CHIEF GETS GOLD STAR

As a token of their confidence, the officers of the East Chicago and Indiana police force yesterday presented Chief Ed. O'Donnell with a gold star badge in the honor of which he set a large white diamond.

O'Donnell first exercised the authority of chief during the steel strike last fall when he acted in place of Thomas J. Williams who was sick. At that time he received much favorable comment, both locally and from the state authorities with whom he dealt, so that upon the resignation of Chief Williams a few months ago, Mayor McCormack announced that O'Donnell would be his successor.

Since his appointment Chief O'Donnell has won the confidence of the entire force and the presentation of the star badge as a mark of appreciation of the good understanding which has been reached between the chief and his subordinates.

WOMEN ARE INVITED

The weekly Wednesday noon luncheons of the East Chicago Chamber of Commerce, according to a decision reached by the directors of the organization, will be thrown open to all women and a special invitation will be extended to the civic department of the Woman's Club.

This marks the opening of a program of the Chamber of Commerce to create more interest in civic affairs among the women of the city and especially to give the women who have no chance to vote. It is hoped by the officers of the organization that the attendance of women will soon equal that of the men and that they may come to take an active part in Chamber of Commerce activities.

CIVIC CLUB DISCUSSION

The Indiana Harbor Civic Club which planned to discuss the question of a sanitary district at a meeting in the club rooms tomorrow night has postponed the meeting until the following week because of the entertainment being given by the Tri Kappa girls on Wednesday evening. STILL OBJECT TO INCREASE

The East Chicago Board of Works yesterday received a petition of the Hammond, Whiting and East Chicago street car company from the Public Service Commission for an increase of fare from five to seven cents. The matter was referred to the city attorney who will represent the city at the hearing before the Public Service Commission. It is understood that the city will object to any increase in fare unless the company makes some concessions in the way of better service or extension to the present system. A resolution was passed for payment of Grapevine street in Indiana Harbor from Michigan avenue to 139th street. It was decided to advertise for bids on collection of garbage and the Northern Indiana Gas and Electric company was instructed to place an arc light at the corner of 142nd st. and Hennick.

THEY WERE TOO SLOW

Sergeant Nick Makar of the Indiana Harbor police station almost lost a suit of clothes yesterday when three Mexicans who entered the Docks tailor shop on Elm street took four yards of cloth which Makar had just left to be made into a suit. Two of the men talked to Anna Dossa while a third took the cloth but Anna caught the reflection in the mirror and grabbed the cloth just as the Mexican passed through the door.

The Effects of Strikes

One of the effects of strikes is that it sometimes throws out of work men not directly involved in the strike, perhaps men in another city—just as this railway strike is doing.

When work slows down for the time being there is nothing like having a kept up savings account. Not that it has to be drawn upon, but it gives a feeling of security and confidence that can't be described in writing. There's money in the bank for you if you really need it.

A savings account that is added to regularly each pay day is always a friend in time of emergency. Are you building up a savings account?

But the relations between the officers and the business men do not stop at the mere functions of banking. The officers of this bank take a sympathetic and helpful interest in the business affairs of its mercantile patrons.

This is a SUCCESSFUL bank. And one of the pleasures of conducting this bank is the knowledge that so many business men have succeeded with it.
