IOWAN'S BILL CALLS FOR NEW TARIFF BOARD

REPRESENTATIVE GOOD INTRODUCES MEASURE FOLLOWING DEFEAT OF APPROPRIATION ITEM IN HOUSE BILL.

NAVAL BILL CARRIES A BIG EXPENDITURE

TWO BATTLESHIPS AND OTHER ITEMS IN MEASURE WILL COST \$134,000,000; DEPEW REFERS TO PAST HISTORY.

Washington, D. C., May 24.—(Special.)—Representative Good of Iowa today introduced a bill calling for the appointment of a tariff commission. The bill is designed to overcome the obstacles which have confronted President Taft in his endeavor to make the present tariff board an effective working organization. Mr. Good's bill provides that the commission shall consist of five members to be paid \$7,500 a year, appointed by the president, with the consent of the senate. It provides that no member of the commission shall be interested directly or indirectly in the manufacture or sale of any articles hit by the tariff.

Appropriation is Downed.
After an extended debate, the proposed \$250,000 appropriation to defray the expenses of the tariff board, which was recommended by the president, was stricken from the sundry civil appropriation bill in the house late yesterday afternoon. Mann of Illinois, who was in the chair, sustained the point of order made by Fitzgerald of New York who contended that there is no law authorizing such appropriations.

Tawney then proposed an amendment appropriating \$250,000 for practically the same purpose, providing a fund so that the president could give congress "certain information" and by leaving out the reference to the tariff board he hoped that the amendment would come within the house rules. Fitzgerald promptly made a point of order against it.

In the house today the proposition to appropriate \$250,000 to permit the president to obtain information bearing on the tariff was ruled out of order by Representative Mann of Illinois, who was in the chair.

The naval appropriation bill, passed yesterday afternoon, carries an appropriation of \$134,000,000.

One of them, offered by Senator Johnston, appropriates \$450,000 for the purchase of torpedo boats, "whose vitals are below the normal load line;" the other by Senator Jones, eliminates railroad, county and municipal bonds from the securities which may be deposited for the fiscal year ending June 30, 1911, provided by the bill, is as follows:

Two first class battleships to cost not exceeding \$6,000,000 each, and when equipped with armor and armament about \$12,500,000 each.

Two fleet colliders to cost not exceeding \$1,000,000 each.

Five submarine torpedo boats not exceeding a total cost of \$2,500,000.

Six torpedo boat destroyers to cost not exceeding \$750,000 each.

Depew Gives Historic Secrets.
The closing hour of the debate served to elicit two important historical revelations by Senator Depew, which were given from his own store of information. One of them bore on the war with Spain and the other on the Venezuelan embargo with Great Britain during the second administration of Cleveland.

The statement regarding the Spanish war was elicited by an assertion by Senator Heyburn that the people themselves did not want wars, but were compelled by their rulers to submit to them.

Mr. Depew said popular demand had forced the war with Spain and that President McKinley had been opposed to it. He said as favorable terms could have been obtained from Spain without us being obliged to war.

"Does not the senator believe that except for the pressure of that time, the president would have negotiated Spain off the American continent?" asked Mr. Hale.

"I do," responded the New York senator. "I know Spain was prepared to abandon Cuba and Porto Rico to prevent humiliation if it could be assured by the acceptance of the proposition."

He said President McKinley had not been strong enough personally to resist the popular will.

Says Salisbury Sought War.
Mr. Depew also related some history concerning the Venezuelan episode of the second Cleveland administration.

"An intimate friend of mine who also was an intimate friend of Lord Salisbury, the British prime minister," he said, "told me that when the president's message was promulgated Lord Salisbury said to him, 'I believe that on account of the rancor coming down from the revolution and accentuated by certain occurrences in the civil war, America means to have a war with Great Britain at some time, and I believe now is the best time, when America has no navy.' The view of the prime minister was overruled by Queen Victoria, but if Lord Salisbury had had the powers possessed by some of the English prime ministers

the issue certainly would have been tried out."

Cummins is Speaker.
Senator Cummins continued his speech on his amendment to the railroad bill, requiring increases in rates to have the approval of the interstate commerce commission before taking effect.

A compromise requiring the commission to pass on rates within six months was sprung in the senate this afternoon and found much favor.

