CHANGES IN LAWS

LEAGUE OF IOWA MUNICIPALITIES ASKS FOR SPECIAL LEGISLATION.

New Authority Asked for Cities and Towns in Regard to Public Improvements and for Taxation Levies - Several Resolutions Adopted.

The enactment of many laws by the state legislature are called for in a number of resolutions, which were adopted at the recent meeting of the League of Iowa Municipalities at Waterloo. Among the resolutions is one favoring an appropriation for good roads investigation and another for a reformation of the laws in regard to taxation levies by cities and towns. The following were among the resolutions adopted:

Good Roads Investigation.
"Whereas, The Iowa League of Municipalities, recognizing the vital importance of the construction of permanent roadways, pavements and of other municipal improvements, and utilities in the state of Iowa, and of improved methods in constructing and maintaining such roadways, pavements and other municipal improvements and utilities, deems it advisable and necessary that ample and detailed information regarding all proper municipal activities be secured and made available to the cities and towns of Iowa. Now therefore, be it

Resolved, That the governor and trustees of our state educational institutions be and are hereby respectfully petitioned and requested to secure and publish in bulletin, or such other form as may be deemed proper, the information called for herein. Be it further

Resolved, That the general assembly of the state of Iowa be and is hereby petitioned to place at the disposal of such state educational institutions such an amount of money as will be necessary to make such investigation of practical value and assistance to the municipalities of Iowa.

To Help Cities of Second Class.
"Resolved That the general assembly of the state of Iowa, be and is hereby respectfully petitioned as follows:

"First-To extend to cities of the second class all of the provisions of chapter 5 to the code of Iowa, granting authority to cities of the first class power to purchase, erect, extend and improve municipal waterworks plants and facilities.

"Second-To extend to incorporated towns all of the provisions of chapter 7 of the code of Iowa, granting to cities of the first and second class power to construct sanitary sewers and assess the cost of the same to real property abutting on, adjacent to or benefited by the construction of such sewers.

"Third-To specifically grant to cities and towns, including cities acting under special charter, power to construct and maintain sewerage and garbage disposal plants and to condemn land upon which to construct such plants.

"Fourth-That cities and towns be given power to levy and collect special taxes for the purpose of constructing city buildings.

"Fifth-That cities and towns be empowered to create street improvement districts.

"Sixth-That counties be required to employ counsel necessary for the resistance of all contested appeals from assessments by boards of review, and to pay from the county treasury all expenses incident to such employment.

"Seventh-That cities of the second class be given authority to compensate their public utility companies at a rate not exceeding \$2 for each council meeting, and not exceeding a total of \$100 per annum.

"Eighth-To provide by proper legislation for a system of uniform accounting by all cities and towns, and for the annual examination of the accounts of all cities and towns by the auditor of state.

"Ninth-To provide by proper legislation that the cost of permanent sidewalks, constructed by any municipality may be paid for in installments, and that special assessment certificates, payable in five annual installments, and bearing not more than 6 per cent interest, may be issued, chargeable to and payable by the property so improved and benefited."

Want Elkins Law Amended.
The resolutions further thank the men who read papers before the league, and the people of Waterloo for their hospitality and congratulate Waterloo people upon the magnificent development of the city.

The mayors of the state in their respective cities.

CHANGES IN LAWS

intions call upon congress to amend the Elkins law by defining what, under its provisions, shall be determined as a discriminative act or unreasonable, and that the determination thus made shall be immediately operative until overruled by the courts.

SUDDEN DEATH.
Twelve-Year-Old Son of Mr. and Mrs. W. S. Goodwin Killed by Cars.

While attempting to board a moving train in the Morrell stockyards, Saturday, Guy, the 12-year-old son of Mr. and Mrs. W. S. Goodwin, 408 Mabel street, missed his hold, fell beside the track and was struck and instantly killed by the oil box on the car following. The child had been playing on the unloading platform in the stockyards and the train was being switched past the platform when the accident occurred. There were no eye-witnesses to the accident but the remains of the unfortunate child were seen lying beside the track by Mrs. John H. Kleintz, 414 South Walnut street, who was passing through the yards. The body was taken to the undertaking parlors of S. A. Crowley on West Main street. The coroner's inquest will be held Monday morning.

Body is Found.
The train crew did not know of the accident until after the body had been found. Engineer J. Jacobson was in charge of the Morrell engine, which was pushing two cars and pulling three. From all information that could be obtained the child grasped the side bars of the car immediately behind the engine and not being able to hold on, fell to the ground, where he was struck by the oil box of the car following and killed. When found, the left side of the head was badly mangled and the body was yet warm. Mrs. Kleintz was walking up the tracks toward the Morrell plant, when she came upon the body. She immediately screamed and attracted the attention of several of the employees of the plant, who were at work nearby. By this time, however, life had left the body of the unfortunate.

Mother is Grief Stricken.
The young man's father is in the employ of the Burlington and is now stationed with the pile driving crew at Mt. Pleasant. He has not yet heard of the fatality. Mrs. Goodwin, the mother of the child, is grief stricken. She has the sincere sympathy of the community in her bereavement.

Gets \$100,000 a Year.
Because he has a keen, clear brain in a vigorous body, Electric Betteffers give both, and satisfy or no pay. Try them. 50c. F. B. Clark.

TODAY'S MARKETS.
Daily Stock and Bond Market.
Furnished by W. E. Pillay, broker, rooms 18 and 19, Leighton building, Ottumwa, correspondent of the Donovan Commission Co., of St. Louis.

NEW YORK STOCK MARKET.
Gratifying strength has been manifested by the market during the forenoon session, and nearly every stock on the last session advanced in price over the opening figures. The undertone in the market is noticeably stronger and some of the buying today has been very good. The strength of A. C. T. has been the feature and it served to help the rest of the list materially. Missouri Pacific acted well and B. & O. made good gains. The industrials in the steel showing a very good tone. The minor steel and iron stocks have been well held. There has been nothing in the news this morning to emphasize local conditions.

WHOLESALE PRICES.
