

BOB BLAIR BACK WITH NEW PLANE

Lieut. Bob Blair, former Army aviator, is back in Hammond with a powerful new plane which he expects to use in hauling passengers for several days. The machine which measures forty-five feet from tip to tip of its wings, is a 200-horse-power L. W. F. capable of hauling three passengers and can make over 100 miles per hour.

The machine was unloaded at the Norman farm at 1433 and Sheffield this morning and Blair is busy today setting it up and preparing for flights tomorrow. He has his name painted across the tail in letters large enough that they may be read from the ground.

E. N. Bunnell, Hammond's prominent air enthusiast, is booked for the first passenger tomorrow and already a number of others have signed up for trips.

BRITISH CALMING WAR FEVER

By EARLE C. REEVES
[STAFF CORRESPONDENT, N. SERVICE]
LONDON, Aug. 13.—Great Britain continues friendly relations with the Russian soviet government in an effort to prevent Europe from being engulfed in a new conflagration of war, despite the decision of France to throw her military aid to the anti-Bolshevik government in Southern Russia.

The Daily Express revealed today that the British government has advised Poland to accept the Russian peace terms when the Russo-Polish parley opens at Minsk, presumably tomorrow, if the conditions are reasonable and beneficial.

Great Britain, according to the Daily Express, has warned Poland that it is impossible for her to declare war on Russia to obtain better terms than those which the soviet government has intimated it will offer.

Great Britain and France are split wide apart on Poland according to all indications. France is advising Poland to continue the war against Russia, and French officers are said to be virtually in control of the Polish army.

Premier Lloyd George, whose chief efforts are directed toward steering the British ship of state away from the reefs of war, is getting the solid support of labor.

"The action of labor has kept Great Britain from the slippery slope of a new Europe conflict, but the dangers have been renewed by the chauvinistic French government and the dollar-making instincts of the American government," declared William Adamson, a Laborite member of the house of commons.

Adamson evidently referred to the American note which said that the U. S. would not recognize the soviet government.

The Daily News quotes an unnamed diplomat as declaring that the withdrawal of France from Anglo-French unity on the Russo-Polish situation, will substantially accelerate trade negotiations between Great Britain and Soviet Russia.

The Daily News says there is every prospect of a satisfactory Anglo-Russian settlement soon.

"It is adoption is as certain as the recurrence of the seasons," the report says of the nineteenth amendment, that speaks of the fact that both democratic and republican platforms urge ratification and all legislators belong to one of the two parties.

BRITISH LABOR SET AGAINST WAR

INTERNATIONAL NEWS SERVICE
LONDON, Aug. 13.—British organized labor made it unmistakably plain today that it will oppose by "direct action" war on the Bolshevik or a blockade of soviet Russia.

At a histerously enthusiastic meeting of the Labor party a resolution, adopted by acclamation, announcing labor's determination to force the withdrawal of all British troops from Russia, declaring unequivocal opposition to British support of Gen. Wrangel, whose anti-soviet regime in the Crimea has been officially recognized by the French government and urging immediate recognition of the Moscow government.

Speeches violently denouncing the French government for her "imperialistic policy were widely applauded and when the resolution had been read all delegates jumped to their feet and for a full minute chanted "Aye, aye."

Adoption was followed by singing of

"The Red flag" the Russian revolutionary hymn.

"England has too long dragged behind the tail of France whose imperialism permeated the Versailles treaty," said J. H. Thomas, secretary of the Union of Railway men, in an impassioned speech which was interrupted by stormy ovations.

The resolution, which for the first time puts British labor on record as presenting an absolutely united front in an international league, empowers the "Council of action" to take every possible step to prevent war with Russia. It is common knowledge that this means a general strike in the event that Premier Lloyd George should eventually yield to France's pressure and join in the support of Gen. Wrangel.

INTERNATIONAL NEWS SERVICE
WARSAW, Aug. 12.—Via London, Aug. 12.—A violent battle on which the fate of Warsaw depends is raging over a 100-mile front northwest and north of this city. Terrific hand to hand fighting is in progress.

The Poles are retreating along the left flank.

A state of siege has been proclaimed in Warsaw.

The Russians are reported to have captured Putusk, 26 miles north of Warsaw.
