will come together in joint session again next Monday afternoon at which time it is expected definite action will be taken.

BOILED BODIES OF MURDERED VICTIMS

And Sold Broth as Love Philter to Renew Lost Affections.

(National News Association)
BARCELONA, March 19.—Appalling discoveries were made today by the police who are investigating the career of Enriqueta Marti, dealer in the black art and arch murderess of children, and it was stated by the authorities that the list of victims may go to a score.

The woman boiled the bodies of her little victims and sold the broth as a love philter which she guaranteed to renew the lost affection of husbands and wives. One little girl named Angelina, who escaped from the clutches of the Marti woman told the police that before being killed the victims had to eat the flesh of children who had previously been slain. Part of the story is too gruesome for publication. Since the case has become public many notices of lost children are pouring in upon the police. The sorceress is not alarmed by her plight for she claims to have the power to leave prison at will.

MEXICAN REPUBLIC NAMES PRESIDENT

(National News Association)
MEXICO CITY, March 19.—Gen. Emilio Zapata, leader of the insurgents in the Central and Southern states, has proclaimed himself Provisional president of Mexico with Cuernavaca as his capital. There are now three "national" capitals in Mexico, the others being at Chihuahua. Zapata has 4,700 men to support his new "republic," but is offering inducements to recruits. A federal army is being moved toward Cuernavaca with a view to giving battle to the Zapatist force.

ASKS FOR DIVORCE

Because he didn't love her in December as he did in May, Pearl Alexander has filed suit for divorce in the circuit court against Frank J. Alexander, alleging desertion and failure to provide in her complaint. The couple were married December 24, 1905 and separated May 2.

GUARD AGAINST STRIKEBREAKERS

(National News Association)
BARRE, Mass., March 19.—Deputy Chief of Police Neill of the state police, with 8 deputies armed with rifles today reinforced the Barre & Worcester police and prepared to repress the outbreak threatened when an attempt is made by the mills to transport wool to the railway station at Barre Plains. Four hundred thousand dollars' worth of raw material in the warehouses were guarded by patrolmen against any attempt to destroy it.

800 WEAVERS GO OUT ON A STRIKE

(National News Association)
WEST WARREN, Mass., March 19.—Eight hundred weavers in the Warren cotton company mills went on strike today for an increase in wages. The strikers, mostly Poles, threatened trouble. The mills are tied up.

The GREATEST PLAY I EVER SAW

AS TOLD TO
Hugh S. Fullerton

By FRED PAYNE.

Catcher Chicago White Sox, and Who Is Regarded as One of the Most Reliable Catchers in the American League.

There never has been a doubt in my mind as to the greatest play I ever saw. It was the one that hurt worst.

The play that I consider the greatest was one that Mordcael Brown of the Cubs pulled off in the game that really decided the first world's championship between Chicago and Detroit. I was with Detroit then and you can imagine how it hurt. It prevented us from winning that game, and if we had won that one we would have had a chance for the money and the honors. I think the play broke Detroit's heart and killed the last chance we had to win, although we were playing great ball. In fact, we played good enough ball that fall to beat anyone except the Cubs—but they played better ball.

The play came, I believe, in the fourth inning of the game. The Cubs had gone out into the lead right at the start of the game, and up to that decisive inning we hadn't been able to do anything with Brown's pitching. He was going strong and it

Fred Payne.

looked as if we never could beat him. Then O'Leary and Crawford cracked out line singles to start the inning, and with runners on first and second and no one out it looked as if we would at least tie, and perhaps win the game right there. Cobb was at bat—and if there is a better batter or a faster man going to first I want to see him. Brown planned the play all himself. We fellows on the bench knew exactly what was going to be tried. It was a million to one Cobb was going to hit toward third base. He had been signalled to sacrifice, but we knew he would try to pick it down the third base line and beat it out. Brown stopped the game and consulted with Steinfield. He might as well have told us what he was going to do. He was intending to make the play to third base and it looked as if he was going to throw away the game. Cobb laid down a perfect bunt just inside the third base line, just the right distance and speed. Brown couldn't have had a chance to catch him at first, but as he pitched Brown followed the ball, cut across to the third base line, grabbed the ball on the second bound and shot to third, forcing O'Leary by ten feet. The failure of Cobb's great play upset us, and a minute later Kling snapped the ball to second and caught the runner off that base. Tinker playing the ball perfectly and timing his arrival at the base to the tenth of a second; and on a strike out as Cobb was trying to steal, Kling fired high over second, Evers leaped, grabbed the ball with one hand and came down on top of Cobb. The succession of wonderfully executed plays was enough to break the heart of any team, and the fact that the Tigers kept fighting clear to the end proved their game, although it didn't win the game.

