Early Christmas Shopping

It will not avail if the merchants alone undertake to put over the sane Christmas shopping plan. The approval and support of the buying public is the first essential. That is why the State Council of Defense is urging that Christmas buying begin in October and be finished before the first of December. Otherwise it will be necessary either for a limited force of clerks to work themselves down, or to turn away much of the business to which the merchant is justly entitled. That is why, too, the federal government is interested—to save manpower and womanpower usually thoughtlessly and heartlessly wasted by eleventh hour shoppers. Late shoppers, too, are unable to secure satisfactory service when they mail or express Christmas Huns, driven from behind their wall of defense, gifts. They should do this early, if they honestly want to help Uncle Sam solve his trans-The insistent pressure which Marshal Foch portation difficulties. Incidentally no genuinely patriotic Christmas giver wants to squeeze the beauty and pleasure out of the Christmas spirit time merchandizing which restricts deliveries and facts taken from different viewpoints.

The Tragedy of the Underfed Child

HREE hundred thousand children under five years

of age die in this country every year, and many of tween Switzerland and the Norh Sea those who survive grow up to enfeebled maturity. The greater need for thrift is not in pennies, nor sugar, on the front. They were not destined While the stage is being set for the military nor any material substance, but in humanity itself. For for it and would never appear in line. downfall of the Huns, the civilized world has been this reason I took as my work for the year as an experiment in feeding a group of children, giving them a balanced meal at lunch time cooked by the children of the ing more than work upon communica-

A total of 1170 children were classified and their are permitting their hirelings to fire on unarmed weight record was compared with their class standing at divisions, sixty were drawn up both sailors and soldiers escaping from a torpedoed the end of May. There were 825 pupils rated as normal, on the front line and in immediate resteamer in lifeboats. The torch is applied to 70 per cent of the school; 345 were underweight, 30 per serve for what was to have been the

> The underweights, though forming 30 per cent of the fifty miles, the offensive of July 15, school, gave but 27 per cent of the successful pupils at which failed. Some forty more were the end of May, and provided 43 per cent of those who

Taking the normal children as a class by themselves need support. The remaining eightyroads are blown into atoms. Could the wrath of had a poor rating; while 22 per cent of the underweight 88 per cent had done satisfactory work, and 12 per cent five divisions capable of action on the the baffled beast be exemplified more clearly? children were rated as unsatisfactory. rupted by German lies that she became a plaything in Germany's hands war started she lay prostrate at Ger-There Must Be No Commany's feet. Belgium's neutrality promise or Premature was broken; her country, homes and Peace

Let Us Not Discuss Terms While Our Army Is 400 Miles from Berlin,

By P. G. HOLDEN. HERE must be no compromise

peace with Germany or Austria. Let us not talk peace while try. our armies are 400 miles from Berlin. The greatest conflict in the history

of nations is being fought to determine the destiny of the world. We are fighting for the rights of humanity. America is not in this war for the conquest of land, for industries, for commercialism, but for the safety, well-being, and liberty of the people of the world.

It will be a violation of the principles and honor of America and a disgrace to her people to give the lives of our boys in No Man's Land for compromise peace with Germany. When Germany cries "We want

peace"-Let us remember the Lusitania.

Let us remember Belgium. Let us remember the blood of Po

land and Russia. Let us remember the millions of lives that have already been given by England, France, Italy and Serbia. Let us remember our own boys who have given and are still giving their lives in this great struggle-and all

this-for what? A compromise peace?

Let there be no compromise peace -no premature peace-no peace without a crushed Prussianism and a repentant Germany. Such a peace would be a violation of American principles. It would be a retreat of the flag. We must not let Germany chloroform us into inaction by her treacherous peace talk. We shall not give the lives of our boys for a dishonorable peace. No peace should bentered into or even discussed until it is made absolutely impossible for

against humanity. Let us fight the next war now. On to Berlin!

Germany to repeat her offens,

Old English Town of 2,500 Inhabitants Sold by Noble

(By Associated Press)

LONDON, Oct. 12.-A whole town of 2,500 inhabitants, with a recorded brave fighting men. Do we think for history dating back to the time of the Saxons and Danes, Shaftesbury, in Dorsetshire, has been sold. The forces are crushed, after seeing the greater part of the municipality's suffering of their comrades at the acreage and buildings, part of the estate of Lord Stalbridge, has been purchased by James White, a nationally for others and gave to others with her known sportsman, for 240,000 pounds.

In the terms of sale, Lord Stalbridge has made others suffer. Now is the announced, was a provision that the time to whip her; victory is within our town be offered to the mayor and corgrasp. Germany is whipped and knows poration at a reasonable price, and if it, and she is doing just what every they are unable to purchase it, to the date—are today in the hospital, miss- COUGHED SO HE COULDN'T SLEEP. one expected, trying to find a way to tenants. days after they are written. I do not know what fate will by that time have fallen the enemy's desparate attempt to save himself at the last hour by a negotiated peace, but I know very well why the attempt was made and hope to be able

to communicate that knowledge. It is all essential at this critical moment in the war, which will either release civilization or condemn it—if the crisis is mishandled-to a series of inreasing misfortunes.

Briefly, the enemy sues for an easy eace because he now knows that he is beaten irretrievably; that there now can be no counting upon mere de-He fears he cannot stand on any line for long. That is the only meaning of his move

The military situation explains fully, nothing else explains it at all. 1 will begin by setting down certain which illustrate the truth of this.

