TAKE FINAL STEPS FOR RELIEF DRIVE

Leslie Hart, Wayne county chairman for the Near East campaign, was in Indianapolis today attending a meeting of the county chairmen of the campaign which will be held throughout the United States, January 25 to 31.

Carl Ullman, director of the Near East campaign in this district, said the outlook was good but depended entirely on the willingness of the workers who will be asked to serve.

"When Leslie Harte sets up his organization for Wayne county men should not plead 'too busy' but should put their shoulders to the wheels. If that is done the campaign can be made successful in two or three days, but if workers are not secured it will take much longer and necessitate the men who are willing to work to give up a double amount of their time."

It is requested that all Sunday schools who have raised funds for the Near East Relief communicate with Director Ullman as soon as possible.

ALLIES AGREE UPON CONTROL OF RAILROADS

Inter-Allied Commission to Assume Management of Trans-Siberian Road.

WASHINGTON, Jan. 15.—An agreement for control of the Transsiberian and Chinese Eastern Railroads by an interallied commission virtually has been concluded, and Ambassador Morris at Tokio has ben instructed by the American government to participate in the working out of details.

The interallied committee will be composed of one representative each of China, Japan, the United States, France, Great Britain, Italy and the Omsk Russian government in Siberia, and will be under the presidency of the Russian.

Viscount Ishii, the Japanese ambassador, will call on Acting Secrefary Polk tomorrow to present Japan's plan.

At the Japanese Embassy today it was said that the Transsiberian Railroad is now free from interruption east of Baikal, the forces of the associated nations maintaining order up to that point.

Negotiations between the Japanese and American governments for some form of interallied control of both the Transsiberian and Chinese Eastern Railroads have ben under way for some time. While Japan has not exercised control, as such, she has maintained a military guard, and it was said that during transportation of her army to Siberia, military supplies have been given priority over commerce.

Place a little thicket of the cress on each salad plate and sprinkle with riced egg yolk and tiny dice of the white. A fleck or so of brick colored pimento should peep from its hiding from among the sprigs of green.

Toss a few small sardines in the spider with their own oil and when hot remove to the toast which has ben spread with a little butter rubbed with minced parsley. Place in the oven a second for the butter to warm and send to the table with a lemon slice, dressing the top of each sardine.

WILSON FIRM ON SLAV QUESTION

(By Associated Press)

LONDON, Jan. 15.—In commenting upon the conference between Premier Orlando, of Italy, and President Wilson, last Friday, persons in touch with the Italian mission declare that the premier was surprised at Mr. Wilson's attitude, says the Paris correspondent of the Daily Mail.

"President Wilson was firm in his refusal to recognize Italian claims beyond Trieste and Trent," the correspondent writes. "It is known that Foreign Minister Sonnino, of Italy, demands an important part of the Dalmatian coast, as well as Fiume, while Premier Orlando would be content to give up the Dalmatian coast if sure of Fiume. It is reported that even on this point Mr. Wilson was unwilling to give way.

"While the majority of the inhabitants of Fiume are Italian, that port is the natural outlet for the Austrian Slavs. It is therefore claimed that a few thousand Italians in Fiume are not to be balanced against the needs for a sea outlet for millions of slavs. It is pointed out that the commercial necessities of the Jugo-Slavs demand an outlet to the Adriatic and that if Italy ignores those necessaries she may incur the enmity of those populations and create a new danger to the peace of Europe. It is supposed that President Wilson does not consider that Fiume, as a free port in Italian hands, would meet the needs of the Jugo-Slav hinterland."
