FEAR GRIMSLEY HAS SUICIDED

RELATIVES OF MURDERER BELIEVE HE HAS JUMPED INTO DES MOINES RIVER.

Relatives of Bruce Grimsley, who shot and killed Weede Albertson near the Curran ice house on West Mechanic street early Saturday night, express the belief that Grimsley has committed suicide by jumping into the Des Moines river. The father of the murderer says that the lad was always weak, being subject to hemorrhages and they fear that he has ended his own life during one of these periods. Although Chief Gallagher and his patrolmen have instituted a thorough search for the murderer in the city, he is still at large. The officers believe that the young man has left the city. They take no stock in the suicide theory.

Chief Gallagher and Officer Smith searched the Grimsley residence and the homes of other relatives last night but their search was fruitless. The relatives of the murderer are greatly worried, declare that they know nothing of his whereabouts and if they did they would induce him to surrender to the police.

From the information gleaned by Chief Gallagher from relatives Grimsley has been weak ever since his birth. On account of his sickly condition he never did much work, his parents keeping and taking care of him. It is thought by the father that it was during one of these spells that the lad committed the murder.

Those who have delved into the facts surrounding the murder state that if the murderer had surrendered himself to the police after he had committed the felony, claiming self-defense, and his weak condition, he would have sufficient ground to be cleared from the charge, which if proven may mean a life sentence in the penitentiary.

Chief Gallagher has been in communication with officers in other cities and a good description of the man has been given.

KEOTA LADY HAS VALUABLE VIOLIN

MISS CLARA STEWART OWNS ANCIENT INSTRUMENT SAID TO BE WORTH \$10,000.

Iowa City, March 29.—Miss Clara Stewart, of Keota, Iowa, has an ancient violin, valued at \$10,000. Miss Stewart, whose instrument was submitted to Fritz Kreisler, the famous violinist, during his visit in Iowa City, was so informed by the great virtuoso. He stated that there were only half a dozen of its kind in existence. Miss Stewart received the instrument as a gift from her brother, who purchased it of a Chicago widow, whose husband had long treasured the violin, but who placed it on the market when her poverty compelled her to part with it. Buyer and seller were ignorant of its really remarkable value when the deal was consummated during Mr. Stewart's visit in Chicago.

The membership committee believes that it will be possible to increase the membership to fully 400.

James T. Pound, who is chairman of the entertainment committee, which has charge of the arrangements for the banquet when the club members will get together for the first time since the club's organization, is making an effort to secure an out-of-town speaker to deliver the principal address at the banquet. He said that he had been able to secure a speaker as yet, but that he would have one engaged before a great while. The date for the banquet has not yet been fixed.

GETS 75 CENTS FOR HIS CORN.

William Van Orsdel of Near Malvern Produced Sixty Bushels to the Acre.

Malvern, Ia., March 29.—Some of the finest corn that has been shipped out of here this year was a car load of ear corn hauled in this week by Wm. Van Orsdel from west of town. It was sold to an Osceola man per bushel straight through. It was a yellow dent variety and raised by Mr. Van Orsdel for a number of years past and the last year produced sixty-five bushels per acre on ground that had been farmed for forty-five years, which goes to show that Mills county soil does not wear out if it is handled right. The corn was picked last fall before the rainy season set in and was perfectly dry, so will make good seed. It was what the Osceola man bought it for. Mr. Van Orsdel also sold a bushel of hogs last week for ten cents per pound. Seventy-five cent corn and 10-cent hogs ought to make any farmer prosper.

The two young ladies will go to Kansas City with their uncle as soon as possible. They feel that they will be the more quickly recovered from their great burden of sorrow if they are so located that everything about them will not tend to remind them constantly of the death of their parents and two sisters.

THEME FOR DRAMA WHITE PLAGUE

HORRORS OF THE DISEASE WILL BE DEPICTED, HOWEVER.

Des Moines, March 29.—A tuberculosis drama to be staged in many towns and cities of Iowa, is the latest move by Dr. A. E. Keford in the educational campaign being made for the eradication of the great white plague from the state. The drama is being written by Prof. W. E. Jones of the Iowa State University. It will deal more with the problems connected with the disease than with the disease itself. The idea is to tell in the form of a play, the story of how these tuberculosis problems may be worked out. It will be a strictly problem play, like the "Witching Hour" or "The Thief," the object of the play being to suggest methods of combating the disease.

