

ARISTO CLUB SHOWS ACTIVITY AT HARBOR

The Aristo club at its last meeting went on record to give a benefit dance for a brother member, namely, Steven A. Lott, one of the organizers of this organization.

Mr. Lott at the present time is confined to the St. Luke's Home at Phoenix, Ariz.

Steven Lott was a very popular young man in the Twin Cities. He was employed at the Inland Steel works, and very active in athletics.

It was during baseball practice that he contracted a cold which developed into tuberculosis. At the time of the Olympic meet he was to have had a chance in the finals, but misfortune overtook him.

About four months ago when this happened he was sent to a ranch in Texas, he gained over 35 pounds and then was told he was cured. He was then sent home and after being home for a few weeks he again took sick with T. B.

He was then sent to Denver, Colo., their they gave up hope for him and as a last resort recommended St. Luke's Home, Phoenix, Ariz.

Last week a letter was received by this organization that he has been confined to bed for the last two months and has gained eight pounds.

The receipts of the dance will be forwarded to Mr. Lott. The dance will be held at the Masonic Temple, East Chicago, on the 5th day of January, 1921. This will be a novelty serpentine and confetti dance.

Johnston's orchestra, as a tribute to Steven Lott, will render their services without pay. All members of the orchestra are also members of the Aristo club.

ACTIVITIES OF ARISTO CLUB

The Aristo club baseball committee interviewed the park board about a baseball diamond at the new park on Alder street and the board promised one this summer. Donations made by members of the club will be mailed to Carmolite orphanage and Herald and Examiner fund. Entertainment committees are making preparations for a sleigh ride party for New Year's eve.

CORN SALAD.

Cut cold boiled corn from cob, carefully removing all shreds of silk. Line a salad bowl with small white leaves from heart of lettuce and heap corn in center. Pour mayonnaise over the whole, being sure to have plenty of it. The toothsome-ness of corn for salad is just becoming known. It is much better eaten alone with mayonnaise than mixed with other vegetables.

SOUR CREAM SALAD DRESSING.

Beat half a cupful of sour cream till stiff, color with paprika and flavor well with tarragon vinegar, salt, sugar and cayenne pepper. Beat thoroughly with a fork. This dressing is liked by salad eaters who do not like oil.

CURRY OF TOMATO

3 fresh tomatoes
1 tablespoonful each of onion and green pepper
2 tablespoonfuls celery, salt, pepper, paprika
2 tablespoonfuls butter
1 tablespoonful flour
1/2 teaspoonful of curry powder
1/3 cupful evaporated milk
1/3 cupful of water
Melt the butter in a saucepan, add the minced onion, green pepper and celery chopped together. Allow to cook slowly for about seven minutes. Take three fresh tomatoes and cut them in half. Roll in flour dust with salt, pepper and paprika, and cook in the sauce about fifteen minutes, remove and place on squares of toast. To the sauce, add flour and curry powder rubbed to a paste with the evaporated milk and water mixed. Allow to boil two minutes, then pour over the tomatoes on the toast and serve.

CORN AND EGGS FOR BREAKFAST

Take one or two left over ears of corn, cut off all kernels, mix with two well beaten eggs, season and cook in butter as you do scrambled eggs. Serve with toast and crisp bacon.

CORN FLAKE MACAROONS

Take two cupfuls of corn flakes, 1/2 cupful sugar, four tablespoonfuls coconut, whites of two eggs beaten stiff, four tablespoonfuls vanilla, four tablespoonfuls of salt. Mix and drop on cookie sheet from teaspoon. Bake in a hot oven for about ten minutes.

An elegant gift would be one of these rich heavy pile silk Push Coats, prices range from

\$22.50 UP TO \$50.00

Efficiency at the Throttle

THE automobilist appreciates good gasoline most when he steps on the throttle and notes the efficiency in performance of his engine—blueprint efficiency alone means little to him.

Knowing this, the Standard Oil Company (Indiana) has devoted much of its energy to the development of a motor gasoline which not only stands the grueling test of research laboratories, but which has proved its efficiency in thousands of cars operated under every-day road and weather conditions.

The Company has studied the needs of the motorist at first hand, and has developed Red Crown, its motor gasoline, to a point where it meets exactly the needs of the automobile engine operating under conditions obtaining in the Middle West.

The efficiency of Red Crown symbolizes the spirit which animates the Company as a whole in its endeavor to render an intelligent, efficient service to the public generally.

The tremendous increase in the number of automobiles and trucks from 1,253,000 in 1914 to 7,459,507 in August, 1920, has made more apparent than ever the absolute necessity of a comprehensive, dependable system of distribution.

The development of such a system has changed from something merely desirable to something vitally necessary. The best gasoline in the world is useless if you cannot get it when you want it.

Every step from refining to final delivery is of such importance to the Standard Oil Company (Indiana) that its interest never abates until its gasoline is delivering maximum motor mileage; until its lubricating oils are helping do the work of the world to the satisfaction of the ultimate consumer.

The greatly increased yield of gasoline which this Company has been able to recover from the crude obtainable has been accomplished without sacrifice of quality.

Red Crown and Polarine performance are the best proofs of Standard Oil Company (Indiana) service.