Let me begin with the state of his numbers, for numbers are at the root of every military situation. The turn of the tide came eleven weeks ago, just before the counter offensive, launched July 18, just before the turning point of the war. The Germans then had upon the western front beexactly 205 divisions. At least twenty of these were incapable of action up-They were recruited from men of age, of past experience in war, or of phy sique which rendered them fit for nothtions, in garrisoning and generally in auxiliary work.

decisive battle, a great offensive on either side of Rheims upon a front of held in general reserve—that is, they were not engaged, even on the quiet sectors of the line, and could be sum-The 70 per cent of normal children gave but 56 per moned at short notice to whatever point seemed to offer a chance of success, offensively or defensively to front were spread out all along the from the Argonne forest to the Swiss

Such, I say, was the mere numerical situation when the enemy had his ofup in one sector for attack, rather and just under two-ninths were standing by as general reserves to be drawn upon at will for any purpose required. All fighting divisions were at least at full fighting strength, 7,000 bavonets to a division of 15,000 men. Two and three-quarter million men were in line, nearly two million of the infan-

In the mean time, the Allies, in spite of the rapidly arriving American contingent, still had an inferiority in numbers, nor had they the initiative-that is, the power of deciding where and when trops must concentrate. They were still anxiously dependent upon the enemy's initiative.

Now look at the present situation. that which has provoked the enemy's attempt at a negotiated peace, and note the contrast. Today, or rather ten days ago, the total German divisions in the west were but 191, of which twenty at least were not availabel for action. In place of 185 divisions available for action certainly there are not more than 171 available. and at this actual moment this is not much. Fourteen divisions were broken up to fill gaps and divisions that were so organized as not to be at full strength. The Allied numbers one is not allowed to give. Theirs is now a large, rapidly growing numerical superiority

But the mere fact of the reduced number of opponents is only half of the story. When the offensive of July 15 was launched by the enemy, exactly fifty miles of the front-just over 10 per cent, of the line-was what the French call "alight"-that is, intensively engaged. The remaining 400odd miles were quiescent.

Today everything is "alight" from the marshes of the Yser to the Meuse -57 per cent. of the line-and some three-quarters of the German effectives are engaged there. The conse quence is that of the enemy's 171 divisions available for action, no less than 130 are intensively engaged, given the briefest intervals of rest in turn, and then, of necessity, thrown back again into the furnace. Ten or eleven at the most remain dispensable, apart from those actually under fire. The general reserve has wholly disappeared and the harassed German line now is like a loom with a shuttle of moving divisions rushing up and down its lateral communications to save what can be saved as each sector is threatened in turn.

That is the first numerical aspect of the enemy's situation, andit is grave casualties he counts certainly not less feated in a single engagement. than 500,000, and probably much more. Another way of putting it is that one a prisoner, and three men out of every potatoes as they are dug this fall. ten in the infantry at rollcall eleven weeks ago-that comparatively recent

As I have said, this period accounts Foley's Honey and Tar relieved me, enfor 250,000 prisoners and 5,000 guns, tirely curing my cough." It covers irbut a quarter of this total in prisoners but a quarter of this total in prisoners and a third of the captured guns belong to the last ten days alone.

HESE words will appear many | Here is yet another way of putting all the movable German divisions were the situation, The number of Americans (not the total Americans, but the trained troops entering the field) during this short period is greater than the German recruitment of this year, quite apart from the French and British recruitment which is available. If to these numbers one is permitted to add the contrast in munitionment and aircraft, the conclusion would be still more striking.

failed?

Turn from this matter of numbers o the matter of ground. Before July 18 the main lateral communication of the Allies, the Calais-Amiens-Chalons-Nancy railroad, was cut in two places. The total enemy lateral communication through Metz, Merien and Lille was scores of miles from the Allied Today the latter is uncut, but at three points our guns are already at twelve, fifteen and nineteen hundred yards' range, while the former has been completely restored. The enemy is "out of range" of it everywhere.

Turn to the political side. Before the offensive in July the dependents of Prussia were a solid block, strong enough on Asian fronts and immensestrong and apparently impregnable Macedonia. Russia had disappeared. We had against us apparently a population of 150,000,000 and armies of 12,000,000. Today the Bulgars have gone, the Turkish empire is cut off by land and Allenby has accounted. with one tremendous blow for one third of the total Turkish armies and one-half of their effective strength. The Turks had 200,000 men organized in units; of these, some 160,000 were fully equipped and in fighting order in Palestine, the Causasus and Mesopotamia. The remaining 40,000 are the palace guard at Constantinople, or are garrisoning in Asia Minor, and some few are still at the Danube.

The great victory in Palestine at one stroke carried off just under 80,-000 within ten days. But the defection of Bulgaria and the crushing of Turkey has obviously not only broken the enemy's block politically, but it has created a new southeastern front which will inevitably empty Albania and the Danube and also, probably. Justice for Poland. cause guerilla warfare in Rumania. Morally it has done much more. It has declared to lesser neutrals that her dependents no longer rely upon the victory of Prussia.

In view of such things one cannot but desire that the mere elements of rial chancellor, has telegraphed to the the military situation should be known Polish regency council now meeting as widely as possible. The enemy's at Moscow, assurance that he "is appeal to be saved from the just con- firmly resolved to shape the relations sequences of his crimes is addressed between the German empire and the to three forces-avarice, fatigue and newly arisen Kingdom of Poland in a fensive of July all ready; just one-third of his available forces were lined him.