The horrors of the disease will not be depicted, as those who are backing the movement believe that a play of this character should deal with the problems incident to the disease and not with the horrors of the disease itself.

The American Surety company is named as a defendant in each suit.

CHARITON. The corn special run by the C. B. & Q. arrived at Chariton Friday evening and spent the night here. A lecture was given in the court room by Prof. M. L. Bowman. This corn was used in the lecture and in the morning and it is hoped that much good will result from the lecture.

WILL BE 80 MARCH 17, 1911.

CARETAKER OF U. OF I. ATHLETIC FIELD WILL BE GUEST NEXT ST. PATRICK'S DAY.

Iowa City, March 29.—"Jimmie" the caretaker of the University of Iowa athletic field, will complete his sixtieth year of service here next St. Patrick's day and the students in the college of applied science are planning to honor him in their annual celebration of the day.

Jimmie Barry will be 80 years old on March 17, 1911. He started in the employ of the State university on his twentieth birthday and he has missed few days of service since.

As one of the most unique characters in the institution, Jimmie is respected by the students and revered by the athletes. He is jealous of the powers invested in him regarding the care and guarding of Iowa field and the small boys are fearful of "Jimmie's" big stick, which he wields with dexterity despite his seventy-nine years.

Two summers ago "Jimmie" accomplished the peculiar feat of keeping the grass on the gridiron of Iowa field down by cutting it with a hand mower. More credit was given him because it was a wet summer, "Jimmie" insisted that no horse be let on the field because the hoof prints would make it rough for the fall football practice.

OBITUARY. Marion Smith was born near Libertyville, Ia., July 21st, 1846. When eighteen years of age he went west where he engaged in mining and cutting for a period of twelve years. Returning to Iowa in 1870, he was engaged for a period of four years in buying and driving cattle across country to market in Colorado. At the close of this period he bought a farm and settled down near Dalongena in Wapello county. About this time he joined both the orders of the Masons and of the Odd Fellows.

On November 27, 1878 he was united in marriage with Nancy A. House to which union was born one son who died in infancy. Mrs. Smith departed this life June 21, 1908. On November 28, 1908 he was again united in marriage with Carrie Lander who survives him.

About 1881 he came to Kirksville, where he has since resided and where he died after a prolonged illness on May 21st, 1910. Mr. Smith was a man who has been especially honored and trusted by his fellows, as an evidence of which is the fact that he had been a civil officer of one kind or another almost continuously since before he was twenty-one years of age, having filled the office of justice of the peace in Colorado before he was of age. He filled the office of constable for a number of years and for about eighteen years and was on the second year of his second term as justice of the peace at the time of his death.

S.S.S. FOR BAD BLOOD. UNEQUALED. Normal, healthy blood contains millions of tiny red corpuscles, which are the vitalizing and nourishing element of the circulation. These corpuscles are constantly forming in healthy systems by the extraction of nutriment from food eaten, and this nutriment is then supplied through the circulation to every portion of the system. Any system which does not receive the proper amount of blood nourishment is not prepared to withstand the countless disorders that assail it. Bad blood can not nourish the body, the circulation must be pure, rich and strong if we would enjoy good health. Bad blood manifests itself in various ways. With some it takes the form of skin diseases and eruptions, others become bilious and malarious, with sallow complexion, Catarrhs, Sores and Ulcers, and like troubles. Nothing equals S. S. S. for bad blood. It is Nature's own blood purifier, made from roots, herbs and barks. It goes into the circulation and removes every impurity or poison, strengthens and enriches the blood, and in this way supplies the body with the proper amount of nourishment to maintain good health. S. S. S. is likewise the finest of all tonics and while purifying the blood builds up every portion of the system. S. S. S. cures every ailment coming from bad blood, and it does so simply because it purifies the circulation. Book on the blood sent free to all who write. THE SWIFT SPECIFIC CO., ATLANTA, GA.
