

# BILLY SUNDAY GETS \$18,651 AS DAYTON'S FREE-WILL OFFERING

DAYTON, Ohio, Dec. 18.—Dayton gave Billy Sunday \$18,651.32 as a free-will offering yesterday for the evangelistic work he has done here since his campaign opened October 29.

Thirty-one thousand persons attended the four meetings yesterday and contributed the greater portion of the fund, which was given into the hands of Mrs. Sunday in the form of a draft on a New York bank.

With the draft in their possession and the cheers and well wishes of thousands of persons ringing in their ears, Mr. and Mrs. Sunday left at 12:20 o'clock this morning for Birmingham and Syracuse, New York. The Sundays will spend Christmas in Los Angeles with their sons.

Fred W. Rapp and Albert Peterson also left last night, while other members of the party will leave for various cities today to spend the holidays. They will reunite at Knoxville, Tenn., January 7, when another campaign starts there.

The end of the campaign saw 1,033 persons take their stand for Christ, following four of the greatest meetings which have been held in Dayton since the campaign began.

almost a year as an escaped prisoner and alleged forger, was arrested here yesterday afternoon within a few hours after he arrived in Dayton.

The arrest was made by N. D. Burch, special officer of the Dayton Savings and Trust company and Patrolman W. E. Newman of the auto recovery bureau.

He is alleged to have forged checks in Dayton and other nearby cities totaling more than \$2,000. Among other places where Griffith is said to have operated are Portsmouth, Hamilton, Middletown, Ashland, Ky., and various cities in West Virginia.

An industrial school with nearly 100 pupils is owned and supported by the Georgia Federation of Women's Clubs.

## 10 Egyptian Students

*Will Study in U. S.*

CAIRO, Egypt, Dec. 18.—Thirty-three Egyptian students have been selected by the Minister of Communications to be sent abroad to complete their technical studies. Ten of them will go to the United States.

These young men will study the latest developments in manufacturing processes. Following an agreement between the American department of commerce and the Egyptian government, one of them will be assigned, for two years' training, to the locomotive department of some American railroad. Another will spend two years studying internal combustion engines. It has been arranged that a third will pass

four years' apprenticeship in the naval shipbuilding yards, and another will spend two years in the telegraph service. The other six will spend three years in automobile factories. All the expenses incurred by these students will be met by the Egyptian government. It is felt here that this program will aid in bringing about closer economic and industrial relations between Egypt and the United States.
