**MUST KEEP THE
WALKS CLEAN**

Mayor W. F. Hodges of Gary conferred with Col. Mapes, in command of the Fourth division detachment stationed in the city, at military headquarters this morning in regard to the icy condition of the sidewalks in the city and immediately issued an order that in the future all walks must be kept free of snow and ice. Gary is one of the few cities that have no law compelling residents to keep their sidewalks clean. An unusual number of accidents have been reported as a result of icy walks this winter and residents are asked to co-operate in the movement.

**GEN PERSHING
COMING TO GARY**

When Gen. John J. Pershing pays Chicago a visit on the 29th and 31st of this month it is possible that he will make a flying trip to Gary to pay a hurried inspection of the Fourth division provisional regiment stationed in the city.

"While it is not authentic," said Col. Mapes this morning, "I am quite sure the general will visit your city."

**31 STILL ARE
RAIDED IN GARY**

During the troop occupation of the city, the police and members of the Fourth Division detachment have raided a total of thirty-one stills and have confiscated in the neighborhood of 3,000 gallons of wine and raihu whiskey, was the startling statement made by

Col. Mapes this morning. "This is the quietest day I have spent since the troops came to the city," said Col. Mapes, "and it looks like we have cleaned up Gary pretty thoroughly." The police are making an effort today to learn the name of a woman who fell down a cellar-way north of the Vindig store on Broadway yesterday, and it is said, severely injured herself. According to the report the woman is an employe of the Lyric theatre.
