GRAIN PRICES

(Markets by Lamson Bros. & Co., 212 Union National Bank Building)

CHICAGO, Sept. 26.-Firmness in Winnipeg, in face of heavy receipts, brought about a substantial advance in prices early, there after a good part of the advance was lost, but again on the dip commission houses and cash interests were liberal buyers. News is very conflicting but in the main the trade is more influenced by the heavy movement of Canadian grain than by any other factor. On the other hand stocks abroad, as well as in this country are very small for this season of the year. Bradstreets figures on available stocks show more than 42 million bushel less than a year ago. Com and oats continued very strong, the former closing at a substantial ad vance, while Sept. oats was the only delivery materially higher. It is reported that industrials have been find ing a very good demand for their pro ducts and have been good buyers of cash oats in recent weeks.
