

CHARLES RAY PARKER

S U C C E S S ?

Callender, Iowa, June 11, 1907.

Chas. R. Parker, D. C.,

Dear Doctor and Friend:

My success has been good and I have had plenty to do. I adjusted one hundred people in three days. Rain, bad roads, etc., prevented people from coming in great numbers.

He who can reduce displaced structure allowing nature's forces to bring about such great changes in the body, is second only to him who is instrumental in bringing salvation and happiness to the human soul.

With regards,

T. G. OPSAHL.

Callender, Iowa, April 8, 1907.

Chas. Ray Parker, D. C.,

My Dear Sir and Friend:

It may be interesting for you to publish a record of one of your graduates. Monday evening I had only sixteen people to adjust, Tuesday I adjusted eighty, Wednesday one hundred and twenty-two, Thursday one hundred and forty-seven. Friday before ten o'clock in the forenoon, I adjusted thirty-five. People came in from five towns and from a territory of somewhat fifteen or twenty square miles. Would like to know if one hundred and forty seven in one day is not a record breaker?

Cordially,

T. G. OPSAHL,

OKLAHOMA CITY, OKLA., MAY 23, 1907.

Dr. and Mrs. Parker,

Ottumwa, Iowa,

Esteemed Friends:—

We are doing a nice business. In eight days we added twenty-five new patients, and three students for Dr. Carver's college. We adjust between fifty and sixty a day.

I received a letter from Rev. Opsahl and am glad he is doing so well, but I am adjusting enough people to satisfy me. I am,

Yours Very Truly,

L. L. DENNY.

DIDSBURY, ALTA., CANADA.

rs. Parker,

Dear Friends:—

I have been very successful with my patients. I am adjusting fourteen a day, some of them being the most prominent people here.

Yes, Carver and Denny are certainly doing business but Rev. Opsahl has surprised me most.

Your friend in Chiropractic,

H. E. HANSEN, D. C.

By obtaining a knowlege of this Science as taught in the Parker School of Chiropractic, you may become as successful as the above graduates. H. E. Hansen, D. C., charges ten dollars per week straight, for adjustment. The usual charge |special cases excepted| is ten dollars for the first week and five dollars per week thereafter. I have herein eliminated figures, allowing you to make your own calculation of the work the Parker students are doing. In this way you can see if your present income is equal to theirs.

Would you not like an income that is nearly all profit, at the same time being able to more than satisfy "the other fellow"?

The greatest opportunity of your life has arrived to better your condition. It will cost you nothing to investigate Chiropractic and upon so doing, you will find that its merit exceeds our claim for it.

Call on us at the Baker Building, third floor, Ottumwa, Iowa. Office hours 3:00 to 7:00 p. m., Sundays included, and 1:30 to 10:00 p. m. Saturdays.

Interesting Literature FREE.

PARKER SCHOOL OF CHIROPRACTIC
