Work When You Work

RICHMOND, INDIANA, SATURDAY, OCTOBER 21, 1922

And Play When You Play

JOSEPH MOORE SCHOOL ORCHESTRA IS ORGANIZED

Miss Stafford has charge of the Joseph Moore orchestra. The violins are: James Moore, Roland Roller, Eloise Cloud, Melva Spaulding, Myra Lott, Mildred Fox, Doyle Nicely. Cornet: Richard Hutchins. Piano: Mary Hayward, Frances Garr.

5A-6B Grades Have Library
The pupils in the 5A-6B grades have a library in their room. Eloise Cloud is the librarian and Margaret Test is her assistant. If the pupils have finished their work they are permitted to read one of the books. After the book is read the pupil answers a list of questions, and after the teacher grades them, the answers are copied in the composition book.

History Scrap Book
The 5B and 4A grades are going to make a history scrap book soon. They are using the Van Loon history. —Mary Hayward, reporter for Joseph Moore school.

HIBBERD CHILDREN HAVE FLAG RAISING

Friday, Oct. 13, we had a flag raising. While the flag was being raised, we said our pledge. After it was at full height George Karcher played "America" on his cornet. Then the whole school sang it.

Working in Courts Pads
The sixth grade folks are working in their Courts practice pads. Everybody started with number 13. No one had the problems in that lesson all done. Now we all have to start with lesson one. The 6A's get four minutes and the 6B's get four and one-fourth minutes.

First Grade Sand Table
Miss Stein's room have Columbus' voyage made in the sand. They have three boats with sails on them. The boats are made of paper. There are berries and pieces of wood in the water just like Columbus saw. There is also a piece of carved wood in the water floating, like Columbus saw when he had almost reached land. On the land there are trees with Indians peeping out from behind them. The coast has rocks on it. The children have done very nice work on it. They have also made pictures of his ships sailing on the water. Miss Stein has a colored picture on the blackboard of him landing.

Studying Wheat in Third Grade
The third grade are studying wheat. When they went to the fair they took special notice of the wheat. In their geography class they are learning how they sow the wheat, how they cultivate it, how they cut it, how they thresh it, and then how it is sent to the grain elevator. They are studying how it is made into flour, sent to the bakers and made into bread. They are making a harvest scene in the sand table. Some children are going to bring pictures of threshing machines, a water tank, a house, and other things that will make a harvest scene. One of the boys has brought a sickle that his ancestors used. It is quite different from the ones we use now. They are making posters on wheat. Some of the posters have biscuits and bread on them, and other things made of flour. —Helen Thomas, reporter for Hibberd school.

Finley News

The children of the 1A-2B grades have been making free hand drawings of the tree dwellers. After a discussion of farms and the country, the children suggested making drawings of them. The kindergarten children made brownies. Miss Strong's room made a rainbow and wild geese, also.

Teacher Visits School
Miss Mary Ann Getz, of Ludlow, Ky., visited the first grade of Finley school Friday. She teaches the first grade in Ludlow. —Mary Louise Brehm, Finley reporter.

Remember
November 12th to 19th is Father and Son week.

The Little Leaves

O come, little leaves, let's play;
Put on your dresses bright and gay.
We'll run and frolic and play all day,
And then we'll go away.
—Martha Haworth, 4A grade, Starr school.

STARR SCHOOL POETS WRITE FALL POEMS

The children of Starr school have been making up poems. The little 4A's think of a lot of poems about the leaves and rainy days and of many other things. Ralph Gish, of the 4A wrote the following:

Jack Frost said to the wind one day,
Let's ask the leaves to come and play.
I'll have them put on their colors gay,
And we will frolic and dance away.

Cat-Fish Visits School
Ellen and Walter King brought a live cat-fish to school, and it is very interesting to watch. Walter feeds it water-cress, bread and fishing worms. The children of Starr school like to study the cat-fish very much.

Art Room Collecting Leaves
In the art room we are making a large collection of beautiful leaves. We have a number of them hanging on the bulletin board, and we are going to try to find out what are the names of all of the leaves.

Short Vacation
The third, fourth and fifth grades had holidays on Wednesday, Thursday and Friday of this week, because the teachers are attending the Teachers' Association meetings held in Indianapolis.

The first and second grades had school on Wednesday because the teachers did not attend the Association meeting until Thursday. —Loretta Kittle, reporter for Starr school.

A Rainy Day

Hear the little raindrops,
Patter on the housetop;
Makes the leaves dance and play,
On this rainy autumn day.
—Grace Hamilton, 4A, Starr.

ANNOUNCEMENT

The Frances E. Willard L. T. L. will be entertained at Mrs. Babylon's, 1512 North A street, with a masquerade party, on Friday evening Oct. 27th, from 7 to 9. Come masked. The Sunday meeting of the L. T. L. will be held on Sunday, Oct. 28th. It will be a business meeting, and will be held at the home of Agnes and Nedra Huber, 210 South Thirteenth street, at 3 o'clock.

This photograph was taken during "school hours" for children in the Robert W. Long hospital at Indianapolis.

Even being in a hospital does not keep Indiana children from continuing their studies. They observe "school hours" in the children's ward of the Robert W. Long hospital at Indianapolis. This hospital, which is part of

"Y" OVERFLOWING WITH JUNIOR BOYS DURING VACATION

During the vacation jubilee the Y has fairly swarmed with boys. Mr. Perry Wilson has been gratified by the fine turnout. That the boys throughout the city have taken this opportunity to use their vacation profitably is evidenced by the fact that a good majority of them have not been members of the Y. M. C. A.