An investigation was begun today at the request of Delegate Wickersham of Alaska, who enters charges against Governor Clark, ex-Governor Hoggatt and Louis Shackelford and seeks to connect them with the Guggenheim interests.

SEVENTEEN DIE AS STEAMERS CRASH IN FOG

GOODYEAR AND WOOD COLLIDE ON LAKE AND FORMER SINKS, DROWNING ALL BUT FIVE OF SOULS ON BOARD

Cleveland, O., May 24.—The steamers James B. Wood of the Gilchrist fleet, and Frank B. Goodyear of the Mitchell fleet, collided in a fog near Thunder bay last night. The Goodyear was sunk in forty-seven fathoms of water and seventeen of the crew are reported to be drowned. Captain Heminger and six of the crew were rescued by the Wood. The latter reached Port Huron with a six-foot hole in the bow. Both were steel vessels. The Wood was upbound and the Goodyear down.

Boats Collide in Fog.

Port Huron, Mich., May 24.—The collision of the Goodyear and the Wood occurred thirty-five miles north of Point Aux Barques at 5:30 Monday morning in a heavy fog. The Goodyear's captain and steward, the steward's mother and the wheelman were saved and brought to Port Huron on the Wood. Many of the Goodyear's crew were killed by falling hatches before they had a chance to jump into the water. All had life preservers when the vessel sank. The Goodyear's cook had his baby dashed from his arms by a falling hatch and the infant was lost.

All But Five Lose Lives.

When the steamers came together, the crew of the Goodyear, which was struck amidships had only time to seize life preservers and only a few could jump overboard before the boat began to fill. Suddenly the Goodyear parted in the center and sank out of sight, carrying with it all but five. The bow of the Wood was badly stove in, but it was kept afloat through efforts of the pumps. The Wood's life-boats were lowered and Captain Heminger, Steward Bassett and his wife; Frank Mollicke and George Grant were taken aboard. The Wood remained near the scene seven hours, but failing to find more of the Goodyear's crew, steamed for this port, arriving today.

One survivor says those aboard had no chance, the Goodyear sank so quick. He saw in the lake a woman with a child in arms and at the same instant one of the hatches struck the woman and both went down.

COMPARES LEE TO ARNOLD.

Placing of Lee Statue in Hall of Fame is Opposed by Illinois Veteran.

Freeport, Ill., May 24.—Investing against the placing of the statue of Gen. Robert E. Lee in the Hall of Fame in Washington, D. C., Col. Jasper T. Darling, past commander of Columbia post, G. A. R., of Chicago, last night addressed the initial camp fire of the forty-fourth state encampment of the Illinois G. A. R.

He compared Robert E. Lee to Benedict Arnold. The main portion of the address was in support of the contention that General Lee was not convinced of the justice of the cause for which he drew his sword and that he therefore could have no claim to the name of a patriot.

The speaker based his argument on a letter from General Lee to his son, Curtis Lee, the text of which he obtained from a publication by a southern historian.

Welsh surrendered to the police. He is guarded by a strong force owing to threats of vengeance made by Smith's friends.

S. S. S. CURES ECZEMA, ACNE, TETTER, ETC.

Eczema, Acne, Tetter, Salt Rheum, etc. are simply the ulceration of skin tissues, caused by humors and acids in the blood. The circulation has become infected with impurities which are being constantly deposited into the pores and glands of the cuticle, and a continual state of inflammation and irritation is thus kept up. Just as long as these humors and acids remain in the circulation the skin affection will continue. The trouble may be temporarily soothed and covered over with external applications, but such treatment does not make the blood any purer, and can therefore be of no permanent benefit. To cure any skin disease it is necessary to purify the blood—remove the cause. S. S. S. Cures Eczema, Acne, Tetter, Salt Rheum, pimples, eruptions, etc. because it is the greatest of all blood purifiers. It goes into the circulation and drives out every humor, acid or impurity. It cools the feverish blood and allows it to furnish the skin with healthy nourishment, instead of fiery, acrid deposits. S. S. S. is purely vegetable, mild and pleasant in its action, it does not cure skin disease by forcing all the impurity to the surface, but stimulates the excretory members to carry it off through the natural avenues. If you have any skin affection you can not do better than purify your blood with S. S. S. It will assist nature in quickly restoring the smooth, even texture of the cuticle, and the cure will be permanent and lasting. Book on Skin Diseases free to all who write.
