

AUTOMOBILE SECTION

PAIGE TRUCKS BUILDING A REPUTATION

Paige trucks—now well established in Chicago and surrounding territories and built in 1-1/2, 2-1/2 and 3-1/2 ton capacities have in a comparatively short time earned the reputation that is the basis for the slogan, "The Most Serviceable Truck in America," which differs only in one word from that applied to the passenger cars built by the same firm, says Jerry O'Neil, at the O'Neil Auto Sales.

Mr. O'Neil goes on to say that J. M. O'Neil in charge of the truck department of the Hied-Sykes Co. is well pleased with the results of his trucks, which led him to take interest in the service and serviceability of the trucks. From the response to the trucks supplied his trucks have won the unreserved approval of the owner and dealer. In five years all results attained show us that we have been on the right track. The war, too, helped to prove to the truth what we already knew, that Paige trucks would stand the gaff. They are made to stand rough usage—more than the average truck will ever be called upon to perform. The different models we are now putting out are the logical outgrowth of this constructive

experience and every little detail has been considered. The number of trucks that we have put on the market, more than have been built by three well known makes, I could mention, are the best argument that the Paige engineers know what they are building. Trucks are sold and a different make than passenger cars, we can't show a customer how slowly she will take a hill on high or through down to traffic or how many cigarette lighters and flower holders we have, but we can show them how well the truck will handle a load, how much it will do and how small a bill of upkeep is facing the owner.

That new Essex cars were delivered last week to Mr. Graver and Mr. Kendall of the Graver Tank Works.

That Mr. Bockin of Indiana Harbor is driving a new Hudson 7-passenger, delivered Saturday.

That Emil Huff is in charge of our service station.

That 6000 miles in 50 hours is the record made by the Essex stock car that still stands.

That you have yet to see a used Essex for sale by a dealer in the Chicago region.

That Dort cars at \$1100 are worth the money.

That Mr. Murray is driving a new Essex touring, delivered Friday.

That our telephone number is 88.

That we are THE SOUTH SHORE AUTO CO. Hammond — Gary — Valparaiso

Philadelphia has twenty regular motor truck routes radiating out of the city and more than 1000 truck operators actively engaged in the business.

In Western Canada, motor vehicles were a necessity seven years ago. Today there are forty-nine passenger cars, sixteen motor trucks and six motorcycles.

Appropriation for an additional \$100,000,000 a year for the next four years for road building was recently announced in a bill introduced by Senator Cham

berlain, Oregon.

For the production of fabric, one of the large automobile tire manufacturing companies in the United States, has an extensive cotton plantation in the southern part of California.

GOODYEAR'S INCOME TAX

These Goodyear's are attached to a smiling face when he contemplates income tax returns from the Goodyear

Tire & Rubber Company.

Statistics collected by the legal department of the company show that more than 13,000 men and women workers will pay an amount totaling twenty thousands.

There are 60 per cent more income tax payers in the company than in 1919—the average tax paid being estimated at \$75.

The lowest income tax paid by any Goodyearite is six cents—the highest amount, \$15 a year, but averaging in the company.
