

## FUND GROWS TO \$433 FOR NEW COUNTY NURSE

After Raising \$500 in Richmond Dr. Dennis Proposes Campaign for Equal Sum in County.

There is \$433 in the fund of the Wayne County Anti-Tuberculosis society available for the public health nurse fund, which started several days ago. The committee, of which Dr. D. W. Dennis is chairman, has raised \$258. Every mail brings subscriptions to the fund. Practically all the money subscribed at this time has come from citizens of Richmond who are anxious to have the work started in the county, although Richmond will receive no direct benefit from the nurse's endeavors. As soon as \$500 is raised in the city, Dr. Dennis intends to inaugurate a campaign in the county, and he believes that within a day or two he will be able to secure this amount from farmers and residents of the smaller towns.

## MAY APPOINT COE ON ELECTION BOARD

years, in the county nurse fund. It is the intention, however, to raise \$500 more so that the salary of the nurse can be assured for at least one year. The money has been divided in the following manner: \$89.48 to the state and national anti-tuberculosis work; \$125.51 to the Domestic Science association; \$75.20 to the county nurse fund, and \$67.74 to the general fund.

## SELL MACHINES TO BUY GASOLINE

The price of automobiles is a small consideration these days. It is the price of gasoline that is worrying those unfortunates that own machines.

Two months ago "gas" was a drug on the market at nine cents but today it is just double that figure and the prospects are that it will take another aeroplane flight and go higher.

Gasoline is a big feature in the European war and the large shipments from this country are one of the main factors in keeping the price up.