I believe every player on the Detroit team that night gave it to Brown for making the greatest play they ever saw, and it certainly was the most wonderful I ever looked at.

Famous Alpine Garden.
One of the most unique gardens in the world is the Alpine Garden of Botany, said to be the highest in the world, at an elevation of 7,150 feet. It was laid out by the late Canon Chanoux, formerly rector of the Hospice of Little St. Bernard. Here are to be seen blooming almost all species of mountain flowers, not only those common in the Alps, Pyrenees, Carpathians, the Caucasus, and the Balkans, but even from afar off Himalayas. The canon conceived the idea in 1885, but it was not until 1902 that his project became effective. In the latter year the community of Thulle gave him the land.

EXPLOSION CAUSED BY CARELESSNESS

Is the Belief of Police After Investigation of Texas Disaster.

(National News Association)
SAN ANTONIO, March 19.—After a thorough investigation the police declared their belief today that the locomotive explosion in the Southern Pacific yards yesterday which cost the lives of at least 28 men, had been due to carelessness. The authorities investigating the disaster had been unable to find any evidence tending to support the rumor that the fatal explosion was the result of a union labor dynamite outrage.

Mortuary work went on all night and today it was said that the death list might go over 28 so badly were bodies torn and so difficult has it proved to ascertain how many workmen are missing.

Only a score of the victims had been identified today. The task of identification was made doubly hard because practically all the dead were strangers having recently come here to take the places of striking shopmen.

Of the fifty persons injured five are said to be in serious condition. Householders in the vicinity of the yards whose property was injured declare that they will bring suits for damages at once. While the damage from the explosion is estimated by the railroad company at about \$200,000 it is believed that it will exceed this sum.

Despite the police belief to the contrary officials of the Southern Pacific clung to the theory that an explosive had caused the disaster. The officials of the shopmen's union have tendered their services in the investigation, declaring they want to clear the name of their organization from any stigma that may result from the case. A telegram was sent to Detective William J. Burns, who worked up the McNamara case to come to San Antonio and make an investigation. Mr. Burns' expenses may be defrayed by a public committee which has been appointed to inquire into the disaster.

PROSECUTIONS MAY BE FINAL RESULT

Complaints against the practice which they allege is widespread and common, of citizens neglecting to secure building permits before erecting dwellings have been made to City Controller E. G. McMahon. The assessors say that citizens building houses in many instances do not get building permits, which makes them liable to a fine of from \$1 to \$25 per day, each day being construed as a separate offense. Prosecutions may follow further violation of this ordinance.

"VITAL" QUESTION WILL BE DEBATED

"Resolved that the Abolishment of Fraternities from the High School is a Good Thing" will be the subject of what promises to be an interesting debate given by the Boys' Debate Club of High School at the Y. M. C. A. Wednesday evening at 8 o'clock. L. C. Turner will represent the affirmative and Edwin will defend the negative side of the subject. The public is invited to attend.

COPS INDULGED IN VACATION LOTTERY

Vacations for the police force were drawn last night, each officer drawing a slip, printed with a date covering ten days. The board of metropolitan police commissioners must first approve the vacations before they are put into effect. This will be up for consideration at the next meeting, April 5. The vacations, if approved, will start April 14, and finish up Nov. 9th. Each man is allowed ten days.

NOTICE OF APPOINTMENT.

State of Indiana, Wayne County, ss: Estate of Harry Minck, deceased. Notice is hereby given that the undersigned has been appointed by the Wayne Circuit Court, Administrator of the estate of Harry Minck, Deceased, late of Wayne County, Indiana. Said estate is supposed to be solvent.

Dickinson Trust Co., Administrator.