The first group to get into the pool on Wednesday numbered half an hundred, and the second thirty. On Thursday the number was about doubled, for who can resist a good swim.

The soccer game was a close one, on Wednesday. The score was 2 to 0, in favor of the West team, made up of husky West Siders. The teams were large, about 80 boys playing. Not all the boys had vacations on Wednesday, consequently Thursday saw a great increase in participants.

Junior Hi-Y Club
The Junior Hi-Y club plans are now under way. Mr. Wilson will hold a conference with Mr. Manning and Mr. Heironimus next week and the possibility of having two Junior Hi-Y clubs will be discussed. There is a sufficient number of boys in each Junior High school to form a good substantial club. The matter will depend upon the enthusiasm of the boys in each school.

Wireless Will Soon Be Ready
The wireless outfit at the Y has not yet been completed, much to the disappointment of everyone over there. There has been a delay over the wiring, and the radio has not been connected up. The indications are that it will be all ready for use in a few days.

Sunday Club Meets
The Boys' Sunday Afternoon club will hold its regular meeting on Sunday. Every boy of junior age is invited to come. There was no meeting last Sunday, due to the meeting held in Centerville.

New Report Cards

Report cards are not always pleasant things to think of, and yet they are very satisfying, especially if one has worked hard all term. The new report cards are really interesting. In some subjects where definite standards are set, the score of the pupil will be written in under the normal score of his grade. This will make it possible for the pupil to judge his own progress. That will help us to do better, will it not, Juniors?

JUNIOR MISSION CLUB AT ST. ANDREW'S

The eighth grade at St. Andrews have organized a Junior Mission club. Last Friday we elected Howard Harle, president; Helen Glasier, vice-president; Albert Snedeker, secretary; Paul Schwendenmann, treasurer. We intend to help the poor missions by giving entertainments and other affairs for raising money.

Correct English Contest
In the Correct English contest between the seventh and eighth grade boys and girls for September, the eighth grade boys won over the eighth grade girls, by one, they being second, with eighty-six. The seventh grade had seventy.

Second Grade Loses Member
At the beginning of the school year Robert Brown, a member of the second grade, was called by death.

First Grade Has Circus
St. Andrews first grade made a circus, having animals of every description. They had the animals returning from the parade, and going to the big tent which had an American flag on it. There were cages for the lions and other wild beasts and there were grazing places for the camels, and mangers full of hay for the elephants. —Paul Schwendenmann, reporter for St. Andrews.

FRANCE IS CHEWING GUM
Since the war France has become one of the best European markets for American chewing gum.

VAILE SCHOOL RECEIVES LETTER FROM IRELAND

Two weeks ago we mentioned that the sixth grade of Vaile school sent a letter to the American consul at Belfast, Ireland.

We were happy to receive a reply last week. It was a big fat letter full of information about linen manufacture. It seemed so nice to think that it came from across the ocean. On the envelope was stamped, "The American Consular Service." In his letter the consul said that he was a Virginian. He told us that a long time ago, the English dealt unjustly with the Irish, and kept the manufacture of wool to themselves. This turned out fortunately for the Irish; for they then turned all their attention to the manufacture of cotton and linen.

He described the process by which the flax was prepared for weaving, and how the bleaching was done, by exposure for some time to the weather. Some of the snow-white table linen of Richmond no doubt, has been made in Belfast.

Belfast is also noted for its ship-building. Here the great Titanic, which was sunk during the war, was built, he said. —Edith L. Webb, reporter for Vaile school.

COUNTY AGENT DOLAN SPEAKS AT GARFIELD

The 8A Social and Industrial Geography class, taught by Miss Heitbrink, enjoyed hearing a talk by Mr. Dolan, county agricultural agent for Wayne county. Mr. Dolan, who was once a teacher himself, thinks school children should learn agricultural methods as well as their other subjects, because 50 per cent. of the population of the United States is engaged in farming pursuits.

He brought with him to the school a weed called "White Snake Weed." It is very poisonous, and, if eaten by animals, will cause their death within 24 hours. It was not known until recently what caused their death, so Mr. Dolan is helping the farmers to get rid of this weed.

Mr. Dolan also talked on chicken culling. He brought two hens with him for exhibits. He called attention to the fact that the hen which is a fast moult will lay more eggs than the hen that takes all summer to moult, because moulting takes strength from the hen. The hen first moults on the neck, then on the back, then on the body, and last of all, on the wings.

He also stated that the color will gradually leave the hen's bill after she has laid for five weeks and her legs and feet after laying six months. It is said that the color from the legs and feet go into the yolk of the egg. A good layer is always contented, and a poor one, fussy. A good hen should lay at least a hundred and fifty eggs a year, as the record is over 300 eggs. Mr. Dolan says, "Always set the hen on eggs that have been laid by the best layers of the flock."

Indian Stories at Sevastopol

Miss Dickinson's room have two big tents in one corner of the room. Some times the children dress up like Indians and tell stories. This is very interesting to the children and they are enjoying it. —Ada Van Voorhis, reporter for Sevastopol school.

Honorable Mention

Due to lack of space Helen Smith's letter on the flag was omitted, last week. Several stories came in too, and as soon as possible they will be published.

Art Students Visit Gallery
Miss Loughhead will take the school children to visit the Art gallery this week.
